CLIMATE CHANGE ADAPTATION ACTIONS IN INDIA

Tuesday, 08 November 2016 (03.00 to 05.00 PM)

India Pavilion, COP 22, Marrakech, Morocco

Climate change is adversely impacting crucial sectors of economy in India including agriculture, water resources, natural ecosystems, health, sanitation, infrastructure, energy. Government of India has taken-up early steps for concerted approach for addressing climate challenge through development of policy framework in the form of creation of National and State Action Plans on Climate Change.

National Bank for Agriculture & Rural Development (NABARD) as an Accredited Entity for national and international funding mechanisms viz. Adaptation Fund, Green Climate Fund and National Adaptation Fund for Climate Change, is playing crucial role for adaptation action in India.

Side event at COP 22 on “Climate Change Adaptation Actions in India” hosted by NABARD would deliberate on current policy framework and priorities, learnings from project and programme implementation, barriers related to finance, technology, stakeholder engagement and scaling up. The eminent speakers represent important stakeholders for Adaptation Actions in India.
