Status of microfinance in India

DISCLAIMER

This Status of Microfinance in India report has been prepared based on the data compiled and collated by us as received from various reporting banks across the country. While due care has been taken to ensure the correctness and purity of the data, NABARD does not exercise any editorial control over the data reproduced here. NABARD is therefore not responsible for data inaccuracies, if any, reported in this publication.

"SHGs, Saving for the present, securing the future"

FOREWORD

Achieving balanced and inclusive economic growth is a key challenge faced by policy makers in countries around the world. Gains of economic growth are easily accessible to relatively advantaged, who find it easier to participate in the growth process while, poor people have to wait much longer to reap the benefits. Engaging these sections of society to mainstream economically is essential to achieve equitable growth, which is critical for the long-term sustainability of social development and economic prosperity.

Microfinance sector has responded to these challenges admirably in the last 20 years. NABARD is proud to say that the Self Help Group- Bank linkage programme, which is the largest microfinance programme in the world, today touches 101 million households through 7.9 million SHGs with thrift & deposits of about INR 1,36,914 million, annual loan offtake of INR 3,72,869 million and loan outstanding of nearly INR 5,71,192 million.

Despite these milestones, a large section of the poor population still remain unreached and even majority who are in the SHG fold face the issue of inadequate credit. Bridging the last mile gap and forging partnerships to meet the myriad needs of the poor and to ensure sustainable livelihoods to them are the biggest challenges being faced today. I exhort all stakeholders viz. the banks, the SHG Federations, the NGOs, the MFIs, the Government agencies to put their compassionate foot forward to bring together complementary resources to address complex development problems that no one agency can address alone.

During the year, NABARD and NRLM collaborated in a meaningful way to bring greater synergy in efforts and in taking SHG Bank linkage programme to a higher plane. NABARD revisited its policy and added selectively the NGO-MFIs as partners in SHG formation in priority states and also revised the handholding period for fresh projects to four years. During the year a new sustainable livelihood initiative viz. Livelihood Enterprise Development Programme (LEDP) has also been introduced. LEDP is a project based approach encompassing the complete value chain for offering end to end solutions to the SHG members in a cluster of villages.

Being a movement, implemented through various channel partners poses its own problems in publishing reliable data. NABARD had however, taken up this onerous task and is painstakingly collecting, collating and publishing the same as “Status of Microfinance in India” year after year. This document which has received accolades from policy makers, researchers as well as practitioners in the past will find it compelling this time also. I congratulate the entire team of Micro Credit Innovation Department (MCID) for bringing out such useful Year Book and it gives me great pleasure in placing this publication before you.

Dr. Harsh Kumar Bhanwala

Chairman, NABARD

(vi)	Cumulative grant assistance sanctioned to JLPIs for promotion of JLGs upto 31 March 2016		129.30

STATUS OF MICROFINANCE IN INDIA 2015-16

1. Introduction

1.1 Inadequacies in access to formal finance has led to the growth of microfinance in India. In India microfinance operates through two main channels viz. a) banking system through the SHGs under SHG-Bank Linkage Programme (SHG-BLP) and JLG bank lending programme and b) through Micro Finance Institutions (MFIs) lending through individual and group approach.

1.2 Microfinance Institutions in India emerged in the late 1980s in response to the gap in availability of banking services for the unserved and underserved rural population. Their business proliferated in 1990s under the open economy regime. Most of the institutions that entered the field were from the social sector and hence they took the legal form of trusts or Societies. However, not-for-profit status of those institutions started becoming a limitation for the sustainability and scalability forcing them to morph as MFIs with the business growth. However, due to specificity of the business they were pursuing, these institutions were then registered as NBFC-MFIs under the category created by RBI based on Malegam committee recommendations.

1.3 MFIs have evolved into a vibrant segment of financial sector exhibiting a variety of business models in recent years. Non adherence to rules and going overboard, by some MFIs, had brought a setback to the sector, albeit temporarily. But the sector regained its traction from 2012 onwards and is showing a consistent growth. Spate of policy actions to strengthen the regulation of MF sector, including RBI guidelines on NBFC-MFIs and inclusion of loans to MFIs by banks under priority sector had done a world of good for the sector. As a result, lending by MFIs exhibited a robust growth with 50% jump in loans disbursed consecutively during last three years from ₹ 23682 crore during 2013-14 to ₹ 37599 crore and further to ₹ 61860 crore during 2015-16 (as per MFIN data).

The success and outreach of MFIs, especially the large ones both in credit and financial penetration enabled them to obtain approval to operate as mainstream banks/ Small Finance banks which will facilitate lowering the cost of funds and also passing on the benefit to their clients.

1.4 Despite the positive trend being exhibited there is a lurking fear regarding overheating of the sector, multiple financing to the poor clients, poor financial literacy and some grey areas in regulation. Competition to secure and retain the clients by many MFIs both old and new may again lead to over indebtedness and the domino effect needs to be avoided at any cost.

1.5 SHG-BLP is rather uncharitably being compared by many with MFI led Micro finance programmes ignoring its contribution in terms of thrift & savings, handholding to inculcate financial literacy, provision of credit besides bringing community participation and building social capital etc. In the last four-five years, the buzz was that SHG-BLP had lost its focus and has been overshadowed by the MFI sector in the country, which is growing at a faster rate and more efficiently through corporate, regulatory, environmental, financial and technology support. While the growth of MFI sector has been phenomenal, driven mainly by corporate entities, the SHG Bank Linkage Program has also been growing steadily despite its slow growth in priority states, concerns regarding book keeping, quality of groups and diminishing attention of banks.

1.6 While discussing the contribution of SHG-BLP, unfortunately emphasis is laid more on financial aspects rather than the seminal social aspects of the SHG programme. We need to remember and continuously emphasize the fact that SHG is a tool for holistic empowerment of poor and not just a provider of credit or a conduit of financial inclusion. The thrust of the affinity Self Help Groups is on imbibing the ability among poor women to self-manage their finances, participation in decision making, assuming leadership role, collective action, learning the ropes of banking etc. To bring more and more poor women into SHG fold and also to realize the ultimate potential, rejuvenation of institutions for imparting training to stakeholders on various crucial aspects and also the capacity building for members is the need of the hour.

1.7 Efforts of NABARD during the year had paid off and can be seen in the turnaround made. It is heartening to share that green shoots are visible in all aspects of the movement as compared to last year. There was a net addition of 2.06 lakh SHGs during the year increasing the number of SHGs having savings linkage to 79.03 lakh as on 31 March 2016. During the year, banks disbursed loan of ₹ 37,287 crore, recording 35% increase over the last year. The savings outstanding of SHGs with banks as on 31 March 2016 has reached an all-time high of ₹ 13,691 crore. Assuming that about one-third of thrift of SHG is kept as savings with banks and rest used for internal lending, total thrift mobilized by SHGs may be to the tune of ₹ 41,000 crore. The total bank loan outstanding to SHGs increased by 10.8% and stood at ₹ 57,119 crore against ₹ 51,545 crore as on 31 March 2015. By including internal lending at two times of the savings lying with banks, total microcredit through SHG-BLP channel was of the order of ₹ 78,000 crore. With higher growth in SHG-BLP in priority states, there has been correction in the southern bias of SHG-BLP (Figure 4.2). The share of Southern Region in number of SHGs has declined from almost half (49.75%) in 2013-14 to 44.87% in 2015-16. The most heartening development during the year is improved repayment and reduced NPA in SHG-BLP. The gross NPA of bank loans to SHGs declined by about 100 basis points from 7.4% as on 31 March 2015 to 6.4% as on 31 March 2016. This was achieved in a year when there was overall deterioration in quality of assets and mounting NPAs in the banking sector.

2. What led to the positive story during the year?

The answer perhaps is the coordinated efforts by all the stake-holders. NABARD led the process through establishment of an Advisory Board under the chairmanship of DMD, NABARD and members drawn from various stake-holders including MoRD, DFS, Banks, Sa-Dhan, MCRIL, etc. to give focused direction to the movement. Secondly increased coordination between NABARD and NRLM during the year also led to improved focus on capacity building of bankers, SHG promoters and SHGs. Digitisation pilots implemented by NABARD in two districts have been successful in bringing back the interest of bankers in the movement. NABARD also introduced new livelihood framework i.e. Livelihood and Enterprise Development Programme (LEDP) during the year and the Centre for Microfinance Research (CMR) was made functional again at BIRD. Regular interaction among stake-holders through workshops, seminars and sensitisation of senior bankers as well as recognizing good performances in the SHG-BLP sector both at National and State level forums also led to better involvement of the stakeholders in the movement.

SHG-BLP Strategic Advisory Board

An "Expert Group on DFI for Women SHGs" was set up by MoRD, GoI under the Chairmanship of Smt. Usha Thorat, Ex-DG, RBI. To operationalize the recommendation of the Expert Group, a meeting of DFS, MoRD and NABARD officials was held on 19 February 2015 under the Chairmanship of Dr. Hasmukh Adhia, Secretary (FS), DFS. It was decided in the meeting that a separate institution for facilitating greater credit flow to Women SHG is not required as the related functions were already a part of NABARD's overall mandate and NABARD has been successfully performing the same. Accordingly, the alternative recommendation of the Expert Committee of carrying out these functions departmentally within NABARD with an Advisory Board to give a proper focus was approved for implementation. The members of the Board should consist of representatives of stake-holders including NRLM and MoRD.

Accordingly, NABARD has constituted the SHG-BLP Strategic Advisory Board under the Chairmanship of Deputy Managing Director, NABARD and other stake holders as members including representatives of DFS, NRLM, RBI, bankers and domain experts.

The Board will primarily focus on a strategic action plan on SHG-BLP, evolving quality standards, financial literacy, digitization of SHGs, livelihood promotion, creating proper eco-system for SHG-BLP and other functions facilitating greater credit flow to SHG.

First meeting of the Board was held during the year.

3. Way forward

3.1 It is needless to surmise that both the mF models will coexist in the country for a long time to come. While the MFI model reaches microcredit quickly and efficiently to the financially excluded, the SHG-BLP programme besides credit and savings provides wholesome social and economic justice to the excluded and deprived section of the society and has proven itself as an invaluable platform for inclusive growth.

3.2 As interest outgo undermines the ability of the poor client to earmark some funds for education, health etc., MFIs need to bring about more efficiency in their operations so as to lower the cost of delivery. They further need to introspect and orient themselves to more responsible finance - avoiding multiple financing, over indebtedness, reporting to Credit Bureaus, adherence to the code of conduct and increasing their reach to most excluded areas of the country. NABARD on its part would be supporting the sector through its existing product of refinance and would also consider coming out with an appropriate product for small and medium level MFIs.

3.3 Under the initiatives of PMJDY, during 2015-16, nearly 4.4 crore rural individuals got linked to banking by opening their savings account. Taking this forward there appears a need to map all SHG members to their individual SB accounts and Aadhaar numbers. NABARD through its digitisation pilot is attempting that. Digitisation is also attempting to update the SHG bookkeeping on real time basis to bring transparency and credibility. These efforts are required to be taken forward on a larger scale so that its benefits are well appreciated by all stakeholders.

3.4 The programme of coopting SHG members as agents/ BC of banks needs to be taken forward so that its advantages accrue to both the banks and also group members. Involvement of banks in the SHG programme is required to be recaptured through innovative BC/ agency models so that a lot of work of the branch managers can be outsourced to an external agent who is part of the group and lives in close proximity with them.

3.5 The issue of community support structures of SHGs in the form of SHG federations needs a relook. NABARD would be examining the policy support required for the development of second level institutions and would come out with a suitable consultation paper.

3.6 Potential for organising 43 lakh new SHGs was assessed in the Status of Microfinance in India 2014-15 and as per this assessment there still exists a potential for formation of nearly 37 lakh SHGs. Apart from formation of SHGs in priority States - identification of appropriate livelihoods, improvement of skills, mentoring, handholding and extending credit in larger doses through NABARD's LEDP interventions and NRLM's livelihood interventions should be the major plank of all development practitioners in the future.

Progress of project EShakti for Digitisation of SHGs.

Existence of a large number of institutions and multitude of schemes does not in itself lead poor to the desired deliverance. The poor and under privileged need to have unhindered access to credit at affordable price through cent per cent credit linkage of SHGs for mainstreaming the bottom of the pyramid.

Digitisation of Self Help Groups is a step towards achieving the avowed goals by facilitating the banks to take informed credit decisions on real time basis.

Continuing the initiatives which began during 2015 from Ramgarh (Jharkhand) and Dhule (Maharashtra) under Phase I, NABARD is moving to expand project EShakti for digitisation of SHGs under Phase II to another 22 districts across different geographies of the country. About 2.3 lakh SHGs touching the lives of around 35 lakh SHG members mostly impoverished rural women will be covered in this Phase.

Roll out in Phase II will be in Nalbari (Assam), Muzaffarpur (Bihar), Rajnandgaon (Chhattisgarh), Mehsana (Gujarat), Mandi (HP), Ambala (Haryana), Udhampur (J&K), Mysuru (Karnataka), Kasaragod (Kerala), Indore (MP), Wardha (Maharashtra), West Garo Hills (Meghalaya), Jagatsinghpur (Odisha), Bikaner (Rajasthan), Jhalawar (Rajasthan), West Tripura (Tripura), Barabanki (UP), Varanasi (UP), Dehradun (Uttarakhand), West Midnapur (West Bengal), Hazaribagh (Jharkhand) and UT of Puducherry. The digitisation of SHGs was kicked off from Ramgarh on 15 March 2015 and took momentum only in November 2015. The early benefits of the pilot which have started accruing to banks and SHGs are as under:

i. Advantage of the grading reports auto generated by the system was taken by many bank branches in Ramgarh and Dhule.

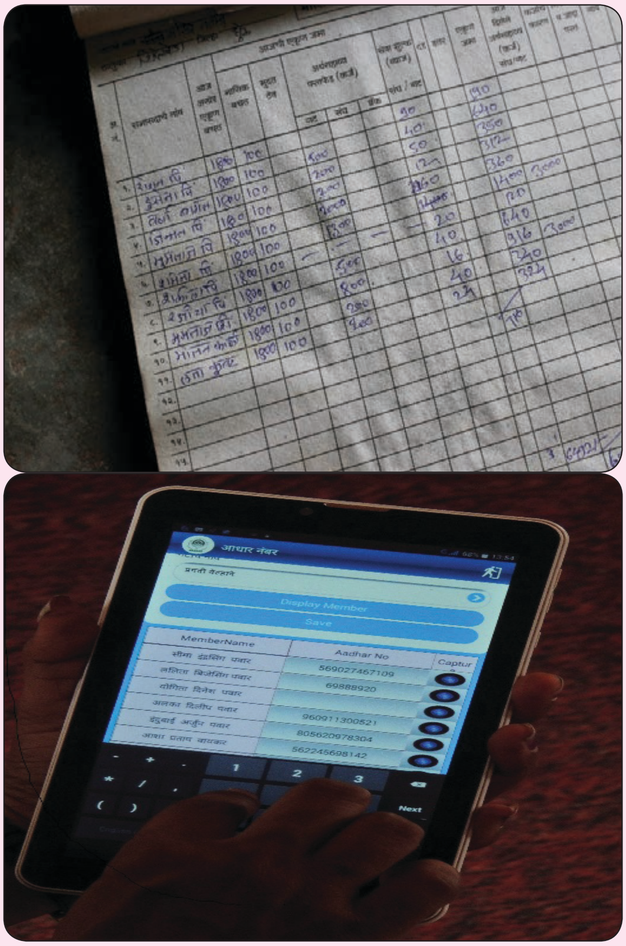
ii. Grading reports are being used by banks for appraising SHGs before credit linkage.

iii. Large number of first as well as subsequent linkages for many SHGs.

iv. Increase in credit flow to SHGs.

v. Increased levels of awareness amongst bank branches about the functioning of SHG dealing with them through MIS generated from the system.

vi. The real time SMS alerts brought transparency in the operations /transactions and confidence among the SHG members.



Transformation: paper to digital

Early impact of Phase I of pilot on digitisation of SHGs

District Ramgarh (Jharkhand)			
No of SHGs credit linked before digitisation	340	No of SHGs credit linked after digitisation	1006
District Dhule (Maharashtra)			
No of SHGs credit linked before digitisation	1424	No of SHGs credit linked after digitisation	2254

4. Progress of SHG-BLP

4.1 Rejuvenation of SHG-BLP requires coordinated efforts by all stake-holders to tackle the issues of heavy south concentration, stagnation in growth, multiple membership, lower bank linkage both in number and quantum, rising NPAs, etc. which have been an area of concern in the recent past. Efforts at coordination with all stake-holders, capacity building of bankers and SHPIs including NRLM / SRLMs and village level meets with SHGs have shown improved performance of SHG-BLP during 2015-16. The number of SHGs having savings linkage increased to 79.03 lakh as on 31 March 2016 from 76.97 lakh a year back. There was a net addition of 2.06 lakh SHGs during the year. The domain of SHGs consists of 85.6% women groups which play a crucial role in empowerment of the poor rural women. During the year 2015-16, the coordination between NABARD and NRLM/ SRLM ensured that more and more SHGs got bank loans. NRLM is working since April 2013 with its agenda to cover 7 crore rural poor households across the country with sustainable livelihoods through self-managed SHGs and federations.

During the year, 18.32 lakh SHGs were disbursed bank loan of ₹ 37, 287 crore. About 44.5% of total SHGs receiving bank credit during the year were covered under NRLM and they availed 45% (₹ 16,786 crore) of the total amount disbursed. Table 4.1 gives an account of savings, credit disbursement and credit outstanding of total SHGs and under NRLM and NULM during past three years.

4.2 SHG-BLP is a strong intervention in financial inclusion for the bottom of pyramid. A proven platform initially conceived for increasing the outreach of banking services amongst the poor it has since graduated to a programme for promotion of livelihoods and poverty alleviation. The number of SHGs with savings linkage, credit disbursed during the year and bank loans outstanding as well as the quantum of savings outstanding, loan disbursed during the year and total loan outstanding had shown positive growth during the past three years (Figure 4.1). Year 2015-16 was particulary positive for the growth of SHG-BLP.

Figure 4.1 : Progress of SHG BLP during Past Three Years

(Figures in parentheses indicate increase/decrease over the previous year)

4.3 No. of Savings linked SHGs

With higher growth in SHG-BLP in North East Region and other priority states during the last three years, there has been slight correction in the southern bias of SHG-BLP (Figure 4.2). The share of Southern Region in number of SHGs has declined from almost half (49.8%) in 2013-14 to 44.9% in 2015-16. Saturation in the scope of formation of new SHGs and rationalization of data by banks, especially in Kerala, Tamil Nadu and Puducherry, has resulted in decline in the number of savings linked SHGs in South Region by 4.7% from 37.19 lakh as on 31 March 2015 to 35.46 lakh as on 31 March 2016. North Eastern Region has recorded a 29% rise in number of SHGs during 2015-16 owing to a jump in Tripura, Nagaland and Assam. All states in Northern, North Eastern, Western and Eastern Regions have registered increase in number of SHGs with savings linkage during the year. The state-wise details of number of SHGs are given in Statement IIA.

Figure 4.2 : Region-wise Distribution of No. of SHGs with Savings Linkage (%)

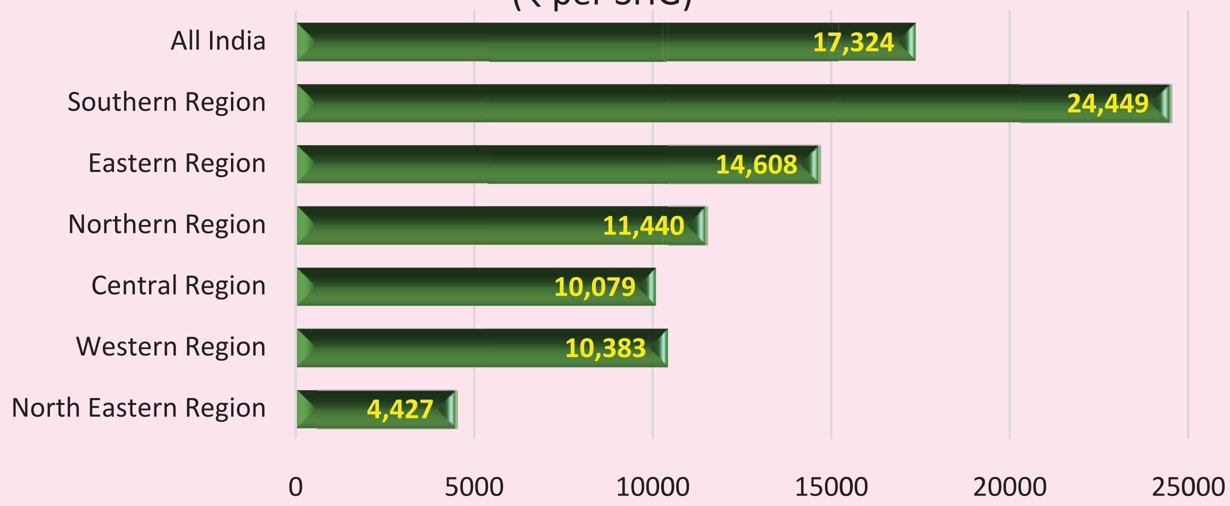
	North Eastern Region	Northern Region	Central Region	Western Region	Eastern Region	Southern Region
2013-14	4.26	4.92	9.23	12.07	19.77	49.75
2014-15	4.34	4.69	10.62	12.23	19.81	48.32
2015-16	5.44	4.98	10.32	12.88	21.51	44.87

4.4 Savings Outstanding

The savings outstanding of SHGs as on 31 March 2016 has reached all-time high of ₹ 13,691 crore. The average savings outstanding per SHG increased by 21% during the year to ₹ 17,324 as on 31 March 2016 from ₹ 14,368 a year back. The average savings outstanding was highest in Southern Region and lowest in North East Region (Figure 4.3). Southern states have a sizeable number of matured SHGs that contribute higher amount of monthly savings leading to higher average savings rate. Whereas in North Eastern States and other priority states, the average savings are low. States that have added more number of new SHGs during the year like Nagaland, Tripura, Bihar, Jharkhand, Maharashtra, etc., have recorded decline in average savings outstanding during the year. The total savings outstanding of SHGs has recorded increase in all Regions except Western Region owing to decline in Maharashtra. The increase in total savings outstanding was prominent in North (88%), North East (46%) and Southern Regions (31%). The state-wise savings outstanding position is given in Statement IIA.

Figure 4.3 : Region-wise Average Savings Outstanding : 2015-16

(₹ per SHG)

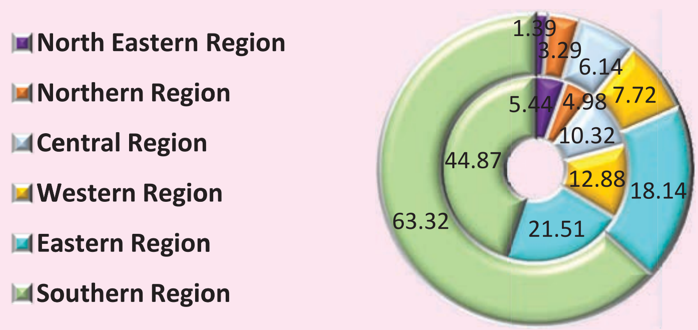


The Southern Region has maintained its prominence in upkeep of savings linked SHGs and savings balances with 44.9% of SHGs and 63.3% of total savings outstanding (Fig. 4.4) followed by Eastern Region with 21.5% of SHGs and 18.1% of savings balances.

Figure 4.4 : Region-wise Share of Saving linkage of SHGs : 2015-16 (%)

Inner Circle : No. of SHGs

Outer Circle : Amount of Savings Outstanding with Banks



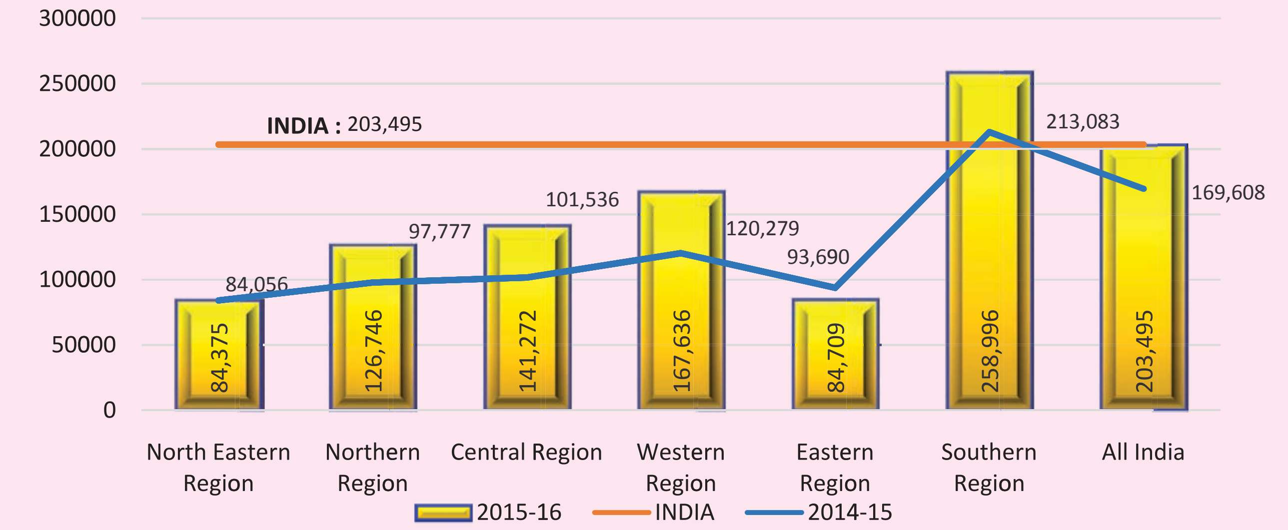
4.5 Credit disbursement by banks

During 2015-16, banks provided loans to 18.32 lakh SHGs (23.2% of total SHGs) as compared to 16.26 lakh SHGs (21.1% of total SHGs) during 2014-15. Number of SHGs provided loans during the year was lower than last year in Northern Region and Central Region by 13.1% and 22.8% respectively, while banks in North Eastern Region achieved highest increase in SHG credit linkage among all regions increasing linkage by

38.6% as compared to previous year. Credit linkage to SHGs in some priority states was a concern in states like Rajasthan (-23%), Odisha (-48%), Chhattisgarh (-36%) and Uttar Pradesh (-56%) where banks have provided credit to lesser number of SHGs compared to the previous year. A decline in credit linkage of SHGs during the year was also observed in Goa (-12.4%) Telangana (-14.8%) and Himachal Pradesh (-20.6%). On the other hand, banks in priority states like Haryana (53%), Jammu & Kashmir (48%), Assam (29%), Bihar (51%), Jharkhand (142%), West Bengal (50%), Uttarakhand (34%) and Maharashtra (19%) along with Andhra Pradesh (46%) have provided credit to more SHGs during 2015-16 than during the previous year.

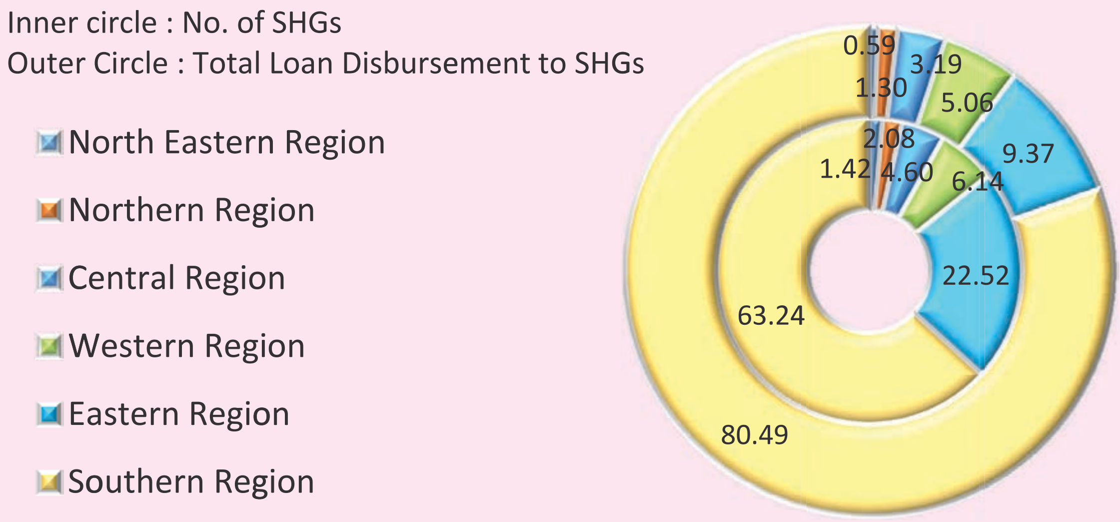
There was overall 35% increase in the amount of loan disbursed by banks to SHGs during the year, taking it to ₹ 37,287 crore as against ₹ 27,582 crore during the previous year. The average loan disbursement per group during 2015-16 was ₹ 2.03 lakh which showed a healthy increase of 20% from ₹ 1.69 lakh during 2014-15. Southern Region continued to have the distinction of having highest per group average credit disbursement of ₹ 2.59 lakh whereas other Regions had loan disbursement below the national average (Figure 4.5). Eastern Region recorded 10% fall in the average loan disbursement owing to fall in the same in Bihar, Jharkhand and West Bengal. Number of credit linked SHGs in these states increased significantly (more than 50%) during the year. As banks provide lower amount in the first credit linkage, this appears to have dragged down the average credit per group. Central Region and Western Region witnessed 39% hike in average per group credit while it was 22% higher in Southern Region.

Figure 4.5 : Average Loan Disbursement : 2015-16
(₹ per SHG)



The dominance of Southern Region continued during 2015-16 in disbursement of bank loans to SHGs. Southern Region disbursed ₹ 30,012 crore (80.5% of the total credit) to 11.59 lakh SHGs (63.2% of the total) during 2015-16. Eastern Region stood second with 22.5% of SHGs availing 9.4% of bank loan disbursed during the year (Figure 4.6).

Figure 4.6 :Region-wise Distribution of Loan to SHGs (%)



The number of SHGs availing bank loan, total amount of credit disbursed by banks as well as the average credit disbursement to SHGs in different Regions during past three years are given in Table 4.2. There was 35% jump in quantum of credit disbursement in 2015-16 compared to 15% last year and 20% jump in average credit disbursement per SHG compared to a decline of 3.5%. The states of Andhra Pradesh, Telangana, Karnataka, Tamil Nadu and West Bengal were the major contributors to this quantum growth. The state-wise position of bank loans disbursed to SHGs during 2015-16 is given in Statement II B.

Table 4.2: Region-wise Status of Bank Loan Disbursed to SHGs during 2015-16

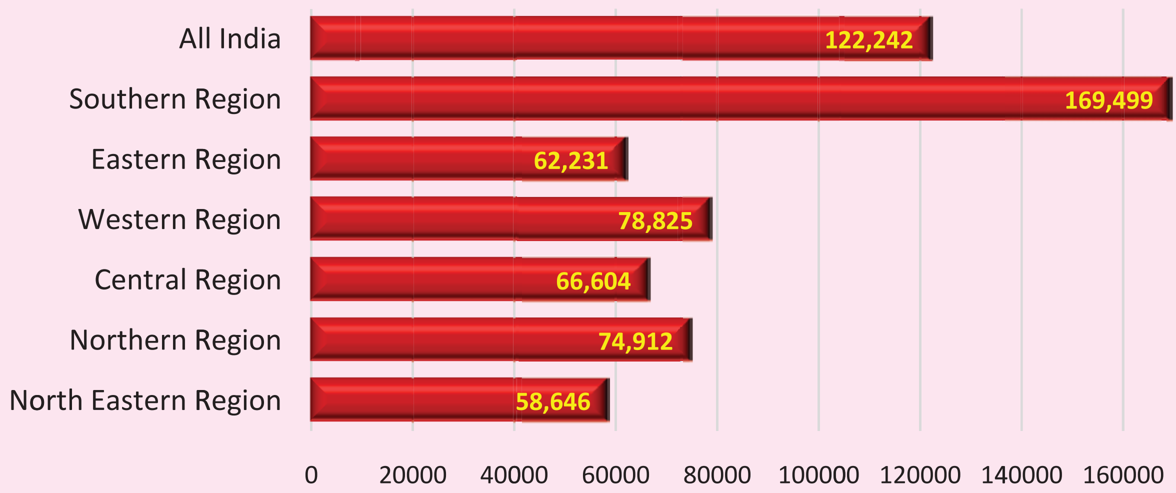
4.6 Credit Outstanding

As of 31 March 2016, 46.72 lakh SHGs (59.1% of total SHGs) were having credit outstanding against 44.68 lakh (58.1%) a year back. Among the regions, percentage of groups having credit linkage was highest in South (71.7%) followed by East (66.5%). This percentage was lowest in Western Region at 25.4% only. Among the states, percentage of groups having highest credit linkage were Bihar (96%), Telangana (91%) and Andhra Pradesh (89%). This percentage was lowest in Arunachal Pradesh (8.8%) and among larger states in Gujarat (21.8%).

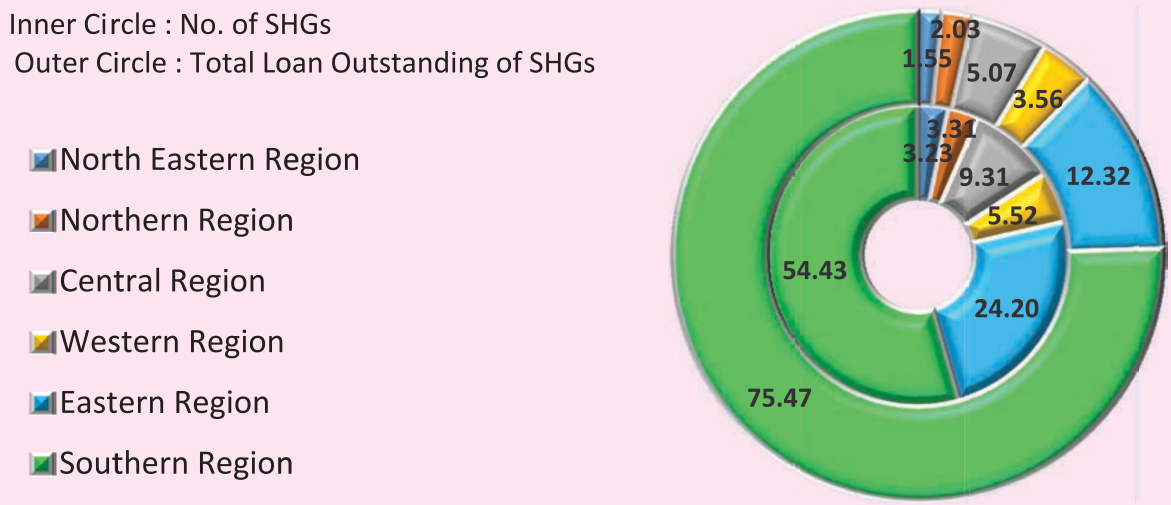
The total bank loan outstanding of SHGs increased by 10.8% and was ₹ 57,119 crore against ₹ 51,545 crore as on 31 March 2015. The average loan outstanding increased by 6% to ₹ 1,22,242 from ₹ 1,15,361 per SHG. Northern Region registered a decline in the average loan outstanding compared to previous year. The average loan outstanding was highest in Southern Region and lowest in North Eastern Region (Figure 4.7). Among States, highest average per group loan outstanding was recorded by Andhra Pradesh (₹ 2.15 lakh) followed by Telangana (₹ 2.00 lakh), while it was lowest in Chhattisgarh and Bihar at ₹ 0.37 lakh per group.

Figure 4.7 : Region-wise Average Loan Outstanding
(₹ per SHG)



Southern Region continued its dominance in share of bank loan outstanding position as well and accounted for more than half (54.4%) of SHGs with credit linkage and three fourth of the bank loan outstanding to SHGs in the country as on 31 March 2016. There was a marginal increase both in the number of SHGs credit linked as well as total outstanding amount in Southern Region. Eastern Region stood next with 24.2% of the SHGs with credit linkage and 12.3% of loan outstanding (Figure 4.8).

Figure 4.8: Region-wise Share in Loan Outstanding (%)



North Eastern Region recorded a rise of 22.5% in both, number of SHGs and amount of total loan outstanding as at end of FY 2016 over FY 2015. Eastern Region and Southern Region also recorded rise in both parameters. Northern Region posted a fall in both (-12.5% & -24.7%, respectively) while Central and Western region posted a marginal decline in number of SHGs with outstanding loans but recorded a rise in amount outstanding.

Table 4.3: Region-wise Status of Bank Loan Outstanding to SHGs during Past Three Years

(Total Loan o/s in ₹ Lakh; Average Loan o/s in ₹ / SHG)

All India	4197338	4292752	102273	4468180	5154546	115361	4672621	5711923	122242

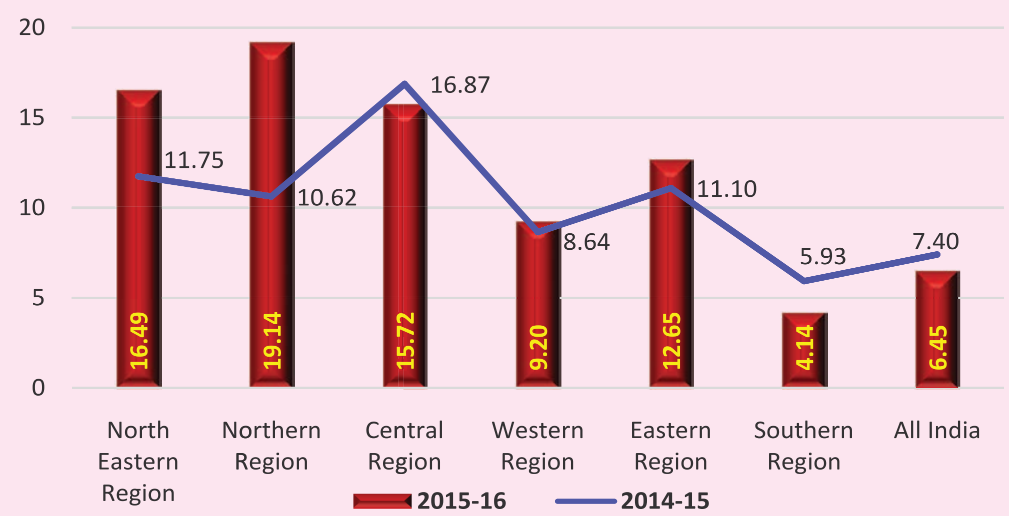
NB: o/s = Outstanding as on 31 March of the financial year.

Among the states, Andhra Pradesh continued to have the largest share in number of SHGs with outstanding bank loan(17.17%) and total bank loan outstanding (30.15%) though there was a marginal decline in both shares over the previous year. Among the states outside Southern Region, West Bengal had the maximum share with 12.5% of SHGs having outstanding credit and 6.6% of outstanding loan amount. The state-wise details of bank loan outstanding is given in Statement V**.**

4.7 NPAs in SHG-BLP

The gross NPAs in bank loans to SHGs declined by about 1% from 7.4% in 2014-15 to 6.4% in 2015-16. This is a development contrary to the overall trend of NPAs in the banking sector, which reported to have deteriorated asset quality during 2015-16, exceeding 9% in case of Public Sector Commercial banks. The ratio of Loan Outstanding to Loan Disbursement during 2015-16 under SHG-BLP was 1.5 for all India, declined from 2.1 in previous year. High ratio indicates a relatively high NPA rate and vice versa. High outstanding joined with low disbursement implies a situation where repayment rate is low and many of the SHGs are not eligible for subsequent doses of loans because of outstanding loans. The ratio was high at 4.0 for North Eastern Region followed by 2.4 in Central and Northern Regions while it was the lowest at 1.4 in Southern Region. The NPA rate was also high in North Eastern Region (16.5%), Northern Region (19.1%) and Central Region (15.7%) whereas it was lowest in Southern Region (4.2%) during 2015-16 (Figure 4.9). There was decline in the overall NPA position in Central and Southern Regions while the NPA rate increased significantly in Northern and North Eastern Region and marginally in case of Western and Eastern Regions during 2015-16 as compared to previous year.

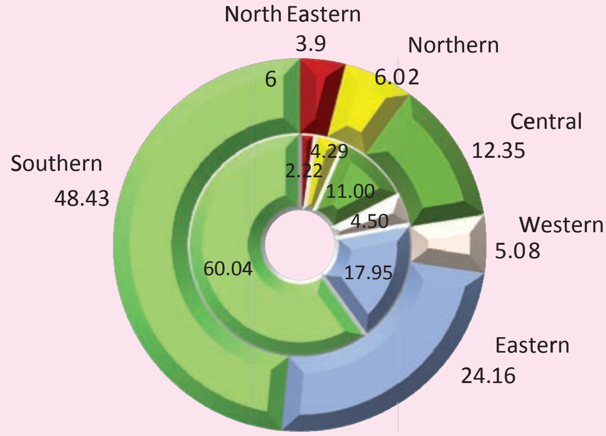
Figure 4.9 : Region-wise NPA Level during 2014-15 & 2015-16 (%)



The Gross NPAs as on 31 March 2016 were ₹ 3686.2 crore, which witnessed a decline by 3.4% from ₹ 3814.7 crore a year back. Southern Region accounted for nearly half (48.4%) of the gross NPAs in the country. However, its share declined substantially from 60% a year back. On the other hand, the share of all other regions in gross NPAs increased. Eastern Region accounted for about a quarter (24.2%). North Eastern and Northern Regions recorded rise in gross NPAs during the year (Figure 4.10).

Figure 4.10 : Regionwise Share of Gross NPA Amount (%)

Inner Circle : 2014-15 Outer Circle : 2015-16



Three states viz. Tamil Nadu (18.7%), Andhra Pradesh (15.7%) and Odisha (12.7%) together accounted for nearly half of the gross NPAs as on 31 March 2016. During the year Odisha recorded an absolute increase of ₹ 173.63 crore in gross NPAs followed by Tamil Nadu (₹ 117.37) crore. On the other side, Andhra Pradesh (- ₹ 405.32 crore), Karnataka (- ₹ 210.94 crore) have reduced their gross NPAs during the year which contributed to overall decline of NPAs in the Sector. The state-wise status of NPAs in bank loans to SHGs is given in Statement VI.

4.8 Agency-wise distribution of SHG-BLP

Commercial Banks by virtue of their vast network take the lead in SHG-BLP. More than half (41.40 lakh, 52.39%) of the SHGs in the country maintain their savings account with the Commercial Banks. During 2015-16, the share of Commercial Banks in terms of SHGs with savings linkage marginally declined, however, their share in quantum of savings outstanding increased from 60% in the previous year to almost two thirds during 2015-16 (Table 4.4). On the other hand, the share of RRBs increased both in terms of number of SHGs and savings balances. The cooperatives increased their share in number of SHGs but their share in savings outstanding declined. Bank-wise details of savings under SHG-BLP are given in Statement IA.

Table 4.4: Agency-wise status of SHG-BLP in 2015-16

(Amount ₹ lakh)

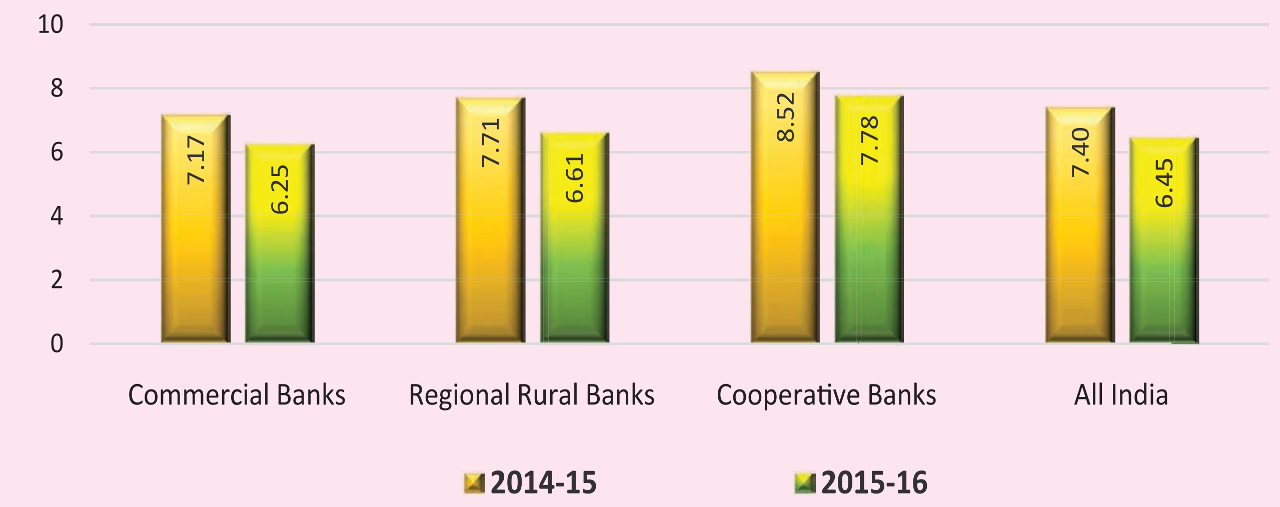
Name of the Agency	Total Savings of SHGs with Banks as on 31 March 2016		Loans disbursed to SHGs by Banks during the year		Total Outstanding Bank Loans against SHGs		NPAs	
	No. of SHGs	Savings Amount	No. of SHGs	Loans dis-bursed	No. of SHGs	Loan Out-standing	Amount of Gross NPA	NPA (%)
Commercial Banks	4140111	903389	1132281	2518497	2626364	3714562	232140	6.25
% Share	52.6	66.0	61.8	67.5	56.2	65.0	62.98	
Regional Rural Banks	2256811	248428	470399	916493	1445476	1610935	106429	6.61
% Share	28.56	18.1	25.7	24.6	30.9	28.2	28.87	
Cooperative Banks	1506080	217322	229643	293700	600781	386426	30054	7.78
% Share	19.1	15.9	12.5	7.9	12.9	6.8	8.15	
Total	**7903002**	**1369139**	**1832323**	**3728690**	**4672621**	**5711923**	**368623**	**6.45**

During 2015-16, Commercial Banks had disbursed ₹ 25185 crore (₹ 17334 crore in 2014-15) to 11.32 lakh SHGs (8.56 lakh in 2014-15) with an average of ₹ 2,22,482 (₹ 2,02,567 in 2014-15) per SHG, against national average of ₹ 2,03,495. Commercial banks accounted for 67.5% of bank loans disbursed to 61.8% SHGs during the year. The share of RRBs in credit disbursement to SHGs stood at 24.6%. However, the number of SHGs declined substantially to 25.7% from 32.1%. The average loan disbursement by RRBs during the year was ₹ 1,94,833. The share of Cooperatives both in number of SHGs provided bank loan during the year as well as the quantum of loan disbursed declined in 2015-16 as compared to previous year. The average loan per SHG provided by Cooperatives was ₹ 1,27,894. Bank-wise details of loans disbursed during the year under SHG-BLP are given in Statement IB.

The number of SHGs having loan outstanding as on 31 March 2016 increased in case of all categories of banks, however, the increase was more prominent in case of RRBs from 12.7 lakh a year back to 14.4 lakh. Commercial Banks accounted for about two thirds of the bank loan outstanding under SHG-BLP. The average loan outstanding in case of Commercial banks was ₹ 1,41,433 where as it was ₹ 1,11,447 in case of RRBs and ₹ 64,321 in case of Cooperatives. Low average lending by Cooperatives was the cause of low credit outstanding in case of Cooperative Banks. Bank-wise details of loans outstanding at the end of financial year 2015-16 under SHG-BLP are given in Statement IC.

The overall NPA rate in bank loan to SHGs declined to 6.4% as on 31 March 2016 from 7.4% a year back. This was mainly due to the fall in gross NPAs from ₹ 3814.7 crore to ₹ 3686.2 crore, combined with increase in loan disbursement. The NPA level of all categories of banks declined during the year as compared to previous year (Figure 4.11). There was also a fall in NPAs of NRLM supported SHGs, from 8.7% in 2014-15 to 6.2% in 2015-16. Agency-wise details of NPAs are given in Statement 1D.

Figure 4.11 : NPA Position of Banks during 2014-15 & 2015-16 (%)



5. MFI-Banks Linkage Programme

5.1 Micro Finance Institutions (MFIs) act as an important conduit for extending financial services to the microfinance sector in the country by raising resources from Banks and other institutions and extending loans to individuals or members of SHGs/ JLGs. MFIs could be (1) NGO-MFIs – registered under the Societies Registration Act, 1860 or the Indian Trust Act, 1880; (2) Cooperative MFIs – registered under the State Cooperative Societies Act or Mutually Aided Cooperative Societies Act or Multi State Cooperative Societies Act; (3) MFIs incorporated under Section 25 of Companies Act, 1956 or Section 8 of Companies Act 2013; (4) NBFC and NBFC-MFIs incorporated under the Companies Act, 1956 and registered with RBI. In addition to their internal resources, the MFIs have been allowed to mobilize resources through various ways including obtaining of bulk loans from Banks/ other Financial Institutions. Though most of the MFIs entered the microfinance arena only after the SHG-Bank linkage programme was well entrenched, business of these institutions grew at a much faster pace than the former. MFIs are more aggressive and innovative in reaching out to the rural poor with well-oiled distribution channels as compare to the formal banking system.

Post Andhra crisis, the Reserve Bank of India has notified guidelines for the lending operations of MFIs based on the Malegam Committee recommendations. A new class of financial organisations named as NBFC–MFIs have been created subject to satisfying certain conditions regarding the capital to be employed, lending to members, cap on interest to be charged and margin to be retained, etc. The loans extended to the MFIs by banks qualify for priority sector category. RBI's upgraded regulations and guidelines on NBFC-MFIs and inclusion of loans to MFIs by banks under priority sector have resulted in phenomenal growth of MFIs during the last three years.

5.2 Progress under MFI-Bank Linkage Programme

The Progress under MFI-Bank linkage programme during the last 3 years is shown in Table 5.1:

Table 5.1: Progress under MFI-Bank Linkage

(Amount ₹ Crore)

Particulars	2013-14		2014-15		2015-16	
	No. of accounts	Amount	No. of accounts	Amount	No. of accounts	Amount
Loans disbursed by banks/FIs to MFIs	545	10282.49 (31.16%)	589	15190.13 (47.73%)	647	20795.57 (36.90%)
Loans outstanding against MFIs as on 31 March	2422	16517.43 (14.50%)	4662	22500.46 (36.22%)	2020	25580.84 (13.69%)
Loan Outstanding as % of fresh loans		160.64		148.13		123.00

(Figures in parenthesis indicates growth/decline over the previous year)

Source: Reporting Banks

The MFIs were able to garner higher confidence of banks and financial institutions. The total loans to MFIs by banks and financial institutions increased by over 36.90% during the current year as against 47.73% during the previous year. The agency wise details of loans extended to MFIs are shown in Table 5.2.

Table 5.2: Loans to MFIs by Banks/Financial Institutions

Source: Reporting Banks

Bank wise details of MFIs financed are given in Statement VII. (In case of abridged version, refer to enclosed CD for Statements).

5.3 Revolving Fund Assistance / Capital Support to MFIs by NABARD

NABARD had been providing financial assistance to MFIs by way of capital/equity support to help them to extend their outreach to the poor households and to enable them to leverage commercial borrowings from banks. Similarly, Revolving Fund Assistance (RFA) was provided to MFIs by NABARD, for on-lending to poor.

The schemes were in operation since 2007-08. After the announcement of creation of "India Microfinance Equity Fund" with SIDBI for the same purpose by Government of India in its 2011-12 budget, these supports were discontinued with effect from 1st April, 2011. The outstanding against capital support provided stood at ₹ 4.42 crore to 37 entities and the RFA outstanding was ₹ 7.25 crore against 36 entities. Agency details are given in statements XI-A and XI-B. (In case of abridged version, refer to enclosed CD for Statements).

5.4 Refinance to MFIs

NABARD had been providing financial assistance to MFIs by way of Long Term Refinance support to eligible NBFC-MFIs since 2014-15. NBFC-MFIs having grading upto mfR2 (mfR3 in North Eastern states and Hilly areas) by CRISIL or equivalent and continuous profit during last three years are eligible for refinance subject to fulfilling other conditions. During 2015-16, refinance to the tune of ₹ 2300 crore have been disbursed to 17 MFIs.

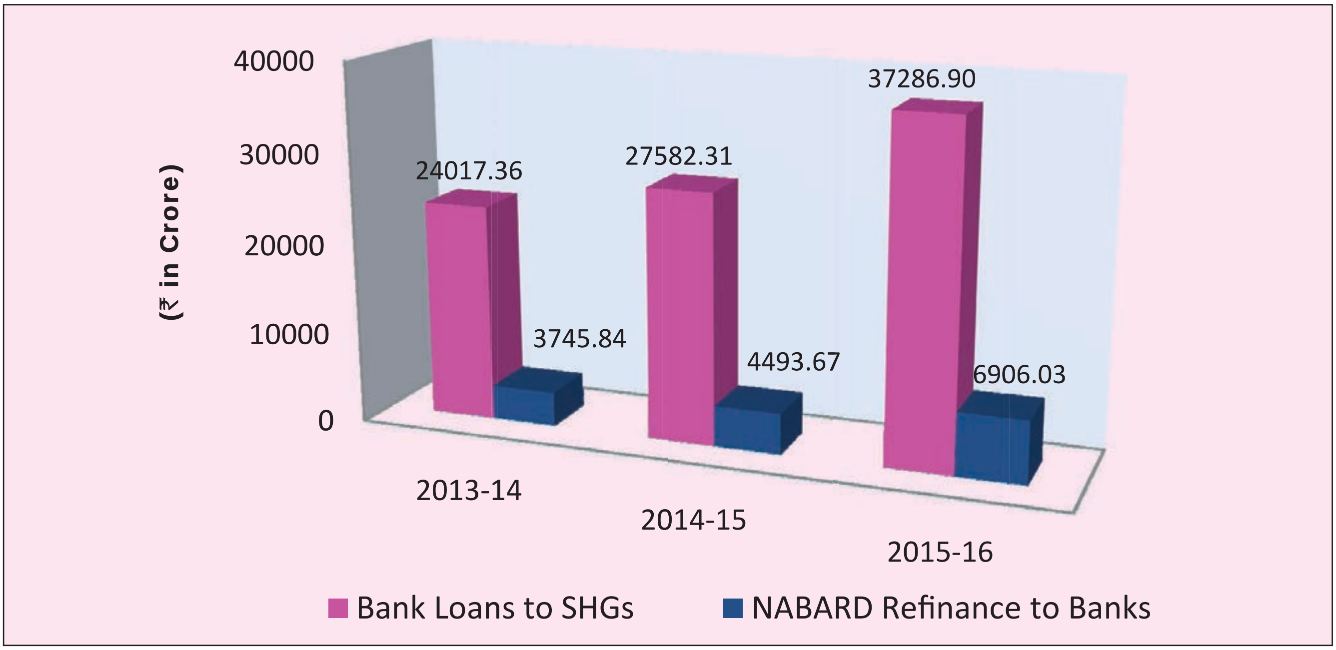
6. NABARD as microfinance facilitator

6.1 NABARD continued with its role as the main facilitator and mentor of microfinance initiatives in the country, particularly the SHG Bank Linkage initiative. It continued to provide support in the form of grant assistance for formation, nurturing and credit linking of SHGs with the banks, capacity building of various stakeholders through training, exposure visits, seminars, workshops etc. With the SHG programme now more than two decades old, NABARD intensified its efforts to promote sustainable livelihoods among SHG members by launching Livelihood and Enterprise Development Programme (LEDP), pilots in micro insurance and pension, digitization of SHGs, commissioning studies on topics related to micro credit/ SHG–BLP. A glimpse of the facilitator role played by NABARD during 2015-16 is given in following paragraphs:

6.2 Refinance to Banks

NABARD has been extending 100% refinance to banks towards their lending to SHGs and MFIs to supplement their resources. Total loans issued by banks to SHGs and the refinance extended by NABARD for such loans is shown in Figure 6.1. During 2015-16, NABARD extended refinance to the extent of ₹ 6906.03 crore against their SHG lending forming 14.36 % of the total refinance provided to banks for investment credit, as against ₹ 4493.67 crore disbursed during the previous year. Cumulative disbursement of refinance by NABARD for SHG lending now stands at ₹ 37634 crore.

Figure 6.1: Refinance to Banks



6.3 Expenditure on SHGs/JLGs - Funds utilised

6.3.1 'Financial Inclusion Fund' and 'Women Self Help Group Development Fund' were utilised during the year for various microfinance related activities such as formation and linkage of SHGs/JLGs through SHPIs/JLGPIs, training and capacity building of stakeholders, livelihood promotion, studies, documentation, awareness and innovations etc. NABARD expended a sum of ₹ 52.92 crore during 2015-16 from these funds.

6.3.2 Support for training and capacity building of microfinance clients

NABARD gave due recognition to training and capacity building of various stakeholders such as bankers, NGOs, Government officials, SHGs, SHG Federations and trainers. During 2015-16 more than 5100 training programmes were conducted and about 1.81 lakh participants were trained. Cumulatively, around 35.94 lakh participants have been imparted training as on 31st March 2016 leading to a strong team for implementation of the microfinance programmes. The region-wise number of stakeholders trained by NABARD is given in Statements – VIII(A) to VIII(C). (In case of abridged version refer to enclosed CD for Statements).

6.3.3 Grant Support to Partner Agencies for Promotion and Nurturing of SHGs

NABARD extended grant support to NGOs, Federations of SHGs, RRBs, NGO-MFIs, CCBs, PACS, Farmers' Clubs and Individual Rural Volunteers (IRVs) for promotion, nurturing and credit linkage of SHGs with the banks. Untiring efforts of all these agencies has led to spectacular growth of the movement and SHG concept is known to a vast majority throughout the country. The financial support extended by NABARD to various SHPIs till 31 March, 2016 is indicated in Table 6.1.

Table 6.1: Grant Support to Partner Agencies

(Amount ₹ Lakh)

Agency	Cumulative Sanctions up to 31.03.2016		Cumulative Releases 31.03.2016

Agency wise, State wise details of grant assistance extended to partner agencies have been given in Statements – IX-A (i) - IX-H. (In case of abridged version, refer to enclosed CD for Statements.)

6.3.4 Village Level Programmes

In order to give the SHG-BLP a leg-up, Village Level Programmes on SHGs were planned and sponsored by NABARD with the support of banks and NRLM in 13 priority states. The aim was to foster better understanding of mutual requirements between banks, SHGs and SHPIs at ground level and to sort out issues like saving linkage, credit linkage and repayment, etc. at the ground level.

These programmes were organized in 13 priority states viz. Assam, Bihar, Chhattisgarh, Gujarat, Himachal Pradesh, Jharkhand, Maharashtra, Madhya Pradesh, Odisha, Rajasthan, Uttarakhand, Uttar Pradesh and West Bengal during the months of February and March 2016. NABARD supported more than 42000 village level programmes during this period. SRLMs and State Government departments also participated in the programmes. Banks reported credit linkage of more than 70000 SHGs and account opening of about 25000 new SHGs during these programmes. These programmes resulted in better interface between bankers and SHGs leading to increased credit flow and appreciation of each other's needs. It has been decided by NABARD to undertake this intervention in priority states periodically.

6.3.5 Centre for Microfinance Research (CMR)

The Centre for Microfinance Research (CMR) set up within Bankers Institute of Rural Development (BIRD) was revived during the year. The centre is set up for focused attention on Microfinance research, Studies, Seminars etc. The agency takes up research activities in the field of Microfinance for facilitating policy initiatives and improvement in design and delivery system of microfinance. CMR also publishes half-yearly Journals "The Microfinance Review" which contains research articles on topical issues of microfinance. During the year, CMR organised '4th National Seminar on Microfinance: Issues and Challenges' at Lucknow and deliberated on the broad themes in the Microfinance sector. Two volumes of "The Microfinance Review" were also published by CMR.

7. On-going Initiatives

7.1.1 Financing of Joint Liability Groups

Financing of JLGs was introduced as a pilot project in 2004-05 by NABARD in 8 States with the support of 13 RRBs and was later mainstreamed. Apart from extending 100% refinance support to Banks, NABARD also extends financial support for awareness creation and capacity building of all stakeholders of this programme. Besides, NABARD extends grant support for formation and nurturing of JLGs to banks and other JLG promoting agencies. As against 4.57 lakh JLGs promoted during 2014-15, JLGs promoted during 2015-16 were 5.72 lakh taking the cumulative number of JLGs promoted and financed by banks to 17.52 lakh as at the end of March 2016. Although the Southern States top the list with over 6.04 lakh JLGs organized so far, Eastern Region follows closely with 4.66 lakh JLGs. In terms of loans disbursed, however, Southern States account for nearly 45% of the total loans disbursed.

With a view to sensitising the stakeholders of the JLG programme, NABARD has been arranging training programmes and exposure visits to successful JLGs, to the functionaries of these institutions including financing banks. Nearly 77000 personnel have already been benefitted from these trainings and exposure visits.

Figure 7.1: No. of JLGs organised

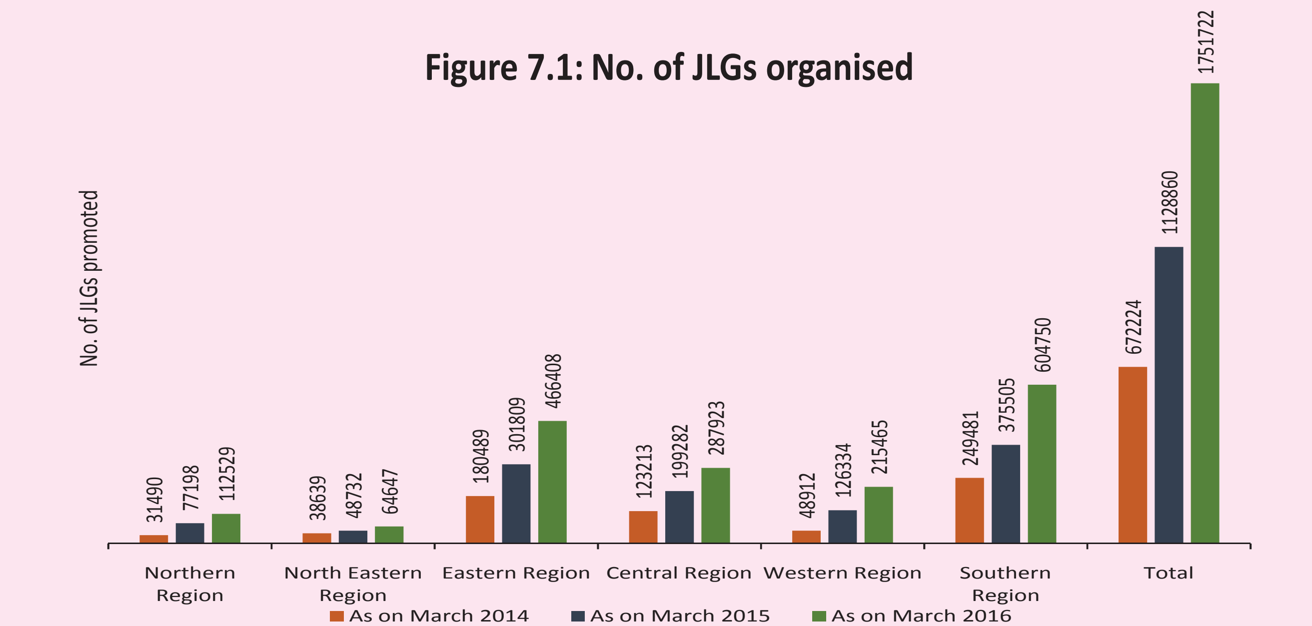

Figure 7.2: JLG - Loan Disbursed

	Northern Region	North Eastern Region	Eastern Region	Central Region	Western Region	Southern Region	Total
Loan disbursed during 2013-14	353.62	291.45	1277.93	709.17	426.41	3717.15	6775.73
Loan disbursed during 2014-15	436.09	126.03	1104.11	650.12	663.37	1434.69	4414.41
Loan disbursed during 2015-16	211.53	254.27	1475.08	785.18	782.78	2651.88	6160.72

7.1.2 Livelihood Interventions for SHGs

Skill development is an important tool for improving the employability and enhancing productivity of the working poor and thereby reducing poverty and exclusion. Rural poor women typically face difficulties or discrimination in accessing good quality training. Keeping the above in view, NABARD continued with *Micro Enterprise Development Programme* (MEDP) to nurture the entrepreneurial talents of members of mature SHGs to set up and run micro enterprises as a livelihood option in farm or non-farm sector. Around 14352 skill upgradation training programmes have been conducted under this initiative covering about 4.02 lakh members of matured SHGs up to 31 March, 2016.

During the year, NABARD introduced a new *Livelihood and Enterprise Development Programme* with a view to create sustainable livelihoods among SHG members and to create maximum impact of skill upgradation. These programmes are implemented in small batches for a maximum of 150 SHG members in a cluster of contiguous villages on a project basis covering 15 to 30 SHGs. The programme provides for livelihood creation in agricultural & allied activities as well as rural non-farm sector activities. As on 31 March 2016, 56 proposals have been sanctioned to various agencies across India.

Livelihood and Enterprise Development Programme

Generating income and alleviating poverty through the creation of livelihoods, is one of the goals of the SHG–Bank Linkage Programme (SHG–BLP). NABARD has been enabling livelihood promotion and graduation of SHG members through a variety of programmes that focus on up gradation of skills and developing entrepreneurship abilities. However, skill upgradation trainings alone could generate limited impact on livelihood creation among SHG members. With a view to create sustainable livelihoods among SHG members and to create maximum impact of skill upgradation with hand holding and credit linkages, the Livelihood and Enterprise Development Programme (LEDP) has been launched in December 2015. These programmes are implemented in small batches for a maximum of 150 SHG members in a cluster of contiguous villages on a project basis covering 15 to 30 SHGs in a cluster of contiguous villages. The programme covers agricultural & allied activities as well as rural nonfarm sector activities. There is provision for intensive training for skill building, refresher training, backward-forward linkages offering end to end solutions to the SHG members.

7.2 Special Initiatives

7.2.1 Scheme for Promotion of Women SHGs in backward districts of India

NABARD, in association with the Department of Financial Services, Ministry of Finance, Govt. of India continued to implement a scheme for promotion and financing of Women Self Help Groups in 150 identified backward districts of the country. The USP of this scheme is that it provides for selection of an anchor NGO in each of the district not only for promoting and enabling credit linkage of these groups with banks (like any other SHPIs under SHG-BLP of NABARD) but also serving as a business facilitator for extending outreach of the banks, regular monitoring of the SHGs promoted and also being responsible for repayment of loans by SHGs to banks. For these services the Anchor NGO is entitled for service charges @5% of the outstanding loan amount. This approach is expected to facilitate sustained financial inclusion by extending banking services to women members of SHGs, promote sustainable livelihood opportunities to the members and facilitate effective implementation of other social development programmes for women through SHGs. The progress under the scheme as on 31 March, 2016 is given in Statement IX-A(ii). (In case of abridged version, refer to enclosed CD for Statements).

7.2.2 Implementation of National Rural Livelihood Mission (NRLM) and Scheme for Interest Subvention to Women SHGs.

The Ministry of Rural Development (MoRD), Government of India has launched the National Rural Livelihood Mission (NRLM) by restructuring Swarnajayanti Gram Swarojgar Yojana (SGSY) with effect from 1 April 2013 (RBI circular no. RBI/2012-13/559 dated June 27, 2013). NABARD forwarded the detailed guidelines on NRLM issued by RBI to RRBs and Cooperative Banks for effective implementation of the programme. NABARD is also implementing the Interest Subvention Scheme for Women SHGs under the National Rural Livelihood Mission (NRLM) for Regional Rural Banks (RRBs) and Cooperative Banks in Category I districts.

Further, as a part of collaboration between NABARD and NRLM, BIRD-Lucknow successfully conducted Training of Trainers programme (ToT) for NABARD officers, bankers and SRLM staff from 17 states. In order to achieve the goal of training of bankers at the ground level, the participants of the programme had drawn up an Action Plan for the year 2016 to conduct training in respective States. NABARD ROs are coordinating with the concerned SRLM to achieve the goal of training of all rural bank managers during 2016 as per the Action Plan.

Besides, to address the issue of low credit linkages under SHG-BLP, NABARD has planned to conduct block level programmes in DDM districts so as to increase the credit linkages during this financial year. Such programmes would be on the lines of credit camps/ linkage meets involving bank branch officials, SHPIs, ANGOs, SRLM representatives, SHG leaders, NGOs, livelihood experts etc. State level sensitisation programmes on SHG-BLP for senior bank executives would also be organised during the current financial year with the overall objective of increasing credit linkages.

Further, for extending the facilities of Revolving Fund and CIF to all eligible SHGs in NRLM intensive blocks, NABARD ROs were requested to make available the list of SHGs to respective SRLMs. Accordingly, a list of 3573 SHGs from 8 States were handed over to respective SRLM as on 31st March, 2016.

Micro Insurance

To increase awareness regarding micro insurance among SHG members and to enhance their enrolment under the scheme Religare Health Insurance has been sanctioned two pilot projects, one in Alwar district of Rajasthan and another in Ramgarh district of Jharkhand. The projects cover 1000 SHG members and their family (five) in Alwar district and 2000 SHG members and their spouse in Ramgarh district. Fifty per cent of the premium for SHG members is supported for two years under the project. The projects envisages:

- provision of Health Insurance and Personal Accident Cover;
- issuance of a Master Policy in the name of the SHPI and individual cover in the name of SHG member and his/her spouse (the couple being treated as one unit);
- that the insured must be at least 18 years and not more than 70 years of age;
- that insurance cover will be provided for a period of one year to each beneficiary from the date the policy comes into effect; and will enable SHG members/families to avail cashless treatment in a hospital for any illness/injury/disease (that is not specifically excluded) and also for maternity treatment needs upto a maximum limit of ₹ 50,000/-.

Micro Pension

International Network of Alternative Financial Institutions (INAFI) has been sanctioned a micro pension pilot project to be implemented in the tribal district of Dungarpur in Rajasthan. The project envisages educating SHG leaders, federation leaders and NGOs on the micro pension products, through pension literacy/ mobilization meetings and workshops for NGO staff members and technical workshops for finalizing the pension products. The project targets coverage of minimum 1000 SHG members under micro pension.

8. 'SHG-BLP a business proposition' - with BC/ agency based initiatives

8.1 Introduction

Providing appropriate access to financial services of formal banking sector in rural areas has always remained a formidable task owing to several supply side constraints including poor branch network in remote areas, lack of appropriate financial products and demand side constraints like financial illiteracy etc.

SHG-Bank Linkage Programme through its innovative model of linking informal SHGs with the formal banking system had brought in a paradigm shift in expanding the credit penetration and financial inclusion of the marginalized and excluded sections in society. The community based microfinance approach under SHG-BLP, which centered on bringing the poor onto the frontline in terms of thrift, credit linkage, livelihood activities, income generation, financial management and overall socio economic empowerment was well accepted by the financial institutions, NGOs, civil society organizations, governments as well as other stakeholders. During the course of its evolution the SHG-BLP programme metamorphed itself to adapt to various socio-geographic situations. In the past more than two decades, many new initiatives within the SHG concept, designing and launching of target driven government programs, efforts to enmesh SHG with Financial Inclusion etc., have taken place. In the process, convergence of institutions, programmes, funds, infrastructure, etc. happened in various spheres.

'The International Year of Microcredit 2005', brought several policy changes and coordinated efforts to ensure financial inclusion to all. RBI came with specific guidelines for financial inclusion including allowing banks to appoint Business Correspondents (BCs) to render financial services. Banks were allowed to designate NGOs, MFIs, Cooperatives, individuals, SHGs, etc. as BC to extend banking services in the excluded areas. BCs would be paid reasonable commission or fee by the bank for their services. Each Bank was to formulate its own scheme for using the entities as BC within the framework of overall guidelines.

RBI also permitted since 2009 charging of reasonable BC fee from the client. As per the RBI circular "With a view to ensuring the viability of the BC model, banks (and not BCs) are permitted to collect reasonable service charges from the customer, in a transparent manner under a Board-approved policy. Considering the profile of the clientele to whom banking services are being delivered through the BC model, banks should ensure that the service charges/ fees collected from the customer for delivery of banking services through the BC model is not only fair and reasonable but also seen to be so."

BC model has emerged as a major strategy of banks for financial inclusion to bridge the geographical gap between the excluded populace and themselves.

8.2 Issues

The BC model has faced challenges of viability, sustainability, satisfaction level, trust and client dormancy. National surveys of CSPs undertaken jointly by CGAP and the College of Agricultural Banking (an affiliate of the Reserve Bank of India) in March/April of 2012 and again in September / October 2013, have highlighted these issues. As per these surveys, many CSPs were reported to be unwilling and unhappy with CSP work and stopped it, while certain others lacked the technical capability. There was little increase in daily transaction frequency in the accounts, which continued to be very low with median transaction at 9 % as compared to 62% in Kenya. The result was very low level of compensation at an average of ₹ 2700 per month resulting in high attrition.

While the implementation of PMJDY led to increased number of accounts and increased transactions in the accounts being served through CSP resulting in increased average remuneration to CSPs, dormant agents and inactive accounts are still a common challenge across the country.

The number of SHG accounts opened and linked by banks continued to increase, the growth seemed to have decelerated and plateaued with thrust on financial inclusion through individual accounts. Banks' lower engagement with SHGs resulted in delay in linkage, almost negligible subsequent linkages, weakness in credit rating, lack of follow up & monitoring and resultant rise in NPAs. A vicious cycle of lower linkage and lower repayment is emerging in case of several banks.

With increased institutional support leading to higher bank, investor and corporate support, MFIs with their intensive distribution channels have grown fast during the last decade to match the SHG BLP in purveying microcredit to the excluded populace. NBFC-MFIs, particularly have shown immense growth after the issue of regulatory guidelines from RBI and after modification of Priority sector guidelines making lending to MFIs suitable for fulfilling the priority sector norms by banks. However, the NGO-MFIs lack regulatory support and their growth is relatively muted as they are unable to tap the adequate equity support and resultantly bank credit. The ecosystem of SHGs has also seen growth of community based SHG federations, which have emerged as support structures on problem solving, livelihoods, access to bank credit and special purpose vehicles for socio economic empowerment of SHGs.

8.3 Convergence Models

Against the general trend of viewing BC based financial inclusion and SHG BLP in silos, several banks have redesigned their products through convergence of the two instruments of financial inclusion in order to provide a liberal and flexible system enabling greater financial outreach to the excluded sections. The convergence models are win-win propositions for all the stakeholders.

8.3.1 NGO-MFI / SHG Federations as BC to Banks

8.3.1.1 SKDRDP (Shree Kshetra Dharmasthala Rural Development Project) has adopted a distinct Business Correspondent (SHG-BC) model to provide financial services to the rural poor to maximize efficiency and scale.

SKDRDP started out as a charitable trust in 1982 with an aim to undertake rural development projects in various parts of Karnataka. SKDRDP promotes a network of Self Help Groups (SHGs) under its *Suvidha* programme. During the period, 2002 to 2009, SKDRDP moved into direct lending module, became MFI, took loans from banks for on-lending to SHGs.

However, SKDRDP's legal status as a charitable trust restricted its ability to raise capital making it difficult to maintain the minimum CAR as per the prudential norms of the RBI. In 2009, when RBI liberalized the BC norms whereby the expenses could be charged to the customer, SKDRDP adopted the BC Suvidha model in 3 districts with SBI. Other banks also gradually became interested in this model. Presently, the organisation is implementing the programme in Karnataka partnering with 10 banks and plans to implement the programme in its entire area, severing its past linkage with the MFI model. The organisation acts as a business correspondent network manager (BCNM) for bank in order to provide access to formal financial services to the poor who are unbanked. As a BCNM, SKDRDP promotes SHGs, helps them to open accounts with the partner bank, processes their loan documents, disburses loan cash (and savings withdrawals), collects repayments (and deposits), and monitors their overall performance. SKDRDP offers banking products (in this case savings accounts and credit) to SHGs, on behalf of partner banks, through a network of field sub-agents. The interest rates charged by banks is around 12%, to which 5% fee of SKDRDP gets added to make loan available to SHG and its members at around 17%, making the model completely sustainable. Part of the fee is paid to the BC-NGO at the time of disbursement and the balance on recovery of loan. Similar model is now being increasingly used by many banks for increasing their SHG portfolio and at the same time ensuring that quality of portfolio is not contaminated by huge NPAs. ICICI Bank, Yes Bank, Bank of Maharashtra, IDBI Bank are some of the front runners in this regard. The banks generally use the hub and spoke model of lending. Branches of banks or dedicated verticals act as hub and the NGO-BCs or federations act as spokes. In most cases the banks coopt the NGO-SHPIs to act as agent/ BC for SHG lending.

8.3.1.2 SHG Federations promoted by Chaitanya are arranging loan to their constituent SHGs through BC/ agency of Yes Bank, ICICI and IDBI Bank. Chaitanya SHG Federation is the service provider. It has the role in identification, training, promotion and nurturing of SHGs. They also identify such of the groups who fulfil the eligibility criteria of the bank and recommend the SHGs to the bank. The groups are also helped to complete the loan application procedure. After the bank financing, the federation continues to monitor, ensure the end use, nurture the SHGs and also supports the bank in recovery.

8.3.1.3 Advantages of BC/ agency channel to Banks

Financing SHGs through BC/ agency channel offers a great value proposition to Banks in outsourcing their work of credit and financial penetration to the unserved segment of the society in a sustainable and profitable manner. The collaborative arrangement is a potentially viable endeavor to serve the bottom of pyramid with more efficiency. Contrary to individuals acting as BCs, the NGOs, SHPIs and SHG Federations acting as BC offers more conveniences as they have already established themselves in microfinance operations in underserved areas. The positive benefits of engaging with such institutions are their reach to an established client base underserved through banking channels through a network of skilled and experienced field staff / community resource persons. While NGOs / SHG Federations are not permitted to provide saving services on their own, they are better placed for mobilizing savings of the poor on behalf of the bank because of the trust earned by them.

YES Livelihood Enhancement Program (YES LEAP)

YES BANK has been developing innovative business models to reach out to "The Next Billion'' customers. YES Bank implemented innovated process solutions to cater to excluded population in rural and urban India through YES Livelihood Enhancement Program (YES LEAP) in Sept 2011 – an initiative to create savings linked credit accounts through a Self Help Promoting Institutions (SHPI) network. Bank appoints potential SHPI as BC after detailed due diligence. YES LEAP has reached to over 2 million women via about 1.5 lakh Self Help Groups spread across 19 states and 250 districts of the country as on March 31, 2016. As on March 31, 2016, the portfolio outstanding of YES LEAP is about ₹ 1,578 Cr and cumulative disbursements are about ₹ 3,987 Cr. The repayment rate has been consistently high at about 99.7%.

Such hi-touch and many times technology based models of dealing with SHGs provides immense potential to reduce transaction cost of banks in banking with SHG. While innovative technology solutions may be used for capturing field data, making faster appraisal, monitoring account balances, tracking loan repayments, sending communication to the groups, etc., frequent monitoring of large number of SHG accounts would be done by the BC. Moreover, the arrangement would be decongesting the bank branch as the SHGs are not required to go to the branch for banking operations. An efficient use of BC agents has the potential to save the business time of bank staff, which would be gainfully utilized to focus on other high value transactions. Many NGO BCs/ agents operate on a computerized system for maintaining data and furnish the necessary MIS to banks. BC/ agent model of reaching the SHGs has reignited the interest of many banks in SHG bank linkage programme as they are able to increase the credit flow to SHGs without earmarking their resources substantially. The recovery rate of SHG portfolio under almost all such BC models has remained very high with negligible stressed assets. As the cost of the BC/ agency services is borne by the SHG and not the bank, this acts as a booster for the banks to adopt the model for successful credit penetration in SHG sector at the same time making it a business proposition. Some of the financing banks have also created dedicated teams for this kind of intervention.

8.3.1.4 Drivers for NGOs/ SHG Federations as BCs/ agents

NGOs / SHG Federations are deeply embedded in the rural landscape and are highly connected to the rural society due to various projects and ongoing or past programmes. Most of them have functioned as SHPIs in the past and have helped in the formation and nurturing of SHGs in their area of operation. They themselves are generally are unable to access bulk loans from banks for on-lending to SHGs uninterruptedly and repeatedly because of various limitations. As a BC or agent of banks, they can facilitate credit reach to their SHGs without worrying for funds raising themselves. The NGOs/ federations due to their deep connect with the SHGs are also able to imbibe financial discipline among SHG members and are able to ensure timely repayments to banks. BC commission or agency fee takes care of the transaction costs of these agencies. As a BC partner of banks, they may also help their constituents/ SHG members to avail other financial services including savings, insurance, etc.

8.3.1.5 Willingness to Pay for Conveniences

The arrangement of BC channel enables the SHGs in remote areas to access appropriate banking services and ensures their financial inclusion. Even though BC channel puts additional interest burden on SHGs' bank credit, borrowers see value in the hassle free door step services offered by BCs, free from botheration of improper documentation and repeat visits to bank branch thereby saving on travel cost and time. It is observed that SHGs are willing to pay for the efficiency of services, functionality and convenience offered through the BC channel.

8.3.1.6 Some issues and potential

There is good scope for engaging NGOs/ SHG Federations as BCs/ agents for increasing the outreach of banks for credit linkages. The model also has great potential to enlarge its scope and deliver diverse products and services to the SHGs. The model can be strengthened by banks with proper product design to offer value added products/services such as remittance services, recurring/ fixed deposits, insurance services, utility bill payments etc. This will enable close engagement of NGOs with the community and access to a bouquet of products to SHGs and higher level FI activity. Tackling commission payment related problems is another urgent issue to be addressed for long term sustainability of the model.

8.3.2 SHG member as BC: Bank Sakhi Model

8.3.2.1 The Pilots: In 2012, the Rural Financial Institutions Programme (RFIP), a joint NABARD-GIZ programme, decided to start pilots connecting the two dots i.e., enmeshing the bank agents and the community by appointing SHG members as agents. The RFIP engaged itself in two pilot projects. The first pilot project was rolled out in May 2013, with the Gramin Bank of Aryavart (GBA) in Unnao District of Uttar Pradesh (UP). Second pilot project was started in Indore District of Madhya Pradesh (MP) in May 2014 with Narmada Jhabua Gramin Bank (NJGB). In both the projects, banks have partnered with a local SHG Federation, a corporate BC and a technology service provider.

8.3.2.2 Methodology: Women members of local SHGs were appointed as BC agents called Bank Sakhis (friends of Bank). The strategy involved partnership with local community institutions such as SHPIs, Federations and Gram Panchayat members in selection of a SHG member to work as Bank Sakhi. As official agents they entered into a formal agreement with the Corporate BC to deliver financial services on behalf of the bank. They were trained on ICT based financial inclusion using classroom training modules and continuous handholding support provided by RFIP team and community volunteers appointed by SHG Federation. These Bank Sakhis conduct bank transactions leveraging affordable technology in the eco-system of SHGs with an objective of widening and deepening of financial inclusion in unbanked / under banked villages.

8.3.2.3 Benefits

The pilots emerged as a win-win strategy for customers, Bank Sakhis and Banks. It benefitted villages customers through provision of the banking facilities as and when needed at the doorstep. They were not required to travel to far off bank branch for conducting their transactions. Govt. payments routed through CSP made it further relevant for the rural society. On the other hand, Bank Sakhis with average 500 transactions earned up to INR 5000 per month as a commission from BC and BF activities. Bank Sakhis also gained in terms of social recognition and self-esteem as bank's representative.

The banks were the largest beneficiaries. The issue of dormancy and trust applicable to corporate BC were easily addressed. Bank Sakhi, being a SHG member was already having adequate financial literacy and knowledge of bank products and has evolved socially to interact with bankers and others. Training on banking products and use of technology to them was easier. Bank Sakhi, being a resident of the area continued the work and also garnered high trust among the villagers. The Bank Sakhi project has led to expansion of financial services to the door step with very limited cost. Many villagers were keen to open basic accounts through the Bank Sakhis. The bank was able to reduce its transaction cost substantially. The operational cost for the coverage of some operational areas had reduced by 70 to 90%. Outsourcing also reduced the footfalls in the branches and created a space for the branch staff to improve services for other sectors and tap high value business.

8.3.2.4 Mainstreaming

After the completion of the RFIP project in December 2015, the pilot projects are now owned by the concerned banks as a part of their corporate strategy. The pilots have shown the way to other banks how to use the CSP model for business development through a member of the community level organisation. Some banks have started implementation of the model on a larger scale. NABARD has issued a detailed circular as regards mainstreaming of the model to all Scheduled commercial banks and RRBs and offered support for capacity building, orientation of stakeholders, etc. to banks from FIF.

9. Emerging Microfinance Landscape in India-post SFBs[1]

9.1 Microfinance had never been a static phenomenon. In its initial days it operated within the confines of NGO space, dependent more on grant funding and donor agency support. Gradually it entered the mainstream financial sector discourse. Time has not withered Marguerite Robinson's classic definition of Microfinance, "Microfinance refers to small-scale financial services for both credits and deposits — that are provided to people who farm or fish or herd; operate small or microenterprises where goods are produced, recycled, repaired, or traded; provide services; work for wages or commissions; gain income from renting out small amounts of land, vehicles, draft animals, or machinery and tools; and to other individuals and local groups in developing countries, in both rural and urban areas". (Robinson, 1998)

Often the term is limited to the narrow definition of 'microcredit for microenterprise'. However, microfinance, in theory and in practice, includes a wider range of services. It represents something more than microcredit; microfinance is the provision of a broad range of financial services such as deposits, loans, payment services, money transfers, and insurance to the poor and low-income households and to their microenterprises through a wide variety of institutions. This definition reflects a growing recognition that poor people need and use financial services beyond credit to expand their choices and better manage their financial lives.

In India, the National Bank for Agriculture and Rural Development (NABARD) has defined microfinance as the "provision of thrift, credit and other financial services and products of very small amounts to the poor in rural, semi-urban or urban areas for enabling them to raise their income levels and improve living standards" (NABARD, 1999) While exclusively covering the poor, it lays emphasis on graduating borrowers from the pre-microfinance stage to the post-microfinance stage with the support of financial and non-financial services. Thus, while the definition of microfinance may be 'minimalist' the intent is to support what may be described as a microcredit plus approach.

9.2 The Early Days

Microfinancing by 'non-formal' financial organisations already had tentative beginnings by the time NABARD initiated the pilot project for Self Help Group-Bank Linkage in 1992. The earliest instance of microfinance in India can be traced to the initiatives undertaken for providing banking services to the poor women employed in the unorganised sector of Ahmedabad city in Gujarat through the SEWA Bank, set up as an urban cooperative bank in early seventies. Since then the bank has been providing banking services to the poor and self-employed working as hawkers, vendors, domestic servants etc. This model has not been replicated elsewhere in the country, though the Working Women's Forum (WWF) started promoting working women's cooperative societies in Tamil Nadu since 1980. Annapurna of Pune and Shreyas in Kerala were other similar initiatives.

The Savings and Credit Groups experiment of MYRADA was later supported by NABARD and emerged as the crucible of its pilot project for linking banks with self-help groups (SHGs) This pilot evolved into a regular lending programme as an outcome of the recommendations of the RBI's Working Group on NGOs and SHGs (RBI,1996). The number of SHGs expanded exponentially with governments' poverty alleviation programmes using them as the base as in Kudumbashree of Kerala or Velugu in Andhra Pradesh. Thus the SHG-Bank Linkage Programme has expanded at a fast pace in India to evolve into the largest microfinance programme in the world, and undoubtedly, it is the main microfinance programme in India.

Microfinance in India is not confined to SHGs alone. There are also microfinance institutions (MFIs) operating in the country following a variety of credit methodologies. The work of these institutions commenced around the same time as the SHG-Bank Linkage Programme was evolving. Many of them were inspired by the Grameen Bank in Bangladesh and the innovations taking place in Latin America. Voluntary agencies and Non-Governmental Organisations (NGOs) undertook financial intermediation as a part of larger social good. Majority of these NGOs were registered as a Trust or a Society. Many NGOs have also helped SHGs to organise themselves into federations and these federations were performing non-financial functions like social and capacity building activities, facilitate training of SHGs undertake internal audit, promote new groups. In the initial phase these NGO-MFIs received funding support from NABARD to incubate their ideas and innovations. Initially, while these institutions were strong on social and community capacity building, they were inexperienced as far as financial management issues were concerned. However with the growth in their operations they had to acquire financial management skills by capacity building and systems improvement. The establishment of SIDBI Foundation for Micro Credit (SFMC) in 1999 gave a further fillip to the sector.

9.3 Evolution of MFIs

The NGO-MFIs by their charter are non-profit organisations and as a result faced several problems in borrowing funds from higher financial institutions. Many NGOs felt that combining financial intermediation with their core competency activity of social intermediation is not the right path. It was felt that a financial institution including a company set up for this purpose does a better banking function. Further, if MFIs are to demonstrate that banking with the poor is indeed profitable and sustainable, it has to function as a distinct institution which makes profit. As the institutions grew and expanded their operations, gradually they converted themselves into Non-Banking Financial Companies (NBFCs). This form offered MFIs the scope for functioning as financial institutions regulated by the central bank. NBFCs are companies registered under Companies Act, 1956 and regulated by Reserve Bank of India.

While the larger MFIs graduated to become NBFCs, an overwhelming majority of the MFIs are operating on a smaller scale with clients ranging between 100 and 1500 per MFI. Some of the larger MFIs also desisted from converting themselves into NBFCs as they were philosophically wedded to the concept of microfinance being a not-for-profit activity. Some NGO-MFIs started setting up Not-for-Profit Companies for their microfinance operation.

Some State Governments have enacted the Mutually Aided Cooperative Societies (MACS) Act for enabling promotion of self-reliant and vibrant cooperative societies based on thrift and self-help. MACS enjoy the advantages of operational freedom and virtually no interference from state government. Some MFIs working on principles of cooperation got themselves registered under MACS Acts. However MACS Acts now exist only in a handful of states, with many states repealing them or watering them down. Few MFIs are Cooperative Societies or Cooperative Banks under regular Cooperative Societies Acts.

After the crisis in the Microfinance sector in Andhra Pradesh in 2010, RBI set up a Sub-Committee of its Board (Malegam Committee) to go into the issues relating to the sector. Based on the recommendations of the Malegam Committee, RBI came up with a range of guidelines to ensure the orderly growth of the sector. One element of these guidelines was the introduction of new category of NBFCs-the NBFC-MFI. Based on fulfillment of certain norms RBI would designate an NBFC undertaking microfinance business as an NBFC-MFI.

Hitherto there was no authentic data on the number of MFIs operating in India. The estimates by various sources ranged anywhere from 300 to 800. To overcome this issue Sa-Dhan started bringing out the 'MFI Directory' from the year 2014 onwards, with verified data on each MFI. As per the latest version of this directory there are 223 MFIs functioning in the country. These function under a variety of legal forms (Table 9.1).

Table 9.1 : No. of MFIs in India

Legal form	No. of MFIs
Society	78
Trust	19
Section 8 (Sec 25) Company	29
MACS/Cooperative	12
Local Area Bank	1
NBFC	13
NBFC-MFI	71
Total	**223**

Source: Sa-Dhan (2016)

Of these 223 institutions only 28 MFIs have a client outreach of more than 2.5 lakhs. 45 MFIs have client coverage between 50,000 and 2.5 lakhs. The remaining 150 are relatively small catering to a clientele of less than 50,000, each. But these small institutions cover poorer clients in remote geographies and they are crucial for financial services to underserved populations.

The basic hindrance for the rapid growth of microfinance relates to the issue of accessing public deposits. Deposits from the public are less volatile and more cost-effective sources of funds than alternative sources such as refinance from second-tier institutions, lines of credit from banks or funds from donor agencies. A reliable funding source like savings can expand loaning operations and hence also benefit poor borrowers. Microfinance institutions expanding their activities to accept public deposits would imply that suitable regulatory and supervisory mechanisms by the central banks have been put in place in those countries. Institutions receiving public deposits need to be regulated and supervised by the central banks for superintendence of financial entities as well as the existence of supportive legal framework. Absence of such enabling environment in many countries has stunted the growth of MFIs into full-fledged financial institutions.

Over the last three decades a small number of successful MFIs have built up sufficient financial strength and managerial capability to allow them to become commercial banks. While Grameen Bank in Bangladesh has a special regulation which authorizes its working, PRODEM in Bolivia and K-REP in Kenya had to necessarily transform themselves into full-fledged commercial banks to enable them to access public deposits. Later, Bolivia enacted the law on private financial funds which enabled MFIs to access public deposits. Many countries in Asia, Africa and Latin America followed suit with regulations for the microfinance sector. In South Asia, Bangladesh came up with regulations and set up the Microcredit Regulatory Authority (MRA) in 2006. Pakistan has a specialized law for Microfinance Banks (MFBs), Microfinance Institutions Ordinance and Prudential Regulations for MFBs.

In India, the Task Force on Regulation of Microfinance was of the view that since SHGs do not access public savings, there is no need for specific regulation for these entities. As the deposit taking NBFCs are already regulated by RBI, any MFI desirous of accessing public savings should evolve into a deposit taking NBFC and get itself registered under the relevant statutes. All other MFIs should subject themselves to their own Self-Regulatory Organisations (SROs) (NABARD, 1999). Similar views were expressed by the Vyas Committee, which recommended that while the MFIs may continue to work as wholesalers of microcredit by entering into tie-ups with banks or apex development finance institutions, more experimentations have to be done to satisfy about the MFI model. Such experimentation needs to be encouraged in areas where banks are still not meeting adequate credit demand of the poor, especially the rural poor. In regard to offering thrift products, the Committee felt that, while the NGO-MFIs can continue to extend microcredit services to their clients, they could play an important role in facilitating access of their clients to savings services from the regulated banks. As regards allowing NGO-MFIs to access deposits from public/ clients/members the Committee considers that in view of the need to protect the interests of depositors, they may not be permitted to accept public deposits unless they comply with the extant regulatory framework of the RBI. As no depositors' interest is involved where they do not accept public deposits, RBI need not regulate such MFIs (RBI, 2004). After this there were two attempts at microfinance regulation aimed at regulating the institutions and at the same time enabling them to access public deposits. Microfinance Regulation and Development Bills were placed before the 14th and 15th Lok Sabhas but could not pass the muster of the parliamentarians.

9.4 Groundwork for Small Finance Banks

Concurrently there were demands from the microfinance sector for allowing them to convert to full-fledged banks or limited banks. Initially not much heed was paid to these demands. But in the meanwhile, the intellectual grounds for meeting these demands were being laid. The Rajan Committee opined that there was sufficient change in environment to warrant experimentation with licencing of small finance banks. It recommended allowing entry to private well governed deposit taking small finance banks offsetting their higher risk from being geographically focused by requiring higher capital, a stricter prohibition on related party transactions, and lower allowable concentration norms (GoI, 2007). Further the Mor Committee suggested two broad designs for differentiated banks in India-the Horizontally Differentiated Banking System and the Vertically Differentiated Banking System based on building blocks of payments, deposits and credit (RBI, 2014). RBI was thus in the process of expanding the banking space to ensure greater financial inclusion. It came out with guidelines on licencing of new banks in February 2013. In November 2014 RBI issued guidelines for the setting up of Small Finance Banks and Payments Banks.

Small Finance Banks (SFBs) would essentially undertake basic banking activities that include: accepting deposits and lending to under-served sections. SFBs can also take up other non-risk sharing simple financial services activities, with prior approval of RBI. They can also become a Category II authorised dealer in foreign exchange business and set up subsidiaries to undertake non-banking financial services activities. They would be required to extend 75 % of credit to priority sectors as against 40 % prescribed for commercial banks. While 40 % of the credit will have to be allocated under different sub-sectors mandated under priority sector lending (PSL) guidelines, balance of 35 % will be towards one or more subsectors of PSL in which the SFB has competitive advantage. The maximum exposure to a single entity and group would be restricted to 10 % and 15 % of its capital funds respectively. Further, in order to ensure that the bank extends loans primarily to small borrowers, at least 50 % of its loan portfolio should constitute loans and advances of up to ₹ 25 lakh. Reserve Bank received 72 applications for setting up of SFBs. On 16 September 2015, RBI granted in-principle approval to ten entities to start Small Finance Banks valid for 18 months to enable the applicants to comply with the requirements under the guidelines and fulfil other conditions stipulated by RBI. Eight of the ten grantees are NBFC-MFIs, one is a Local Area bank and the last one is an NBFC. All these institutions are already working in the ‘small finance’ space and SFB is a natural graduation process for them. The performance of the sector in extending financial services to the marginalised and neglected sections of the society enabled it be the frontrunner in the SFB race.

While the range of products offered as MFIs was limited, as SFBs these entities will be able to extend their product range in terms of savings, credit, insurance, remittances etc. and also increase the ticket size of their offerings. In addition they will have the freedom to add many new innovative products. Those entities which display a significant ability to innovate, both on liability and asset side products, with extensive use of technology will acquire the edge as successful niche banks. In a way SFBs will cater to the segment of clientele which was encountering ‘the missing middle’

9.5 Raison d’être for Microfinance

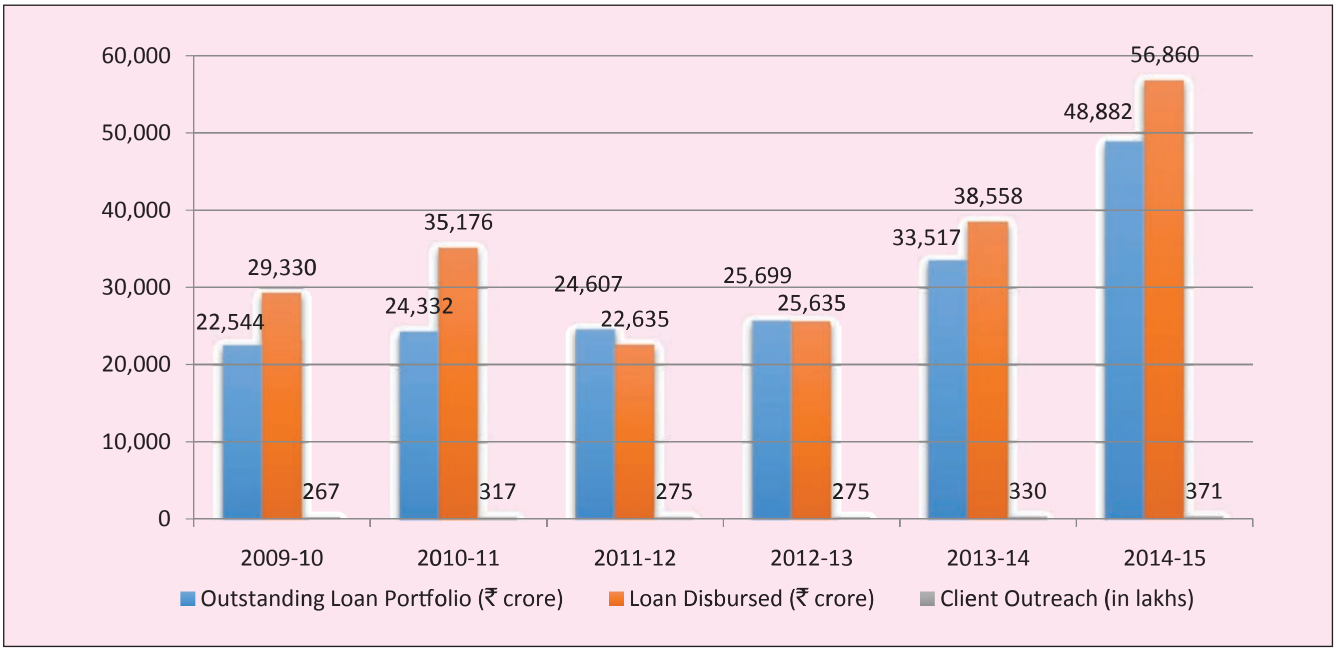
While the crisis in Andhra Pradesh was indeed a dampener on the steady growth of the MFIs’ loan portfolios and client outreach, with a tighter regulatory oversight and operational guidelines framed by RBI, the sector stabilised. Added to this were the industry’s own efforts in improving the systems and processes and a tighter self-enforcement of code of conduct. The growth trends as indicated in the Table 2 below confirm that the sector is bouncing back.

Table 9.2: Growth in Microfinance Sector

Sl. No	Year	Outstanding Loan Portfolio (Rs crore)	Loan Disbursed (Rs crore)	Client Outreach (in lakhs)
1	2009-10	22,544	29,330	267
2	2010-11	24,332	35,176	317
3	2011-12	24,607	22,635	275
4	2012-13	25,699	25,635	275
5	2013-14	33,517	38,558	330
6	2014-15	48,882	56,860	371

Source: Sa-Dhan (2015)

Figure 9.1: Growth in Microfinance Sector



The data for the year 2015-16 based on audited financial statements is still being consolidated. However provisional figures indicate to an outstanding loan portfolio of ₹ 68,496 crores as on 31 March 2016. Of this amount the 8 SFB licensees account for a portfolio of ₹ 23,553 crores. This implies that on a standstill basis the MFI sector portfolio would reduce to ₹ 44,943 crores once all these eight institutions become SFBs, indicating a contraction of nearly 35 %. The provisional estimate of clients served by MFIs for the year ending March 2016 was 476 lakhs, out of which nearly 135 lakhs are being served by would-be SFBs. While the lending philosophy and methodology of each of the SFBs would be for them to decide upon, few of them would be able to continue with the present systems of unsecured group lending. As such a huge space is about to be created for medium and small MFIs to expand their operations. Opportunity also opens up for not-for profit MFIs, i.e. NGO-MFIs, Mutuals/Cooperatives and Section 8 Companies. The trajectory of growth of MFI sector since 2010 is an indication of the absorption capacity and potential for such type of lending.

This potential opportunity calls for a vigorous role to be played by the development finance institutions. It may be recalled that in the initial years of setting up of MFIs in their NGO-MFI form it was NABARD which assisted them with grant support and Revolving Fund Assistance (RFA). Later NABARD helped a number of MFIs with quasi-equity and subordinated debt instruments from Micro Finance Development and Equity Fund (MFDEF). Similarly SIDBI supported the growth story of MFIs through its SIDBI Foundation for Micro Credit (SFMC). The India Microfinance Equity Fund (IMEF) later supported MFIs, especially the medium and smaller ones with equity and quasi-equity. Such pioneering roles may be required to be played again in nurturing a newer set of institutions to take their places in the space vacated by the SFBs. Of course MUDRA with its total focus on microenterprise has to hand-hold and facilitate the development process of smaller MFIs and not-for profit MFIs as they are the ones who operate in remoter locations and with the more underserved populations.

The establishment of Small Finance Banks also opens up another window of opportunity for reinvigorating the SHG-Bank Linkage Programme. We are aware that there is greater enthusiasm for SBLP from smaller institutions like RRBs, DCCBs and smaller banks than from bigger banks. This phenomenon would apply to SFBs also. Moreover as eight of them (nine, if you include Capital) are from the microfinance stable, they would be more positively inclined for SHG linkage. While all of them operated on the JLG methodology, some of them worked on the SHG model also. Strategic partnerships with them for SHG-Bank Linkage Programme have the potential to take SBLP to greater heights in the next couple of years.

The setting up of Payment Banks would also give a further fillip to the microfinance sector. Partnerships between MFIs and Payment Banks can ensure that MFIs' clients can avail of financial products other than credit from the latter. Additionally the cash and remittance management services of MFIs can be taken care of by the Payments Banks. RBI's discussion paper on Peer to Peer (P2P) lending also opens up a window for some MFIs with technology wherewithal to transform themselves into P2P players for the microfinance segment. Institutions like Kiva and Rang-De are already working in this area, but there is a scope for a number of other institutions to enter this niche.

9.5 Conclusion

As in other financial services models the microfinance model also has evolved over the last two decades. Both the indirect SHG model and the direct MFI model have facilitated a number of clients to graduate to become clients of mainstream financial institutions. But this graduation process was neither seamless nor automatic. The establishment of Small Finance Banks makes this process smoother. While increasingly a large number of clients will be served by mainstream banks (including SFBs), for unsecured credit products of small volumes, there is no alternative to the microfinance sector. This is proved by the existence of microfinance services in one form or other even in advanced economies like USA and Europe. Suffice to state that microfinance sector would also be evolving with the use of technology, especially mobile and other digital platforms. There could be systems and process innovations which could transform the manner in which the microfinance services are provided-both in the SHG and MFI modes.

India is a country in which stone-age tribal communities and twenty-first century condominiums cohabit. Bullock carts and bullet trains are contemporaries. Likewise even in the financial services sector, despite expansion taking place with increased outreach of mainstream institutions through a range of technology platforms and novel institutions like small finance banks and payments banks coming into being, the niche area for microfinance will continue to exist, not only till the complete eradication of poverty, but even beyond that. In the nook and corner of the country NGO-MFIs, for-profit MFIs, Self Help Groups will keep up their activities, providing services to the needy as long as they are demanded. In this gigantic effort, the spectrum of stakeholders is contributing its mite to nurture and strengthen this institutional infrastructure so that financial services reach the last person in the remotest corner of the country. As Voltaire said *'Tout est pour le mieux dans le meilleur des mondes possible'* (Everything is for the best of all possible worlds).

"Verifiable social collateral and hands on financial literacy to groom the members of SHG-BLP are worth emulation by all the programs designed for alleviation of poverty. Positive trends in savings and borrowings by group members foretell the future prospects of the resilient SHG movement. Dreams of poor are our future business so let's work to make them come true."
