SAFETY CONDITIONS OF THE CONTRACT

As part of the contract, the contractor must satisfy the under mentioned safety requirements and must ensure at all time that these are followed without any deviation.

A. GENERAL

1. Smoking and chewing pan are prohibited NBSC/BIRD Campus.
2. For any job involving welding, soldering, lighting of flames, use of heat source or temporary electrical connection, prior permission of NBSC's/BIRD's engineer shall be taken before execution of the same. No job involving heat sources are permitted to be carried out after office hours and on holidays/Sundays without prior permission.
3. It is entirely the responsibility of the contractor to see that safety appliances such as safety belts, life lines, helmets, rubber gloves of appropriate voltage (1100V) rating etc., depending on the job demand, are made available to his staff at contractor's cost. If the contractor needs any suggestion on the mater, they may approach engineers of NBSC/BIRD for the same. Any lapse on safety will be viewed seriously.
4. The contractor shall ensure that the persons posted for the work are well conversant with the operation of fire extinguishers.
5. The contractor shall take all precautions to avoid accidents and causes of accidents. He must be careful regarding safety during working of his staff in the premises.

B. SAFETY PRECAUTIONS FOR PORTABLE ELECTRICAL APPLAINCES

Precautions in handling portable electrical appliances are more significant under monsoon conditions. Some likely situations are highlighted here for contractor's attention and action to ensure that conditions and methods of usage conform to the safety of personnel and property.

1. Broken sockets/pin plug /loose connections: These conditions cause sparks which lead to fault conditions or electrical shock situations. Wires shall not be directly inserted into the sockets as the earth lead of the equipment inserted into the phase socket may give shock to the operator.
2. Polarity of phase/neutral and earth: Certain appliances like Poroscope may give violent electrical shock during work if polarity conditions are not satisfied.
3. Joints in flexible cables: Usage of portable appliance is such that electrical and physical integrity of joint may be suddenly affected, leading to severe sparking and fire if combustible / inflammable materials are present near the joint. Sometimes this may not be noticed by the operator at all.
4. Appliance body grounding and system grounding: In absence of or ineffective appliance body grounding, operator may receive severe shock in case of phase to earth fault during usage. All earth pins in sockets must have low impedance and mechanically firm earthling according to Indian Electricity Rules/BIS 3043 so that safety is assured to operators even under fault condition.
5. Water leakage: Water reduces efficiency of insulation depending upon exposure. Presence of moisture on ordinary switches may give a shock during operation, switches in chronic leakage areas should preferably be de-energized until the rectification is done.
6. Excavation/Addition/Alteration of the Buildings: During excavations, alterations of the building etc. every care shall be taken that electric shock or damages to cables, are avoided. De-energisation of circuits must be considered whenever required.

We/I agree to the safety conditions and to ensure compliance with the same fully.
