FOREWORD

It is with great pleasure that I present our annual 'Status of Microfinance in India' for the year 2023-24. Introduced from 2006-07 onwards, this publication has provided valuable insights and comprehensive data on the progress of microfinance in our country. The collaborative efforts of Commercial Banks, Regional Rural Banks, Cooperative Banks, SROs, MFIs, and various other stakeholders have been instrumental in its compilation.

With the active collaboration of banks, State Governments, NRLM and SHPIs, the SHG-BLP has continued to make significant strides. This year, the programme has reached 17.75 crore households, with 144.21 lakh SHGs savings linked, out of which 77.41 lakh SHGs are credit linked. Bank loans outstanding as of 31 March 2024 stood at ₹2,59,663.72 crore, registering an average of ₹3.35 lakh per SHG. The microfinance sector has also reached loans outstanding of ₹4.09 lakh crore with a growth of 16% as on 31 March 2024.

Despite the encouraging progress, challenges such as regional imbalances in SHG savings and credit linkage persist, while the overall credit linkage gap of 46% remains a concern, despite a 44% increase in loan disbursements during FY 2023-24.

The Govt. of India has rightly launched the Lakhpati Didi Scheme for matured SHG women as a step towards women led development in rural areas which needs to be owned by all key stakeholders. NABARD, in turn, has embarked on several pioneering pilots this year. The Graduated Rural Income generation Programme (GRIP) aims to uplift the ultra-poor through a returnable grant concept, fostering asset generation and a toehold to formal financial services for the hitherto unserved rural ultra-poor women. Another initiative, the Money Purse Application pilot, seeks to digitalize SHG transactions, providing real-time banking solutions at the doorstep of SHG members. The M-Suwidha scheme focuses on microenterprise development for women through skill upgradation and strategic end-to-end interventions. Additionally, a landmark MoU with the National Rural Livelihood Mission (NRLM) was signed to synergize efforts in promoting women-led development in rural areas, ensuring capacity building, and enhancing financial inclusion for SHG members. NABARD's scheme introduced for physical marketing and e-marketing support for SHG/JLG/PO products has witnessed good progress as the number of SHGs/JLGs/POs onboarded to ONDC is steadily going up. These innovative pilot projects are set to significantly boost the demand side of microfinance sector in India and calls for strong supply side support by FIs and banks.

I extend my heartfelt gratitude to banks and all other stakeholders for their cooperation in promptly providing informative data and look forward to their continued cooperation in the future too. I am confident that this publication will continue to serve the requirements of practitioners and policymakers, offering insights and guidance in pursuit of sustainable and inclusive growth in the microfinance sector.

CHAPTER 1

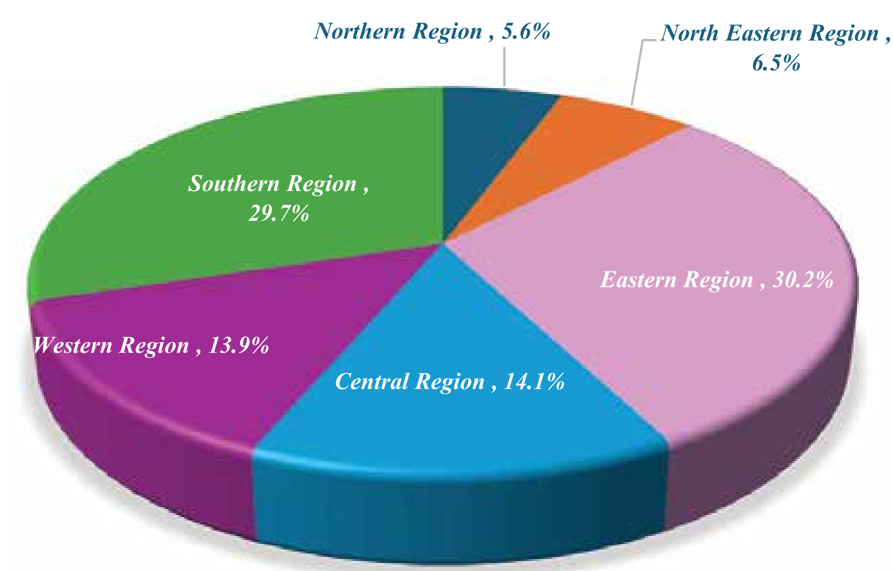
REVIEW OF SHG-BANK LINKAGE PROGRAMME

The Self-Help Group Bank Linkage Programme initiated by NABARD continues to stand as a beacon of empowerment and socio-economic transformation of rural India. Over the last three decades, it has successfully mobilised millions of rural women at the bottom of the pyramid, to actively participate towards their financial inclusion and empowerment. The programme has nurtured the ethos of self-reliance and collective action among all its stakeholders. Through a combination of financial inclusion, capacity building and social mobilization, SHG-BLP has emerged as an effective conduit for inclusive growth and sustainable development in the rural areas of the country.

1.1. PROGRESS OF SHG BANK LINKAGE PROGRAMME

The proliferation of bank-linked SHGs has demonstrated significant expansion from formation of 255 SHGs in FY 1992 to a staggering 144.22 lakh SHGs in FY 2024. Concurrently, credit disbursement to SHGs surged from ₹29 lakh in 1992 to ₹2,09,286 crore as on 31 March 2024. However, the Y-o-Y growth of savings linked SHGs decelerated from 12.7% during 2022-2023 to 7.6% in 2023-24. The reduction could be due to saturation in SHG formation in the southern states like Andhra Pradesh, Karnataka and Telangana, which is reflected in the lowest credit gap (24.23%) among all the regions.

Fig 1.1 :Region wise share (%) in no. of savings linked SHGs



The overall progress under the SHG-Bank Linkage Programme between 2021-22 and 2023-24 with the banking sector is presented in Table 1.1.

1.2. MAJOR HIGHLIGHTS OF SHG- BLP

Trend in SHGs savings linkage: SHG-BLP covers 17.75 crore families through 144.21 lakh SHGs (83.52% of which are all women SHGs) indicating a growth of 7.6% from the preceding year. In terms of savings amount, a rise of 10.52 % from the preceding year can be observed. This indicates a steady increase over the years, marked by a significant jump from 2021-22 to 2022-23 and a moderate increase from 2022-23 to 2023-24.

Loans disbursed to SHGs: The number of SHGs that availed loans during the year 2023-24 increased to 54.28 lakh from 42.96 lakh in the previous year, reflecting a growth of around 28%. Correspondingly, the amount of loans disbursed in absolute terms also increased by 44% from ₹1,45,200.23 crore (2022-23) to ₹2,09,285.87 crore (2023-24) on Y-o-Y basis. The proportion of loans disbursed to all-women SHGs also increased steadily, albeit marginally during 2023-24.

Loans outstanding against SHGs: No. of SHGs having loans outstanding increased from 69.57 lakh in the previous year to 77.42 lakh as on 31st March 2024, indicating a rise of 11.28%. Correspondingly, the amount of loans outstanding in absolute terms also increased by 38.06% from FY 2022-23. Loans outstanding against no. of all women SHGs increased from 65.15 lakh in 2022-23 to 72.29 lakh in 2023-24, showing an increase of 10.96%. Overall, the percentage of loans outstanding in respect of women SHGs increased from 26.13% in FY 2022-23 to 37.57% in FY 2023-24.

1.3. PROGRESS OF SAVINGS LINKAGE OF SHGS WITH BANKS (2021-22 TO 2023-24)

During FY 2023-24, banks reported an addition of 10.19 lakh savings linked SHGs, marking a growth of 7.6% from the previous year. This growth is attributed to a favourable environment facilitated by the institutional framework under NRLM, self-initiated efforts of SHGs and supportive government policies. Initiatives such as credit guarantee arrangements, priority sector lending targets and Interest Subvention Scheme for Women Self Help Groups under DAY-NRLM have provided significant impetus to the programme.

A region-wise comparison indicates growth in SHG savings linkage across all regions, with the Central region experiencing the highest growth. However, the Southern region saw minimal growth which could be due to program saturation.

Y-o-Y growth in terms of SHGs savings linked during 2023-24, indicates that the NER recorded the highest growth at 19%, primarily attributed to a low base effect. Following NER were the Eastern and Central regions, both showing growth rate of 11%. However, when examining the regional distribution of SHG savings linked accounts as a percentage of the total savings accounts, the Eastern region claimed the largest share at 33%, followed by the Southern region at 30%, and the Central region at 14% during FY 2023-24. The state- wise bifurcation in the number of SHGs savings-linked with banks is detailed in **Statement IIA.**

2023-24	809120	942546	4348798	2031019	2005643	4284778

While most regions saw a gradual increase in terms of the number of SHGs savings linked and savings amount in the last three years, the triennial growth as observed in certain regions, notably the Southern region, is minimal. This might be attributed to the reason that over time, as more SHGs are formed, the potential pool of eligible members may be diminishing, leading to a possible decline in new SHG formation.

However, North Eastern and Eastern regions showed significant growth both, in number of SHGs' savings linked and in savings amount, indicating potential in these areas. This positive engagement and participation in SHG-BLP movement suggests favourable stakeholders' push, supportive government policies, development initiatives and most notably, improved awareness on the benefits of collectivization and institutional credit to strengthen livelihood opportunities.

The potential for SHG formation in the North Eastern and Eastern regions lie in their ability to harness local resources, foster community solidarity, and empower marginalized groups, particularly women. By leveraging these strengths and addressing challenges such as infrastructure gaps and policy barriers, SHGs in these regions can continue to serve as catalysts for inclusive growth and sustainable development.

State wise data indicate that, Maharashtra (16.31 lakh) followed by West Bengal (15.76 lakh), Bihar (12.64 lakh), Tamil Nadu (11.41 lakh), and Andhra Pradesh (10.99 lakh) have remained the top performers in number of SHGs that are savings linked. However, percentage growth over the previous year was highest in Tripura (83.27%), followed by Nagaland (34.44%), and Jammu & Kashmir (20.56%). Bihar witnessed the highest number of 1,53,960 SHGs added during the year, followed by West Bengal at 1,31,465 new SHGs.

Overall, the average per SHG savings at all-India level increased by 14% from ₹39,721 in 2021-22 to ₹45,132 in 2023-24. Region-wise data reveals that the average savings during the year 2023-24 have increased over the previous year in all the regions except the Southern and Western regions. In absolute numbers, the Southern region (₹68,636) continued to have the highest average savings per SHG with the Northern region registering the lowest (₹17,503). Among states/UTs, seven states have average savings higher than the national average during 2023-24. States like Andhra Pradesh followed by West Bengal have the highest cumulative savings amount.

Fig. 1.5 : Region wise average savings per SHG

2021-22 2022-23 2023-24

In terms of triennial growth for the period from 2021-22 to 2023-24, the Northern region experienced a significant decline of 40% in average savings per SHG. The reason for such sharp fall in average savings may be attributed to stagnation in income levels, development disparities, challenges within SHG, asymmetry in data collection method of banks and effective utilisation of corpus fund by the SHGs. However, in all the other regions, a growth rate outpacing the national average of three years (14%) was attained with the North Eastern region (44%) exhibiting the highest growth in terms of average savings followed by Central (28%), Southern (21%), Eastern (18%) and Western (13%) regions.

1.4 CREDIT DISBURSEMENT BY BANKS

In 2023-24, ₹2,09,285.87 crore was disbursed by banks to 54.82 lakh SHGs as against ₹1,45,200.23 crore to 42.96 lakh SHGs during 2022-23, registering a Y-o-Y growth of 44% and 28% in quantum of credit disbursed and number of SHGs credit linked, respectively. The comparative analysis of bank loans disbursed to SHGs in the last three financial years (2021-22 to 2023-24) is given in Table 1.3.

Credit disbursement to SHGs in 2023-24 witnessed an increase across all regions over 2022-23 with the highest growth rate of 68% in the NER followed by Northern and Central regions (54%). In terms of number of SHGs credit linked, Eastern region registered growth of 44%, followed by North Eastern and Central regions (43%).

A comparative analysis of region-wise percentage share in credit linkage of SHGs during the last three years (2021-2022 to 2023-24) reveals that the Southern and Eastern regions continue to lead by consistently disbursing higher quantum of credit and hence acquiring a substantial share in the programme. Similarly, the Northern and North Eastern regions hold immense credit linkage opportunities for the future.

A three-year region wise comparative analysis of number of saving linked SHGs to number of SHGs credit linked indicates a huge gap owing to demand and supply side challenges:

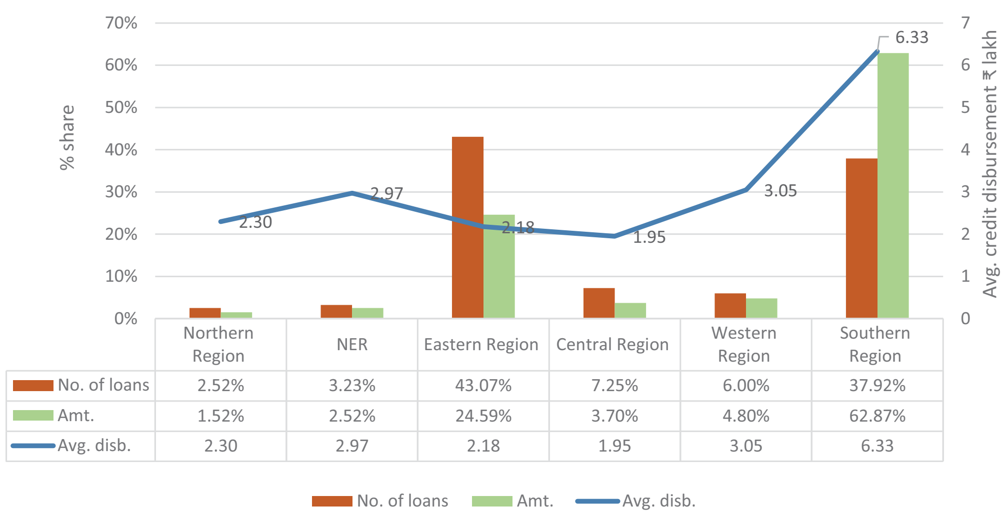
Fig. 1.6: %age of loan disbursed during the last 3 years

Some of the supply side challenges are perception of SHGs as higher risk borrowers due to apprehension on account of credit usage often compounded with higher operational & administrational cost associated with small ticket loans. Additionally, absence of BC network is still a challenge in expansion of formal financial services in rural and remote areas. Demand side issues are lack of adequate financial literacy and business acumen among SHG members for availing higher credit, skill gaps for income generating activities, etc.

It can be observed from the Fig 1.6 that the Eastern and Southern regions continue to play dominant role in credit disbursement. The Eastern region has 43% share in number of SHGs credit linked, followed by Southern region (38%). The Southern region outpaced all regions in amount of credit disbursement with a share of 63%, followed by Eastern region (24.6%).

State wise, Andhra Pradesh (₹59777 crore), Karnataka (₹25253 crore), Telangana (₹20932 crore), and West Bengal (₹20671 crore) are the top performing states in loans disbursement during 2023-24. Correspondingly, in terms of average loan disbursed per SHG, Andhra Pradesh (₹8.8 lakh) tops the list followed by Kerala (₹7.7 lakh) and Tamil Nadu (₹6.7 lakh). The reasons for the favourable growth in these states could be sustained state patronage, presence of quality SHPIs, support of bankers, etc, whereas in states like Uttarakhand (₹ 1.31 lakh), Uttar Pradesh (₹1.58 lakh), Bihar (₹1.63 lakh) loans disbursed were lower than the national average.

Fig 1.7: Regionwise share (%) in credit linkage (No. and Amt) & Avg. credit disbursement (₹ lakh) for the year 2023-24



It can be observed from Fig 1.8 that the ratio of avg. savings to avg. credit per SHG at all India levels is 1:8.46. The same is highest in the Western region (1:13.98) followed by North Eastern and Northern regions (1:13) and lowest in the Eastern region (1:4.4). However, the savings reported by banks are the amount of savings reflected in the savings account as on 31st March 2024 and not the actual corpus of SHGs.

1.5 CREDIT OUTSTANDING

As on 31 March 2024, a total of 77 lakh credit linked SHGs had loans outstanding of ₹2,59,663.73 crore with per SHG loan outstanding amounting to ₹3.35 lakh at the all-India level. The Southern region leads in terms of the amount outstanding vis-a-vis number of SHGs credit linked, followed by the Eastern and Central regions. The Northern and Central regions have relatively lower amounts of loans outstanding compared to the Southern and Eastern regions, indicating potentially lesser economic activity or smaller loan sizes.

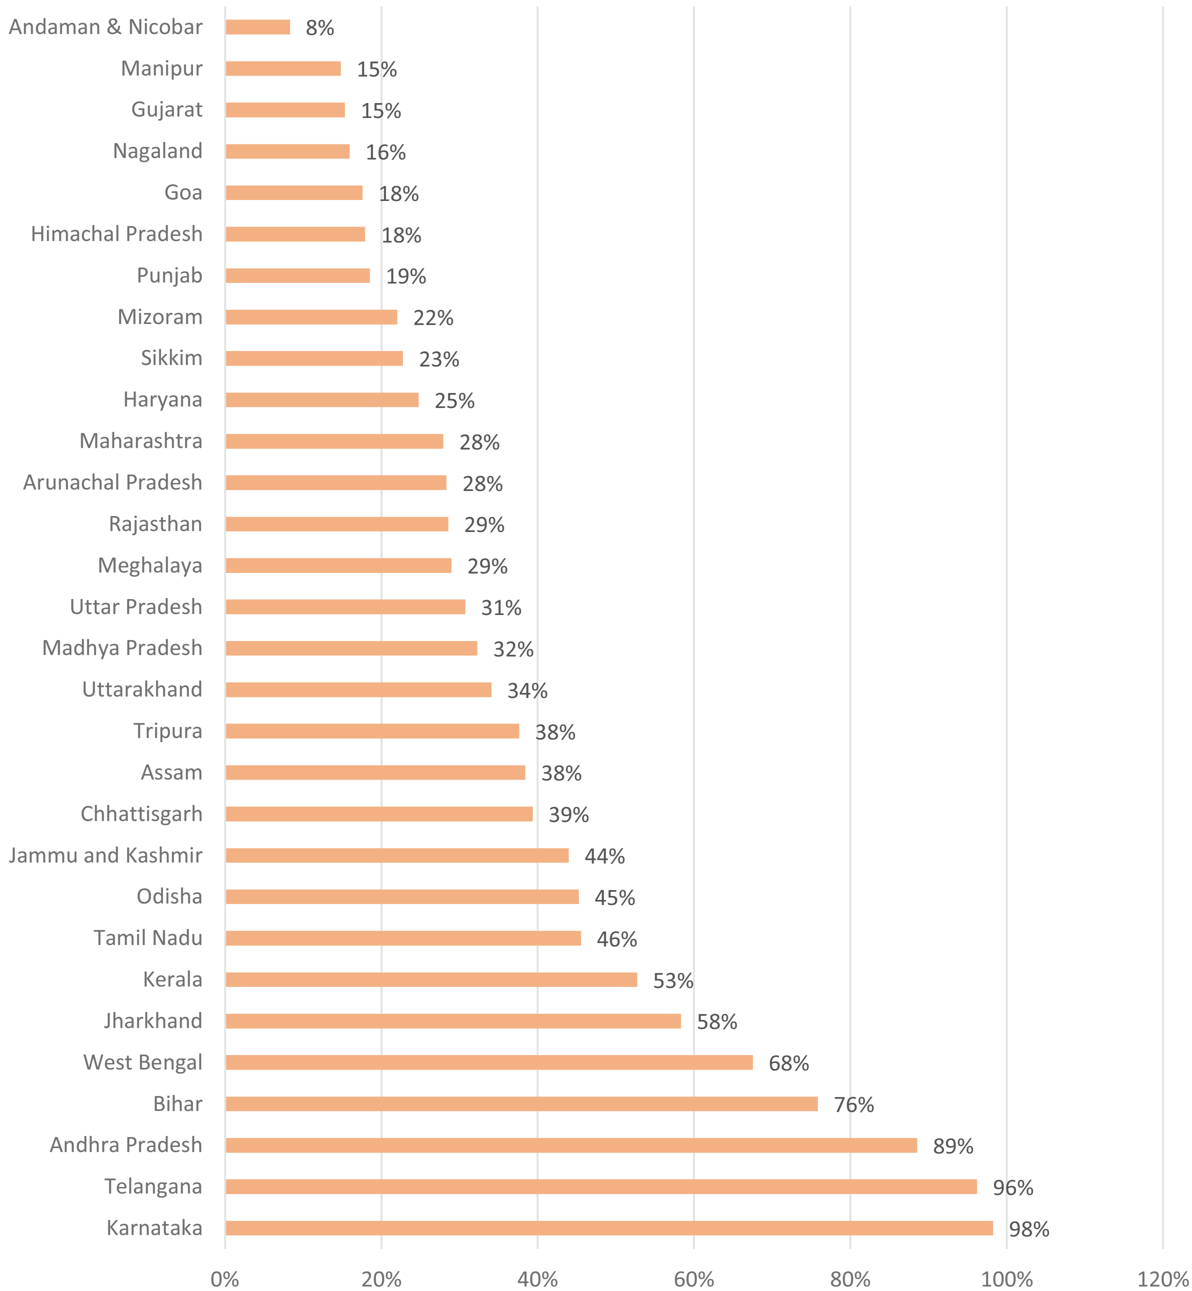
West Bengal has the highest number of SHGs credit linked followed by Andhra Pradesh, Bihar, and Karnataka. In terms of total loans outstanding, Andhra Pradesh tops the list followed by Telangana and Karnataka.

Overall, out of 144.22 lakh SHGs savings linked, 53.68% SHGs have loans outstanding with banks. Six states have credit linkage percentage higher than the All-India average with Karnataka leading with 98% of its SHGs having loans outstanding, followed by Telangana (96%), Andhra Pradesh (89%), Bihar (76%), West Bengal (68%) and Jharkhand (58%). This indicates that SHG-BLP may have reached its maximum potential in some states, while it continues to hold potential in other states, from the viewpoint of credit linkage. The state-wise credit linkage status of SHGs as on 31 March 2024 is depicted in **Statement II C.**

The All-India average loan outstanding per SHG as on 31 March 2024 reached ₹3.35 lakh from ₹2.70 lakh, registering a growth of 24%. It was the highest in Andhra Pradesh (₹8.46 lakh), followed by Telangana (₹5.43 lakh), Tamil Nadu (₹4.19 lakh), Goa (₹4.16 lakh) and Kerala (₹4.01 lakh). In UTs like Daman and Diu and Dadar & Nagar Haveli, Chandigarh and Andaman, less than 10% of savings linked SHGs are credit linked.

Fig 1.9: State wise % of credit linked SHGs (As on 31 March 2024)



The Southern region had the lowest credit gap of 24% against the all-India status of 46% and if the credit linkage of the Southern region were to be excluded, the credit gap at all-India level will rise to 56%. Likewise, the average loans outstanding per SHG will drop from ₹3.35 lakh to ₹1.94 lakh, with the exclusion of the Southern region.

1.6 AGENCY WISE DISTRIBUTION OF SHG BANK LINKAGE PROGRAMME

Commercial Banks, RRBs and Cooperative Banks play a pivotal role in SHG-BLP through provision of savings and credit services. The Agency-wise status of SHG-BLP is given in Table 1.5.

1.6.1 AGENCY WISE DISTRIBUTION OF SAVINGS LINKED SHGs

Commercial banks with their extensive network and outreach, financial strength and technological advancements have performed exceedingly well with over 88 lakh SHGs having savings accounts with them followed by RRBs and Cooperative Banks.

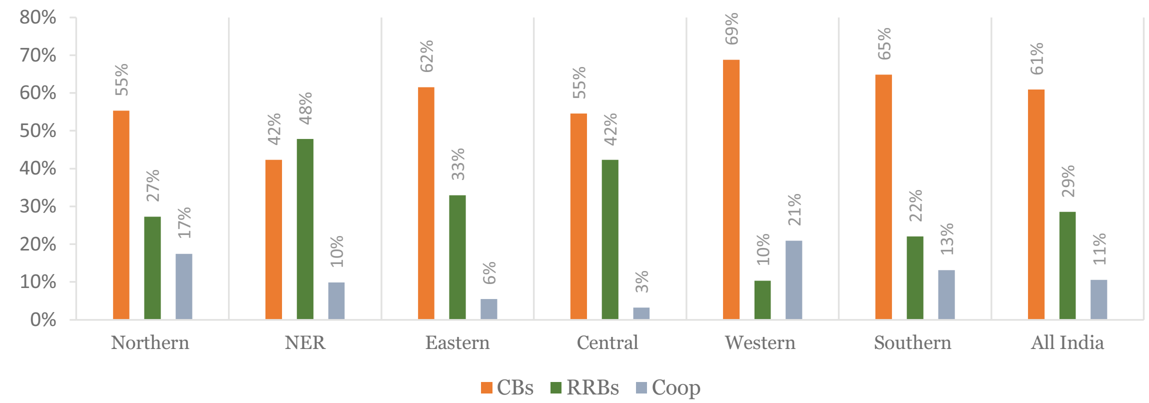
In terms of loans disbursement, commercial banks lead with 61% followed by RRBs (35%) and Cooperative Banks (4%). Among the commercial banks, State Bank of India has the highest number of savings-linked SHGs at 13.39 lakh i.e. 18.15% of total savings-linked SHGs of Public Sector Commercial Banks, followed by Union Bank of India (12.88%). Private Sector Commercial Banks together have 14.09 lakh savings linked SHGs, mainly contributed by ICICI Bank (5.83 lakh) and HDFC Bank (3.23 lakh). Among the RRBs, Assam Gramin Vikas Bank has maximum savings linked SHGs at 3.30 lakh, followed by Uttar Bihar Gramin Bank (3.07 lakh). Agency-wise details of savings outstanding of SHGs as on 31 March 2024 are given in Statement IA.

Fig 1.11:Regionwise, Agencywise share (%) of agencies in savings bank accounts



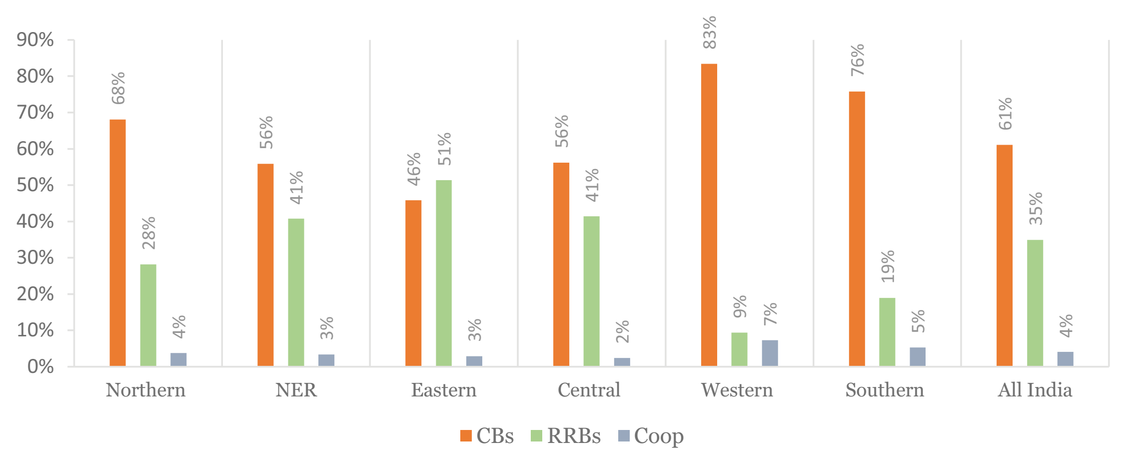
It can be observed from Fig 1.11 that commercial banks have the highest share in savings-linkage of SHGs across all regions except the North Eastern region. Against the share of 61% of the savings linked SHGs at all-India level, commercial banks had the maximum spread in the Western region (69%) and a minimum (42%) in the North Eastern region. RRBs had the highest share in North Eastern Region (48%) followed by the Central region (42%). Cooperative banks in the Western (21%) and Northern (17%) regions had a sizable share in savings linkage of SHGs.

1.6.2 AGENCY WISE CREDIT DISBURSEMENT TO SHGs DURING 2023-24

Agency -wise details of loans disbursed to SHGs during the year and loans outstanding are given in Statement- IB and Statement- IC, respectively. As regards disbursement of loans and loans outstanding, commercial banks, again dominate with a significant share of 68% in the loans disbursed during the year. Among the Public Sector Commercial Banks, State Bank of India has the highest number of credit-linked SHGs at 10.12 lakh i.e. 35% of total credit -linked SHGs during the year, followed by Union Bank of India at 3.92 lakh. Of the Private Sector Commercial Banks, maximum credit linkage of SHGs at 2.07 lakh was reported by HDFC Bank. Among RRBs, Andhra Pradesh Gramin Vikas Bank had a maximum of 1.32 lakh credit linked SHGs during the year, followed by Saptagiri Gramin Bank at 65,195 SHGs.

It can be seen from Fig. 1.12 that commercial banks in the Western (83%) and Southern regions (76%) have maximum share in credit linked SHGs during the year. In these regions, the share of RRBs was reasonably lower compared to the share of RRBs (35%) at all-India level. However, RRBs in the Eastern Region dominated with 51% share followed by Central and North Eastern regions (41%) in credit linked SHGs. Except for the Western region, Cooperative banks in other regions had a share at less than 5% of credit linked SHGs during the year.

Fig. 1.12: Regionwise, Agencywise share (%) of agencies in credit linked SHGs during 2023-24



1.6.3 AGENCY WISE AVERAGE CREDIT DISBURSEMENT TO SHGs

It can be seen from Fig: 1.13 that there was substantial variation in average credit disbursement to SHGs by Cooperative banks. In the Southern region, Cooperative banks provided a higher quantum of average credit at ₹7.05 lakh as against ₹0.96 lakh in Central region. Moreover, in the Southern region, all agencies provided credit at a relatively higher average range of ₹6 lakh to ₹7 lakh per SHG. Except in the Southern region, the average per SHG credit disbursement by RRBs in other regions was in the range of ₹1.8 lakh to ₹3.2 lakh. In North Eastern Region, RRBs provided the highest average credit at ₹3.22 lakh per SHG compared to other agencies.

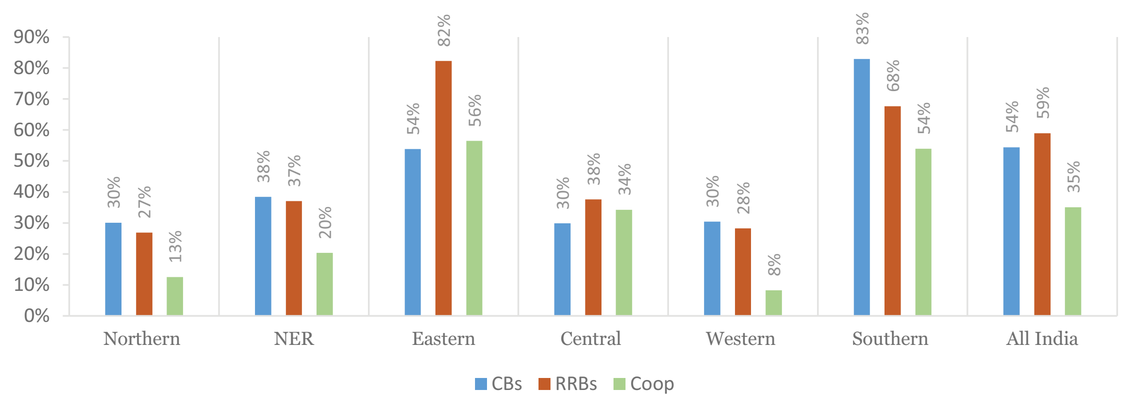
1.6.4 AGENCY WISE LOANS OUTSTANDING AGAINST SHGs

Of the total bank loans outstanding against SHGs, commercial banks held the highest share at 68% followed by RRBs at 25% and cooperative banks at 7%. As can be seen from Fig. 1.14, in the Southern region, commercial banks' share of loans outstanding was 83% of SHGs savings linked and thus had a credit gap of only 17%. Similar is the trend observed for RRBs in the Eastern region, where 82% of savings linked SHGs have loans outstanding. Credit gap was found to be high for all agencies in the Northern, North Eastern, Central and Western regions. Cooperative banks in the Eastern and Southern regions registered a comparatively better percentage of SHGs credit linked at 56% and 54% respectively.

Fig 1.14: Regionwise, Agencywise % of SHGs having loans outstanding as on 31 March 2024



Cooperative banks had a comparatively smaller share both in loan disbursals and credit outstanding in respect of SHGs which may be attributed to factors such as limited capital and resources, prioritization of other sectors, etc.

1.6.5 AGENCY WISE AVG. SAVINGS, AVG. CREDIT DISBURSEMENT AND AVG. LOANS OUTSTANDING

As given in Table 1.6, the average savings of SHGs with banks increased in respect of commercial banks and RRBs but declined by 36% for Cooperative banks. Average loan disbursed during the year has increased by 44% for cooperative banks, followed by commercial banks by 13.10% and RRBs by 5.037%. A similar trend was observed under agency-wise average loans outstanding to SHGs.

Among the Public Sector Commercial Banks, Punjab and Sind Bank registered the highest average savings per SHG i.e. ₹2.25 lakh (although, they had only 16 savings linked SHGs) followed by Indian Bank at ₹0.91 lakh and Union Bank of India at ₹0.86 lakh.

Canara Bank registered the highest average loan disbursed per SHG at ₹6.8 lakh, followed by ₹6.3 lakh by Union Bank of India. Among the private commercial banks, Karnataka Bank at ₹12.30 lakh had the highest average loan disbursement per SHG. Among RRBs, Chaitanya Godavari Grameen Bank at ₹11.02 lakh had the highest average loan disbursed per SHG followed by Telangana Grameena Bank at ₹9.70 lakh and Andhra Pragathi Grameena Bank at ₹8.42 lakh. The average loan outstanding per SHG has increased for all agencies with the highest percentage increase in respect of Cooperative banks.

Agency wise analysis of credit gap indicates that Cooperative banks had highest credit gap at 65%, followed by commercial banks and RRBs at 46% and 41% respectively. Maximum credit gap in Public Sector Commercial Banks was observed in case of Bank of India (83%), followed by UCO Bank (78%). State Bank of India performed excellently on this front and had the minimum credit gap of just 9%. Among the RRBs, Saurashtra Gramin Bank had the highest credit gap of 90%, followed by Arunachal Pradesh Gramin bank (87%), Manipur Rural Bank and Himachal Gramin Bank (both at 85%).

1.7 NPAs IN SHG-BLP

At the national level, NPAs under bank loans to SHGs as on 31 March 2024 declined to 2.05 % from 2.79% as on 31 March 2023 (Table 1.7 & Fig. 1.15). A decrease in NPAs could be seen across all regions in FY24. The absolute level of NPA decreased in the Northern, North Eastern and Eastern regions.

Region wise comparison of NPAs indicates that the Eastern (1.50%) and Southern (1.90%) regions had NPA levels below the national average of 2.05%. The North-Eastern region at 2.10% saw a significant improvement in NPA as a percentage of loans outstanding over the previous year. However, the Northern (4.09%) and Central regions (6.00%) continued to exhibit high NPA levels as a percentage of loans outstanding.

2023-24	4.09	2.10	1.50	6.00	3.46	1.90	2.05

NPA levels have reduced across commercial banks, RRBs and Cooperative banks during FY 24 with the reduction being most significant in Cooperative banks from the NPA level of 6.15% as on 31 March 2023 to 4.7% as on 31 March 2024. This notable decrease in NPA percentage, particularly from 2021-22 to 2023-24, indicates the efforts of the banks towards improving asset quality and ensuring loan repayments. Similarly, commercial banks and RRBs demonstrated a consistent decrease in NPAs as a percentage to loans outstanding over the years.

1.8 ROAD AHEAD

Overall, the SHG-BLP has facilitated substantial savings mobilization and credit disbursement among women SHGs. While it has made significant progress across all regions, notable regional variations persist. There is, hence, a pressing need to further enhance the outreach of the SHG-BLP to the underserved and marginalized communities, particularly in remote and ultra poor areas. Strengthening grassroots-level mobilization, conducting targeted awareness campaigns, investing in capacity-building initiatives for SHG members and sensitization of supply side stakeholders are essential to ensure the programme's inclusivity.

One of the country's priorities is to push for 'Nari Shakti', espousing a shift from women's development to women-led development. For resource poor rural women, SHG-BLP as a tested platform for economic empowerment can be further strengthened by developing sustainable business models, customised to the varying capacities of SHG women with suitable business mentoring and support of banks. SHG women can also be guided to look beyond their traditional livelihood activities to higher value livelihood options such as the services sector, etc.

CHAPTER 2

MFI OPERATIONS IN INDIA

2.1 INTRODUCTION

The foundation laid by SHGs in developing a credit culture was leveraged significantly by MFIs by forming smaller groups purely from the point of view of extending micro credit instead of following the SHG-BLP process. The microfinance sector, therefore, consists of JLGs borrowing microfinance loans from Private Sector Commercial Banks, SFBs, NBFC-MFIs, NBFCs and Non-Profit Organisations, etc.

The first MFI institution was launched in 1996 and thereafter several MFIs were established under various legal structures, the major ones being Non-Banking Finance Companies regulated by RBI. The delivery channel adopted by MFIs was mostly the Joint Liability groups of 4 to 10 members. RBI approved bank lending to such Microfinance Organisations vide their Circular No.PL.BC. 94/04.09.01/98-99 dated April 24, 1999. Further, as per Circular NO.PL. BC. 62 /04.09.01/99-2000 dated 18 February 2000, RBI also allowed banks to choose their own model(s) or choose any conduit/intermediary for extending micro-credit and such micro credit extended to individual borrowers directly or through any intermediary was considered as part of their priority sector lending.

In recent years, the industry has experienced significant surge. Banks, NBFCs, and SFBs now account for around 60% of the sector's market share, reflecting their increasing role in microfinance. This shift is accompanied by increased client credit demands for various purposes, including consumption loans, income-generating activities, MSME, housing, education, water & sanitation, health, and agriculture.

2.2 RECENT DEVELOPMENTS

Over the years, the industry has evolved and become more systematic, with the first regulatory framework issued by the RBI in 2011 and several versions of the Industry Code of Conduct formulated by Self-Regulatory Organizations (SROs). RBI also came out with several regulatory guidelines such as scale-based regulation for NBFCs, outsourcing of Information Technology Services, digital lending, provisioning and asset clarification, measures towards consumer credit and bank credit to NBFCs, Compromise Settlements and Technical Write-offs, Implementation of Indian Accounting Standards (Ind AS), etc., which have strengthened the regulated entities in the sector. The advisories on fair pricing, responsible lending practices, and efficient grievance redressal mechanisms, have enhanced maintenance of transparency and borrower trust in the sector.

Since the microfinance sector was dominated by different players and the 2011 Regulatory Framework was applicable only to NBFC-MFIs, which had a share of around 30% in 2022, the RBI came out with a revised regulatory framework applicable to all regulated entities in microfinance sector, thus harmonizing the regulations between different players. On their parts, the SROs in the sector brought out a Code for Responsible Lending, a voluntary code for all lenders operating in the microfinance sector and provided a level playing field for all lenders operating in the industry.

The major changes brought out by the new regulatory framework, aside from its applicability to all regulated entities in microfinance sector, are, limiting the eligible borrowers to those households with annual income up to ₹3 lakh and loan amount cap with 50% of monthly household repayment obligations from all sources, freedom to the Boards of lenders (REs) to decide on business policies such as a loan policies, pricing and training, etc, and enhancing the non-qualified assets of MFIs up to 25% of total assets, among others.

During 2023-24, it is seen that since all lenders are now brought under uniform guidelines, the market share of banks has reduced, while that of NBFC-MFIs has grown to claim the top spot with the best growth performance. Due to strict guidelines on household income limits and inclusion of all household members for the purpose of repayment obligation calculation at 50% of monthly income, lenders have moved to newer geographies in search of new to-credit clients, on account of increased rejection rates in traditional areas, thus giving an impetus to the financial inclusion agenda. However, the significant presence of lenders and removal of caps on lenders have led to some pockets of indebtedness, which SROs and the RBI are closely monitoring. Another point of attention for SROs is to ensure that interest rates to clients which is now de-regulated are within acceptable limits. There is a general downward swing in interest rates with the easing of COVID concerns and healthier balance sheets of MFIs. But the challenge will continue to remain for mid and smaller MFIs, which often have higher borrowing costs from banks and NBFCs and are often unable to pass pricing benefits to their clients.

The year 2023-24, witnessed the re-entry of microfinance in Andhra Pradesh and Telangana states after a decade as the High Court on 14th February 2023, lifted the restriction on operations of MFIs registered under RBI, by nullifying the Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending), Act, 2011 on the ground that entities being regulated by RBI cannot be governed by state enactments. Currently, around 16 MFIs are operating in Andhra Pradesh. MFIs operating in Assam had a slowdown post the rollout of the relief measures under the Assam Micro Finance Incentive and Relief Scheme 2021 (AMFIRS) for Microfinance borrowers benefiting 2.23 lakh borrowers. The scheme offered incentives to regular payers and waiver of outstanding principal balance of up to ₹25,000, to borrowers whose loan accounts became non-performing assets. The microfinance sector in the state is coming back to business after a lull due to disruptions in recoveries caused by the Government scheme. The sector faced other challenges, such as disruptions in the collection and operation of microfinance activities due to organised campaigns for loan waiver, etc, in some pockets and states.

2.3 PERFORMANCE OF MFIS

The highlights of MFIs operations as on 31 March 2024 are given in Table 2.1.

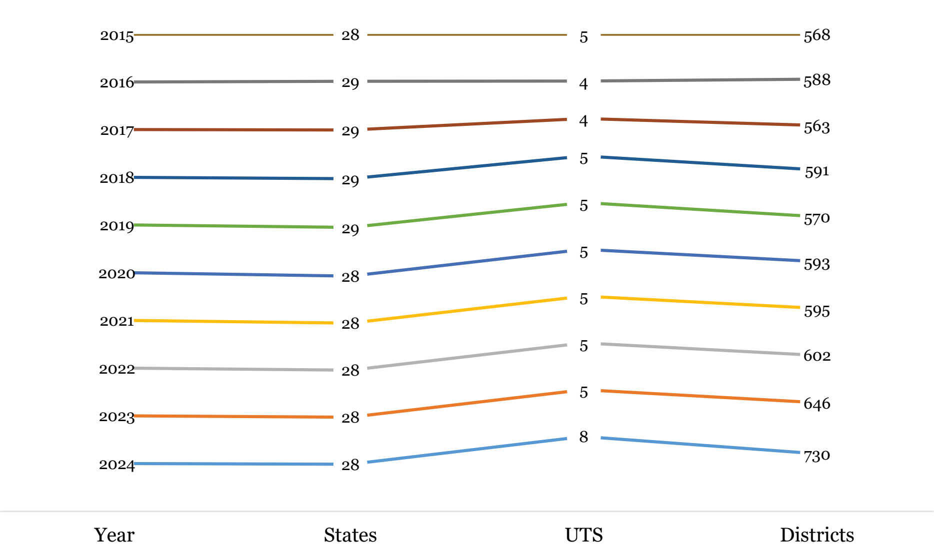
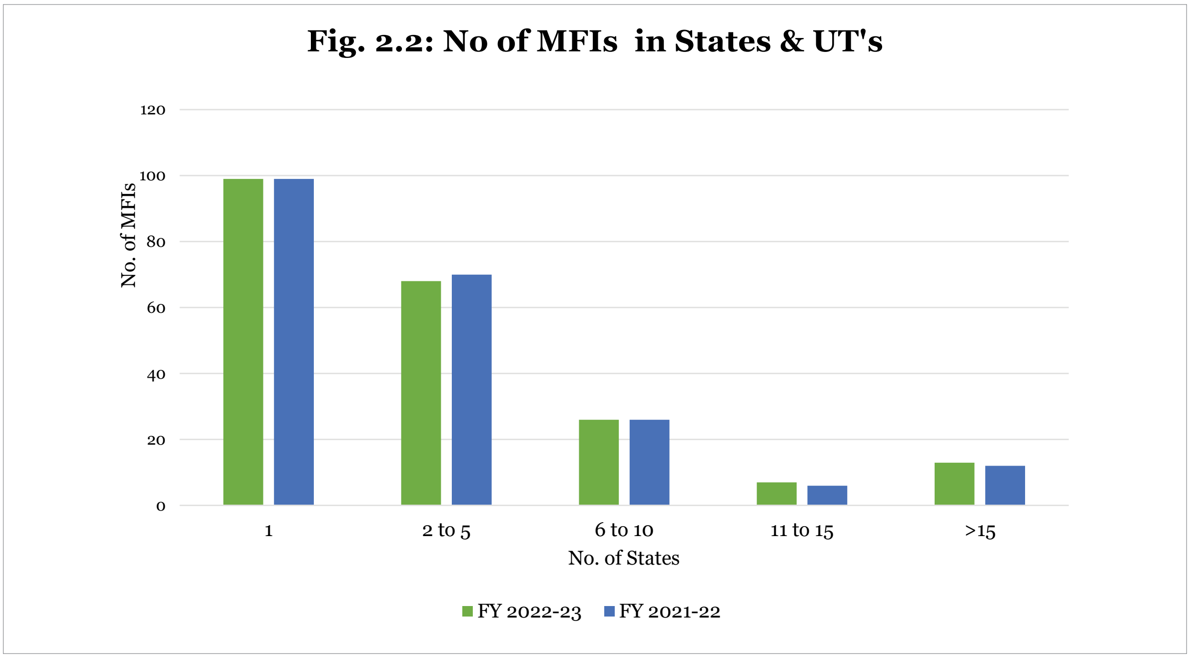
2.3.1 OUTREACH OF MICROFINANCE

a. Geographical Outreach

MFIs currently operate in 28 states, 8 Union Territories and 730 districts in India. Figure 2.1 shows the increase in outreach of MFIs in the last decade from 568 districts to 730 districts. A sharp increase can be observed in the year 2024. Further analysis shows that during FY 2022-23, 13 MFIs were operating in more than 15 states/UTs. Further, 99 MFIs had operations only in a single state/UT indicating that the larger MFIs, mostly NBFC-MFIs, had spread out their operations to more states/UTs, whereas smaller MFIs, especially those in the "Not for Profit" category remained in one or two states.

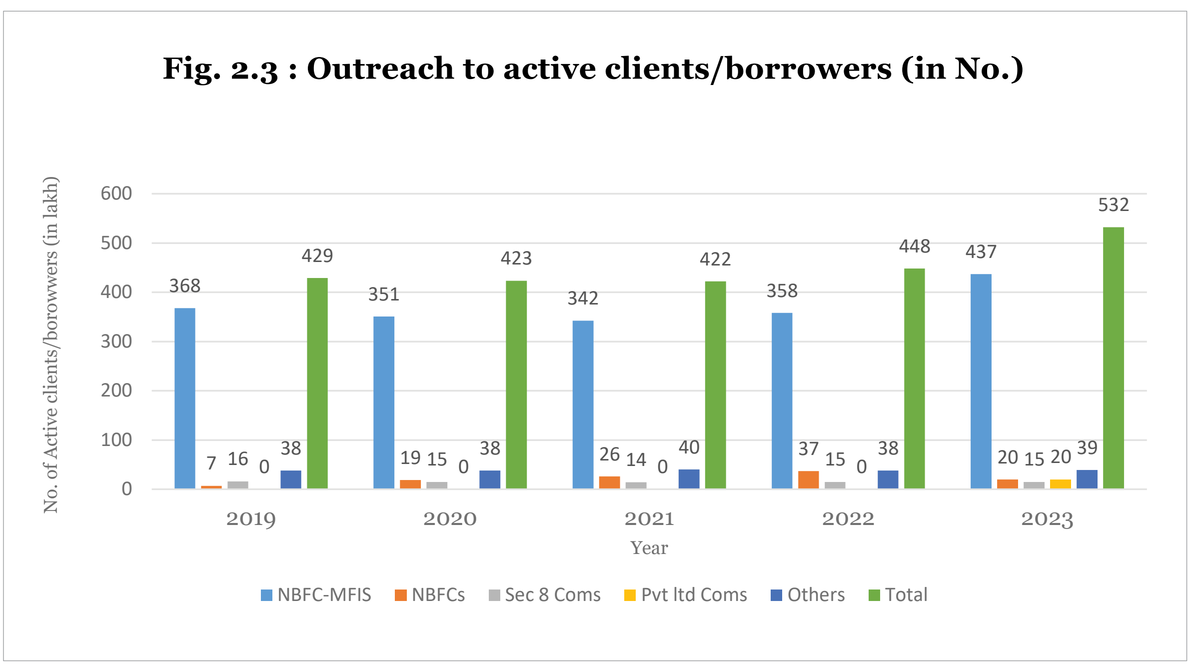
Fig. 2.1: Geographical coverage (in Nos)





b. Client outreach/ Client touchpoints:

Client outreach of MFIs had grown substantially within the last ten years touching 660 lakh from 532 lakh within FY 2023 to FY 2024 and posting a Y-o-Y growth of 24%. The details of clients served by MFIs given in Fig 2.3 indicate a slow but steady growth. Client coverage from the year 2019 to 2021 remained stagnant due to the outbreak of COVID-19 pandemic, but grew from the year 2022 onwards with NBFC-MFIs having the lion's share, followed by NBFCs.



As on March 2023, there were 22,428 branches of MFIs operating in the country, as against 25,790 branches, recording an increase of 15%. The distribution of branches among different categories of MFIs as on March 2023 indicates that NBFC-MFIs had the lion's share of 20,815 (81%) branches. Branches of MFIs are involved in sourcing of loan applications, appraisal, disbursement, monitoring and collections of recoveries.

2.3.2. MFI OPERATIONS

a. Portfolio

As per the data released by Equifax India, the microfinance industry registered a 16% growth in the portfolio for FY 2023-24, as against 21% Y-o-Y growth in the previous FY. Lender wise details are given in Statement XIII-A.

As of 31st March 2024, the combined portfolio of the sector (including banks and SFBs) continues to be on a growth trajectory and has reached ₹4,08,507 crore. Except for Not-for-Profits (NFPs), all lenders' portfolios have recorded double-digit Y-o-Y growth. NBFCs, NBFC-MFIs, SFBs, and banks have posted significant growth of 47%, 17%, 16% and 11%, respectively. The agency wise portfolio outstanding as on 31 March 2024 and 31 March 2023 is given in Table 2.2.

Table 2.2 : Agency wise loans outstanding (₹ in Crore)

Type of lender	2022-23	% share	2023-24	% share
NBFC-MFIs	1,39,632	39.72%	1,63,275	39.97%
Banks	1,20,016	34.14%	1,32,887	32.53%
NBFCs	29,664	8.44%	43,620	10.68%

Total (Industry)	3,51,521		4,08,507	
Avg. Loan per borrower (₹)	**41,369**		**41,369**	

However, based on trend, it can be observed that banks are losing ground as their share in total loans outstanding declined from 43.67% to 32.53% during 2020-21 to 2023-24 (Fig 2.4), which has been taken over by NBFC-MFIs and SFBs. However, during the year 2023-24, the share of NBFC-MFIs and SFBs remained the same as that of 2022-23.

Though microfinance operations are spread over 730 districts, 84% of the portfolio is concentrated in 10 states and 70% in the top 200 districts. Thus, there is a huge scope for widening microfinance operations across the country. The top five states' portfolio is given in Table 2.3.

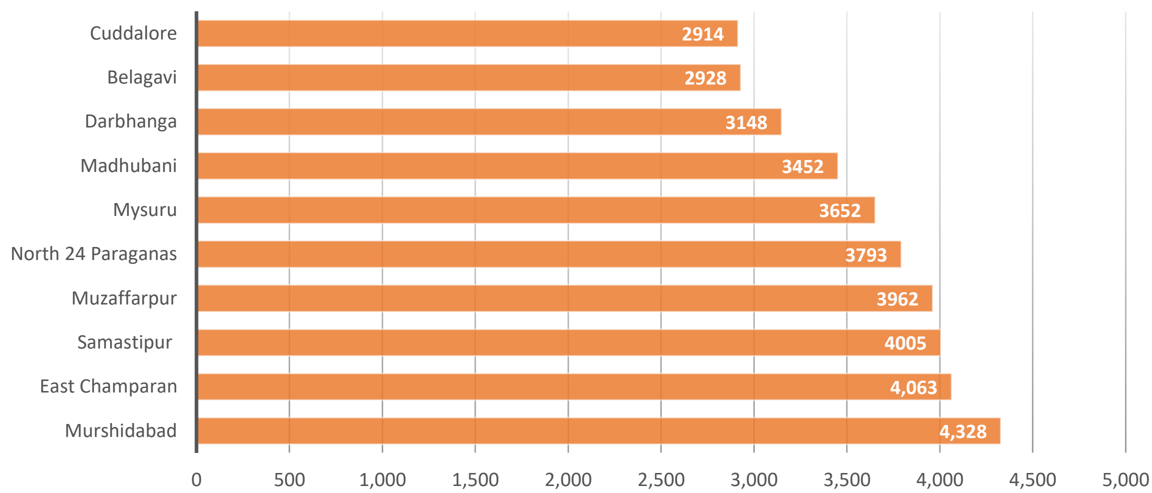
Table 2.3: Top Five States having Loans Outstanding (₹ crore) 31 March 2024

State	Loans O/s as on		% share in total loans O/s	
	31/03/2023	31/03/2024	31/03/2023	31/03/2024
Bihar	49,432	62,488	14.06	15.30
Tamil Nadu	46,921	52,912	13.35	12.95
Uttar Pradesh	33,898	43,605	9.64	10.67
Karnataka	32,271	38,707	9.18	9.48
West Bengal	32,496	38,225	9.24	9.36
India	**3,51,521**	**4,08,507**		

The above-mentioned top five states accounted for approximately 58% of the industry's total portfolio as on 31 March 2024. Among these states, maximum Y-o-Y growth (29%) in portfolio was observed in Uttar Pradesh followed by Bihar (26%). During the year 2024, Karnataka's portfolio marginally exceeded that of West Bengal as compared to the position in FY 2023, while Bihar and Uttar Pradesh have emerged as steady business centres for MFIs during the last 3 years.

As regards district-wise concentrations, there are 34 districts in the country with portfolio size of more than ₹2,000 crore. It can be observed from Fig. 2.5 that out of 10 high concentration districts, 05 districts are from Bihar (East Champaran, Samastipur, Muzaffarpur, Madhubani and Darbhanga), 2 each from West Bengal (Murshidabad, North 24 Paraganas), Karnataka (Mysuru, Belagavi) and one from Tamil Nadu (Cuddalore).

Fig. 2.5: Status of top 10 portfolio districts (₹ Cr)

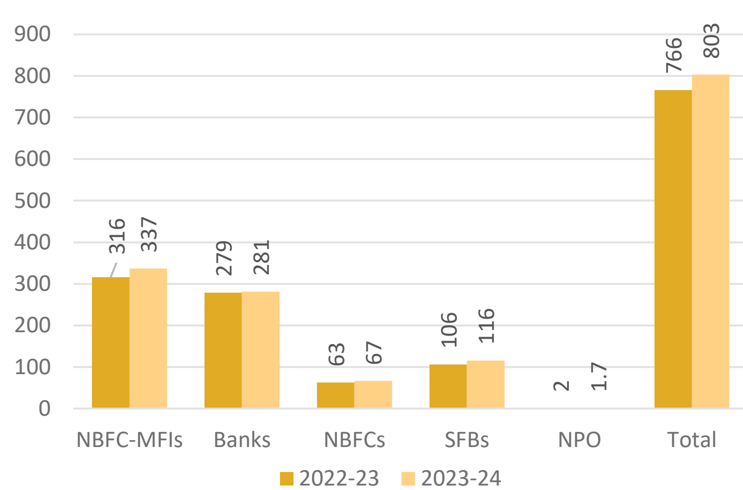


Among these districts, a maximum of 31% Y-o-Y growth was recorded in Murshidabad district followed by Madhubani and Belgavi (30% each).

b. Loan Disbursement:

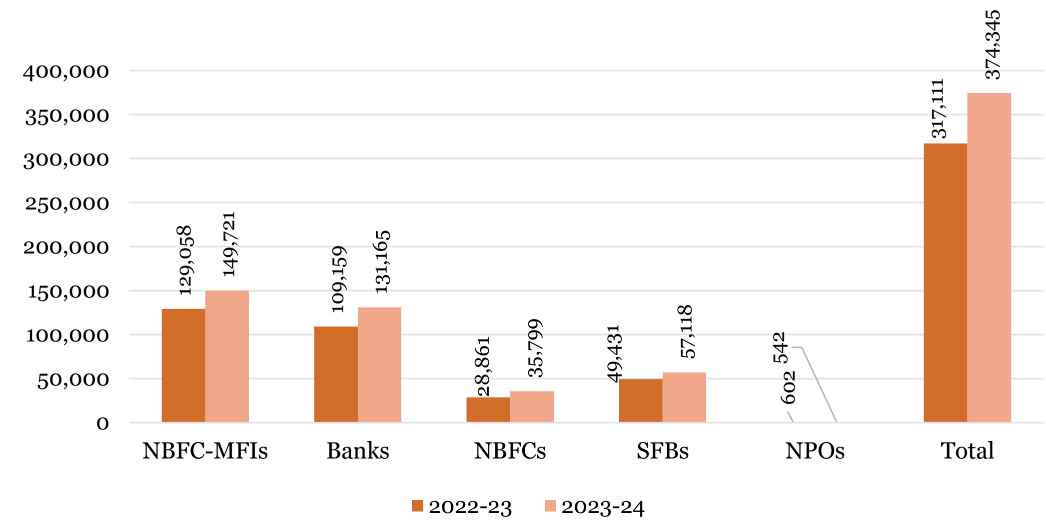
The total number of loan accounts disbursed by all lenders during FY 2024 was 803 lakh,

Fig. 2.6 : No. of loans disbursed (₹ Lakh)



registering a growth of 4.7% compared to FY 2023. Lender wise details are presented in Fig. 2.6. Among the lenders, NBFC-MFIs had the maximum share of 42%, followed by banks (35%). The total disbursement by all lenders during FY 2024 was ₹3,74,345 crore, whereas the Y-o-Y growth in FY 2023 was 18%. NBFC-MFIs had the maximum share of 40% followed by banks (35%), SFBs (15%), NBFC (10%). Also, NBFCs registered the highest Y-o-Y increase in disbursement (24.04%), followed by banks (20.16%), NBFC-MFIs (16.01%), SFBs (15.55%), and NFPs (-10.01%) respectively. Lender wise disbursement details are given in **Statement XIII-B.**

Fig. 2.7 : Disbursement by all lenders (₹ crore)



In terms of disbursement numbers, no change has been observed in the top 3 states for the last couple of years. For FY 2024, Bihar topped the list with ₹61,755 crore, followed by Tamil Nadu (₹47,327 crore) and Uttar Pradesh (₹42,949 crore).

c. Average Ticket Size (ATS):

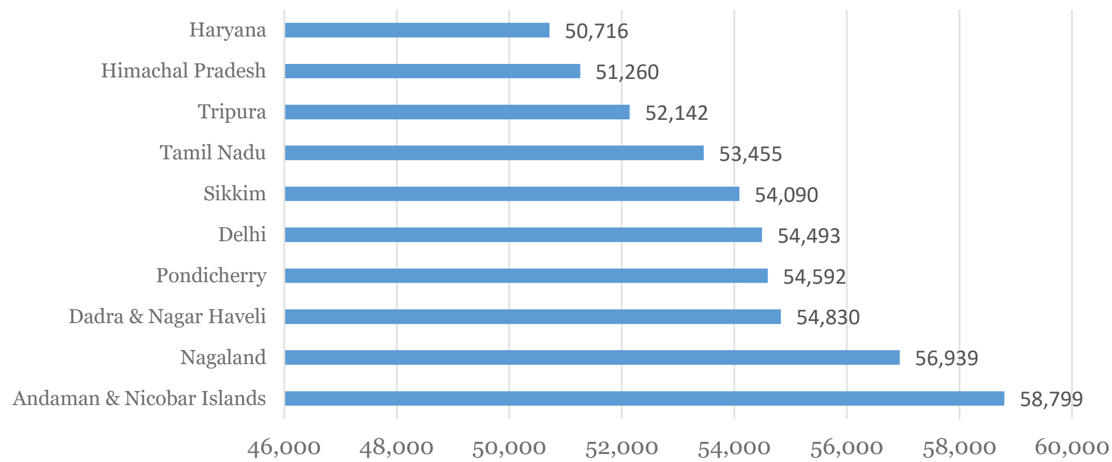
The average ticket size per loan stood at ₹46,636 as on 31 March 2024 as against ₹41,369 as of

Fig. 2.8 : Average Ticket Size (₹)

	NBFC-MFIs	Banks	NBFCs	SFBs	NPOs	Industry
2023	40,833	39,082	45,924	46,511	29,511	41,369
2024	44,377	46,744	53,634	49,130	31,768	46,636

March 2023. The ATS showed an increasing trend across all categories of lenders. The lender-wise average ticket size is given in Fig. 2.8. Overall average ticket size increased by 12.73%. Maximum increase of 19.60% was registered by banks, followed by NBFCs (16.79%). Average loan ticket size in the top ten states is given in Fig. 2.9. It can be seen that except for Tamil Nadu, others are smaller states or UTs.

Fig. 2.9 : Average Ticket Size (₹) - Top 10 states



Although the ticket size range of ₹ 30,000 to ₹50,000 continued to dominate the microfinance portfolio at 46.9%, the ticket size range of ₹75,000 to ₹1,00,000 showed an impressive Y-o-Y growth at 14.7% while the range below ₹30,000 witnessed a fall, as on 31 March 2024[1].

d. Portfolio Quality:

The average PAR 30+ dpd for the sector was at 2.30% with 90+dpd at 1.16% during FY 2024. The overall portfolio quality of the sector slightly deteriorated under all buckets, except for the 180+ dpd bucket in FY 2024, compared to the corresponding quarter of the previous financial year.

Table 2.4: Portfolio at Risk for FY 2023 and FY 2024

PAR level	31 March 2023	31 March 2024
30 + dpd	2.16%	2.30%
60 + dpd	1.67%	1.78%
90 + dpd	1.06%	1.16%
180 + dpd	9.35%	7.65%

Apart from NBFC-MFIs (2.15%) and NBFCs (1.45%), the other lenders had PAR 30+ dpd higher than the industry average of 2.30%. Lender-wise status of PAR for the FY 2023 and FY 2024 is given in **Statement XIII-C.**

The state wise analysis shows that Karnataka (0.79%), Bihar (1.31%), West Bengal (1.39%), Tamil Nadu (2.11%), Odisha (2.18%), and Maharashtra (2.20%) were among the major states/UTs with PAR 30+ dpd levels lower than the industry average of 2.30%. Borrower wise higher lender exposure and higher active loans had a higher delinquency at all the PAR brackets[1]. Lender wise, state-wise details are provided in Statement XIII-G.

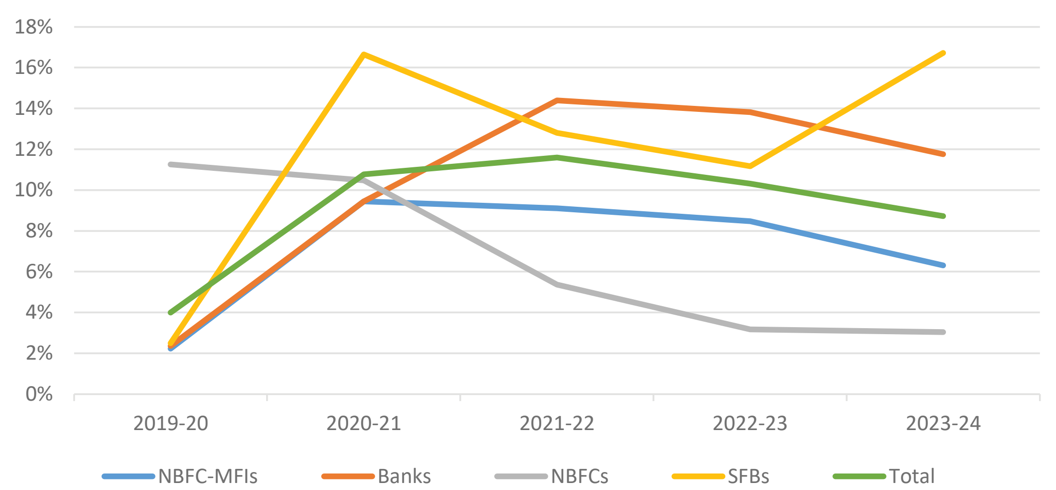
e. NPA Status of MFIs

As may be observed from Table 2.4, the microfinance sector which was hugely affected by the COVID pandemic with increasing NPAs, has since recovered very well in the past two years. The overall NPA of the sector which shot up to 10.8% at the end of March 2021 has come down to 8.72% at the end of March 2024.

Table 2.5: Lender-wise Trend for NPA (%) status:

Lender Type	2019-20	2020-21	2021-22	2022-23	2023-24
NBFC-MFIs	2.23	9.45	9.10	8.47	6.31
Banks	2.36	9.45	14.39	13.82	11.76
NBFCs	11.25	10.48	5.37	3.17	3.03
SFB	2.49	16.64	12.80	11.17	16.72
Not-for-Profit	3.09	9.76	9.55	9.71	39.33
Total	**3.99**	**10.77**	**11.60**	**10.31**	**8.72**

Fig. 2.10 : Lenderwise trend for NPA (%)



[1] MicroLend, Vol. XXVII, March 2024 (CRIF Highmark)

It can be observed from the Table 2.5 and Fig 2.10 that NPAs of the industry are moving towards pre-COVID levels but are still far from attaining the lowest position of 3.99% achieved in the year 2019-20. The performance of NBFCs was the relative best as they recorded the lowest NPAs among all the lenders while NBFC-MFIs and banks showed gradual improvement. SFBs have shown improvement during FY 2022 and FY 2023 but NPAs during FY 2024 increased from 11.17% to 16.72%. Not-for-Profit MFIs, after maintaining NPAs within 10% during FY 2021 to FY 2023, saw a sharp increase to 39.33%. Increased NPAs of SFBs and Not-for-Profit MFIs is hence a cause of concern. The higher NPAs in all these institutions is in the 180+dpd portfolio and are due to the legacy portfolio of pandemic times.

f. Sources of finance for MFIs

Funds are the lifeline of MFI operations, and it is working capital for them. MFIs, therefore, raise funds from various sources. During the FY 2024, all MFIs collectively mobilised ₹91,789 crore. Out of the total funds mobilised, the share of NBFC-MFIs and NBFCs constitute ₹89,134 crore (97%). The size wise analysis indicates that MFIs with portfolio size above ₹2000 crore (Large MFIs) had 85% share and smaller MFIs (portfolio < ₹100 crore) could mobilise only 1%.

The major source of funds for MFIs are banks, non-bank entities and All India Financial Institutions (AIFIs). It can be observed from the Table 2.6 that banks contributed 49% of the borrowings, non-bank entities contributed 32% and DFIs contributed around 10%. Further, in banks' portfolio, share of Private Sector Banks was 63%.

Table 2.6 Flow of funds to MFIs (Amount ₹ crore)

Lending institution	2019-20	2020-21	2021-22	2022-23
Banks	34,895	26,684	36,828	55,234
DFIs	8,832	7,743	8,886	11,315
NBFCs	10,114	15,092	14,983	10,086
Others	3,858	2,035	3,995	36,697

2.4 USE OF TECHNOLOGY IN MFIs

Digital technologies have played a key role in the rapid growth of the microfinance sector and increased penetration of mobile technology has brought multiple benefits such as tracking transactions on a real-time basis. Advanced technologies are being used for verifying and capturing KYC details, geotagging locations as enhanced security measures, end-to-end Loan Origination System (LOS), Loan Management System (LMS) platform through open Application Program Interface (APIs), General Packet Radio Service (GPRS) enabled applications, real-time data transfer to servers, etc.

The pace of technology adoption has been accelerated in the recent past by events in the external environment. It has resulted in MFIs looking at digital collection methodologies using various technologies and tying up with Payment Banks, Payment Wallets, and other payment technologies. Technology usage has accelerated even for customer acquisition, loan processing, monitoring, and the organisation and management of groups while bringing in efficiency, transparency and cost effectiveness. Today, nearly 100% of microfinance loans are disbursed through digital means without the use of cash, and repayments through digital mode, which is around 15% and is gradually growing every year.

2.5 WAY AHEAD FOR MFIs

With nearly ₹6.5 lakh crore outstanding, including both SHG and JLG models, the sector contributes significantly to the growth of this informal sector in the country. As per one of the reports of NCAER, the microfinance sector contributes to around 2.03% GVA of the country and helps in employment generation providing financial services to those excluded from the traditional banking sector, supporting small businesses, empowering women, and fostering economic resilience.

The scope for expansion of micro credit is immense. As pointed out earlier, there is a huge geography within the country where the reach of microfinance institutions is limited or muted.

An area of concern is the fund availability to the MFIs for their operations. While the larger institutions mobilize funds from higher lending institutions or from markets, both domestic and overseas, smaller players suffer the most. The BC model or co lending model is one option for these smaller players. Else, there needs to be some dedicated funding mechanism or facilitating mechanisms like guarantee fund to access funds in a hassle-free manner. There is also a need for growth capital for these institutions, for which some other arrangements are needed in addition to the existing mechanism of the India Microfinance Equity Fund.

With continued efforts to enhance financial inclusion, greater awareness on responsible lending practices, leveraging technology for greater outreach and impact in a cost-effective manner, the sector is poised to achieve newer milestones. The collaborative efforts of stakeholders, including MFIs, banks, government agencies, and civil society organisations, will be crucial for sustaining the growth and relevance of the microfinance sector.

CHAPTER 3

INITIATIVES FOR THE MICROFINANCE SECTOR

During 2023-24, the growth in loans outstanding under SHG-BLP was 38% while gross loan portfolio under MFIs registered a growth of 16.21%. This growth has primarily been on account of several initiatives and interventions by GoI, State Governments, RBI, NABARD, Banks, SROs, etc, with particular focus on supporting microenterprises by SHGs/ JLGs. Some of the various initiatives taken during 2023-24 are discussed in this chapter.

3.1 INITIATIVES TAKEN BY NABARD

NABARD continued its interventions towards promotion, capacity building and enterprise development of SHGs under the FIF and under the WSHG Development Fund in 150 backward/ Left Wing Extremism (LWE) affected districts.

3.1.1 GRANT SUPPORT TO PARTNER AGENCIES FOR PROMOTION AND NURTURING OF SHGS

Since 1992, NABARD's grant support to NGOs, SHG Federations, Commercial Banks, Co-operative Banks, RRBs, NGO-MFIs, PACS, etc., for promotion, nurturing and credit linkage of SHGs has been the initial catalyst for SHG-BLP movement across the country. The financial support extended by NABARD to various SHPIs till 31 March 2024 is indicated in Table 3.1.

Table 3.1: Grant support to Partner Agencies Amt.(₹ lakh)

Agency	As on 31.03.2024				
	Cum. Sanctions		Cum. Release

Anchor NGOs	20,438.10	2,04,381	18,323.26	2,10,976	1,29,167

Cumulatively, the grant support sanctioned and released under FIF for promotion and nurturing of SHGs as on 31 March 2024 stood at ₹428.60 crore and ₹181.39 crore respectively. The cumulative number of SHGs savings linked under FIF stood at 6.96 lakh of which credit linked SHGs were 4.15 lakh. The grant assistance for SHG formation is now provided by NABARD very selectively, and in only such areas where NRLM is not working intensively while support continues uniformly for training and capacity building of various stakeholders. Agency-wise and State-wise details of grant assistance extended to partner agencies under the Fund is given in Statements IX-A to IX-J.

3.1.2 SCHEME FOR PROMOTION OF WOMEN SHGS IN BACKWARD AND LWE DISTRICTS OF INDIA

NABARD in association with Department of Financial Services, Ministry of Finance, GoI is implementing the scheme for promotion and financing of Women Self Help Groups in 150 identified Left Wing Extremism (LWE) and Backward districts of the country from 2011-12 onwards. As on 31 March 2024, 2.11 lakh women SHGs were promoted/ savings linked of which 1.29 lakh women SHGs were credit linked with banks. The implementation period envisaged under the Fund was three years, i.e. up to 2015-16 and as a result, there has been no new sanctions for promotion of women SHGs under the Fund. However, other activities under the Fund continue to be supported and ₹1091.27 lakh was utilized during the year 2023-24 for capacity building of various stakeholders, support for Gram-Dukan, moveable carts, online marketing, participation in exhibitions, melas, promotion of marketing tie-ups as also funding for impact assessment studies, documentation, exposure visits, and publications. The detailed progress under the scheme as on 31 March 2024 is given in Statement X.

3.1.3 PROMOTION OF JLGS (JOINT LIABILITY GROUPS)

Financing of JLGs was introduced as a pilot project in 2004-05 by NABARD. Apart from extending refinance support to banks, NABARD also extends grant support to banks and other eligible agencies for formation (JLGPIs) and nurturing of JLGs and capacity building of stakeholders since FY 2009-10. Grant assistance of ₹2000 per JLG is extended to JLGPIs and public sector commercial banks and ₹4000 per JLG in the case of RCBs/RRBs/SFBs and private sector banks. A business model scheme was introduced in 2017, whereby banks (PSBs, RRBs & Co-operative Banks) execute a MoU with NABARD for financing JLGs on terms and conditions as specified in the MoU. During 2023-24, a total of 73.34 lakh JLGs were promoted as compared to 70 lakh JLGs promoted during 2022-23. Cumulatively, JLGs promoted stood at 331.26 lakh as on 31 March 2024 registering a growth of 28% over 2022-23 with the Western and Central regions recording the highest Y-o-Y growth during the same period (Fig 3.1).

Fig 3.1: Region-wise JLGs promoted
(As on 31 March)

	Central Region	Eastern Region	North Eastern Region	Northern Region	Southern Region	Western Region	Grand Total

2024	57.6	98.7	4.9	28.4	102.9	38.9	331.3

During the year, number of JLGs promoted was highest in the Eastern region at 23 lakh and accounted for 31% of the incremental JLGs financed pan-India followed by the Southern region at 29% (21.2 lakh). As on 31 March 2024, cumulative loans disbursed to JLGs by banks stood at ₹6,47,623.85 crore, an increase of 41% from ₹4,59,310.48 crore as on 31 March 2023. Loan disbursed per JLG averaged at ₹2.57 lakh and was highest in the Southern region at ₹4.22 lakh per JLG (Fig. 3.2).

2024	87.4	208.9	6.9	48.7	235.7	60	647.6

To sensitize stakeholders and provide further impetus to the JLG programme, NABARD has been organizing training programmes for the functionaries of various financing banks. During 2023-24, 1,31,658 trainees and cumulatively, 2,23,929 persons have benefitted from these programmes. Details are given in Statement VIII-B.

3.1.4 SHG BASED LIVELIHOOD INTERVENTIONS OF NABARD

a. Micro Enterprise Development Programme (MEDP)

MEDPs have been leveraged to impart/upgrade skills to/of SHGs to serve as a foundation for setting-up of microenterprises in farm and off farm activities. To enable enhanced participation, the Operational Guidelines were modified during 2023-24 and new entities such as Start-ups, Corporates, Companies, SHG Federations, POs, PACS, Marketing Federations and Subsidiaries of NABARD were made eligible as Project Implementing Agencies (PIAs). The training period continues to be of 15 days with maximum grant support enhanced to ₹1.50 lakh for 30 participants. A batch of 20 participants is permitted in NER, Island UTs, hilly States, LWE & Aspirational districts with pro-rata grant support. Additional components of exposure visit for trainees & PIA field staff and management cost to PIA were also introduced. To assess the impact of the programme, trainees are now required to be monitored for a period of six months after completion of training. During the year, 27,550 SHG members were trained through 648 MEDPs with grant assistance of ₹834.34 lakh for equipping them with livelihood skills. Cumulatively, 6.12 lakh SHG members were trained through 20,822 MEDPs with total grant support of ₹60.73 crore as on 31 March 2024. A review of MEDPs completed during FY 2023-24 indicated that food processing, art & craft, tailoring, mushroom cultivation & embroidery were the major skills preferred & sanctioned under MEDPs during 2023-24.

b. Livelihood and Enterprise Development Programme (LEDP)

NABARD mainstreamed Livelihood and Enterprise Development Programme (LEDP) in 2015-16 with a view to creating sustainable livelihoods among SHG members and to realize maximum impact of skill up-gradation inputs. LEDP targets SHG clusters in contiguous villages involved in similar farm and off-farm activities and supports intensive skill building, refresher training, backward-forward linkages, handholding and escort services over two credit cycles to achieve the programme objectives at the grassroots level. The total outlay under the programme was enhanced during 2023-24 and changes incorporated such as duration of programme, number of participants, provision of exposure visits for all trainees, support for capital/ raw material, support for critical common facility/ infrastructure, handholding and management cost along with inclusion of new PIAs, etc. During the year, 33,965 SHG members were provided skill and entrepreneurship training through 300 LEDPs with an expenditure of ₹22.31 crore. As on 31 March 2024, 3 lakh SHG members were supported through 2,449 LEDPs with grant support of ₹128.41 crore. A review of LEDPs completed during FY 2023-24 indicated that animal husbandry, fishery & nursery were the major activities supported under Farm Sector while food processing, tailoring, art

& craft, embroidery and handicrafts were the major activities under Non-Farm Sector.

c. Scheme for grant support to SHGs/ JLGs/ POs/ Microentrepreneurs for training on onboarding onto E-Commerce platforms/ ONDC/ social media platform

Drawing from the feedback & learnings emanating from a few pilots in FY 2022-23, the 'Scheme for Grant Support to SHGs/ JLGs/ Producer Organizations (POs)/ Microentrepreneurs for training, onboarding and marketing of products on online/digital marketplaces on E-commerce, Social Media platforms and ONDC' was introduced during 2023-24. 3.3.6. STUDIES COMMISSIONED BY NABARD

A. Quick Study on Dominant share of Private Sector Commercial Banks and Small Finance Banks under JLG financing

A quick study on 'Dominant share of Private Sector Commercial Banks and Small Finance Banks under JLG financing' was conducted by the Department of Economic Analysis and Research (DEAR) and Micro Credit Innovations Department (MCID), NABARD. The analysis included study of JLG financing model of 9 different financial institutions, comprising 3 Private Sector Banks, 2 Public Sector Banks, 1 Regional Rural Bank (RRB) and 1 Cooperative Bank in Pune and Satara districts of Maharashtra.

The objectives of the study were:

a. To understand JLG financing model adopted by Private Banks and SFBs.

b. To assess the factors contributing to the dominance of Private Banks and SFBs in JLG financing.

c. To compare the approach of Pvt. Banks/ SFBs with that of the PSBs/ RRBs/ Cooperative Banks.

Major Findings

The Private Sector Banks and SFBs have a dominant share in JLG financing largely due to their differentiated approach to JLG financing. Some of the key features of the JLG financing models were:

i. **Dedicated manpower and use of technology:** Specialized units are created to promote and finance JLGs. Dedicated field-level staff for sourcing of JLGs & collection of repayments were provided by these banks. Mobile applications were utilized for account opening and loan disbursement, enhancing convenience for clients. Loan processing time was observed to be 3-5 days at the doorsteps of clients.

ii. **JLG composition:** JLGs are comprised of 5-10 members. Centre formation approach was adopted with 02-08 groups per centre. Each field officer catered to 10-15 centres.

iii. **Assessment of credit worthiness:** CRIF Highmark ratings & CIBIL scores are checked before loan approval, ensuring engagement in IGA and usage of assessment tools like Fixed Obligation to Income Ratio to ensure creditworthiness.

iv. **Loan structure and tenure:** The average ticket size ranged from ₹30-35 thousand for new members to ₹70-80 thousand for second and third cycle borrowers. The loans were in the form of term loans for a duration of 12-36 months.

v. **Robust monitoring mechanism:** Field staff conducted monthly or weekly centre meetings with JLGs to facilitate loan recovery and address issues/cross sell other financial products. Instalments were collected at doorsteps through cash/ electronic modes, including QR codes, enhancing convenience and accessibility. Peer pressure based on regular interactions helped in maintenance of group cohesion.

vi. **Add on services/ products:** Banks also provided add-on products like mandatory insurance policy for loan protection against death/accident with premium ranging from 4% - 5% for every ₹1000 disbursed and 100% coverage of the bank loan amount.

B. Studies conducted by Centre for Research on Financial Inclusion and Microfinance (CRFIM)

NABARD provides budgetary support to the Centre for Research on Financial Inclusion and Microfinance (CRFIM) set up at Bankers Institute of Rural Development (BIRD), Lucknow for conducting research, publication of 'Journal on The Microfinance Review' & 'Trend Reports on Financial Inclusion' and organizing national level seminars. Findings of two studies taken up by CRFIM are given in the following paragraphs.

1. Microfinance, SHGs and Women Entrepreneurship in Sal Leaf Plate Bowl Making – A case in West Bengal

This study focuses on how the SHG movement is helping members in their socio-economic upliftment in Birbhum, West Bengal. Birbhum is in a thick sal tree growing belt where significant proportion of female SHG members were involved in the business of sal pata bowl preparation. Among all the non-timber forest products (NTFPs), sal (shorea bobusta gaertn) leaf is one of the major NTFP products that is collected and extensively processed. Further, Birbhum also ranks fifth in terms of SHG concentration. This study focused on the SHGs with particular focus on their specific business enterprise and how it generated income.

Primary survey was carried out during 2021-22 in Dubrajpur Forest Range. The sample size comprised 45 SHGs involved in the activity. A small sample of control group included 50 households of SHG (non-participant) women working in the household sector for comparative analysis.

Major Findings

(i) Participants earned 41% of their household income from this venture.

(ii) Members were able to use a mix of traditional knowledge and modern technology that gave a significant boost to their livelihood.

(iii) Their family income was 17% more than the control group and 10% more than their counterparts working as farm laborers.

2. Comparative Study of Approaches and Strategies adopted by Financial Institutions to Implement the Master Direction by RBI on Regulatory Framework for Microfinance Loans

The study examines the mechanism adopted by all concerned Regulated Entities (REs) in the light of revised micro finance guidelines, challenges faced by REs in adopting the guidelines, and role played by Self-Regulatory Organisations (SROs) in monitoring the adoption of guidelines. It measures the impact of revised guidelines on the Indian microfinance industry and analyses clients' feedback related to the products and processes of the REs. The study covered 360 micro borrowers across 18 REs (3 from each category, i.e., Commercial Banks, RRBs, Rural Cooperative Banks, SFBs, NBFCs, and NBFC-MFIs) and 18 branches of 18 REs (@ 1 branch/ RE) in Uttar Pradesh.

Major Findings

(i) Out of the 18 branches of various REs, 10 branches were fully aware of the new guidelines, while the remaining 4 branches were partially aware or not aware about the guidelines. The awareness level varied across the various REs. NBFC-MFIs, NBFCs, and SFBs were fully aware of the guidelines. This is due to their strong association with SROs and their adherence to certain regulations since their inception. None of the Rural Cooperative Banks (RRBs) and Regional Rural Banks (RRBs) were fully aware of the guidelines which has also translated into low adaptation of significant part of the guidelines, like mandatory assessment of income and expenditure prior to sanction of loan, assessment of Fixed Obligation to Income Ratio (FOIR) for measuring over indebtedness and dedicated grievance redressal system for addressing the issues related to micro borrowers.

(ii) The study revealed significant variations in interest rates across REs. Microfinance loans from Commercial Banks, Regional Rural Banks (RRBs), and Rural Cooperative Banks (RCBs) generally have lower interest rates compared to other REs, which can be attributed to their reliance on their own funds for lending.

(iii) As regards pricing guidelines recommended by RBI, none of the surveyed REs imposed pre-payment penalties, indicating borrower-friendly practices.

(iv) All REs implemented a grievance redressal mechanism. However, there are variations in the different components of the grievance redressal system. SFBs, NBFC-MFIs and NBFCs follow structured and dedicated grievance redressal systems for their micro clients.

(v) REs face challenges in the assessment of income and repayment obligations. Microfinance borrowers predominantly belong to the lower strata of society and often lack access to formal income sources. The REs predominantly rely on self-reported income, which can sometimes be underreported, potentially impacting the accuracy of loan limits.

C. **Sa-dhan Study on Training needs of SHG members in Chamoli & Garhwal Districts of Uttarakhand**

A study by Sa-dhan on Training needs of SHG members in Chamoli & Tehri Garhwal districts (WSHG districts) was commissioned by NABARD, Uttarakhand Regional Office. The objective of the study was to understand the training gaps, challenges and opportunities of the region and offer suggestions on the training needs of SHG members.

As against the targeted sample of 346, a total of 365 SHG members from 116 SHGs of both districts were selected for the study. Further, a total of 12 stakeholders were included in the study, viz., SRLM, NGOs, Bankers, Gram Panchayats, DDMs, RSETI & Govt Depts. The major observations of the study were:

1. Respondents had a good understanding of the SHG-BLP concept. However, cultural and socio-economic factors limit loan uptake in the region with limited sources of investment & income generation.

2. Major occupations in the two districts are agriculture, tourism, transportation (tourist & freight), handicraft & food processing.

3. Marketing of produce is the main challenge in taking up livelihood activities.

4. Agriculture, mushroom cultivation, weaving, handicrafts and bank sakhi training were the major training areas covered.

5. Training inputs received were not as per local context. Therefore, they were not found to be helpful in improving livelihoods or starting new economic activity.

6. Major areas of demand in skill training:

i. Agriculture- crop production technology, packaging & branding, agro-processing and marketing.

ii. Horticulture, floriculture, herb production & its management.

iii. Handicraft & handloom- design, technology and marketing.

iv. Tourism & hospitality sector- soft skills (communication, PR), homestay management & facilities.

PRUDENTLY CAPITALISING ON TRENDS AND OPPORTUNITIES

OVERVIEW OF MICROFINANCE SECTOR

The concept of microfinance emerged in the 1970s, pioneered by individuals like **Muhammad Yunus** and organizations like the Grameen Bank in Bangladesh. Initially, it focused on providing small loans to poor individuals, particularly women, without collateral. Over the years, microfinance has evolved to include a broader range of financial products and services, as well as diverse institutional models, including NGOs, cooperatives, banks, and fintech companies.

PERFORMANCE OF THE INDIAN MICROFINANCE SECTOR IN FY24

The microfinance industry in India has been instrumental in bridging the gap between the unbanked population and formal financial services, promoting financial inclusion and socio-economic development. Data from Sa-Dhan, an RBI-approved SRO, reveals that NBFC-MFIs continued to occupy the largest share of the pie, at 40%, followed by banks at 32%, SFBs at 18%, NBFCs at 11% and Non-Profit MFIs at 0.18%.

INDUSTRY TRENDS

- The microfinance sector has been expanding its outreach substantially over the years, with a notable surge in the number of beneficiaries. The increasing deployment of technology and digital platforms has played a crucial role in enhancing accessibility and convenience for borrowers.
- MFIs are increasingly diversifying their offerings beyond traditional microloans. They are now offering a holistic suite of financial services, including savings, insurance and remittance services, catering to the varied financial needs of their clients.
- The regulatory framework governing microfinance has undergone significant reforms aimed at enhancing transparency, accountability and consumer protection. The proactive measures implemented by the RBI reflect a focus on driving sectoral growth while protecting borrower interests.
- The adoption of digital technologies has been a game-changer for the microfinance industry. Mobile banking, digital wallets and online lending platforms have streamlined operations, reduced costs and improved service delivery. This shift has also facilitated better data collection and risk assessment.
- There has been a noticeable uptick in investments from both domestic and international investors. The sector has pitched in significant funding from private equity, venture capital

and development finance institutions, reflecting investor confidence in its growth prospects.

- Microfinance continues to play a crucial role in empowering women, who constitute the majority of microfinance clients. By providing women with access to credit and financial services, MFIs contribute to gender equality and economic empowerment.

GROWTH ENABLERS

- Government schemes aimed at promoting financial inclusion, such as the Pradhan Mantri Jan Dhan Yojana (PMJDY) and the Deendayal Antyodaya Yojana, have propelled the growth of the microfinance sector. These initiatives have helped cultivate a conducive environment for the expansion of microfinance services.
- The economic activities in rural and semi-urban areas, driven by agriculture, small businesses and micro-enterprises, create a robust demand for microfinance services. The need for credit to support these activities ensures a sustained demand for microfinance offerings.
- Strategic collaborations between MFIs, banks, NGOs and fintech companies have unlocked synergies that enhance the reach and impact of microfinance services. These alliances assist in effectively fulfilling the diverse financial needs of clients.

FUTURE TRENDS AND OPPORTUNITIES

The future of microfinance is likely to be shaped by technological advancements, such as digital banking, mobile money and blockchain, which have the potential to enhance outreach, efficiency and impact. Moreover, there is growing recognition of the importance of integrating microfinance with other development interventions, such as education, healthcare, and social protection, to address the multidimensional nature of poverty and promote sustainable livelihoods.

NBFC-MFIs : LEADING GROWTH IN FINANCIAL INCLUSION

THE GROWTH STORY:

Microfinance sector is a key driver of financial inclusion, offering crucial financial services to empower low-income households, especially women. In the last decade, the sector witnessed consistent growth despite facing black swan events like demonetization and COVID-19 pandemic. NBFC-MFIs played a pivotal role in this journey of the microfinance sector, thus contributing to furthering the financial inclusion goals of the country.

TRENDS:

The growth story of NBFC-MFIs is not uni-directional in the sense of achieving only numbers, but it demonstrates the resilience of these institutions in (a) adapting to changing guidelines and context, and (b) continuing to keep 'customer connect' intact. Embracing technology was one of key factors in this journey to resilience. Over a period, NBFC-MFIs have adopted innovative approaches to lending - such as the use of technology for loan origination, cashless loan disbursement, adapting digital collections, credit scoring - which have streamlined processes, improved efficiency and reduced costs. Their deep understanding of local markets and communities allows them to tailor products to meet specific needs, something that traditional banks often struggle with.

Digitalization of operations, especially digital collections will help reduce the risks associated with cash collections and staff safety. Many NBFC-MFIs are coming up with their own 'apps/applications' which are positioned to enhance both staff and customer experience. While digitalization of operations has its own advantages and was made possible due to pervasive growth of smart phones with customers, microfinance institutions have to ensure that those customers who are digitally excluded are still provided with appropriate financial services.

Another area NBFC-MFIs are focusing on are providing loans for improving the quality of life and well-being of clients such as for water and sanitation, clean energy for cooking, solar lamps and other products, home renovation loans and housing loans. A game changing financial product for the clients is the hospi-cash or health insurance product which helps them in smooth cash flow in case of any health emergency.

Some organizations have started to focus on becoming carbon neutral, reduce the impact of climate change on their clients and offer green products and services. Though more work has to be done in environment, the conversation around the need to integrate environment and climate change into microfinance services has begun.

The Fair Practice Code, Code of Conduct, RBI’s Master Directions for Microfinance 2022, global level client protection standards, universal standards for social and environmental performance, SDGs and various other standards are also providing frameworks for MFIs in general and to NBFC-MFIs, in particular around advancing their responsible finance practices, social and environmental performance. ESG (environmental, social and governance) is slowly taking the centre stage and will help microfinance institutions report in a standard format on non-financial information.

To continue the growth story, there are several challenges that the industry needs to address. Some of the key ones are :

Striking a balance between expanding outreach and responsible lending is crucial. Over-indebtedness can lead to defaults, jeopardizing both the borrower’s well-being and the MFI's financial stability. NBFC-MFIs need robust credit assessment processes and financial literacy initiatives to mitigate this risk.

Technology can be a game-changer, streamlining processes and expanding reach. Digitalization should not impact the customer connect which organizations have developed and maintained for years.

While there are global standards on responsible digital finance developed by CERISE+SPTF, in India there is still a lot of work to be done by MFIs, fintechs and other players to ensure client data is protected, there is no discrimination based on credit algorithms, avoidance of over-indebtedness and that there are checks and balances in place to prevent frauds, among other risks.

CONCLUSION:

Despite various challenges, the industry is now better positioned due to strong self-regulation facilitated by SROs such as MFIN and Sa-dhan. Similarly, data availability (from credit bureaus, SROs, other sources) empowers NBFC-MFIs to make informed decisions.

At policy level, regulation based on activity (microfinance lending) rather than legal form is providing level playing field for all types of legal entities and this will aid in the sustainable growth of the sector and client protection. It is the responsibility of all organizations to ensure implementation of regulations and guidelines in letter and spirit which will help in robust growth of the sector and create greater impact for clients who are at the core of this entire industry.

NBFC-MFIs: A KEY DRIVING CHANNEL FOR FINANCIAL INCLUSION AND EMPOWERMENT

Picture a vast network of over 100,000 individuals spread across 150 MFIs, tending to nearly 3 million borrowers daily in various centres scattered across 30 states and 5 Union Territories in India. It's akin to a symphony of financial empowerment orchestrated by Microfinance, a concept pioneered by Nobel laureate Dr. Mohammed Yunus. Microfinance acts as a lifeline for those at the bottom of the pyramid, offering small loans and flexible repayment structures, enabling them to step towards a brighter future.

The journey of Indian microfinance commenced in the 1980s but truly flourished in the mid-2000s, especially with SKS Microfinance's ground-breaking transition to an NBFC. This pivotal move marked a turning point, as micro loans emerged as a robust asset class, attracting others to adopt the NBFC model.

In India, the microfinance sector receives support from a diverse range of entities, including Banks, SFBs, NBFCs, NBFC-MFIs, SROs and even organizations like Non-Profit MFIs and the National Rural Livelihood Mission through SHG bank linkage programs. By March 2024, there were over 78 million active borrowers, managing a credit portfolio of nearly ₹4.3 lakh crore. This phenomenal growth from less than ₹100 crore in 2005 is a testament to the sector's evolution. However, with only 33% market penetration, a significant portion of potential beneficiaries remains underserved.

Despite facing numerous challenges, NBFC-MFIs continue to persevere. From concerns about asset quality to funding constraints, regulatory uncertainty, over-indebtedness and operational hurdles, the road ahead is fraught with obstacles. Yet, through strategic initiatives like optimizing interest rates, enhancing centre attendance, and upholding regulatory standards, these institutions navigate the stormy seas of finance with resilience and determination. From updating employee details to ensuring compliance with FOIR, every step is taken meticulously. Integration of borrower information in credit bureaus and thorough scrutiny of financial metrics serve as the compass guiding these institutions towards sustainable expansion and inclusive development.

However, amid their noble endeavours, a critical issue looms within the NBFC-MFI sector – the uneven distribution of credit and financial services across regions. While some areas benefit from robust microfinance networks and extensive outreach efforts by NBFC-MFIs, others are left underserved or completely excluded, creating a glaring gap in financial access and opportunity.

Regional disparities in access to financial services underscore the need for targeted interventions and concerted efforts to bridge the gap and ensure that no community is left behind in India's journey towards financial inclusion. Addressing such disparities requires a multi-faceted approach, encompassing efforts to expand physical infrastructure, enhance digital connectivity, strengthen financial literacy programs, and promote innovative financial products and services tailored to the unique needs of different regions and communities. The East, North-East, North, and Central regions have been identified as priority areas where intensified efforts are needed to ensure adequate access to financial services. Meeting the unique challenges and needs of these regions is crucial for achieving comprehensive financial inclusion and driving socio-economic development on a broader scale.

At the policy level, there is a pressing need for an environment conducive to responsible lending practices while safeguarding consumer interests. Key policy guidelines that can shape the future trajectory of NBFC-MFIs include:

- Risk-Based Regulation approach to supervision of NBFC-MFIs while ensuring compliance with prudential norms and consumer protection standards.
- Financial Inclusion mandates and incentivizing NBFC-MFIs to expand their reach to underserved regions and marginalized communities.
- Investing in capacity building initiatives for NBFC-MFI staff for improving operational efficiency and loan quality.
- Technology adoption to enhance the efficiency, transparency, and reach of NBFC-MFIs to mitigate operational risks.

Navigating the complex terrain of NBFC-MFIs requires a holistic approach that balances financial viability with social impact and regulatory compliance. Collaboration among stakeholders is essential to address the challenges facing the sector and pave the way for sustainable growth and inclusive development.

An Overview of the Microfinance Journey

"If women are empowered, there is more development in society. Women lead with empathy and care, and they would give a new dimension to the developmental journey of the country" – Smt. Draupadi Murmu, President of India

"No country can ever truly flourish if it stifles the potential of its women and deprives itself of contributions of half its citizens" – Michelle Obama, Former First Lady of USA

The words of these two strong women ring true, even in this day and age, given the state of women labour force participation across the Globe! There is a yawning gap of about 30% (slightly over 40% for India) between the Global male labour force participation (~80%) and female labour force participation (~50%). In the case of developing and poor countries this gap is rather striking. Efforts to reduce this gap can give a $7 trillion boost to the global economy and if countries like India contribute equally, the potential boost to the global economy would be even higher.

Over the past few decades, India has taken quite a few steps towards women empowerment. NABARD initiated SHG-Bank linkage program started around 1992 was one of the first steps towards financial empowerment of the financially unserved and underserved population of India. This effort was further complimented by private entities across the country delivering financial services to the last mile through JLG based microfinance lending. Evolution of technology over the past decade further helped these organizations deliver quick and quality services which improved transparency as well as eased the entire process for all stakeholder involved. The industry currently serves over 7.2 crore unique & predominantly women borrowers while managing a loan portfolio of over ₹ 4 lakh crore. The industry contributes significantly to the growth of the nation be it directly through income generating loans provided to millions of borrowers & generations of employment for millions of people across regions or indirectly through the consumption of goods & services in pursuit of its agenda. A study conducted by MFIN and NCAER had estimated the contribution of microfinance industry to the GVA of the country at around 2.03% for FY 2018-19.

As a part of the industry, I firmly believe that the microfinance industry in India is a catalyst that addresses number of societal problems from reducing income and gender inequality; promoting

entrepreneurship across the country; empowering people, especially women in deep rural areas; formalizing banking and credit; laying the foundation for financial literacy among the masses; and thereby, through all these, contributing immensely to nation building.

Covid-19 disrupted the JLG model for many of the industry players. The process of bringing back discipline is a long drawn one. The industry has tried to largely address these issues though some pockets of challenges remain. The delinquency rates of borrowers were expected to go up marginally as both the borrowers and the industry matured. However, Covid-19 hastened this trajectory by a few years. Introduction of AI & ML; data analytics; usage of various rails of India stack; and advanced back-end systems with API integrations will help the industry to have a better understanding of their borrowers and their propensity. These will also mitigate some of the emanating risks while also improving the reach and quality of services of microfinance industry.

Microfinance industry has come a long way over the past few decades. Millions of women borrowers were empowered and brought into the formal financial fold during this period. The industry has only grown its contribution towards nation building and yet, there still is lot more to do – many more households to be reached and millions of women to be empowered!

UNRAVELLING THE DYNAMICS OF NBFC MFIs IN INDIA

In India, the microfinance sector has been instrumental in driving financial inclusion by providing access to credit for the underserved segments of society. Within this landscape, NBFC MFIs play a critical role in ensuring last-mile delivery of financial services to financially weaker sections of society, especially in smaller cities and remote regions of the country. As per a report by MFIN, NBFC-MFIs are the largest provider of micro-credit amongst other regulated entities. In the year 2022-23, NBFC-MFIs provided finance with a loan outstanding of ₹1,38,310 crore as of March 31, 2023, accounting for 39.7 percent of the total industry portfolio.

In fact, the emergence of NBFC MFIs can be traced back to the realization that the financial needs of marginalized communities have long remained unmet and requires multi-stakeholder interventions.

CHALLENGES FACED BY NBFC-MFIs

NBFC MFIs like other financial institutions have their own set of glaring challenges.

- The regulatory stipulations continue to hold the microfinance sector back. Due to the complex regulatory environment, MFIs face compliance challenges and operational uncertainties.
- There are veritable funding constraints. Access to affordable and diverse sources of funding is vital for NBFC MFIs to scale up their operations and target underserved populace. However, the sector constantly faces challenges in raising funds, especially during turbulent economic times.
- From a risk management perspective, reaching out to vulnerable populations underscores significant risks in terms of credit and operations, to name a few. Robust risk management frameworks and borrower-centric policies are essential to mitigate these risks and advance a culture of responsible lending practices.
- Lastly, the onset of MFIs has inadvertently increased over-indebtedness among borrowers, leading to repayment challenges and undue stress for borrowers. Ethical lending practices, coupled with financial literacy initiatives, are crucial to prevent over-indebtedness and promote responsible finance.

IS THERE A NEED TO CREATE A WOMEN-CENTRIC CREDIT PRODUCT BY NBFC-MFIs?

Effective financing of women borrowers requires a fresh approach as a one-size-fits-all outlook may not be quite effective. For instance, individual women borrowers who are business owners should be further segmented based on the maturity of their business (early phase, mature phase) which should inform the decision regarding the loan amount size, extent of flexibility, etc. Moreover, MFIs must be able to identify whether the borrower is a part-time or a full-time entrepreneur. To give an example, if the women borrower is a part-time entrepreneur, there's a need for an overall risk assessment from a family standpoint.

WAY AHEAD: POLICY LEVEL GUIDELINES

Realizing the full potential of NBFC MFIs require a multi-stakeholder approach involving policymakers, regulators and industry players. These collective interventions can pave the way for sustainable growth and further increase the ambit of inclusive finance.

1. Regulatory Clarity: Streamlining regulatory frameworks, harmonizing licensing requirements, and ensuring consistency in regulatory enforcement will provide NBFC MFIs with the clarity and certainty needed to thrive in a rapidly evolving landscape.
2. Access to Funding: Facilitating access to funding through innovative mechanisms such as priority sector lending, refinancing facilities, and credit enhancement schemes will bolster the financial resilience of NBFC MFIs and enhance their capacity to serve marginalized communities.
3. Risk Mitigation Measures: Implementing robust risk management guidelines, including credit assessment tools, borrower education programs, and social performance monitoring, will mitigate risks associated with lending to vulnerable populations and safeguard financial stability.
4. Technology Adoption: Encouraging the adoption of technology, such as digital lending platforms, biometric authentication, etc. will enhance operational efficiency, reduce costs, and expand the reach of NBFC MFIs to remote and marginalized communities.

EMPOWERING ECONOMIES: THE EVOLUTION AND IMPACT OF MICROFINANCE - THE NBFC MFI WAY.

Microfinance, once a pioneering concept, has metamorphosed into a critical instrument for economic empowerment worldwide. Its trajectory from modest origins to a potent force in poverty alleviation underscores its pivotal role in fostering financial inclusion and sustainable development. The exponential growth of the sector, from a few hundred thousand in the 1990s to a staggering ₹4 lakh crore now, stands as a testament to its significance, particularly in empowering low-income women across the country.

Smt. Elaben Bhatt, a social activist and trailblazer in women's empowerment, catalyzed the promotion of microfinance and grassroots entrepreneurship through her organization, the Self-Employed Women's Association (SEWA). Founded in 1972, SEWA emerged as a response to the exploitation faced by self-employed women workers in the informal sector. A hallmark of SEWA's microfinance model was its emphasis on collective action and solidarity among women. Instead of individual loans, SEWA advocated for the formation of SHGs and savings cooperatives, enabling members to pool resources, access loans, and provide mutual support. This collaborative approach not only promoted financial inclusion but also nurtured a sense of community among women.

Initially championed by NGOs, the microfinance sector saw a transition with the emergence of for-profit organizations like NBFC MFIs, which propelled the sector towards greater organization, responsibility, and responsiveness. Registered with the RBI, NBFC MFIs have become pivotal in delivering microfinance, particularly in underserved areas where traditional banking services are scarce.

The RBI came out with new regulatory guidelines for the microfinance sector made effective from April 01, 2022. However, the effective date was postponed to October 01, 2022, to enable the entities to prepare themselves for adhering to the changed guidelines. It mainly focuses on creating a level playing field to all the players involved in the microfinance activities. The regulation has raised the annual income of households to ₹3 lakhs which will help in expanding the potential for micro lending. The interest cap issue also has been addressed in the regulation by introducing a risk based and transparent pricing mechanism giving the freedom to the Boards to decide the interest rates, which is deemed as a welcome step.

Geographically, microfinance operations span across 730 districts of 36 States and Union Territories. Banks led with 719 districts, followed closely by NBFC-MFIs (715), Small Finance Banks (SFBs 698), NBFCs (668), and Non-Profit MFIs (381). States like Bihar (₹58706 crore), Tamil Nadu ((₹53304 crore), Uttar Pradesh (₹40770 crore), Karnataka (₹37427 crore), and West Bengal (₹35431 crore) emerge as the top states in terms of portfolio, collectively accounting for approximately 57% of the industry's total portfolio as on 31st Dec 2023.

The top 5 districts in terms of portfolio in the microfinance industry are Murshidabad (Rs. 4,023 crore), East Champaran (₹3,855 crore), Samastipur (₹3,816 crore), Muzaffarpur (Rs. 3,782 crore) and Mysuru (₹3,573 crore) while the top 5 districts in terms of the portfolio for NBFC-MFIs are East Champaran (₹1,740 crore), Mysuru (₹1,670 crore), Muzzafarpur (₹1535 crore), Madhubani (₹1,464 crore), Samastipur (₹1,409 crore). Apart from Mysuru, the other four districts having the highest loan outstanding for NBFC- MFIs are from the state of Bihar. Bihar has emerged as the forefront state for microfinance lending in the recent years.

Despite its successes, microfinance grapples with challenges such as over-indebtedness, limited access to capital, socio-cultural barriers, and inadequate financial education. Moreover, compliance burdens, funding constraints, credit risk management, and digital transformation pose additional hurdles. Overcoming these challenges requires concerted efforts from stakeholders, policymakers, and regulatory bodies.

THE PATH AHEAD: As microfinance evolves, stakeholders must prioritize financial sustainability alongside social impact. Promoting responsible finance practices, enhancing transparency, strengthening client protection mechanisms, and fostering an enabling regulatory environment are imperative. Additionally, integrating technology, diversifying products, forging partnerships, and capacity building are crucial for future growth and sustainability.

Elaben Bhatt always said "Poverty is powerlessness. Poverty cannot be removed unless the poor have power to make decisions that affect their lives". Microfinance surely holds the key for reducing the poverty levels if with our collective wisdom we are able to bring down the rates of interest to the last mile woman we serve.

FOSTERING GROWTH OF THE MICROFINANCE SECTOR

The Indian microfinance industry has made a mark for itself on the global map by emerging as amongst the largest players with over ₹4.30 lakh crore portfolio and ₹7.5 crore unique borrowers, centred around pillars of a solid foundation where sustainable growth is expected to flow. These pillars including RBI's strong regulatory oversight, robust digital public infrastructure, extensive credit bureau information, priority sector lending status, and industry self-regulatory organisations reflect years of dedicated efforts. With the industry gaining substantial size and scale, the obligation to offer responsible finance increases significantly for all the players in this social business. In the last two years, post-COVID, the industry grew at a CAGR of 20% signifying calibrated growth led by robust customer additions. NBFC-MFIs have become the market leaders with a 40% share and are expected to lead the fray in the coming years despite many newly established financial providers entering the space.

The role of technology in the next phase of the growth journey is pivotal as the industry gears to fulfil the growing aspirations of rural households. While various experiments have taken place in the inclusive finance domain, the 'high-tech high touch' model has established its effectiveness in diverse cultural setups. The model's success lies in its ability to harness the power of technology while ensuring that individuals' unique needs and preferences are met through empathetic interactions.

The impact of climate change, including altered precipitation patterns, shifts in cropping seasons, and recurring droughts directly affects the livelihoods of the bottom of the social pyramid, who are often among the most vulnerable to such environmental changes. NBFC-MFIs have assisted customers in stabilising income flows, empowering them to withstand financial challenges and MFIN is also working with various insurance providers to develop customised insurance to protect against weather vagaries.

There is a growing emphasis on environmental, social and governance (ESG) practices given the relocation of capital to the rural economy. The intersection of climate change and microfinance is an area of increasing interest and importance given that over 99% of the portfolio is ESG Compliant, having a positive socio-environmental impact.

NBFC-MFIs through credit-plus activities are engaging in community development activities, ranging from awareness-building campaigns to infrastructure projects like rainwater harvesting and disaster relief efforts. These initiatives not only contribute to climate resilience but also foster stronger bonds between NBFC-MFIs and the communities they serve. The next crucial stride toward achieving genuine financial inclusion for MFIs will involve leveraging technology to facilitate micro insurance and micro savings.

With a penetration level ranging between 35-38%, the microfinance sector has reached a marked level of maturity. Higher penetration levels will automatically lead to higher competition which eventually results in better products, process, services and pricing for the end customers. On the other hand, with the robust expansion on a district level, a substantial number of previously unbanked individuals will be integrated into the formal financial system for the first time, commonly referred to as "new-to-credit" customers.

METAMORPHOSIS OF THE MICROFINANCE INDUSTRY

INTRODUCTION:

Microfinance in India primarily focuses on providing small ticket financial services including loans, savings, insurance, and money transfers to individuals and small businesses that do not have access to traditional banking services. The industry's roots in India can be traced back to the early initiatives like Integrated Rural Development Programme (IRDP), SHG movement, etc. These programmes were primarily focussed on improving access to rural credit and livelihood activities. Further initiatives like Self-Employed Women's Association (SEWA) in Gujarat and the Grameen Bank replication projects in the 1980s-90s helped the sector to achieve different dimension. The USP lies in the last mile connectivity, which helps in understanding the customers' need better, education, transparency and establishing customer discipline.

Regionally, the microfinance activities are concentrated in East, Northeast, and South India, which together account for 63% of the total portfolio. Bihar, Tamil Nadu, Karnataka, Uttar Pradesh and Madhya Pradesh are the top states for microfinance operations. The sector has also seen improvements in portfolio quality, with the percentage of loans overdue by more than 30 days to 180 days (PAR 30-180) improving to 2.0%, nearing pre-pandemic levels.

TRANSFORMATION OF THE SECTOR

Product diversification: There has been an increasing trend of tailor-made asset products that are being offered based on graduated customers apart from regular JLG loans. In the last two decades about 151 million microinsurance policies have been issued for the target segment indicating the increased outreach and acceptance.

Digitalisation: Digitalisation of these households in the banking system, enables all the disbursement activities to be cashless. Currently the sector is extending credit service of more than 6 crore loans amounting to about ₹3 lakh crore every fiscal through cashless mode. 99.84% of loan disbursed are in cashless mode. (source: MFIN Micrometer Q3 FY23-24) which speaks about the impact. These households have also exhibited significant adaptability and acceptance to digital payment.

CHALLENGES:

Despite its successes, the microfinance industry faces several challenges:

- High operational costs: Reaching remote areas adds significant costs to microfinance operations.
- Cost of funds: MFIs, like other NBFCs, lack a balance between assets and liabilities and do not have access to low-cost funding options such as fixed deposits and savings accounts. Consequently, they rely on external funding for their operations, resulting in higher costs for both funding and lending.
- Repayment issues: Economic downturns, like the COVID-19 pandemic, led to increased default rates, affecting the sustainability of MFIs. The kind of economy which the microfinance industry caters to are the most prone to get affected during such economic down turns.
- Regulatory hurdles: Balancing profitability while adhering to stringent regulatory requirements is a constant challenge.

WAY FORWARD

While India is one of the fastest growing economies in the world, our economic inequalities are not that encouraging. About 15% of the households are in destitute group (below ₹1.25 lakh per annum), 52% in aspirer group (i.e. between ₹1.25 lakh to ₹5.0 lakh per annum) and further 30% of the households lie in the middle-class group (Source: Statista). This provides a huge opportunity for Indian microfinance sector to cater to their financial service requirement in next couple of decades. Further, innovations in customer segmentation, product innovation, customer service quality, regulatory reforms & policy interventions will continue to shape the microfinance landscape of the future.
