SAFETY CONDITIONS OF THE CONTRACT

As part of the contract, the contractor must satisfy the undermentioned safety requirements and must ensure at all time that these are followed without any deviation.

A. GENERAL

1. Smoking and chewing pan are prohibited in the Institute.

2. For any job involving welding, soldering, lighting of flames, use of heat source or temporary electrical connection, prior permission of NBSC’s/BIRD’s engineer shall be taken before execution of the same. No job involving heat source are permitted to be carried out after office hours and on holidays/Sundays without prior permission.

3. It is entirely the responsibility of the contractor to see that safety appliances such as safety belts, life lines, helmets, rubber gloves of appropriate voltage (1100V) rating etc., depending on the job demand, are made available to his staff at contractor’s cost. If the contractor need any suggestion on the mater, he may approach NBSC’s/BIRD’s engineer for the same. Any lapse on safety will be viewed seriously.

4. The contractor shall ensure that the persons posted for the work are well conversant with the operation of fire extinguishers.

5. The contractor shall take all precautions to avoid accidents and causes of accidents. He must be careful regarding safety during working of his staff in the premises.

B. SAFETY PRECAUTIONS FOR PORTABLE ELECTRICAL APPLIANCES

Precaution in handling portable electrical appliances are more significant under monsoon conditions. Some likely situations are highlighted here for contractor’s attention and action to ensure that conditions and methods of usage conform to the safety of personnel and property.

1. Broken sockets/pin plug /loose connections: These conditions cause sparks which lead to fault conditions or electrical shock situations. Wires shall not be directly inserted into the sockets as the earth lead of the equipment inserted into the phase socket may give shock to the operator.

2. Polarity of phase/neutral and earth: Certain appliances like Poroscope may give violent electrical shock during work if polarity conditions are not satisfied.

3. Joints in flexible cables: Usage of portable appliance is such that electrical and physical integrity of joint may be suddenly affected, leading to severe sparking and fire if combustible / inflammable materials are present near the joint. Sometimes this may not be noticed by the operator at all.

4. Appliance body grounding and system grounding: In absence of or ineffective appliance body grounding, operator may receive severe shock in case of phase to earth fault during usage. All earth pins in sockets must have low impedance and mechanically firm earthing according to Indian Electricity Rules/BIS 3043 so that safety is assured to operators even under fault condition.

5. Water leakage: Water reduces efficiency of insulation depending upon exposure. Presence of moisture on ordinary switches may give a shock during operation, switches in chronic leakage areas should preferably be de-energized until the rectification is done.
6. Excavation/Addition/Alteration of the Buildings: During excavations, alterations of the building etc. every care shall be taken that electric shock or damages to cables, are avoided. De-energisation of circuits must be considered whenever required.

We/I agree to the safety conditions and to ensure compliance with the same fully.

SCOPE OF WORK

1. NABARD is desirous of having an electrical maintenance contractor responsible for operation, operational maintenance, preventive maintenance and breakdown maintenance of the electrical installations installed at its Training Establishment namely National Bank Staff College (which also houses Bankers Institute of Rural Development (BIRD). The details of such services to be provided by the contractor has been enclosed in ANNEXURE-I.

2. All the consumable electrical items etc. shall be provided by NBSC/BIRD as per actual requirement. The contractor has to give indent for such items to the Assistant Care Taker (ACT)/Care Taker/ Hostel Supervisor (HS) well in advance. Proper record of the material received and consumed shall be maintained by the contractor and submitted to NBSC/BIRD for inspection/verifications as and when required.

3. The said premises includes all the covered areas within the boundary wall and also the vacant/fallow land falling within the boundary wall and pucca construction between the gate and the road.

4. The maintenance contractor shall keep, at conspicuous and specified places complaint book/books in which complaints and suggestions, if any, may be recorded and the complaint book/books shall be open to inspection by the officers of the NBSC/BIRD.

5. The maintenance contractor shall put up complaint book/books/registers on every 15th day of the month and if the same were public holiday the same may be submitted on the next working day immediately following that day to care taker.

6. The maintenance contractor shall maintain and update any or all registers/documents relating to maintenance work, as asked to do from time to time by the NBSC/BIRD, for attending complaints and up-keeping the premises etc.

7. Contractor will submit his demand of electrical consumable items, in prescribed format giving quantity required along with balance quantity with them, duly approved by the competent authority. Contractor will also inform to NBSC/BIRD about the compliance of the complaints.

8. Contractor shall ensure an experienced supervisor to supervise the work of persons for electrical maintenance work in both the institutes of NBSC and BIRD, in the campus.

9. Contractor will provide qualified man power as per the qualifications given in the Annexure IX.

10. Contractor will maintain records of day-to-day remedial work and materials required/used for the same.

11. The terms and conditions regarding fixtures, fittings and all other items present within the said premises shall be as follows:

   (i) The maintenance contractor shall ensure the safety of the furniture, fittings, stores and all other electrical, electronic and office equipment present within the said premises and 'save hereafter’ that the maintenance contractor will not be responsible for any thefts, pilferages, breakages committed by the persons not engaged by him or for reasons beyond his control.

   (ii) As security for due performance of his obligations hereunder, the maintenance contractor shall deposit with and keep deposited with NBSC a sum equivalent to 5% of the value of the contract as initial security deposit with—in 7 days of award of work. No interest will accrue on the said deposit. This deposit along with the Earnest Money Deposit will led to a total Security
Deposit with the NBSC. Such deposit would be refunded to the maintenance contractor after the maintenance contractor has settled all his liabilities, if any, towards the NBSC/BIRD at the time of termination of this agreement. The security deposit is liable to be forfeited by the NBSC if the maintenance contractor commits breach of any or all of the terms and conditions contained herein. The amount of liability to be recovered for breakages, of articles referred above shall be arrived at on the basis of the current market prices of such articles/items or the prices paid by the NBSC/BIRD at the time of purchasing them whichever is higher.

(iii) The officer/s of the NBSC/BIRD may at any time inspect the maintenance work/job and all items/articles handed over by NBSC/BIRD to the maintenance contractor and deemed to be in possession of the maintenance contractor and the maintenance contractor shall give all assistance for this purpose to officers deputed in this behalf.

DECLARATION BY THE BIDDER

We/I have read and understood all the instructions/conditions made above and We/I have taken into account the above Instructions/Terms and Conditions while quoting the rates. We/I accept all the above Terms and Conditions without any reservation, in all respects.

LIST OF ITEMS OF WORK TO BE ATTENDED TO IN RESPECT OF ELECTRICAL MAINTENANCE WORK: Scope of the contract

Institute is desirous of assigning the Electrical Maintenance Operation of entire Electrical System and Installations to a ‘A’ Class Licensed Electrical Contractor. Contractor shall return a copy of the same duly signed in token of having accepted all the terms and conditions laid down here below:

A. Electrical Installations:

1. REQUIREMENTS

The Contractor is responsible to provide Services from Qualified and well experienced personnel, who can independently handle, Operate and maintain electrical installation as per the terms & conditions and scope of work of this tender. If required, the work force to be deployed will be screened for technical capability by the Department to ensure the deployment of suitable candidates by the contractor.

1. This contract is not a Labour Contract. It is a Works Contract. Payment of the monthly charges shall be done on the basis of the works completed mentioned in the Contract irrespective of the deputation of the number of the workers on the site by the contractor. The workers shall be available in three shifts throughout 24 hours a day, 7 days week, 365/366 days a year without any gap to take care of the installation and attend to the items of work for which tender is being called. Contractor may assess and deploy adequate manpower accordingly. As per the assessment of the Institute, the minimum number of personnel to operate and maintain entire Electrical Installations including Substation and water supply system round the clock (24 hours a day x 7 days a week x 365/366 days in a year) to the entire satisfaction of Institute.

2. Operation / Maintenance of other services viz. A.C., Fire Fighting, Lifts, Pumps, and Telephones will, however, be assigned to respective agencies. It shall be the responsibility of the Electrical Contractor to ensure uninterrupted supply upto Distribution Panel of respective agency.

The Contractor shall arrange to execute operation and maintenance services only through qualified electricians who are permitted to work on electrical installations by appropriate competent authority and as per IE rules 1956.

A full time supervision by the Supervisor at site is compulsory during any maintenance services, which shall strictly comply to relevant I.E., rules.

The Contractor shall provide proper uniform, shoes and other safety gadgets like hand gloves, raincoats etc., for the service provider engaged by him during Operation and maintenance services at site.

2. The day-to-day operation of the D.G. Set is under the scope of the contract. Diesel/Other consumables would be supplied by NBSC/BIRD.

3. All Electrical utilities meant for Client’s use shall be maintained in good condition so as to ensure interruption-free operation all the time.

4. Supervisor / Operator posted at Substation shall keep daily records of KWH / KVA / KVARH / PF / Voltage / Current of incomer HT panel as well as the LT panels in the sub-station, including water supply pumps operation log-book in the Log Sheet provided in Substation by
NBSC/BIRD. Separate records of Substation Meters provided in Main LT Panel shall be maintained, including the records of D.G. operation in separate Log Book. Maintenance of battery charger and batteries for D.G. shall be carried out and expenditure towards which shall be borne by NBSC/BIRD. Log book of DG Set operation and fuel consumption shall be maintained by the contractor. Energy meters are installed at residential flats by NBSC/BIRD. Recording of flat-wise energy meter reading on the last day of every month and submission to Premises Department, NBSC/BIRD is under the scope of the contract. Similarly, replacement of energy meters (to be supplied by NBSC/BIRD as and when required) is also under the scope of the contract.

5. The contractor shall also provide necessary screws, batten clips, fuse wire, insulation tape, rubber packing, gland dori, cotton waste etc., required for the repair works within the quoted rates. However, materials like switches plugs, bulbs, tubes, chokes and other electrical accessories shall be supplied by NBSC/BIRD as per requirement. For other unforeseen items the same shall be paid as per the make of the materials and their company’s price list. No overheads will be admissible on procurement cost as prices are being decided from lost price without considering any discount. The materials to be used on the works must be conforming to relevant BIS/s specification wherever applicable. However, before using any new material in the work, the same shall have to be got approved from the NBSC/BIRD’s officials.

6. Contractor will collect the complaints from the complaint register provided by NBSC/BIRD and kept at reception/sub stations and attend to the same on the same day & obtain certification from respective department/residents/etc. The complaint of complicated nature and beyond the scope shall be reported back immediately to NBSC/BIRD. Contractor will maintain a proper record indicating reasons for not attending to any particular complaint within time schedule. For unreasonable delays in completion of works, a penalty of Rs.100/- (Rupees one hundred only) per complaint per day of delay shall be charged.

7. The wire man/electrician shall also attend to any other electrical repair/preventive maintenance job as may be felt necessary by NBSC/BIRD.

8. The contractor shall make his own arrangements to provide alternative supervisor/electricians/wire man/pump operator and helper on the day when regular staff is absent.

9. All types of electrical maintenance work shall be carried out by the electricians on duty. Following are some of the common types of defects requiring rectification’s.

a. Repairs and replacement of switches, sockets, control accessories, lamp shades, wires and required electrical accessories in the Institute Premises.

b. Repairing/Replacement/Fixing of light fittings, ceiling and pedestal fans, exhaust fans, switches distribution boards, street and compound lights. Replacement of main switches, regulator, chokes, starters, tubes, distribution boards, control switches, socket outlets, holders, motor starters, parts, etc. in the campus.

c. Detection of faults in tube light fittings, other light fittings, fans exhaust fans/pedestal fans, regulators, main panel, other panels including rising mains DB’s, MCB’s ELCB’s Capacitors etc. Detection of faults in all types of wiring such as CTS, surface conduit, cables, etc. and rectifying them by removing the defective wiring as required. In concealed circuit system of wiring where old conduits are damaged rewiring shall be carried out either through surface conduits or wiring as directed under cables fault and its repairs. Termination/glanding of power cables including joint making will be included in contractor's scope.

d. Minor repairs to Storage/Instant type Geysers, such as checking/replacement of thermostat, heating coil, wiring, safety vale etc. inclusive of removing and refixing of Geysers,
if required. Material will be supplied by NBSC/BIRD.

e. Removal of defective pedestal and ceiling fans, exhaust fans and refixing them back after repairing. Fixing new fans including the Exhaust fans/Ceiling fans.

f. Minor repairs to fans i.e. change of the capacitor, bearings, wiring, oscillating mechanism etc. overhauling and greasing / oiling as required. Material viz bearings, capacitor etc. will be supplied by NBSC/BIRD.

g. Repairs to Mercury/Sodium Vapour/Halogen fittings mounted on the building/poles including replacement of MV / Sodium / Halogen lamps, accessories and repairs of cables.

h. Periodical Testing of electrical installations like HT switchgears / circuit breakers, Transformers, HT/LT busduct, Transformer Oil & its filtration, overhauling of circuit breakers etc. by engaging specialist agencies as per the instructions from Electrical Engineer of the Institute. Prior approval of rates shall be obtained before undertaking such works.

i. Watering of all the Earth pits on 15 days for trouble-free operation of the entire electrical installation including the computer / networking systems. Earth resistance to be measured quarterly in the presence of Institute’s engineer in single mode.

j. Weekly cleaning of glass panels of solar water heating system/Solar lighting installed in NBSC/BIRD.

k. The job includes cleaning of switch boards, fans, lights etc.

11. The contractor will provide experienced staff/workers. In the eventuality of a breakdown in the power system. He should endeavor to restore supply in the shortest possible time, do liaison work with Electricity Department, as and when required. No additional payment will be made separately for such an eventuality except for materials which may be used.

12. Repairing of fault in U/G cables including digging of earth and refilling of earth is to be arranged by the contractor. However, any material etc. needed will be provided by NBSC/BIRD.

13. All complaints shall be attended to immediately on receipt of complaints/information. If, however, a complaint remains unattended merely due to negligence of contractor's staff, the same shall be got done through a different agency at contractors cost and recovered from his bill.

14. It will be the responsibility of Contractor to liaise with electricity supply agency and other specialist agencies, whose services may be essential and required for the smooth operation/maintenance of equipment installed. Cost, if any, on account of such services shall be borne by NBSC/BIRD, provided such services are warranted not because of faulty workmanship or defective equipments, which otherwise shall be borne by Contractor.

15. It is responsibility of Contractor to provide necessary tools / tackles including safety gadgets and consumable like PVC tapes, fuse wires free of cost to his workmen.

16. The maintenance of flycatchers periodically:

i. Checking of flycatchers periodically,

ii. Replacement of tube or repair if any may be carried out immediately in case any fault is noticed.

iii. Periodical cleaning of collection tray of flycatcher machine.

12. The work also includes operation of chemical dosing pumps, recharging the system with
Sodium Hypochlorite Solution / Bleaching powder, fixing proper dosage of free chlorine, testing of free chlorine in water supply etc. The consumables viz Sodium Hypochlorite Solution / Bleaching powder, Chlorine Testing kit etc shall be provided by NBSC/BIRD.

13. Underground CI and GI pipeline of 4 inch dia have been laid at a depth of around 4 feet from the normal ground level for water supply. The repairs to the joints of the pipeline after excavating the earth and by lead caulking method (in case of CI pipes) and repairs of leakage in GI pipeline in NBSC and BIRD campus has to be carried out as per standard engineering practice. Rates for the repairs as mutually agreed between NBSC/BIRD and the contractor will be paid.

14. The contractor has to attend emergency complaints/other breakdowns as and when required during the contract period to ensure smooth functioning and availability of power supply and no extra charges for technical consultancy, labour, T&P etc. shall be paid for the same. Rates quoted by the tenderer should provide for such requirements.

15. Maintenance of Pump sets

1. Scope

1.1 The job includes monthly servicing like oiling, greasing, cleaning, replacement of worn-out gland packing, tightening of loose parts, checking of bearing temperature, replacement of worn-out rubber bushes, cleaning of starter and switch contacts, oiling / greasing of the moving parts of switch and starters, testing overload, minor repairs and call back services. As a whole the contractor has to maintain all pump sets in good running condition. The contractor shall supply rubber packing / gland dori as per requirement at his own cost.

1.2 Items not included

The items like replacement of wheel valve, non-return valve and foot valve, whole pump set, bearing, pipeline, additional electrical / piping / mechanical works, repairs / rewinding of pump motor, replacement of pump bushes, impellers, shaft, shaft keys, motor fan, replacement of unserviceable switch and starter parts like over load contacts, solenoid coil, timer, fuses, shall not be included in the maintenance contract. The items not covered under maintenance contract the contractor shall not attend any such work without prior approval in writing from the institute.

C) Operation & Operational Maintenance of Air Conditioning Package Units at NBSC - Scope of work:

Works to be carried out daily

1. Operation of various AC package units installed at NBSC from 8.00 am to 8.00 pm or as directed by office authorities. Generally, the AC package units would be operational on working days only (except Saturday/Sunday & Holidays). However, the AC operator would be required to report to duty on non-working days also as per requirement for which no extra payment shall be done.

2. Maintaining log books supplied by the NBSC for each plant separately for recording operational and maintenance records of every day.

3. Operation and operational maintenance of cooling towers for AC plant.

4. Checking and cleaning of cooling tower, water tanks and proper closing of doors, windows and other opening of all air-conditioned space during the period the air-conditioning system switched on.

5. Cleaning dusting of AC plant room including motors, starters, compressors, pumps, panels, pipes, racks etc. All machinery installed in the plant room will be kept dust free and clean in all respect.

6. Operation of drainage system required for air conditioning plant.

7. Checking for over-heating/abnormalities of bearings, terminals connections, cables of all motors fans, pumps compressors, starters, panels etc. and reporting to the maintenance contractor (currently M/s Voltas Limited).

8. Checking for over heating/sparking/other abnormalities of resistance type starters and reporting to the maintenance contractor (currently M/s Voltas Limited).

9. Daily Recording of PSYCHROMETER readings at different places of the air-conditioned space in the premises.

Work to be carried out weekly

10. Cleaning of air filters in the cooling system

11. Checking of all drain points in plant room.

12. Checking of pump glands for leakage and reporting to the maintenance contractor (currently M/s Voltas Limited) in case of malfunctioning.

13. Checking of leakage and operation of all valves installed in condenser and reporting to the maintenance contractor (currently M/s Voltas Limited) in case of malfunctioning.

Work to be carried out monthly

14. Blowing out the dust from all motors, cables, panels, equipments etc. checking terminal connections for panels lighting fixtures etc.

15. Checking of all safety controls operation and also the set points of all controls such as HP. LP, Antifreeze, THERMOSTAT, WATER FLOW SWITCH, OVER LOAD RELAY, SINGLE PHASE PREVENTORS ETC. Reporting any non-functioning to the maintenance contractor (currently M/s Voltas Limited)

16. Checking/cleaning of cooling towers, it’s filters, spray nozzles.
17. Checking and setting of all fresh air dampers installed in AC units.

DECLARATION BY THE CONTRACTORS

I have read and understood all the instructions/conditions given above and I have taken into account the above instructions/conditions while quoting the rates.

   (i) The supply of minor materials, labour and deputing required number of experienced labourers with tools etc. for rectification of all complaints pertaining to work.

   (ii) Repairing and rectifying all internal and external plumbing, sanitary water supply and sewage works of the building, as and when the defects are observed and/or complaints registered except external sewage (outside premises).

   (iii) The contractor must replace, the following as when the same are found damaged/unserviceable.

      a. EWC seat covers, hinges for EWC seat covers.

      b. Traps and grating of different sizes and materials, including RCC gratings over the external storm water drains and those provided over the basement drainage.

      c. Bib cocks, stop cocks, pillar cocks, hot and cold water mixers of bathroom showers and washbasins, urinal and W/C flush valves, etc. of required/approved size & design, including the special fittings.

      d. Ball cocks, handles, pull chain, plungers, washers, outlet and overflow pipes of flush tanks, bottle traps of washbasins and urinals.

      e. Shower roses of required sizes and materials.

      f. MS/GI/CI clamps, wooden plugs, brackets.

      g. Waterproofing of toilets, kitchen platforms and sinks and pattis of kitchen platform

      h. Replacement of CI/CI LA class/GI/ASTM PVC Pipes and fittings of existing materials and sizes, GM gate valves, non-return valves, strainers, pressure relief valves, waste couplings, cockroach traps, etc. of all diameters.

   Note: Any item, fixture fitting which is needed to be replaced shall be arranged/paid, subject to prior approval from NBSC/BIRD.

   iv. Cost of making holes in stone, brick masonry and RCC wall of any size, roofs, chajjas and finishing the same for carrying out the repair works shall be inclusive.

   v. Filling of joints of traps and tiles, cracks, joints, holes of walls, ceilings, etc.

   vi. Stopping leakage in various sanitary and plumbing pipes, etc.

   vii. Clearing of rain water, waste and soil pipes, storm water drains, inspection chambers/manholes, drain pipes from AHUs, toilets, wash basins, etc. once in three months and immediately when the same are choked up.

   viii. Disconnecting and reconnecting plumbing connection in case of water heaters, geyser, boilers, coolers and other electrical gadgets, whenever such electrical gadgets are required to be replaced/ repaired.

   ix. Removal of plant growth and pouring acid in external and common areas as soon as the same is noticed without any extra cost such as scaffolding, etc.

   x. Cutting, threading and fixing of pipes of any sizes; applying paint to joints.
xi. Adhesive used for fixing tiles, plumbing and sanitary fixtures, etc.

xii. Liaisoning with LDA/JAL SANSTHAN for all the works related to water supply and sanitary works as and when required.

xiii. The minor material shall mean jute, washers, screws, zinc white and white cement.

2. Any developmental or new works which may have to be done, will be paid on market rate plus 15% towards overheads and profit on production of bill/vouchers etc.

3. Under any circumstances, charges for scaffolding, centering, shuttering, jhulla, curing will not be paid for any work. It is to be included in monthly lump-sum charges.

E) Cleaning of overhead water tanks – Scope of work

The contractor will be responsible for cleaning of all the overhead tanks meant for water supply at office, hostel and residential area. The tanks will be cleaned twice a year (preferably in April and October) under supervision of ACT/CT/Hostel Supervisor. Register shall be maintained by the contractor on the periodicity of cleaning of water tanks. **The cost of consumables, chemicals & other items, if any, used in the cleaning shall be borne by the contractor.**

The specifications for cleaning the water storage tanks are as under:

**R.C.C. Tanks**

(a) Empty the water storage tank, thoroughly scrap all the sides by means of hand scraper, wire brushes and remove scales and encrustations and washing the tank with clean water, again clean the tank by using coir brush and clean water. Empty the tank and allow it to dry for an hour or so.

(b) Apply a coat of cement slurry mixed with ½ kg. of gur per bag of cement and ‘CICO’ No.1 water proofing compound at the rate of 1 kg per bag of cement with paint brush and allow it to dry.

(c) Before recommissioning the tank, the same shall be sterilised with bleaching power or Milton’s solution.

**P.V.C./HDPE/Plastic Tanks**

(a) Empty the water storage tank, thoroughly clean all the sides by using coir brush, if necessary by soap water, remove all encrustations/moss formations and wash the tank with clean water twice in a year. Again clean the tank with water and allow it to dry.

(b) Before recommissioning the tank, the same shall be sterilised as in case of other tanks.

**Cleaning of water supply mains, terrace, etc.**

(i) Water supply ring mains may also be flushed once in 2 years to remove the slush/scales in the pipes.

(ii) Terraces, sunshades, storm water drains, mouth of rain water pipes on terraces, weep holes in the compound wall, etc. shall be cleaned well before the onset of monsoon to obviate blockage to free flow of rain water

reliability or credibility in question, the Principal is entitled to disqualify the Bidder(s) /Contractor(s) from the tender process.

Section 4 – Compensation for Damages

(1) If the Principal has disqualified the Bidder(s) from the tender process prior to the award according to Section 3, the Principal is entitled to demand and recover the damages equivalent to Earnest Money Deposit/Bid Security.

(2) If the Principal has terminated the contract according to Section 3, or if the Principal is entitled to terminate the contract according to Section 3, the Principal shall be entitled to demand and recover from the Contractor liquidated damages of the Contract value or the amount equivalent to Performance Bank Guarantee.

Section 5 – Previous transgression

(1) The Bidder declares that no previous transgressions occurred in the last three years with any other Company in any country conforming to the anti-corruption approach or with any Public Sector Enterprise in India that could justify his exclusion from the tender process.

(2) If the Bidder makes incorrect statement on this subject, he can be disqualified from the tender process.

Section 6 – Equal treatment of all Bidders / Contractors/ Subcontractors

(1) In case of Sub-contracting, the Principal Contractor shall take the responsibility of the adoption of Integrity Pact by the Sub-contractor.

(2) The Principal will enter into agreements with identical conditions as this one with all Bidders and Contractors

(3) The Principal will disqualify from the tender process all bidders who do not sign the Pact or violate its provisions.

Section 7 – Criminal charges against violating Bidders(s) / Contractor(s)/ Subcontractor(s)

If the Principal obtains knowledge of conduct of a Bidder, Contractor or Subcontractor, or of an employee or a representative or an associate of a Bidder, Contractor or Subcontractor which constitutes corruption, or if the Principal has substantive suspicion in this regard, the Principal will inform the same to the Chief Vigilance Officer.

Section 8 – Independent External Monitor

(1) The Principal appoints competent and credible Independent External Monitor for this Pact after approval by the Central Vigilance Commission. The task of the Monitor is to review independently and objectively, whether and to what extent the parties comply with the obligations under this agreement.
The Independent External Monitor appointed for NABARD is

(Name & Address of the Monitor)

(2) The Monitor is not subject to instructions by the representatives of the parties and performs his/her functions neutrally and independently. The Monitor would have access to all Contract documents, whenever required. It will be obligatory for him / her to treat the information and documents of the Bidders /Contractors as confidential. He / she reports to the Chairman, NABARD.

(3) The Bidder(s)/Contractor(s) accepts that the Monitor has the right to access without restriction to all Project documentation of the Principal including that provided by the Contractor. The Contractor will also grant the Monitor, upon his/her request and demonstration of a valid interest, unrestricted and unconditional access to their project documentation. The same is applicable to Sub-contractors.

(4) The monitor is under contractual obligation to treat the information and documents of the Bidder(s) /Contractor(s) / Sub-contractor(s) with confidentiality. The Monitor has also signed declarations on ‘Non-disclosure of Confidential Information and of ‘Absence of Conflict of Interest’. In case of any conflict of interest arising at a later date, the IEM shall inform Chairman, NABARD and recuse himself/herself from that case.

(5) The Principal will provide to the Monitor sufficient information about all meetings among the parties related to the Project, provided such meetings could have an impact on the contractual relations between the Principal and the Contractor. The parties offer to the Monitor the option to participate in such meetings.

(6) As soon as the Monitor notices, or believes to notice, a violation of this agreement, he/she will so inform the Management of the Principal and request the Management to discontinue or take corrective action, or to take other relevant action. The monitor can in this regard submit non-binding recommendations. Beyond this, the Monitor has no right to demand from the parties that they act in a specific manner, refrain from action or tolerate action.

(7) The monitor will submit a written report to the Chairman, NABARD within 8 to 10 weeks from the date of reference or intimation to him by the Principal and, should the occasion arise, submit proposal for correcting problematic situations.
(8) If the Monitor has reported to the Chairman, NABARD, a substantiated suspicion of an offence under the relevant IPC/PC Act, and the Chairman NABARD has not, within reasonable time, taken visible action to proceed against such offence or reported it to the Chief Vigilance Officer, the Monitor may also transmit this information directly to the Central Vigilance Commissioner.

(9) The word ‘Monitor’ would include both singular and plural.

**Section 9 – Pact Duration**

This Pact begins when both parties have legally signed it. It expires for the Contractor 12 months after the last payment under the contract, and for all other Bidders 6 months after the contract has been awarded. Any violation of the same would entail disqualification of the bidders and exclusion from future business dealings.

If any claim is made/lodged during this time, the same shall be binding and continue to be valid despite the lapse of this pact as specified above, unless it is discharge/determined by the Chairman of NABARD.

**Section 10 – Other provisions**

(1) This agreement is subject of Indian Law, Place of performance and jurisdiction is the Head Office of the Principal, i.e. Mumbai.

(2) Changes and supplements as well as termination notices need to be made in writing. Side agreements have not been made.

(3) If the Contractor is a partnership or a consortium, this agreement must be signed by all partners or consortium members.

(4) Should one or several provisions of this agreement turn out to be invalid, the remainder of this agreement remains valid. In this case, the parties will strive to come to an agreement to their original intentions.

(5) Issues like Warranty/Guarantee etc. shall be outside the purview of IEMs.

(6) In the event of any contradiction between the Integrity Pact and its Annexure, if any, the Clause in the Integrity Pact will prevail.
