Scope of Work

At present Checkpoint firewalls (Model no. 12400) at DC and SonicWall firewalls (Model no. NSA3600) are deployed at DR of the Bank. As these devices are coming to end of life soon, NABARD intends to replace these with latest Next Generation Firewalls. Through this RFP, the bank intends to procure 2 firewalls in HA at both DC and DR i.e. a total of 4 firewalls. During discussions with our IT Advisory Committee, it emerged that NABARD should reap the benefit of following advantages by going in for Checkpoint Firewall:

i. Easier implementation
ii. Business Continuity will hardly have any impact.
iii. The process of the replacement will be faster.
iv. We may have a good buyback value of the currently deployed devices.

Therefore, as per the Bank’s requirements, it is intended to procure 4 units of Checkpoint 6800 firewall. The location details of DC and DR of are provided in Annexure-V.

The broad scope of work includes the following:

2.1 Supply, installation and commissioning

i. Supply, installation and commissioning of the devices in high availability (HA) mode along with accessories and necessary documentation at Banks’s DC and DR.
ii. Configuration of Central Management appliance and Logging & Reporting software for management and monitoring of the devices installed
iii. Configuration and Integration of the devices with existing LAN/WAN and devices.
iv. Prior to configuration and Integration, the bidder needs to study the existing setup at NABARD and prepare detailed implementation plan. On approval of the same by Bank, integration of the proposed devices needs to be carried out.
v. The bidder will ensure that the Checkpoint devices are seamlessly configurable with latest network devices viz. SDWAN, etc., which we propose to install very shortly.

2.2 Warranty and support

The Warranty shall be:

i. On-site, comprehensive and BACK-TO-BACK from OEM for a period of 3 years from the date of acceptance. The warranty also includes all software subscriptions (critical hot fixes, service packs, and major upgrades).
ii. Replacement of failed hardware within 24hrs from the time call is lodged.
iii. Software updates and upgrades during period of warrant should be at no cost to Bank.
iv. Level2 engineer/help desk and above support from OEM.

v. Comprehensive on-site support from bidder for day to day operational issues as and when arises.

2.3 AMC
i. On-site, comprehensive and BACK-TO-BACK support from OEM for a period of 2 years from the date of expiry of warranty.

ii. Software updates and upgrades at no cost to Bank.

iii. Level2 engineer/help desk and above support from OEM.

iv. Replacement of failed hardware within 24hrs from the time call is lodged.

v. Comprehensive on-site support from bidder for day to day operational issues as and when arises.

2.4 Buyback
The successful bidder has to take the existing firewall components as buy back within 30 days of successful migration and implementation of the new firewalls, if desired by the Bank.

2.5 Conditions of the RFP:

i. NABARD would deal with a single bidder who can provide comprehensive support and is in a position to provide every element of the solution. Specific authorization from the original manufacturer of the Hardware and Software (wherever applicable) would be required for this project.

ii. Submission of proposal in response to the RFP enquiry does not bind NABARD to award a purchase order for any service or product. NABARD would only deal with the successful bidder in matters related to Technical, Commercial and Legal aspects.

iii. NABARD reserves the right to reject any particular bid or all the bids without assigning any reason whatsoever. Failure to select a bidder by NABARD shall not make NABARD liable to honor any claim, whatsoever.

iv. The bidder acknowledges its responsibility to promptly deliver the requirements under this RFP to NABARD. Failure to do so shall relieve NABARD of any contractual obligation to the bidder and NABARD reserves the right to select any other bidder for the awarded work.

v. Any additional/different terms & conditions proposed by the bidder shall be treated as rejected unless expressly assented in writing by NABARD.

vi. The bidder explicitly acknowledges that they are experts and fully competent in executing the works involved in the provision of the tendered job and accept the responsibilities for the performance of all provisions and terms and conditions of the tendered job.

vii. Any response or communications whatsoever from the bidder received after the last date/time shall be strictly treated as invalid unless specifically called for by NABARD.

viii. No expense incurred by the bidder in the preparation of the quotation against the present tender enquiry shall be borne by NABARD.

ix. The price quoted for all components/products/services in the proposed solution should be competitive. NABARD reserves the right to verify the same independently and reject bids not complying with this criterion.
x. Technical & functional specifications of all the items should comply with the criterion given under the relevant section of this RFP. NABARD reserves the right to accept or reject any tender based on deviations (as per the discretion of NABARD), if any, from the technical specifications.

xi. Any change in the engineering / up gradation applicable to hardware during the period of contract up to the completion of 5 years must be communicated to NABARD by the bidder immediately.

xii. Any Software product upgrade released (wherever applicable) till the completion of the warranty and AMC period, shall be supplied free of cost by the bidder irrespective of whether OEM charges for the same. The bidder shall communicate any such upgrade to NABARD immediately.
