Addendum/ corrigendum

Tender for the work of supply, installation, testing and commissioning of wet garbage processing unit in NABARD's HO building at BKC, Mumbai

Based on the discussions made in the prebid meeting held on 19 May 2017, the following information is conveyed to all the bidders:

1. i) Para-1, Page-11- The firm will have an office in the limits of greater Mumbai as indicated in the tender document. There will be no change.
   ii. Para-2, Page-11-The contractor has to submit valid electrical contractor license as indicated in the tender. There will be no change.

   iii. Para-5, page-11-The firm is required to have installed similar works in Mumbai as indicated in tender. Otherwise, the firms should have installed similar works in big cities. For the same, the firms have to submit documentary evidence for executing such works in other cities."

   iv. Para-3, page-26- "The plant can be expanded upto 2 ton per day" has been indicated in the tender. This stands deleted.

   v. Para-1, page-33-The proposed garbage processing system can be either wet and dry type.

   vi. Para-2, Page-33- The firm will carry out free maintenance during the defect liability period. Defect liability period will be for one year only. The firm has to engage operator for operation of the system, the cost of which would be borne by the Bank. The wages of the operator will be linked to minimum wages notified by GoI / State Govt.

   vii. Para-3, Page-33 - The firm will operate and maintain the system after defect liability period (warranty period) on payment basis. The maintenance will be comprehensive in nature which would include attending to all breakdowns and supply all materials / manpower to set right the system without any extra cost to NABARD. para-1, page-30-Defect liability period will be one year only instead of three years.

   viii. The digesters should be stainless steel only as indicated in the tender. There will be no change.

   viii. The firm will not quote for providing heater in the system. However, the system will have provision of heater arrangement, if required in future.

   ix. One operator may be engaged by the firm for operation of the system for one shift only in a day from 9 AM to 6 PM.
x. The firm is required to co-ordinate with NABARD for disposal of the system output especially manures in case of any inconvenience in disposal of the same.

* Please note that the above will form a part of the tender document and the firms are required to quote their rates with respect to above.
