Executive Summary

1. Characteristics of District Economy

The geographical area of Kolhapur district is 7.76 lakh ha and as per Census-2011 data, the population is 38.76 lakh of which 26.46 lakh is rural population. The district is in the assured rainfall zone with average annual rainfall of 1899.04 mm and is blessed with fertile soil. The economy of Kolhapur district is predominantly agrarian with sugarcane as the major crop. The major kharif crops are paddy, jowar, nagali, cereals, pulses, oils seeds and rabi crops are jowar, wheat, cereals, pulses. Paddy, sugarcane, soyabean, groundnut, vegetables are important crops of district. Out of the Net sown area of 3.91 lakh ha, 1.28 lakh ha is net irrigated area. The district is endowed with 7 main perennial rivers. viz. Panchaganga, Krishna, Warana, Ghataprabha, Doodhganga, Vedganga, Hiranyakeshi. Textile industry through co-operative spinning and weaving mills and small power loom units have developed around Ichalkaranji. 'Kolhapuri Chappals', 'Kolhapuri Jaggery', "Kolhapuri silver works" are famous in the country for its special Kolhapur 'touch'.

2. Performance under District Credit Plan during 2014-15

During the year 2014-15, the performance of the banks under Annual Credit Plan in Kolhapur District was as under —

(`in lakh)

Sr. No.	Item	Target	Achievement	% Achievement
1.	Crop Loans	159,675.00	178,693.00	111.91%
2.	Agri. And allied terms loans	91,211.00	110,187.00	120.80%
3.	NFS	149,878.00	148,345.00	98.98%
4.	OPS	79,436.00	80,876.00	101.81%
	Total	480,200.00	518,101.00	107.89%

The Annual Credit Plan (ACP) was substantially lower (` 480200.00 lakh) than PLP projections (` 631999.21 lakh) for the year 2014-15. As per SLBC decision during the month of January 2014, Lead Bank Manger had reduced the crop loan target by 30% and taken the crop loan projection to the actual crop loan disbursement as on 31.3.2014. Therefore the ACP target for 2014-15 were on lowerside. Further LDM had increased targets in MSME to ` 149878.00 lakh to match the ACP target to PLP projection.

3. Potential Linked Credit Plan (PLP) Projections for 2016-17

The PLP projections for 2016-17 have been kept higher taking into account the long term potential available in the district in the form of physical units and related natural resources as also revised Priority sector guidelines issued by RBI vide its circular no RBI/2014-15/573 dated April 23,2015. Through PLP, credit potential for

priority sector in Kolhapur district has been assessed at `718527.16 lakh, an increase of 8.2% over the potential of `663833.49 estimated for the year 2015-16.

(`in lakh)

Sr.		PLP	ACP target	PLP	Growth (%) vis-a-vis	
No.	Item	Projections 2015-16	2015-16	Projections 2016-17	PLP	ACP
1.	Crop Loans	261588.50	178814.00	267633.09	2.3%	49.7%
2.	Agri. and allied terms loans	163814.68	72890.00	178928.79	9.2%	145.5%
3.	MSME	117654.02	164867.00	198041.26	68.3%	18.0%
4.	OPS	120776.29	87382.00	73924.02	-38.8%	-15.4%
	Total	663833.49	503953.00	718527.16	8.2%	41.7%

4. Highlights of Sub-sector wise PLP projections :

- a. Crop loans projections of `267633.09 lakh constitute a major share (37%) in the credit potential of the district.
- b. As per revised RBI guidelines, Agricultural Term Loan has been divided into 3 distinct sub-sectors viz. Farm credit term loan, Agriculture infrastructure and Ancillary activities. Accelerating the pace of capital formation in Agriculture sector including allied sector is a concern of our policymakers. Projections of 178928.79 lakh have been made for the year 2016-17 constituting 25% of the credit potential under Priority sector.

Out of which, an amount of `145561.16 lakh has been assessed for Term Loan under Farm credit. The sub sectors which have been provided focused attention and importance from the point of food security are Minor Irrigation, Farm Mechanization, Animal Husbandry, Plantation and Horticulture.

Credit potential of ` 26654.53 lakh has been estimated for Agriculture infrastructure sector which includes Land Development and Storage structures. Further, projections of ` 6703.10 lakh have been made for Ancillary activities which includes Food and Agro-processing.

Keeping in view the importance of the sector, PLP envisages substantial growth in the credit flow for these activities from the Banking sector.

- c. In spite of high potentials for private investments in agricultural sector in the district, the growth in the credit flow has been inhibited due to various factors like landholding pattern, fragmented landholdings, low levels of recovery of bank loans, staff constraints particularly non-availability of technically qualified professionals, infrastructural gaps etc. The PLP has attempted to identify emerging and potential sectors and activities in the district to be supported by the Banks and government agencies together.
- d. MSME sector in the district is fairly well developed. The PLP envisages credit flow of `198041.26 lakh to MSME (28%). Of this, the estimated credit flow to manufacturing sector is `1160.44 lakh (16%) and to the services sector `81997.00 lakh (12%). Inclusion of medium industries/service sector units have been the primary reason for substantial increase in credit potential assessment for the sector.

e. As per revised RBI guidelines, Other Priority Sector has been restructured and now it includes Export credit, Education, Housing, Renewable Energy, Social Infrastructure and others including SHGs/JLGs. The credit flow to the Other Priority Sector has been estimated at `73924.02 lakh (10%). The PLP also envisages, among others, credit flow of `6322.50 lakh to Self Help Groups, Joint Liability Group / Activity Based Groups thereby providing easy access of banking services to rural poor.

5. Major constraints and suggested action points

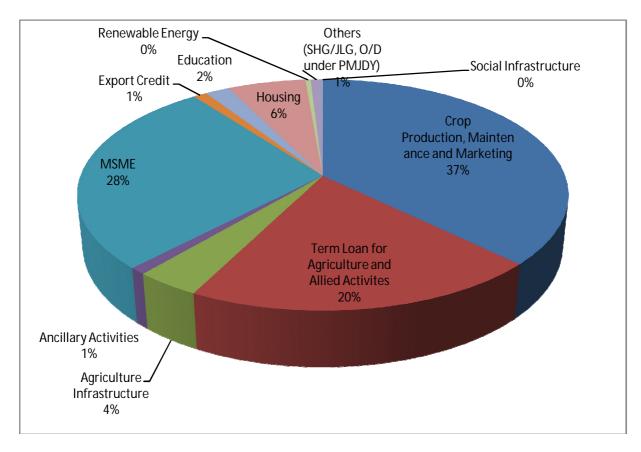

- a) Low crop diversification, inadequate capital formation in Agriculture, difficulties in getting credit by SF/MF, share croppers/tenant farmers.
- b) About 93% of cultivators are SF/MF owning fragmented landholdings underscores the need for promoting JLGs so as to facilitate their access to credit from formal banking system.
- c) To reduce the excess use of fertilizers and pesticides by the farmers, there is a need to promote organic farming practices.
- d) Considering the large area under sugarcane cultivation, adoption of microirrigation systems by the farmers needs to be encouraged. Sugar factories, Govt. agencies, KVKs can play a lead role in this.
- e) Dairy loans need to be encouraged on a large scale with tie up arrangements with Milk Unions.
- f) To avoid distress sale by farmers, there is a need for promotion of pledge financing against Negotiable Warehouse Receipts (NWRs).
- g) Banks may extend loans to MSME sector under CGTMSE.

Conclusion: There is a need for coordinated approach for enhancing capital formation in Agriculture sector, strengthening of SAMIS reporting system, better monitoring and review at BLBC and DLCC meetings, increasing coverage of farmers under KCCs.

SUMMARY OF BROAD SECTOR-WISE PROJECTIONS WITH A PIE DIAGRAM

(`in Lakh)

Sr No	Sector	Financial Projections
