Foreword

It gives me immense pleasure in presenting to you, our annual publication on "Status of Microfinance in India" for the financial year 2020-21. This publication is a comprehensive source of ground-level data on SHGs, SHG-Bank linkage programme (SHG-BLP) & JLG financing by banks, bank loans to mFIs, NABARD interventions in the microfinance sector, and various other related developments. It is rich with sectoral insights and database(s) and is a very eagerly awaited publication by decision makers and other stakeholders for their business decisions, policy formulation, and further analytics.

The SHG-BLP programme has transformed lives by mainstreaming women, and making them partners in our nation building process. "Microfinance", is also emerging as a fast growing sector, although this segment is still underpenetrated. Various studies indicate that the microfinance sector in India

has the potential to grow at a CAGR of 40% by 2025. At around the same time, India is also poised to become a US\$ 5 trillion economy.

Based on the progress made so far, the efforts of banks, financial institutions and many agencies like NRLM, other civil society organisations, etc., in formation and credit linkage of women are highly laudable. However, the job is only half-done. Nearly 50% of SHGs are yet to be credit-linked. There is also a regional imbalance, not only in number of accounts but also in the average loan size. While Southern India has a 36% share in total bank linkages, Northern regions (5.4%) and NE regions (5.6%) have a very meagre share. Owing to the higher incidence of poverty and vulnerability, the SHG movement in these regions assumes great significance.

The priority sector guidelines issued by RBI in September 2020 address the issue of regional imbalance by assigning a higher weight to incremental priority sector credit in districts with lower flow of credit. Banks need to redraw their strategies for widening and deepening credit flow in these districts and can draw comfort from the continued lower level of NPAs, which reflect resilience of group saving and borrowing even in times of the pandemic.

Financial literacy and Financial Inclusion are the corner stones for successful entrepreneurship, which in turn fuel economic growth. Besides focusing on financial literacy, NABARD has also actively engaged in supporting SHGs and JLGs under Micro-enterprise development program (MEDP) and Livelihood Enterprise Development program (LEDP). These programs aimed at developing and nurturing employable skills in rural India. Already 5.22 lakh members have been trained under MEDP and 1.36 lakh SHG members have diversified and attained sustainability under LEDP.

The future of our country rests on our ability to mainstream the excluded, especially the young women of India, who are literate, financially independent, and tech-savvy and can be trained better to take up self-employment activities. A multi-pronged strategy of harnessing our demographic dividend, unleashing entrepreneurial spirit, increasing technological penetration and focusing on financial literacy in rural areas needs to be adopted as an integral part of this strategy.

The SHG programme, is more than 30 years old since the first pilot programme was implemented by NABARD way back in the 90's. A number of people have positively contributed to shaping this movement by providing the required policy impetus and nurturing them. This publication contains brief snippets from these visionaries who have helped the SHG movement reach this phenomenal stage. I am sure, their views will continue to guide and inspire all of us in taking the movement forward to its next level.

I appreciate and convey my sincere gratitude to all stakeholders, especially the Bank officials for rendering cooperation in such an adverse situation, which has enabled us to bring out this publication in time. I am sure that readers will find this publication valuable and informative. I am sanguine that, together we can take the microfinance sector to greater heights.

Dr. G R Chintala
Chairman

Acknowledgements

We thankfully acknowledge the support of Sa-Dhan for sharing vital data and inputs which readily facilitated analysis of the MFI Sector.

We are thankful to Shri Vipin Sharma, CEO, ACCESS Development Services and Ms Meenal Patole for drafting the report, supported by Ms Priyamvada Rathore and Mr Praveen Khedale in designing the layout as also for providing logistic support in bringing out this report.

We place on record the valuable contribution made by Banks and Financial Institutions for providing data on time. The efforts of officers and staff of MCID, HO in bringing out this book, ably supported by the counterparts in the NABARD Regional Offices is also appreciated.

Microfinance in India

“Microfinance has already shown that enabling the poor to empower themselves economically can be a good business.”

Pierre Omidyar

- 1.1 The Self Help Group movement is a revolutionary initiative which connects group members, many of whom had never had a bank account before, to formal financial services in a sustainable and scalable manner. The roots of the model are indigenous. Share generally economically homogeneous groups formed through a process of self-selection based upon the affinity of its members. SHGs have well-defined rules and bye-laws, hold regular meetings and maintain records and savings and credit discipline. Thus SHGs are self-managed institutions characterized by participatory and collective decision making.
- 1.2 The programme of linking Self Help Groups (SHGs) to banks was started on a pilot basis by the National Bank for Agriculture and Rural Development (NABARD) in the year 1991-92 and since then NABARD has been propagating, promoting and financing SHG-Bank Linkage Programme (SHG-BLP).
- 1.3 What began as a humble approach of improving the outreach of the banking system and deepening rural credit, has, over the years, transcended into a holistic programme for building financial, social, economic, and of late, technological capital in rural India. The model found its acceptance due to the fact that for the poor, the most likely access to money in urgency were the informal service providers such as moneylenders, pawnbrokers and so on who charge usurious interest rates including some physical collateral. If repayments were delayed, naming and shaming was a usual practice amongst the moneylenders, which then becomes a social issue as well. Quick studies conducted after the pilot brought to the fore features such as (i) large participation of women, particularly from the resource poor regions in the project, (ii) membership of the SHGs came from the mostly from the poorest section of the society (iii) the demand for credit is frequent and for small amounts at unpredictable times and sometimes not necessarily for purchase of income

“It is women who are leaders in change and without their participation poverty can never be removed.”

Ela ben Bhatt

generating assets and (iv) contrary to general belief, even the poor are able to save and their savings increased with increase in income.

- 1.4 Membership of SHGs has enabled economic empowerment of women through control of resources, political empowerment through participation in decision-making, social empowerment through better social standing obtained by better economic status. Thus, the SHGs have become the most powerful conduits for incubating and empowering women to move from subsistence to sustainability.

Evolution of the SHG movement

- 1.5 Despite geographical expansion of the rural banking system and substantial increase in rural lending by banks, post nationalisation, a substantial number of asset-less rural poor continued to remain out of the formal banking system. NABARD commissioned an Action Research Programme in 1987 through Mysore Resettlement and Development Agency (MYRADA) to identify the reasons for the same, which brought out the mismatches between the needs of the poor clients and the products on offer with the banking system. Based on the findings of the Action Research programme, a pilot was launched in 1992, which envisaged linking of 500 SHGs by the end of 1994, with policy backing from the Reserve Bank of India (RBI) advising banks to open savings accounts in the name of Groups.

- 1.6 With the inclusion of SHG linkage as a normal lending activity of the banks under priority sector, the programme registered a phenomenal growth. By 2002, the SHG-BLP programme involved over 31,000 rural outlets of more than 500 banks, with a loan portfolio of more than ₹ 2,000 crore. Formal banking system had reached the doorsteps of 116 lakh very poor households, providing micro-credit to them through 7.17 lakh SHGs, hand-held by over 2,800 partners. At the end of the second decade, the SHG-Bank linkage programme had turned into a solid structure with more than 79.60 lakh savings-linked SHGs covering over 10.3 crore poor households as on 31 March 2012. The total savings of these SHGs amounted to ₹ 6,551.41 crore. The number of credit-linked SHGs under the programme stood at 43.54 lakh.

- 1.7 Since 1999, Government of India (GoI) has been supporting promotion of the SHGs by way of special budgetary provision. GoI introduced 'Swarnajayanti Gram Swarozgar Yojna' or SGSY from April 1999. The SGSY was implemented with group mode of financing for covering all BPL families. Subsequently, in 2011, launched National Rural Livelihood Mission (NRLM) by restructuring Swarnajayanti Gram Swarozgar Yojana (SGSY). NRLM works towards achieving universal financial inclusion of all the poor households which are organized into SHGs. NRLM works on both demand and supply sides of financial inclusion. On the demand side, it promotes financial literacy among the poor and provides catalytic capital to the SHGs and their federations. On the supply side, NRLM coordinates with the financial sector to deliver credit and related services to SHGs and their federations. The NRLM has supported nearly 70 lakh SHGs, with a cumulative outreach to nearly 7.5 crore families.

- 1.8 The success of SHG-BLP also attracted the attention of State Governments. Many of the State Governments, over a period, undertook, through departmental initiatives, major programmes of SHG promotion. Notable among the State government initiatives were Andhra Pradesh with Podupulakshmi & Indira Kranti Patham programme, Jeevika Project of Bihar, Mahalir Thittam in Tamil Nadu, Kudumbashree in Kerala and TRIPTI/ Mission Shakti projects in Odisha.
- 1.9 The SHG-BLP programme has been designed and nurtured by NABARD for over three decades now. It has provided policy support, training and capacity building besides extending financial support in the form of grant as well as refinance for bank lending for the healthy growth of the programme. The initiatives include developing a conducive policy framework through provision of opening Savings Bank Accounts in the names of SHGs [though they are informal groups]; relaxation of collateral norms; simple documentation; introduction of Bulk Lending Scheme in 1993 for encouraging the NGOs which were keen to try group approach and other financial services delivery innovations in the rural areas; support to banks for promotion of SHGs; support to NGOs for promotion of SHGs; training and awareness building among the stakeholders; provision of capacity building support for NGOs/SHGs/Banks; promotion of livelihood development of SHG members through training programmes; Monitoring progress and dissemination through Seminars, Workshops, Occasional Papers and Print media.
- 1.10 As a result of all the above initiatives, the system has evolved and matured enabling the SHGs to access loans under SHG-BLP besides loans that SHGs have been able to access from their own Federations and the NGO MFIs. As on 31 March 2021 the SHG BLP programme has reached many a milestone with a total membership of about 112.23 lakh SHGs covering 13.8 crore households across India. During the year 2020-21 the number of SHGs increased by 9.80 lakh with a corresponding increase in the savings by ₹ 11325.56 crore. The savings outstanding of SHG with Banks as on 31 March 2021 has reached an all-time high of ₹ 37477.61 crore. During the year 2020-21 the banks have disbursed loans of ₹ 58070.68 crore.
- 1.11 Taking the learning of collateral free lending from the SHG concept, NABARD piloted and developed an effective credit product for landless laborers, share-croppers, tenant farmers & oral-lessees i.e. "Joint Liability Groups" (JLGs). This product facilitates hassle free credit which is of longer term; fulfilling seasonal needs of credit larger in quantum. The product however, relies on mutual guarantee of clients like small /marginal/tenant farmers, oral lessees and sharecroppers, micro-entrepreneurs, who have no conventional collateral to offer. It leverages on social collateral offered by the members. Encouraged by NABARD's 100 percent refinance support to banks, the Scheme has also recorded an impressive growth during 2020-21 with 41.27 lakh JLGs receiving financial assistance to the tune of ₹ 58311.78 crore from various banks. Under the Scheme NABARD has sanctioned a cumulative grant assistance of ₹ 219.73 crore to Joint Liability Groups Promoting Institutions (JLGPIs) for promoting 11.69 lakh JLGs across the country and enabling flow of collateral free loan to tenant/ landless farmers. As on 31 March 2021, under the business model of JLG promotion and financing, NABARD has so far entered into 72 MoUs in 23 States; comprising 49 MoUs with RRBs, 19 with Commercial Banks, 2 with Cooperative Banks and 2 with NABFINS. Under this scheme, NABARD provides grant assistance to Banks for using corporate BC/ NGO- as JLGPIs and for capacity building to create a pool of trainers out of bank staff for formation, nurturing and financing of new JLGs.

- 1.12 The MFIs emerged in India in the late 1980s in response to the gap in availability of banking service for the unserved and underserved in rural population. These institutions operating in the country follow a variety of credit methodologies. The work of MFIs commenced around the same time as the SHG-Bank Linkage Programme was evolving. Many of them were inspired by the Grameen Bank in Bangladesh and the innovations taking place in Latin America. Voluntary agencies and Non-Governmental Organisations (NGOs) undertook financial intermediation as a part of larger social good. Majority of these NGOs were registered as Trusts or Societies. Many NGOs have also helped SHGs to organise themselves into Federations and these Federations were performing non-financial functions like social and capacity building activities, promotion of SHGs, facilitating training of SHGs as well as undertaking internal audit.
- 1.13 In the initial years of setting up of MFIs in their NGO-MFI form, NABARD assisted them with grant support and Revolving Fund Assistance (RFA). Later NABARD helped a number of MFIs with quasi-equity and subordinated debt instruments from Micro Finance Development and Equity Fund (MFDEF). Similarly, SIDBI supported the growth story of MFIs through its SIDBI Foundation for Micro Credit (SFMC) in 1999. The India Microfinance Equity Fund (IMEF) later supported MFIs, especially the medium and smaller ones with equity and quasi-equity. The Micro Units Development & Refinance Agency Ltd (MUDRA), a NBFC set up by the Govt in 2015 with focus on microenterprises, extends financial supports to MFIs for on-lending to individuals/groups/JLGs/SHGs for creation of qualifying assets as per RBI guidelines towards setting up/running micro-enterprises as per MSMED act and non-farm income generating activities.
- 1.14 There are around 184 MFIs (including NBFC-MFIs) operating in India in various forms - trusts, societies, cooperatives, Section 25 companies and Non-Banking Financial Companies (NBFCs).
- 1.15 The MFI industry has shown an equally promising growth. As per Sa-Dhan, as on 31 March 2021, the microfinance industry has a total loan portfolio of ₹ 2,47,839 crore with a year on year growth of 17%. The share of the various players in overall portfolio outstanding indicate that the Banks' share was highest amounting to ₹ 110122 crore (44%), NBFC-MFIs ₹ 79115 crore (32%), Small Finance Banks ₹ 37724 crore (15%), NBFCs ₹ 18765 crore (8%) and Non-profit MFIs ₹ 2113 crore (1%).
- 1.16 A detailed review of the microfinance sector is undertaken in Chapter 2. The initiatives of NABARD for the microfinance sector are discussed in Chapter 3. Success stories are presented in Chapter 4. Findings of studies commissioned by NABARD and seminars and conferences are detailed in Chapters 5 and 6 respectively. The agenda for 2021-22 is discussed in Chapter 7.

2 Review of The Microfinance Sector

The search for delivering financial services to the rural poor in a sustainable manner led to two distinct approaches for extending micro finance in India, the bank led approach called Self Help Group – Bank Linkage Programme (SHG-BLP), and the Micro Finance Institution led approach. The first part of the chapter reviews the progress made in the SHG-Bank linkage programme and the second part focuses on performance of the MFIs.

Part I: The SHG-Bank Linkage Programme

2.1 Progress of SHG Bank Linkage Programme

The SHG-BLP programme has indeed become an example of success of a microfinance programme globally with an outreach to 13.87 crore families, providing social, economic and financial empowerment to the rural poor, especially women. The year wise progress (2018-19 to 2020-21) in savings and credit linkage of SHGs under the SHG-BLP is enumerated in **Table 2.1** and depicted in **Figure 2.1** which gives an account of savings, credit disbursement and credit outstanding of total SHGs including those under NRLM and NULM.

2.2 Progress of Savings Linkage of SHGs with Banks (2018-19 to 2020-21)

As savings grow, the eligibility of SHGs for loans from banks/FIs augment and thus business investment potential increases. **Table 2.2** and **Figure 2.2** provide region-wise performance of savings linkage of SHGs in terms of absolute numbers and percentage share.

During 2020-21, banks have reported an addition of 9.8 lakh savings linked SHGs at all India level registering a growth of 9.5 per cent compared to 2.3 in 2019-20. Region-wise comparative data reveals that in terms of number of SHGs savings linked with banks, positive growth was registered across all regions during 2020-21. Among the regions, Central region registered the highest growth of

19%, whereas the Western Region registered the lowest growth of 5%. Six States/UTs viz., Uttarakhand, Nagaland, Chandigarh, New Delhi, Karnataka, Daman & Diu, registered a negative growth. As many as 19 States/UTs viz., Chhattisgarh, Madhya Pradesh, Andaman & Nicobar, Bihar, Odisha, Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Tripura, Haryana, Jammu & Kashmir, Punjab, Andhra Pradesh, Lakshadweep, Puducherry, Telangana and Gujarat registered growth rates higher than the All India average. The decline in savings accounts of SHGs in the six States is mainly due to data sanitization, closure of dormant accounts and reporting errors etc.

In terms of savings amount, the Northern Region had the highest growth of 193%, followed by the Western Region (85%), North Eastern Region (73%), Southern Region (45%), Central Region (24%) and the lowest growth of 17% was registered by the Eastern Region.

Figure 2.2: Regional Distribution of Savings linked SHGs (% share)

As depicted in **Figure 2.2**, in terms of percentage share of savings linked SHGs, the share of Southern Region is highest at 35.3%, however it is a decline of 0.7% when compared to 2019-20. The Eastern Region continues to have the second highest share (27.8%) and there is a very small increase over the previous year (27.4%). The Western region is at the third place, with a share of 13.8% in 2020-21, however there is a marginal decline from the previous year (14.4%). The State wise details of number of SHGs is given in **Statement IIA**.

2.3 Savings Outstanding with SHGs

Cumulative savings with SHG reveals its strength, exhibits thrift discipline which is important to meet emergency or life cycle needs of the members. Savings is a key leverage factor while accessing bank loan or loan from any Financial Institution. The savings outstanding of SHGs as on 31 March 2021 increased from ₹ 26152.05 crore to an all-time high of ₹ 37477.61 crore, registering a significant growth of 43% over the year 2019-20, with all regions registering a positive growth. Among the States/UTs, barring Arunachal Pradesh, Nagaland, Chandigarh, Daman & Diu and Goa, all other States/ UTs registered a positive growth with 10 States/UTs viz., Chhattisgarh, Assam, Meghalaya, Tripura, Punjab, Andhra Pradesh, Puducherry, Dadra Nagar Haveli,

Lakshadweep and Maharashtra registering growth rates higher than the national average.

Region wise average savings per SHG is given in **Figure 2.3**. The average saving has augmented by 31% from ₹ 25531 in 2019-20 to ₹ 33392 in 2020-21. Region wise data reveals that the average savings has increased for all the regions, more significantly for the Northern Region by 177% from ₹ 10381 to ₹ 28590, followed by Western Region (76%) and North Eastern Region (52%). Southern Region and North Eastern Region continue to have the highest and lowest average savings per SHG respectively. Among the States/UTs, Punjab had the highest savings outstanding of ₹ 2 lakh per SHG. The State wise outstanding position is given in **Statement IIC**.

2.4 Credit disbursement by Banks

The comparative details of bank loans disbursed to SHGs for the three financial years (2018-19 to 2020-21) are given in **Table 2.3**. A total of ₹ 58070.68 crore was disbursed by banks to 28.87 lakh SHGs during the year 2020-21 as against ₹ 77659.34 crore to 31.46 lakh SHGs during 2019-20. This resulted in a negative growth of 8.22% and 25.22% in respect of loans disbursed to SHGs and the amount disbursed respectively. The highest disbursement during 2020-21 was in the

Fig 2.3: Region Wise Average Savings Per SHG (₹)

Southern Region amounting to ₹ 37860.63 crore to 13.37 lakh SHGs, whereas the lowest disbursement was in the Northern Region (₹ 940.45 crore to 0.68 lakh SHGs). Compared to the previous year, there was a decline in the credit disbursement in the Southern (-31%) and Eastern (-16.67%) Regions, whereas the Northern, North Eastern and Central regions witnessed an increase in the credit disbursement. Among the States, major States such as Chhattisgarh, West Bengal, Himachal Pradesh, Jammu and Kashmir, Andhra Pradesh, Karnataka and Maharashtra registered a sharp decline, which may be attributed to the impact of the pandemic.

Figure 2.4 provides a comparative analysis of Region wise credit linkage of SHGs during the last three years (2018-19 to 2020-21). The statistics reveal that during 2019-20 there was a sharp increase and in 2020-21 the credit linkage returned to 2018-19 levels. This is probably on account of the impact of COVID lockdown. Except for the Northern and the North Eastern Region, all other Regions have shown a decline in the percentage of credit linked SHGs. During the year 2020-21, despite a reduction of 4%, the Eastern region has surpassed the Southern region in the percentage of SHGs credit linked, but this is due to a decline of 10.6% in the latter. The proportion of credit linked SHGs in the Northern, North Eastern, Central and Western Region remained below 12%.

The proportion of credit linked SHGs in the Northern, North Eastern, Central and Western Region remained below 12%.

As shown in Table 2.3 and also depicted in Figure 2.5, the average loan size per SHG

during 2020-21 (₹ 201118) reduced by ₹ 45733 compared to 2019-20 (₹ 246851). Except for the Northern Region, average loan size per SHG has reduced for all other regions. Region wise comparison for 2020-21 reveal that the average loan size is highest in the Southern region, followed by North Eastern Region and Western Region.

Among the States/ UTs, 9 States viz., Madhya Pradesh, Uttarakhand, Jharkhand, Manipur, Meghalaya, Haryana, Himachal Pradesh, Jammu and Kashmir and Punjab registered increase in the average loan size, 3 States viz., Assam, Mizoram and Rajasthan maintained status-quo, while the remaining States registered lower average loan disbursements. The decline was substantial in Andhra Pradesh, Kerala, Tamil Nadu, Telangana and Gujarat which had a significant impact on the aggregate average loan size.

2.5 Credit Outstanding

As on 31 March 2021 a total of 57.80 lakh SHGs credit linked with banks have loans outstanding of ₹ 103289.71 crore. Region wise SHGs having loans outstanding and their percentage share in overall loans outstanding as on 31 March 2021 is given in **Table 2.4** and **Figure 2.6** respectively. As on 31 March 2021, out of the 112.23 lakh SHGs under the SHG-BLP, 51.50% were credit linked to banks. The Eastern Region has the highest share in the number of SHGs having loans outstanding with banks, at 72.12% followed by the Southern Region (64.10%). Further, it can be seen from **Table 2.4** that the performance of other regions compared to the top two regions is very low. In terms of % share of SHGs with loans outstanding as on 31 March 2021, the Region wise data reveals that the Southern Region (43.93%) and Eastern Region (38.96%) have the major share whereas the Northern (2.48%) and North Eastern Region (2.84%) are lagging far behind.

Figure 2.7 depicts State wise percentage of SHGs with bank loan outstanding as on 31 March 2021. Overall, out of 112.23 lakh savings linked SHGs, 51.5% i.e. 57.80 lakh SHGs have loans outstanding with banks. Eight States are having credit linkage percentage above the All India average. Bihar is leading with 85.7% of its SHGs with loans outstanding, followed by West Bengal (85.6%) and Telangana (79.6%). The top performing States are mainly from Northern, Eastern and Southern Regions with the Southern States dominating the list. The state-wise position of bank loans outstanding with SHGs as on 31 March 2021 is given in **Statement II C**.

Figure 2.8 depicts comparative data on State wise average loan outstanding per SHG as on 31 March 2020 and 31 March 2021. The average loan size as on 31 March 2021 has decreased in 25 states compared to the position as on 31 March 2020. The decrease is highest in Punjab (68%), followed by New Delhi (57%) and Chandigarh (56%). Dadra Nagar Haveli (51%), Sikkim (28%) and Tripura (22%) are top three states in terms of growth in average loan size compared to the outstanding as at the end of

Fig 2.7: State wise SHGs with bank loans outstanding as on 31 March 2021 (%)

previous year. Andhra Pradesh, Telangana and Karnataka are the top three states in average loan outstanding per SHG.

2.6 NPAs in SHG-BLP

NPAs under bank loans to SHGs as on 31 March 2021 were 4.73 per cent as compared to 4.92 per cent as on 31 March 2020 (Table 2.5 & Figure 2.9). The decrease in NPAs is also seen across Regions except the Eastern Region, where it has very marginally gone up. The absolute level of NPAs has also declined from ₹ 5321.70 crore in 2019-20 to ₹ 4889.21 crore in 2020-21, which is a welcome change from the last year. This trend is also seen in Regions except North Eastern and Eastern Region.

As regards NPAs at Regional level, only the Eastern and Southern Region have NPA levels below the All India level. As these two regions are having the maximum share of SHG loan disbursement and loans outstanding, any change in the NPA levels in these two regions has major impact on the All India position. The State wise NPAs under SHG BLP are depicted in the **Figure 2.10**. Out of total 35 States & UTs reporting data, 26 showed decline in NPA levels and thus improvement in portfolio quality. The state and bank wise status of NPAs in bank loans is given in Statement VI.

2.7 Agency wise distribution of SHG Bank Linkage Programme

Commercial Banks, RRBs and Cooperative Banks play a pivotal role in strengthening the SHG-BLP through provision of savings and credit services. The Agency-wise status of SHG-BLP is given in Table 2.6. As on 31 March 2021, the Commercial banks through their vast network of banking operations have done exceedingly well, with over 61.28 lakh SHGs having saving accounts with them. Thus, in terms of number of SHGs saving with

Banks, the Commercial Banks lead with 54.6% share, followed by the RRBs at 32.05% (35.97 lakh SHGs) and the Cooperative Banks at 13.35% (14.98 lakh SHGs). Bank wise details of savings outstanding as on 31 March 2021 is given as Statement IA. The Commercial Banks also have a major share in disbursements and loans outstanding to SHGs. Bank wise details of loans disbursed to SHGs and loans outstanding against SHGs is given in Statement IB and IC respectively.

As given in **Table 2.7**, average savings of SHGs with Banks has increased for all the Agencies, the increase is particularly significant for the Cooperative Banks (102%). The average savings have gone up from ₹ 25531 to ₹ 33392. The average loans disbursed to SHGs have decreased by 19%, mainly due to a decrease of 29% for Commercial Banks. The average

loans disbursed by RRBs have decreased by 7%, whereas, there is an increase of 18% in the same for Co-operative banks. The average loans outstanding per SHG have decreased for Commercial Banks, whereas there is an increase in case of RRBs and Co-operative Banks. Bank wise loans outstanding to SHGs is given in **Statement IC**.

Fig 2.11: NPA Position of Banks (SHG-BLP) during 2018-19 to 2020-21 (%)

2.8 NPA position in SHG-BLP: Agency wise

As against the total loans outstanding of ₹ 103289.71 crore under SHG-BLP for all Banks as on 31 March 2021, the NPAs are at 4.73%. There was a marginal increase in the NPAs of Commercial Banks, whereas the NPAs have reduced for both RRBs and Co-operative Banks. Three year comparative NPA position of the Agencies is depicted in Figure 2.11. The overall NPA for the Banks has decreased from 4.92 % of loans outstanding as on 31 March 2020 to 4.73% as on 31 March 2021, a reduction of 19 bps.

Part II: Review of the operations of MFIs

Microfinance industry in India is diverse with several types of players delivering financial services – credit, insurance and pension- to the low income households. These include NGO-MFIs operating as societies, trusts, section 8 Companies, co-operatives (including banks), public and private sector banks, NBFCs, NBFC-MFIs and more recent inclusion being SFBs. Their legal and operating environment differs and hence, over the years, regulation has become a vital topic for the microfinance industry. With the banks, NBFC-MFIs and now SFBs engaged in micro finance delivery, RBI has stepped in with a number of policy directives to bring in uniformity and standards in the operating structure and retail service processes for enhancing transparency and customer protection. In recent years, the focus on technology and digitization of processes by MFIs has helped to streamline operations, reduce costs and turnaround time for customer servicing.

The microfinance related Master Circulars by RBI since 2011 have defined the do's and don'ts for the MFIs and brought in stricter forms of compliances. The definition of qualifying assets has helped standardise targeted outreach in terms of income qualification, loan size, loan exclusions, interest rate regulation and so on. The loan provisioning norms are directed towards maintaining asset quality and hence promoting prudent practices. Microfinance works with underserved population who have poor livelihood means, low education and very new to engage in financial and banking transactions. Therefore, the Fair Practices Code directs the various RBI regulated entities to adhere to a series of customer/consumer protection norms to bring in complete fairness and transparency in terms of customer on-boarding, engagement and grievance redressal. Covid-19 pandemic has impacted all players, thus in March 2020, RBI had issued policy direction to provide a three month moratorium to microfinance clients and as the pandemic affected repayments from clients to MFIs, RBI also issued guidelines for loan loss provisioning.

RBI approved MFIN and Sa-Dhan as Self-regulatory organisations for the microfinance industry. The role of Self-regulatory organisations (SROs) has enabled a number of new initiatives that are directed towards bringing in common operating rules, creating level playing field for all types of operators, transparency in lending practices, customer grievance redressal and protection. The Code of Conduct and the Code for Responsible Lending are the two important initiatives that all the member players agree to and this has systematised the effort for self-regulation by following a common set of guidelines and principles. Hotlines have been set up to receive pan India customer feedback and through a systematically outlined process, the SROs provide feedback to the various organisations for addressing concerns and ensure continuous improvement for meeting the responsible lending principles.

The SROs also play a crucial role in providing industry updates to RBI and various key Government institutions and thus contribute to policy level initiatives. Submission of weekly information on portfolio by microfinance players to the CICs is another policy step that has enabled them to work on the principles of responsible lending, take informed lending decisions. The SROs monitor this process stringently and use the pan India data to generate well analysed meaningful information for the industry. A credit bureau report is also a useful tool to educate customers and promote a healthy credit profile for them.

2.9 Progress of MFI operations during 2020-21

The various microfinance industry players are broadly categorized into five types: NBFC-MFIs, Banks, SFBs, NBFCs and Non-profit MFIs. All of these, except the Non-profit MFIs, are regulated by RBI. The Non-profit MFIs are mostly registered as Societies or Trusts, and are regulated by the respective Acts. As given in **Table 2.8**, compared to 2019-20 (141 lenders) there were 209 lenders during 2020-21 which included 87 NBFC-MFIs, 58 NBFCs, 39 Non-profit MFIs, 17 Banks and 8 SFBs. The

total industry loan outstanding as on 31 March 2021 is estimated at ₹ 247839 crores with 1028 lakh active borrowers, an overall growth of 17% and 12% respectively over the previous financial year. In 2020-21 the SFBs and NBFCs have registered a negative growth in active loans and outstanding portfolio.

Industry highlights on loan portfolio are given in Table 2.9. The detailed data is in Statement XIII. The overall performance figures indicate that the Covid-19 pandemic has impacted business for all the players during 2020-21. However, the performance of Banks has improved in terms of loans outstanding from ₹ 81001 crore in 2019-20 to ₹ 110122 crore in 2020-21. The loans outstanding of NBFCs also showed a marginal positive growth with a slight decline in the no. of active loans. Non-profit MFIs registered a growth in both no. of active loans and loans outstanding.¹

The industry has disbursed a total of 553 lakh loans during the year 2020-21, which is lower compared with 735 lakh loans disbursed during the year 2019-20 with loan amount of ₹ 200081 crore for 2020-21 and ₹ 254754 crore for 2019-20. Banks have the largest share of

50% in amount of loans disbursed and 50% in number of loans disbursed during the year 2020-21. NBFC-MFIs had disbursed loans amounting to ₹ 79416 crore in 2019-20, which has come down to ₹ 59867 crore in 2020-21. Cumulatively, lending has come down by 25% in terms of active loan accounts and 21% in terms of amount of loan disbursed compared with the previous year. In terms of loans outstanding, the top 10 States in descending order are: Tamil Nadu, Karnataka, Bihar, Maharashtra, Madhya Pradesh, Uttar Pradesh, Odisha, West Bengal, Rajasthan and Kerala. For NBFC-MFIs, 84% of total active loans and loans outstanding portfolio is from these 10 States and for the NBFCs, the corresponding figure is 86%. For the Non-profit MFIs, 84% of active loans and 86% of loans outstanding portfolio is concentrated in these 10 States.

The average loan size per client/member has gone up for all the players. Overall, the average loan size has gone up by 7.9% from ₹ 36744 in the year 2019-20 to ₹ 39637 in 2020-21. For the Non-profit MFIs and NBFC-MFIs, the average loan size per member has gone up by 18.8% and 16.0% respectively.

1. For the category NBFC it is important to note that as per RBI qualifying asset norms for micro credit an NBFC cannot have more than 10% of loan portfolio as qualifying asset. Hence, NBFCs operate with this norm.

2.10 NPAs status of MFIs as on 31 March 2020 and 2021

It is evident that the microfinance customers/clients are facing challenges in terms of impact on their businesses, loss of jobs, reverse migration to villages and lack of new opportunities due to Covid-19. This, in turn, has impacted the micro credit lending business and recoveries as well. As can be seen from

Table 2.10, on-time recoveries have declined and PAR figures have increased significantly across all ageing categories. As on 31 March 2021, the microfinance sector PAR 30 is at 9.12%, PAR 90 at 4.15% and PAR 180 at 6.70%.

Data for NBFC-MFIs indicates that while the MFIs started gaining some control over delinquencies post the first Covid wave, new delinquencies are increasing as indicated by

PAR 30 figures (7.21%) over PAR 90 figures (3.36%). A similar trend is seen for SFBs with PAR 30 at 8.31% and PAR 90 at 3.62%. For Banks the impact is more significant in PAR30 category (10.66%) and PAR 90 at 4.81%.

An overall comparison among all the operators indicates that the Non-profit MFIs showed highest impact on portfolio quality over the previous financial year. However, this data is not comparable, as there is a limitation in terms of data availability for this category in some States, as given in Statement-XIII. Another aspect to note about the delinquency parameters (available only for NBFC-MFIs) is that among the 10 States facing significant delinquency challenges, 5 are from North Eastern Region viz. Assam, Meghalaya, Arunachal Pradesh, Nagaland and Tripura and others from rest of the regions viz. Himachal Pradesh, West Bengal, Andaman & Nicobar, Kerala and Puducherry.

2.11 Progress under MFI/MFO-Bank Linkage Programme

The NBFC-MFIs contribute significantly to the microfinance industry with ₹ 79,000 crore loan

portfolio and a client base of 359 lakh. The MFI sector aims to further deepen its outreach for providing sustainable financial services to the poor and vulnerable families pan India. In addition, the prudential norms and self-governing discipline followed by the MFIs has enabled them to access more liquidity from the banking sector, both public and private. Table 2.11 provides progress details of bank credit to MFIs. The data reveals that compared with 20,744 loans disbursed to MFIs by Banks in 2019-20 amounting to ₹ 20,875.97 crore, a total of 28,601 loans amounting to ₹ 15,322.33 crore were disbursed during the year 2020-21.

The total bank loan outstanding to MFIs as on 31 March 2021 is ₹ 24,494.04 crore in 61,259 loan accounts compared to ₹ 29,896.67 crore in 52,288 accounts as on 31 March 2020. In terms of disbursement, the loan accounts disbursed during the year have registered a 38% growth and loan amount decrease of 27%. In terms of loan outstanding, banks/FI loans to MFIs have registered a growth of 17% for loan accounts and a decrease of 18% for loan outstanding.

Agency wise details on bank loans to MFIs is given in Table 2.12. Commercial Banks disbursed ₹ 11204.83 crore during the year 2020-21 to the MFIs which is a decline of

40% compared with the previous year. The loan outstanding stood at ₹ 20732.51 crore in 11964 loan accounts, a 23% increase in terms of accounts and 22% decline in terms of outstanding amount. The decline may probably be on account of increasing PARs in respect of all lenders.

The RRBs disbursed ₹ 19.26 crore in 994 loans to MFIs during 2020-21 and loans outstanding of ₹ 37.65 crore in 3296 accounts. The RRBs showed positive growth in lending to MFIs with an increase of 15% in loan accounts

and 7% in loan amount disbursed. The loans outstanding decreased by 11%. Disbursements by Co-operative Banks grew by 34% whereas loans outstanding grew by 50%.

SIDBI disbursed ₹ 2583 crore with a growth of 144% in terms of accounts and 136% in terms of loan amount, as compared to 2019-20. As on 31 March 2021 the loan outstanding stood at ₹ 1892.26 crore, a 7% decline from the previous financial year. In terms of accounts, the figure is at 78, registering a 39% increase².

Initiatives of NABARD for the Microfinance Sector

“The concept of Self Help Groups is of immense importance in the realisation of our goal to take banking services to the doorsteps of the poor. They are especially useful for freeing the poor people from the clutches of moneylenders. I warmly compliment NABARD for overperformance in reaching the targets set for it. Last year, against a target of 10,000 Self-Help Groups, it covered 18,000. In the current year too. I am confident that it will surpass the enhanced target of covering 50,000 micro credit groups at the grassroots level. I wish NABARD all the best in realizing its internal target of one million Self-Help Groups in the next ten years. Experience has shown that a vast network of vibrant grassroots cooperative organizations is the surest guarantor of socio-economic empowerment of the poor and especially of poor women.”

Excerpt from the speech delivered by the Hon'ble Prime Minister of India, Late Shri Atal Behari Vajpayee on the occasion of an Award Giving Ceremony for the best performing cooperative banks organised by the NABARD at New Delhi on 07 May 1999

The SHG-BLP programme has emerged as a powerful intervention for SHG promotion, women empowerment, financial services delivery and overall poverty alleviation through holistic financial inclusion. The programme has evolved through various phases and NABARD has initiated various interventions to strengthen the programme from time to time for providing access to a range of financial services to the financially excluded through

various products and delivery channels in a cost effective and sustainable manner. During the year 2020-21, NABARD continued with its role as the facilitator of microfinance initiatives in the country through sanction of grant assistance for SHG formation, nurturing and credit linking of SHGs with the banks, refinance support to Banks and MFIs. Further, capacity building of various stakeholders through training, exposure visits, seminars,

workshops, sanction of MEDP and LEDPs for promoting sustainable and holistic livelihood opportunities, commissioning of studies and so on.

3.1 Grant Support to Partner Agencies for Promotion and Nurturing of SHGs

NABARD has been providing grant support to NGOs, Federations of SHGs, CBs, RRBs, NGO-MFIs, CCBs, PACS, Farmers' Clubs, Individual Rural Volunteers (IRVs) and so on, for promotion, nurturing and credit linkage of SHGs with the banks. This support for SHG promotion activities has proved to be catalysts for the SHG-BLP programme. The commitment and efforts of the Self Help Promoting Institutions (SHPIs) is underscored, the spectacular growth of the movement in all parts of the country is noteworthy and as a result we have 112.23 lakh SHGs that are savings linked to banks. The financial support extended by NABARD to various SHPIs till 31 March 2021 is indicated in **Table 3.1**. Cumulatively the grant support sanctioned is to the tune of ₹ 42635.85 lakh, out of which ₹ 17123.45 lakh has been released as on 31 March 2021. During 2020-21 a total of ₹ 867.46 lakh was sanctioned for promotion of 9849

SHGs. As reveals from **Table 3.1**, while there has been no new sanction for promotion of women SHGs in LWE affected and backward districts, however ₹ 651.64 lakh was released during the year from the previous sanctions. Agency wise, State wise details of grant assistance extended to partner agencies is given in **Statements IX-A to IX-K**.

Funding for the SHPIs/agencies were from 'Financial Inclusion Fund' and 'Women Self Help Group Development Fund' to support initiatives that are focused on mentoring, handholding, financial literacy and for various microfinance related activities such as formation and linkage of SHGs/JLGs through SHPIs/JLGPIs, training and capacity building of stakeholders, livelihood promotion, studies, documentation, awareness, innovations and so on. As against ₹ 78.84 crore expended during the year 2019-20, an amount of ₹ 118 crore was expended during 2020-21 from these funds for the above mentioned activities, which was nearly 50% increase over the previous year.

of Financial Services, Ministry of Finance, and Government of India. NABARD continued to implement the scheme for promotion and financing of Women Self Help Groups in 150 identified Left Wing Extremism (LWE) and backward districts of the country. As on 31 March 2021, 2.11 lakh WSHGs were promoted / savings linked and 1.29 lakh WSHGs were credit linked to banks. Further, during the year 2020-21 support has been extended for newly introduced activities like Gram-Dukan, funding of impact assessment studies, films, exposure visits, publications, exhibition, melas, promotion of tie-ups for marketing and so on. The detailed progress under the scheme as on 31 March 2021 is given in **Statement X**.

3.3 Promotion of JLGs

Under its JLG promotion support initiative NABARD extends grant support for formation and nurturing of JLGs to Banks and other JLG promoting institutions. For strengthening JLG financing, NABARD also extends (a) financial support for awareness creation and capacity building to all stakeholders of the programme and (b) Refinance support to those banks which finance JLGs.

In 2020-21 a total of 41.27 lakh JLGs were promoted as compared to 41.80 lakh JLGs promoted during 2019-20. Cumulative JLGs promoted figure is at 133.83 lakh JLGs as on 31 March 2021, a net growth of 45% over 2019-20. The Eastern States top the list with over 43.47

lakh JLGs organized cumulatively, Southern States follows closely with 39.35 lakh JLGs. During 2020-21, Southern States top the list with more than 12.73 lakh JLGs financed during the year followed by the Eastern States with 12.46 lakh JLGs financed.

As on 31 March 2021, the cumulative amount of loans disbursed to JLGs by banks stood at ₹ 213164.87 crore which had increased from ₹ 154853.09 crore as on 31 March 2020, registering a growth of 37.6%. Northern region with total disbursements at ₹ 20855 crore had registered the highest growth at 51%, followed by Central region at 46% (Figure 3.2).

NABARD provides grant assistance to Banks for using corporate BC/ NGO- as JLGPIs and for capacity building to create a pool of trainers from bank staff for formation, nurturing and financing of new JLGs. During the year 2020-21, in order to encourage JLG formation and promotion, the grant assistance sanctioned to JLGPIs has been enhanced by 100% from ₹ 2000 to ₹ 4000 per JLG with a revised release structure.

In order to boost JLG financing NABARD has brought out a business model scheme whereby NABARD has proposed entering into an MOU with the RRBs with assured support to such banks from NABARD, where the concerned bank shall take the onus of extending credit support to JLGs on terms

Figure 3.1: Region-wise no. of JLGs promoted as on 31 March 2021 (in lakhs)

Figure 3.2: Region-wise loans disbursed to JLGs as on 31 March 2021 (In ₹ crore)

and conditions as specified in the guidelines. This Scheme is now also being promoted through Public Sector banks as also through StCBs and DCCBs. Banks have an option to also do directly. Under the business model there is a provision for taking fee-based help by engaging BC/JLGPI as BF for JLG lending. Under this business model of JLG promotion and financing, NABARD has entered into 70 MoUs with banks in 22 States; comprising 49 MoUs with RRBs, 15 MoUs with SBI, one MoU each with Syndicate Bank, Allahabad Bank, Union Bank, Bank of Baroda and two MoUs with State Cooperative Banks in Jharkhand and Odisha. This initiative has not only added to forming and financing of JLGs but also serves as a business model for improving the business of the banks.

With a view to give a fillip to the Gol's programme of Doubling of farmers' income by 2022, in consultation with NABARD, share of Financing to the SF/ MF / tenant farmers has been developed as one of the bench marks for monitoring the flow of credit to this segment by RBI.

In terms of non-financial support intervention, with a view to sensitize the stakeholders of the JLG programme, NABARD has been organising training programmes and exposure visits to successful JLGs, to the functionaries of these institutions, including financing

banks. Cumulatively around 95,300 persons have already benefitted from these trainings and exposure visits.

NABFINS as SHPI/JLGPI

NABARD, while promoting NABFINS, its subsidiary exclusively for microcredit had envisaged that NABFINS shall evolve into a Model Microfinance Institution to set standards of governance among the MFIs, operate with exemplary levels of transparency and operate at reasonable/moderate rates of interest. NABFINS commenced its operations in November 2009 as NBFC-MFI and its operations are now spread to 15 States. NABARD continues its refinance assistance to NABFINS. NABFINS was sanctioned a pilot project as JLGPI for promotion and self-financing/ direct credit linkage of JLGs in the five States of Assam, Chhattisgarh, Madhya Pradesh, Maharashtra and Jharkhand for a period of three years. NABARD had entered into two MoUs with NABFINS in Chhattisgarh and Jharkhand.

3.4 SHG based Livelihood Interventions of NABARD

Self-employment generation and creating employment opportunities through businesses are the two important aspects from entrepreneurship development perspective which will augment income earning potential

and thus help to make a significant dent on poverty. NABARD recognizes that microfinance alone may not break the vicious circle of poverty in rural India. NABARD recognizes that livelihood promotion activities are essential for holistic financial inclusion. For this an important task is to groom and skill the SHGs members to the next stage of taking up livelihood activities. What is needed is a combination of both finance and non-monetized resources and a comprehensive approach which begins with the willingness to utilize the credit in a productive way and to plough back the profit or revenue from the economic activity to business over a long period of time.

MEDP and LEDP are the two skill development programmes supported by NABARD for providing necessary impetus to enterprise promotion activities amongst SHG members. These are now seen as the two major tools with NABARD for stimulating micro entrepreneurship movement in rural India. These schemes and programmes are regularly reviewed and features upgraded from time to time and by doing so NABARD is addressing issues like lack of motivation and knowledge, lack of vocational skills, lack of access to information and expertise on various aspects of starting an enterprise, potential demand and market, finance, branding, packaging, advertisement, improving customer management skill and so on.

With a view to make enterprise and livelihood programmes more effective, NABARD has updated the guidelines under MEDP and LEDP. The new features are - the programmes now includes JLG members as participants, provision of daily stipend to participants, additional training on market linkages, e-marketing, branding and packaging, demonstration unit and issuance of Training Certificates for enabling participants to obtain Bank loan to set up enterprises. The grant assistance has been enhanced for MEDPs from ₹ 0.50 lakh to ₹ 1.00 lakh and in case of LEDPs, from ₹ 6.43 lakh to ₹ 8.80 lakh for Farm Sector and from ₹ 4.98 lakh to ₹ 7.15 lakh for Non Farm Sector.

3.4.1 Micro Enterprise Development Programme (MEDP)

Launched in 2006, the main objective of the programme is to enhance the capacities of participants through appropriate skill up-gradation in existing or new livelihood activities in farm or non-farm activities and enrich knowledge of participants on enterprise management, business dynamics and rural markets.

Training activities under MEDP being short duration in nature, are organized for 15 days and with 30 participants. A maximum grant assistance of ₹ 1 lakh is available under NABARD's support towards conduct of farm or non-farm based MEDPs. In special cases, the total duration of the programme is permitted to be increased up to 3 weeks but within this monetary ceiling.

The success of the programme is well grounded and impactful. Over the years the programme has been able to achieve its objective of imparting skills and upgrading skills, which is the basic focus of MEDP, to lakhs of SHG members. Many of the SHGs members got gainfully employed or were able to start small activity unit in their own area, earning some sustainable income to contribute to family wellbeing. Further, many of the proactive women and groups could use this basic skill and entrepreneurship as a stepping stone and graduate to a more sound and profit earning business. A few success stories are given in the next chapter.

During the year 2020-21, 22078 members were trained through 734 MEDPs with grant support of ₹ 546.39 lakh for enabling them to start micro enterprises. Cumulatively, 5.22 lakh SHG members have received training through 18,434 MEDPs with total grant support of ₹ 3509.59 lakh as on 31 March 2021. It is noteworthy that during the year 2020-21 despite challenges due to COVID 19 pandemic, 22078 SHG members were trained through 734 MEDPs and an amount of ₹ 279.47 lakh was disbursed towards these trainings.

Digitisation brings in speed and efficiency and to ease application processing NABARD operationalized MEDPs on NABSKILL portal in July 2019. It is very encouraging to note that during 2020-21, 273 MEDP applications were processed on NABSKILL.

However, it is understood that basic skill training may not be sufficient for breaking that vicious circle and elevate the group or members individually to a higher level of investment-income-saving-capital formation-further income cycle. Further, through various studies and internal feedback mechanism NABARD identified that if programmes were organized in clusters with provision for refresher training, support services covering - backward and forward linkages and handholding and escort - following a more holistic approach, it could give optimum benefit to the trainees.

3.4.2 Livelihood and Enterprise Development Programme (LEDP)

Taking cue from the feedback generated from implementing MEDPs for ₹ 10 years, prompted NABARD to conceive a more comprehensive and holistic approach towards sustainable livelihood generation and in December 2015, the Livelihood and Enterprise Development Programme (LEDP) was initiated on a pilot basis. LEDP also envisaged conduct of livelihood promotion in both farm and off-farm activities but under project mode in clusters in contiguous villages, with a provision for intensive training for skill building, refresher training, backward-forward linkages, handholding and escort support for credit linkage. The focus was also on value chain support and promotion and working closely to offer end-to-end solutions to the SHG members. So from a one off trainings there was a movement to project mode and working in close proximity with the stakeholders.

The broad objectives of LEDP are to identify suitable livelihood activities through participatory approach, to enhance the capacities of SHG members through

identifying the skill gaps and appropriate skill upgradation, to enhance the income levels of SHG members by improving/ acquiring of skills to take up livelihood activities with credit support of banks, to develop a shared vision of change, enhance capacity of SHG members for managing their enterprise, business development and marketing, to provide mentoring services and handholding support for ensuring that trained SHG members establish their livelihood ventures successfully.

In terms of programme structure, LEDP projects are implemented through SHPIs (Project Implementing Agency-PIAs), who have had close association with the SHGs and good relations with communities in the identified project area. Local bank branches/ Lead Bank officers are also associated with it. The project covers a minimum of 15 to 30 SHGs in cluster of contiguous villages, (fulfilling the criterion of "panchasutra" and credit linked for at least six months) where from 5 to 6 SHG members from each SHG are selected. The skill training is provided in batches of 25- 30 members. The programme covers a maximum 150 participants in Agriculture and Allied Activities and 90 participants in RNFS activities.

Post the initial intensive training, in terms of follow-up, this long term skill cum entrepreneurship programme shadows/ handholds the trainees for two more years. During this period activities such as refresher training, setting up of demonstration unit, extensive handholding, mentoring and so on are undertaken. The unique feature of the programme lies in its framework - starting with livelihood mapping, identification of activity and trainees and Community Resource Persons, it provides tie up with resource agencies, government programmes, training, refresher training, exposure visits, escort services, marketing tie up and finally facilitates credit linkage. This is indeed comprehensive and holistic.

Flexibility in approach is another outstanding feature of LEDP and thus several interventions are based on the need of the trainees. Project

cost is also kept flexible subject to the total cost ceiling of ₹ 8.80 lakh with per person cost of ₹ 5900 under Agriculture and Allied Activities and ₹ 7.16 lakh with per person cost of ₹ 8000 under RNFS Activities.

Within a short span of just over 5 years since its commencement, it is heartening to note that LEDP has been able to bring smiles to face of thousands of SHG and JLG members and their families. During 2020-21, 46,971 SHG members were provided skill and entrepreneurship training for setting up livelihood units through 501 LEDPs with an expenditure of ₹ 1278.70 lakh. As on 31 March 2021, 136098 SHG members have been supported through 1284 LEDPs with grant sanction of ₹ 6332.82 lakh from NABARD. The programme has been well received and a few success stories are given in Chapter 4.

3.4.3 Innovative project under LEDP through NABFOUNDATION

Menstruation, though a natural fact in a woman's life, is still considered a taboo in India. Socio-economic barriers, especially in rural India, result in the use of unsafe means of protection during menstruation by rural women. Despite various schemes and programmes promoted by the government, NGOs and private entities implemented towards improving the conditions for these rural women, it is felt that more needs to be done. The situation has worsened during the current pandemic causing reverse migration and non-availability of the subsidised pads provided by the Government.

This prompted NABFOUNDATION to design a PAN INDIA project 'MY PAD|MY RIGHT' (MPMR) which would tackle the dual issue of ensuring a livelihood means and also improve menstrual hygiene among the women in rural India. The primary aim of Pan India LEDP is to provide sustainable livelihood enterprises to active SHGs for setting up sanitary pad making units in the identified districts. The SHG members are trained in basic hygiene,

in running the machine and marketing as a complete livelihood-based activity thus nurturing entrepreneurship and financial independence among rural women. This Project aims to ensure access to affordable menstrual protection for rural women by rural women and increase awareness in the community on menstrual health and hygiene. It also envisages to encourage sustainable menstrual waste management practices.

Under the project one deserving SHG per district is being provided with a sanitary pad making machine designed by Padmashri Shri. Arunachalam Muruganantham, the Padman of India. The entire cost of the machine, transportation and skill training is being borne by NABARD as a grant. In addition, the unit is being provided with raw material for 3 months, packaging and wages for 2 months and space rent upto a maximum of ₹ 5000 for 12 months. NABFOUNDATION has also developed comprehensive training, awareness, marketing and branding strategy to address challenges and ensure sustainability of the project. A new generation MIS platform has been designed to capture entire project related data.

The project was formally launched on the International Day for Rural Women i.e. on 15th October 2020, at the hands of Smt. Smriti Irani, Hon'ble Union Minister for Women and Child Development. During the year, as against total project outlay of ₹ 1.99 crore, an amount of ₹ 1.59 crore has been utilized. As on 31 March

2021, 29 machines have been installed in 29 districts and production has started in these units. Medical/ Awareness camps and training programs were conducted in these districts. Films on awareness on menstrual hygiene and training on successful running of the unit have been circulated among all stakeholders.

3.5 Support for training and capacity building of microfinance clients

Various training and capacity building programmes were undertaken for key stakeholder such as Bankers, NGOs,

Government officials, SHGs, SHG Federations and trainers. NABARD recognises the need for such trainings to enhance knowledge, awareness, exposure and skills of the stakeholder to ensure programmatic efficiency and quality. During 2020-21, 1.72 lakh participants were trained through various programmes. Cumulatively, 42.17 lakh participants under FIF and 3.70 lakh participants under WSHG have been imparted training till the end of 31 March 2021, thus supporting the creation of a strong, highly skilled and experienced team for implementation of the microfinance programmes. The region-wise number of stakeholders trained by NABARD is given in Statements – VIII (A) to VIII(C).

3.6 Grant support for Village Level Programmes

Banks, the SHPIs and SHGs work closely in ensuring the smooth flow of credit to SHG members and repayments from the SHGs to the Banks/FIs. While engaging with poor members who are often subject to livelihood ups and downs, residing in regions that are remote, regularly affected by any natural disasters and any such sudden events, challenges do appear. Hence, with a view to foster better understanding of mutual requirements between banks, SHGs and SHPIs and to iron out issues like credit linkage, repayment and so on, at ground level, Village

Level Programmes (VLPs) are being conducted with the support of banks and NRLM. VLPs sponsored by NABARD have resulted in better interface between bankers and SHGs leading to increased credit flow and appreciation of each other's needs. These VLPs also facilitate the process of SHG formation and SHG on boarding for banking services such as opening of SHG accounts, their credit linkage and also regular loan repayments. During 2020-21, NABARD supported more than 20685 village level programmes with a sum of 1701.41 lakh covering 10,83,617 beneficiaries.

3.7 EShakti

In line with Government of India's "Digital India" mission, EShakti, a pilot project for digitisation of SHGs was launched by NABARD in the year 2015 in two districts Ramgarh (Jharkhand) and Dhule (Maharashtra) and later expanded to 100 districts across the country during 2016 and 2017. It aims at digitisation of data of all SHGs for enhancing the ease of doing business with SHGs. NABARD conceptualized Project EShakti, to bridge the digital divide in the SHG-BLP space and technologically catapult the SHGs into Banking forefront through Project EShakti on digitization of SHG records. The USP of the EShakti project is 'one-click' availability of the social and financial information of the Self Help Groups maintaining Saving Bank accounts with the banks.

The project captures information on the existing SHGs; bank wise, branch wise and block wise in the selected districts. It also captures all financial transactions taking place within the group and with banks on a real time basis. The database thus generates and provides reliable and up to date information on SHGs and its members to Banks and other stakeholders, enabling them to take credit decisions.

3.7.1 Progress under Project EShakti

The project has received positive response from stakeholders and as on 31 March 2021, project EShakti is being implemented in

281 districts in the country. The progress of digitization over the years is given in Figure 3.3. Beginning with 2 lakh SHGs in 2016 project EShakti now covers 12.33 lakh SHGs. Despite the various Covid pandemic related challenges and compared to 2019-20 we also see an 88% increase in SHGs digitized as on 2020-21.

Digitization addresses issues like quality of book keeping, multiple membership of SHG members, patchy credit histories and provides grading report of any SHG based on its financial and non-financial records, at the doorstep of all stakeholders. The project which operates through one portal viz. <https://eshakti.nabard.org>, and two mobile Apps (EShakti App and EShakti Tracker App), makes the SHGs and their members accessible to bank credit and also empowers them by giving access to their own bank accounts and other details through their mobile.

3.7.2 Major Highlights under Project EShakti

Due to establishment of in-house Software Driven Data Center (SDDC) and improved software architecture, project EShakti has emerged as a very effective and robust IT based solution towards digitization needs of SHGs. During 2020-21, API with eMathi database of Tamil Nadu was also commissioned under

migration model. Around 2 lakh SHGs under Tamil Nadu SRLM (TNCDW) were successfully migrated to EShakti portal so that they could use the on line application and inbuilt grading facilities of EShakti portal.

3.8 CRFIM

The Centre for Research on Financial Inclusion and Microfinance (CRFIM) was set up in BIRD on 1st January 2008 with a view to emerge as a centre of reference, information, knowledge, valued opinion related to micro-finance sector. It has the mission to strengthen the MF sector through supply of research inputs that facilitates policy initiatives and improvement in design & delivery systems that provide poor with sustainable access to quality financial services. Financial Inclusion being one of the top priorities of Government of India (GOI), Reserve Bank of India (RBI) as well as NABARD and also it being so closely entwined with microfinance, the centre included it as another focus area of its activities in 2016. Thus the Centre for Microfinance Research (CMR), has been rechristened as Centre for Research on Financial Inclusion and Microfinance (CRFIM) on 03 October 2016. It takes up research activities in the field of Microfinance and financial inclusion, publishes an half yearly journal titled "The Microfinance Review", organizes National seminar on financial inclusion and microfinance etc. towards facilitating policy initiatives and improvement

in design and delivery system in the said space.

3.9 Refinance support to Banks

NABARD has been extending 95% refinance to banks towards their lending to SHGs, JLGs, RMGs and MFIs to supplement their resources and boost bank credit to SHGs. Figure 3.4 shows the refinance extended by NABARD to the banks towards the SHG lending activity. During 2020-21, NABARD extended refinance of ₹ 12227.16 crore to the banks as against ₹ 15434 crore disbursed during the year 2019-20. Covid impact is possible reason for this slow down. NABARD's refinance towards SHG lending formed 13% of the total refinance provided to banks for investment credit. As on 31 March 2021, cumulative disbursement of refinance by NABARD for SHG lending stood at ₹ 90,821.81 crore.

3.10 Support to MFIs

3.10.1 Refinance Support

NABARD has been providing financial assistance to MFIs by way of Long Term Refinance support since 2014-15. As per the NABARD's current Refinance Policy, NBFC-MFIs who can avail refinance from NABARD should essentially have a qualifying grading not less than MFR2/MF2. A special relaxation

is given to the North Eastern Region including Sikkim where the grading is relaxed to 2 notches below top grading that is up to MFR3. The MFI must also be in net profit for the last three years out of preceding four years for qualifying as eligible for NABARD's refinance. There are some more conditions to comply. The policy also mentions that the grading agency should be a SEBI / RBI approved one.

In terms of progress under this Refinance facility, in 2020-21, refinance to the tune of ₹ 4789 crore has been disbursed to 29 MFIs which includes ₹ 3519 crore disbursed under Special Liquidity Facility to NBFC-MFIs. Very aptly and understanding the operational difficulties for the MFIs, NABARD has provided this facility to reduce disruptions and maintain unhindered flow of credit to the sector due to COVID-19 pandemic. Refinance outstanding

(Amount in ₹ crore)**

to NBFC-MFI as on 31 March 2021 is at ₹ 7241 crore. Details are furnished in Statement XII-C.

3.10.2 Revolving Fund Assistance / Capital Support to MFIs by NABARD

NABARD is also a key source of finance to many MFIs in the country. The Revolving Fund Assistance (RFA) and the Capital Support schemes (set up in year 2007-08) provided MFIs the funds which strengthened their borrowing capacity, their liability structure and funding plans, enabling borrowings from other public and private sectors banks. The RFA and Capital support schemes have thus helped several MFIs to increase their micro credit portfolio and further augment and enhance outreach to the target beneficiaries. Post the announcement of creation of "India Microfinance Equity Fund" with SIDBI having a similar mandate these supports were discontinued with effect from 1st April, 2011. The outstanding against capital support provided stood at ₹ 3.59 crore to 08 entities as on 31 March 2021 and the RFA outstanding is ₹ 3.61 crore against 2 entities. Agency wise details are given in Statements XII-A and XII-B.

3.11 Implementation of National Rural Livelihood Mission (NRLM) and Scheme for Interest Subvention to Women SHGs.

The Ministry of Rural Development (MoRD), Government of India launched the National Rural Livelihood Mission (NRLM) by restructuring Swarnajayanti Gram Swarojgar Yojana (SGSY) with effect from 1 April 2013. NABARD is implementing the Interest Subvention Scheme for Women SHGs under the National Rural Livelihood Mission (NRLM) for Regional Rural Banks (RRBs) and Cooperative Banks in Category I districts. Further, as a part of collaboration between NABARD and NRLM, Regional Offices of NABARD are coordinating with the concerned SRLM to achieve the goal of training of all rural bank managers. State

level sensitization programmes on SHG-BLP for senior bank executives have also been organized in coordination with SRLMs with the overall objective of increasing credit linkages. Further, SRLMs have also been roped in as implementing agencies for EShakti in several states.

3.12 Special Initiatives during COVID-19

In context of Covid pandemic NABARD has taken up some special initiatives to support SHG members both in term of health advisory and promotion and livelihood support activities. These include:

- EShakti portal used for sending 40 lakh health advisory SMS to SHG members.
- SHGs under Eshakti Portal engaged for making face masks, hand sanitizers, PPE kits, distributing essential items/ grocery kits/ vegetable hamper and setting up of grain bank, running awareness drive and so on. All these initiatives have created enhanced scope for SHG members to earn additional income.
- Keeping in view the COVID-19 pandemic and labourers' reverse migration to rural areas, allocations under MEDPs, LEDPs and Capacity Building were increased substantially to provide adequate skill set for employment in rural areas. The focus is on states of Assam, Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Odisha, Rajasthan, Uttar Pradesh and West Bengal, where the impact of reverse migration is expected to be maximum. For 2020-21, in comparison to the previous year, the number of MEDPs were tripled and LEDPs doubled to augment skills of rural folks for enhanced employment.

Success Stories 4

1. In tough Times we work together (East Godavari, Andhra Pradesh)

CHALLENGES

- ✦ In East Godavari district about 70-80% of the land is cultivated by tenant farmers who are following high input agricultural practices.
- ✦ Tenant farmers were not having direct access to bank credit, which is an inevitable input for cultivation.
- ✦ The pandemic COVID 19, during 2020-21 led many of the SHGs and tenant farmers into a vulnerable economic situation.

INTERVENTIONS

- ✦ DCCB-East Godavari came up with a plan for JLG financing, under NABARD JLG programme.
- ✦ PACS were guided for 'activity based' lending.
- ✦ Potential activities and vulnerable communities were identified.
- ✦ Various income generating activities were identified for families who lost their livelihood due to COVID pandemic and showed their willingness to adopt alternative livelihood.
- ✦ Campaigns were conducted by DCCB and loans were disbursed to the groups through selected PACS for setting up of units by the JLGs.

IMPACT

- ✦ More than 1000 JLGs were formed covering around 5000 beneficiaries
- ✦ The groups were able to start their income generation activities immediately on receipt of the loans.
- ✦ Beneficiaries took up activities like flower decoration, milk vending, flower sale, vegetable farming, laundry etc.
- ✦ The initiative led to employment generation and arrested migration.
- ✦ Prompt repayment by the JLGs made them eligible to avail further credit from PACS.

WAY FORWARD

- ✦ The success of interventions motivated PACS for upscaling the JLG financing as COVID resilient financing tool.
- ✦ This intervention would help in boosting up the income levels of vulnerable communities and strengthen the balance sheets of PACS in the district.

2. Stitching Dreams (Imphal East, Manipur)

CHALLENGES

- ✦ COVID pandemic had severely affected income levels of SHG members.
- ✦ Lack of stitching skills.

INTERVENTIONS

- ✦ Modern Tailoring has been implemented as Virtual Readymade Cluster for School Uniforms through LEDP in Imphal East District by involving 90 women from 15 SHGs with three Common Facility Centres.
- ✦ Each trainee received a composite Bank loan of ₹20,000/- to ₹50,000/- for procurement of a sewing machine.
- ✦ The members of SHGs intensively trained on modern tailoring and designing, business concepts and financial literacy aspects.

IMPACT

- ✦ After the training programme, 100% of the trained SHGs members took up the livelihood venture in a commercial way by setting up micro enterprises.
- ✦ The trained SHG members are working together in cluster mode by forming 3 sub group in 3 work-sheds/common facility centers located at 3 different places of Imphal East District.
- ✦ Under the LEDP Programme NABARD supported setting up of common facility centers for the SHGs as demonstration units.
- ✦ The NGO facilitated the trained SHG members in supplying raw materials and marketing of their products at good prices by arranging assured buy-back arrangement with bulk buyers.
- ✦ Marketing tie-ups for supply of school uniforms was made with 3 schools.
- ✦ Amidst COVID 19 lockdown, trained SHG members could earn extra income of ₹4,000/- to ₹7,000/- per month, helping them to support their family.
- ✦ Manipur Rural Bank, Bank of Baroda and Manipur State Co-operative Bank Ltd sanctioned MUDRA loans of ₹20,000/- to ₹50,000/- to all trainees under JLG mode.
- ✦ SHG members set up their own micro enterprises. The venture also indirectly provided self-employment to about 50 unemployed youth.
- ✦ Usha International Ltd. supplied sewing machines to all trainees at discounted rates.
- ✦ Some local elected leaders also provided financial support to SHGs for establishment of common facility centers.

WAY FORWARD

- ✦ Hard work, meticulous planning & organized way of training, would enable poor women of the backward areas to take up self-employment and improve their standard of living.
- ✦ SHG members are now trying to reach out to larger markets.

3. We Provide Protection

(Solan, Himachal Pradesh)

CHALLENGES

- ✦ Shortage of medical equipment including masks to prevent the spread of corona virus.
- ✦ Loss of livelihood due to lockdown.

INTERVENTIONS

- ✦ SHG Groups were promoted by Indian Council for Social Welfare, (ICSW) and Jagriti Mahila Kisan Samiti, Paplota (JMKS) for taking up tailoring activity and were trained under MEDP.
- ✦ Both these NGOs conducted MEDPs for SHG women during the month of March 2020.
- ✦ SHG members, who were trained in tailoring, prepared masks and supplied them to the Govt. Departments such as Women Empowerment and Child Development department (WECD) and also in the local market.

IMPACT

- ✦ ICSW got order for 700 masks from WECD and supplied promptly to district administration and other organizations.
- ✦ JMKS got the order for 1000 masks from local people. Around 20 members of SHGs were entrusted with the task of preparing the masks. The masks have already been supplied.
- ✦ Raw material for the masks was arranged by NGOs viz ICSW and JMKS.
- ✦ Each SHG member is paid ₹ 7/- per mask by ICSW and ₹ 5/- by JMKS.
- ✦ SHG members had access to source of income even during lockdown when many had lost their regular income.

WAY FORWARD

- ✦ Masks have now become a necessity and SHG members would be able to generate livelihood due to regular demand.
- ✦ They can earn their livelihoods and provide financial support to their families.

4. Skill Came to our Rescue

(Chamarajnagar, Karnataka)

CHALLENGES

- ✦ Due to spread of COVID-19 Pandemic, the beneficiaries were not able to realise their expectations of good business.
- ✦ Sudden increase in prices of raw materials and non-availability of raw materials.
- ✦ Shut down of factories and business establishments that affected marketing linkages.

INTERVENTIONS

- ✦ One LEDP project with 90 women from different SHGs of 15 villages have received training for Embroidery and Zari work.
- ✦ With the help and support of Women's Federations and SHG members the beneficiaries got local orders.
- ✦ The beneficiaries developed good contact with Line Department officials and other institutions helping them to get individual orders even during the pandemic crisis.
- ✦ The PIA supported the beneficiaries in getting orders from other places.

IMPACT

- ✦ After training, beneficiaries have acquired new skills.
- ✦ With the help of Women's Federations the SHG members are getting local orders.
- ✦ The beneficiaries have come out of their villages to urban areas focusing on market for their products and also to get new orders.
- ✦ They developed trust and good contact with customers due to timely delivery of good quality of products.

- ✦ Loans ranging from ₹ 30,000/- to ₹ 50,000/- were availed by the members.

- ✦ Beneficiaries started generating an income of ₹ 6,000/- to ₹ 8,000/- per month, which goes upto ₹ 12,000/- during festive or wedding seasons.

WAY FORWARD

- ✦ This has improved the financial status of their families and economic sustainability.
- ✦ By taking part in local exhibitions and melas women get exposure to the latest marketing trends.
- ✦ By upgrading their skills, they can have a better demand in the market for their products

5. Hum Honge Kamyab (Chittorgarh, Rajasthan)

CHALLENGES

- ✦ COVID - 19 and has created a great deal of panic among the general population with any cure or vaccine still months away.
- ✦ There was lack of protective masks in the market.

INTERVENTIONS

- ✦ Consumer unity and Trust Society (CUTS) formed 200 SHGs including 22 SHGs of differently abled women and men.
- ✦ These SHGs are currently engaged in activities such as spice processing, detergent and phenyl manufacturing, grocery selling, animal husbandry, etc.
- ✦ Samavesh Sai Kripa SHG is one of its kind started in 2014 and is actively involved in all the processing activities which is a mix group of differently abled Men and Women.
- ✦ SSK SHG despite all physical challenges functioning with all Panchasutras.

IMPACT

- ★ SHGs are now engaged in the processing, packaging and marketing of spices such as chilly, turmeric, coriander, tea masala, chaat masala, etc. and bag making.
- ★ The Samavesh Sai Kripa SHG of differently abled women received order from the district administration of Chittorgarh to stitch 8000 face masks.
- ★ The Samavesh Sai Kripa SHG received order for stitching 8000 masks from district administration of Chittorgarh. The group could complete the task in time by following all social distancing norms, which stood as a model SHG.
- ★ Samvesh Sai Kripa SHG participated in Hastshilp exhibition organized by NABARD, at Jawahar Kala Kendra.

WAY FORWARD

- ★ The special order of mask stitching has inspired these SHGs to look beyond regular products and they are now planning to expand their business by adding more products as per market demand.
- ★ SHG members are getting better income from these activities and they are inclined to expand their business.

6. We Work from Home! (Chhindwara, Madhya Pradesh)

CHALLENGES

- ✦ Covid pandemic have reduced employment option as well as income of rural women.
- ✦ Due to restricted movement, they were in need of some activities which could be done at home.

INTERVENTIONS

- ✦ 102 members from 24 women self-help groups of Datlawadi and Tatarwada villages of Junnardev block of Chhindwara district got knowledge of preparing fancy shopping bags and purses.
- ✦ The members took training under LEDP of NABARD.
- ✦ Rudra Art and Education Society, a local organization which is working in the field of Training of arts and skills implemented the project.
- ✦ Fabric shopping bags and ladies purse manufacturing project was sanctioned by NABARD under LEDP.
- ✦ Individual training was given in intricate designing and skill manufacturing and attractive designs of shopping bags and ladies purses from fabrics.
- ✦ 15 days training on the intricacies of sewing work as well as the skill of manufacturing different designs for shopping bags and ladies purses was given to beneficiaries.
- ✦ 12 SHGs who are part of LEDP were credit linked through banks.

IMPACT

- ✦ 59 women started sewing work after getting financial assistance through SHG
- ✦ During the training of 15 days, 1060 shopping bag & ladies purse and 1000 facemasks were manufactured by these women.
- ✦ The products are being sold under the brand name "Adirang".
- ✦ The bags and ladies purses made during the training were put up for sale in exhibition organized by NABARD in Bhopal.
- ✦ Rudra Art and Education Society also sold the products at various shops all over Madhya Pradesh.
- ✦ A shop has been opened for the sale of products manufactured by these women in the name of Adirang Creations.

Findings of Studies Commisioned by NABARD

5

The growth of microfinance sector as elaborated in the previous chapters establishes the acceptability and importance of the interventions being made in this field. However, it is equally important for policy makers and other stakeholders to continuously keep studying the gradual and sudden changes in external environment that impact the overall relevance or modus operandi of such field interventions. Besides, for the microfinance programme to evolve with time and keep pace with the changing socio-economic dynamics at the local level, it is important that constant effort is made to identify and understand the problems or challenges in the sector. Also, the tenets being adhered to need to be put under scrutiny for validation from time to time so as to ascertain their applicability at present, the compatibility of policies with their needs and expectations from such programmes and to assess their efficiency in delivering the desired impact.

Understanding microfinance interventions at the local level requires that we move to different unique settings at the field level and use applied research to gather feedback and data necessary to investigate the utility of these programmes and draw tenable inferences to carry forward the programme.

NABARD, therefore, has been conducting in-house studies on various topics through a team of professionals as also through industry-wide collaboration with reputed agencies. The topics chosen for studies conducted during the last financial year have addressed state-specific issues, institution specific role, impact of segment specific interventions as also the synergy between interventions of different stakeholders aimed at a common objective. The findings provide credible information on stakeholder perceptions and satisfaction levels for taking decisions regarding future service enhancements and microfinance industry expansion. The details of the studies conducted and their major findings are given in the following paragraphs.

I. Assessment Study on Joint Liability Group Financing in Andhra Pradesh

The Study was conducted by Andhra Pradesh Administrative Staff College of India (ASCI) with the objectives to study the status of JLG financing in the State of Andhra Pradesh, identify issues affecting growth of JLG financing in the State, analyze and suggest measures for identified issues as also to

evaluate the performance of JLG promoting institutions (JLGPIs).

Important Findings

- i. Most of the JLGPIs follow the guidelines issued by NABARD. Group size is 4-5 members and homogenous groups (similar activity/condition) of persons living in close knit area are prioritized.
- ii. The concept of JLG lays emphasis on Group cohesion and dynamics. Hence, regular meetings among members should always to be encouraged.
- iii. The formal training programmes on regular basis for JLGPIs need to be strengthened.

Suggestions

- i. Establishment of a dedicated JLG resource programme and Capacity building workshops for JLGPIs & JLG members may be taken up.
- ii. Convergence with FPOs for Agri- Loans.
- iii. Increase in Loan Amount: - the loan amount may be determined according to the purpose and requirement of the individual member or group. While the RBI has fixed the loan amount limit per borrower, bankers are often over-cautious while lending to JLGs without assessing their actual needs, which can push these individuals to turn to informal but expensive sources like money lenders.
- iv. Massive campaign to raise the much required awareness & to put in place the long-term strategy for scaling and monitoring the JLG financing programme.

II. “Impact and Efficacy of Livelihood Initiatives for SHGs viz., MEDP and LEDP of NABARD and Livelihood Interventions of NRLM”

The study was conducted by the Centre for Research on Financial Inclusion and Microfinance (CRFIM) at BIRD, Lucknow with the support of Micro Credit Innovations Department (MCID), NABARD. The major objective was to study the adoption of various livelihood interventions by SHG members and assess the impact of the interventions on their livelihoods. Other objective was to study the role of NGOs and other Community Based Organizations (CBOs), like Village Organizations (VOs) and Cluster Level Federation (CLF) in enabling the SHG members to take up livelihood activities.

The study was conducted on a sample of 360 households spread across six districts from three states viz. West Bengal, Madhya Pradesh and Andhra Pradesh. Interactions were held by the study team with SHG members (20 members from each programme) and other stakeholders including - SHG Federations, NGOs/PIAs, Bankers and Government Officials.

Important Findings

- i 89% participants had taken up the livelihood activities after receiving assistance from the programmes. 76% households took up non-farm based activities.
- ii The livelihood interventions resulted in an increase in the average annual income, value of livestock assets, value of household durables and average number of man days/year of work.
- iii SHG members required additional handholding/training on Banking transactions and products, book keeping, frequent meetings with Bankers, capacity building of Federation leaders and

support from Department concerned in loan recovery etc.

- iv SHGs sought better market assistance, additional marketing channels (linkage with bulk buyers, retailers etc.), supply chain management, exposure visits to successful models etc.

Suggestions

- i Follow-up cum refresher training sessions may be conducted for the SHGs.
- ii Support for promotion of cluster based activities as well as individual enterprises.
- iii Better marketing assistance by dovetailing Rural Haat/Mart schemes.
- iv New and innovative market channels for collaboration with bulk buyers including - wholesalers, shopping malls and online platforms.
- iv Making financial assistance available to members.
- v Training to members on packaging and marketing.

III. Study on Sustainability of Long Standing SHGs (10-15 years) in Telangana State.

The study was conducted by Mahila Abhivruddhi Society, Hyderabad. The Study was commissioned by Telangana RO with an objective to understand the sustainability of old SHGs having survived more than 10 years in the State. The study was conducted in 6 districts to examine issues such as:

- No Bank linkage if the group is having less than 10 members or persons with above 60 years of age.
- There are large idle funds lying in SHG Savings Bank accounts because of no internal lending.

- Bank linkages: small loan value, bank reluctant to give loans to senior citizens, long waiting periods etc.

Important Findings

- i Monthly mandatory savings are being deposited with SHG Federations and Streenidhi.
- ii The average savings per member per month is ₹ 109/-, whereas in the beginning it was ₹ 42/- which is a welcome progress.
- iii SHGs used the members' savings in multiple ways like inter-lending, collateral for external credit, repayment of loans, recovery of overdue etc.
- iv Most of the SHGs are systematic and up-to-date in book keeping. Some of them had hired persons for this purpose.
- v Factors contributing for the sustainability of SHGs:
 - **At group level:** Determination of members to form a group, replacement of defaulting members with new members, regular meetings with fixed agenda, sharing group activities, leadership on rotation basis, availing loans from multiple credit sources are the main reasons for the sustainability of SHGs.
 - **At project level:** proactive role of Govt. in the promotion of SHGs and Federations; Target approach in SHG credit linkage, digitization of SHGs and VO data.

Suggestions

- i Commercial MFIs are not operating in Telangana and the JLGs are not very successful. The SHG Bank linkage program supplemented by Streenidhi as a "Business Correspondent" must work even more efficiently to ensure that the SHGs and their Federations avail the Cash-Credit Loans (CCLs) for SHGs.

- ii The Digitization of SHGs supported by NABARD has not been synchronized with the SERP / Stree Nidhi system. There is tremendous scope for digitization of SHGs in Telangana led by Stree Nidhi.
- iii There is still a need for building the capacities of SHGs and their Federations to enable them to directly borrow from banks to for their microenterprises.
- iv Continuous capacity building of the SHGs and SHG Federations is necessary with special focus on microenterprises and best use of CCL.

IV. Study on MSME-Micro Housing Lending by Micro Finance Institutions (MFIs)/ Small Finance Banks (SFBs)

The study was conducted by CRFIM, BIRD Lucknow, to discover the role which can be played by the Microfinance Institutions (MFIs) & Small Finance Banks (SFBs) to serve the credit needs of the sectors, viz., Micro & Small Enterprises (MSEs) and Micro Housing. The study aimed to assess the financing aspects in the sectors which are important for the development of socio-economic activities in the country. The study included survey of 117 MSEs and 64 clients eligible for micro housing selected from two MFIs, viz., Cashpor Microcredit and Repco Micro Finance Ltd. and two SFBs, Equitas Small Finance Bank Ltd. and Utkarsh Small Finance Bank from two districts viz. Varanasi (Uttar Pradesh) and Chennai (Tamil Nadu).

MSME and Micro Housing segments have traditionally been under-served by the MFIs. Over the last few years, some of them have initiated several pilot initiatives for acquiring and providing services to MSME clients through group and individual mode. With new regulations from the Reserve Bank of India enabling development of a BC partnership

between commercial banks and MFIs, provided an opportunity to them to scale up such initiatives.

Important Findings:

- i Unlike MFIs, SFBs were offering MSME loans through individual mode of financing.
- ii It was found that the portfolio quality was significantly poorer for SFBs in comparison to MFIs.
- iii The average rate of interest charged by SFBs was higher than MFIs, given the high cost and risk involved in lending individually.
- iv SFBs charged higher processing fees and have longer average processing time in comparison to the MFIs given their stringent due diligence requirements.
- v Barring Equitas, which offered CC/OD facility, others offered only composite loans fulfilling the working capital and investment requirements of the enterprises.
- vi Some of the prominent challenges faced by MFIs/SFBs in extending credit to MSE segment were: high risk involved in lending, multiple lending, KYC requirements and high cost of intermediation.
- vii In the start-up phase, majority of the enterprises (84%) were dependent on MFIs followed by personal savings (42%). However, in the growth stage the credit needs of enterprises were mostly being served by SFBs (55% of enterprises) followed by commercial banks (23%).
- viii Thirty eight percent availed credit for capital expenditure. The remaining 12% didn't respond in this regard.
- ix A significant proportion (31% of enterprises) felt that collateral for lending

was one of the major challenges in accessing credit. It was more pronounced in case of SFBs (22%) as compared to commercial banks (8%) and NBFCs (1%). About 17% said that high rate of lending in MSE segment was a challenge to access institutional credit. Agency wise comparison revealed that it is higher in case of SFBs (12% of enterprises reported) as compared to the other financing agencies. Procedural complications also cited as a challenge for accessing credit from institutional sources.

Suggestions

- i Encouraging Registration of MSMEs
- ii There is a need for CC/OD limits.
- iii Faster and convenient approvals under CGTMSE scheme are required in order to meet the immediate credit requirement of enterprises.
- iv BC mode of financing for MSME loans is suggested.
- v Designing of suitable loan products to serve the diverse housing credit needs of the borrowers.
- vii Use of non-traditional data to assess credit worthiness to judge the repayment capacity of the borrowers.

V. Study on improving livelihood opportunities for Joginis and Women Affected by Trafficking in Anantapur district of AP through SHG and other Promotional Schemes

The Study was conducted by Administrative Staff College of India (ASCI), Hyderabad, Andhra Pradesh with the objective to study the present position of the Joginis and women

affected by trafficking in the district, suggest ways to bring them to the mainstream, examine extent of coverage of this system, awareness and involvement of the affected people about SHG concept, existing government scheme available for them and steps taken by the state Government/other stakeholders for their rehabilitation. A sample of 50 respondents were drawn from "Convenient Sampling" methodology due to absence of population details of Joginis/Basavin in Anantapur district.

Important Findings:

- i. All surveyed women were illiterate having average age of 40 with the youngest being 30 years and the oldest being 50 years. None of the surveyed women was staying in a temple, since such practice does not exist in the region. Fifty per cent of women surveyed were staying in their own pucca house and remaining were staying in rented house. The average size of the households was 5.9.
- ii. It was observed that all the women were married to the deity or temple at a very young age. Since the younger ones were 30 years old, dedication of all the women must have happened more than 10 years ago.
- iii. Joginis have always been socially excluded and stigmatized leading to depression. This has also resulted in various forms of abuse from the communities. Safety & mental health were considered as the biggest problems among the women followed by ill treatment from communities and financial dependence.
- iv. The average annual income of the women surveyed was ₹ 32,666. The primary sources of income mentioned were prostitution and agricultural labour. Only 5 women had land (less than 2 acres each) in their name which was inherited.
- v. All the surveyed women were aware of SHG concept, but only 39 were part of any SHG with an average group size of 10 members. Others could not join due

- to their background and resistance from other members. The SHGs did not have any common group economic activity.
- vi. The women were willing to participate in Government training programmes for livelihood improvement, but were not benefited from such initiatives so far. As part of YSR Pension Kanuka, AP government provides a monthly pension of ₹ 2250 to single and widowed women above the age of 30 for BPL families holding a white ration card. Among the 50 women, only 21 were receiving the amount on a regular basis.
 - vii. The women expected respect and humane behaviour from the local communities.
 - viii. As per official records, in recent times, there were no dedications of young girls. Further, there were no significant instances of trafficking or prostitution in the Uligamma practice.
 - iii. Successful integration of the Basavin women in the community is not possible without active participation from the community itself. A massive social awareness movement needs to be instigated from the grassroot levels of the society involving key stakeholders like village heads, local SHG leaders, Government officials from Social Welfare Department, few Basavin family members and NGOs. Awareness campaigns can be conducted in the form of street plays, cultural activities, pamphlets, and visual media. Local radio & TV channels can also play a major role in educating the masses and promoting civil society intervention.
 - iv. There is a need to strengthen existing SHGs through capacity building and vocational trainings with the help of NGOs and other successful groups in the nearby regions for economic empowerment and financial independence. Most of the women lack skills, hence, there is a need for skilling and market linkage through SHGs. Focus should be on collective initiatives with market linkage.

Suggestions

- i. Need for formation of a dedicated State level committee to oversee various aspects of the current welfare programs and to ensure end use by the eligible women. The committee should also address the issues of lack of developmental support and provide effective backup for the women.
- ii. Setting up of rehabilitation centres in few districts where the population of Basavin women is more. This centre can act as a knowledge centre for the illiterate women and provide guidance on their entitled benefits and legal rights. With funds from State and Central Government agencies, the centres can be transformed into small scale industrial units and also impart training for skill development activities.
- v. Mental health is considered the biggest issue. To address the physiological and psychological wellbeing of the Basavin women, there is a need for counselling sessions for them with the help of staff at the primary healthcare centres.
- vi. The last official survey was conducted in the erstwhile state of AP in the year 2008-2009. Hence there is a need for a comprehensive study examining the current socio-economic status of all women in the state for facilitating the rehabilitation program.

Seminars and Conferences

6

The exchange of ideas is crucial to the journey of development. Seminars and conferences provide an appropriate platform to the entire industry to learn more about the developments in different sub-sectors, gain critical insights into challenges underneath, arrive at better understanding of issues and tap into the knowledge of industry experts. These avenues also provide common grounds for collaboration, deliver a vast array of useful information in a short span of time. With the same objective, NABARD has been supporting conferences and workshops related to the microfinance sector. Over the years, these events have served to bring various stakeholders together, finding fresh perspectives, generating ideas for innovative products, recognising operational issues and suggesting solutions and policy level changes.

During the year 2020-21, due to the Covid pandemic a conscious effort was made to avoid large gatherings and various online platforms were made the preferred medium for communication and brainstorming. NABARD supported the webinar conducted by CRFIM on Technological Innovations in Microfinance

inviting eminent industry experts to offer suggestions on leveraging technology based solutions for strengthening the microfinance sector. Another major event organised during the year was the Regional Policy Forum Meet with APRACA which focused on small farmers' collectives and their issues. A gist of both these events has been presented in the following paragraphs.

Webinar on Technological Innovations in Microfinance

BIRD (CRFIM) has organized a webinar on Technological Innovations in Microfinance on 23 March 2021. The webinar was in the form of panel discussion by eminent panelists from NABARD, Fintech companies, MFIs, consulting firms from the sector led by the moderator, Dr. P Satish, Executive Director, Sa-Dhan.

The panelists included Shri Jiji Mammen, MD, NABFINS, Smt. S. Vijayalakshmi, CGM, MCID, NABARD, HO, Shri Manoj Kumar Sharma, Director, MSC, Shri Udaya Kumar Hebbar, MD & CEO, Credit Access Grameen Ltd., Shri Praveen Kumar, Head – Product Innovation

(Payments) Spice Money Ltd., Shri Abhishant Pant, Consultant, FinTech and Shri Deep Shah, Lead, Product Development, NPCI. A total of ninety two participants from commercial banks, MFIs, Fintech Companies, sector experts and NABARD Regional Offices across the country participated in the Webinar.

Outcome

- i) Government relaxation on e-KYC authentication through Aadhar for MFI sector to help the sector in various aspects.
- ii) Usage of client level transaction data for product development, betterment of services and improving the overall system is the key.
- iii) The MFI are mostly dependent on Field Officers to interact and disseminate information to clients. The panel discussion suggested for a client friendly digital interface for MFIs where the controlling offices can directly interact with clients on a digital mode when field agents cannot reach during crises period such as COVID- 19 pandemic.
- iv) MFIs can come forward by providing smartphones, digital literacy training to their clients for building a trust and habit on digital transaction.
- v) MFIs can innovate and partner with payment service providers for more scalable, adoptable model of operation.
- vi) MFIs should take the advantage of BC network for leveraging their services for digital repayment system.
- vii) Strengthening the entire digital value chain from MFIs to clients for betterment of MF services.

NABARD-APRACA Regional Policy Forum Meeting

NABARD cohosted the Regional Policy Forum Meet with APRACA on 04 March 2021. The Regional Policy Form deliberated on two major themes which are of immense relevance of the region i.e. "Small farmers collectivization and its role in agriculture development" and "Credit Guarantee mechanism and credit enhancement solution for farmers collective and others actors in the value chain"

The Forum was inaugurated by Shri Narendra Singh Tomar, Hon'ble Minister for Agriculture and Farmers' Welfare, Govt. of India, New Delhi and was attended by Shri Sanjay Agarwal, IAS, DAC & FW, Secretary, Ministry for Agriculture and Farmers' Welfare, Shri Debashish Panda, IAS, Secretary, DFS, Ministry of Finance, Government of India, Dr G R Chintala, Chairman NABARD and member delegates from 24 APRACA nations. The programme was moderated by Shri Ashok Dalwai, CEO NRAA (National Rainfed Authority of India).

Dr G R Chintala, Chairman NABARD and vice Chairman APRACA highlighted the initiatives taken by India in the field of Agriculture and Rural Development by way of innovative initiatives like FPOs, Credit Guarantee schemes and other innovative schemes for development of farmers who constitute more than 65% of India's population. NABARD has promoted 5000 Farmers' Producers Organisations (FPO) with a membership of 1.3 million farmers. The FPOs, through the collectivization of agricultural production and post-harvest management have transformed agriculture into a sustainable business by taking advantage of the economies of scale by way of produce aggregation, value addition, and collective bargaining for inputs and marketing, thus enabling optimal returns to farmers for their produce. NABARD has also been providing credit guarantees to FPOs

through its subsidiary to facilitate credit availability, accessibility, and affordability. He indicated that NABARD can collaborate with the Asia Pacific members and enable the FPOs to be a vehicle of rural transformation.

The 73rd EXCOM and 22nd General Assembly Meeting of APRACA were also held on 04 and 05 March 2021.

Agenda for the year Ahead

7

With the success of the NABARD supported SHG-BLP programme, progress made by NRLM in forming and supporting SHGs and with role of MFIs, the country now has a cumulative outreach of over 138 million poor families under the SHG programme. The next logical step is to consolidate this gain in terms of social capital and initiate actions to develop a self-reliant sector contributing to the country's economic growth in the coming years. However in order to achieve this, it is pertinent to understand and address the major challenges that the sector is facing.

The credit absorption capacity of SHGs and also the availability of per member credit remains at a quite low level, posing challenges in their way of graduating towards enterprise or substantial income generating activities. Further, the pandemic also had ramifications for livelihood based skill trainings for SHGs. Due to the lockdown and restrictions on public gatherings, the capacity building programmes for SHGs were adversely impacted. It has also been noted that along with backward linkages such as imparting skill, arranging for proper forward linkages, specifically market linkages for sale of products and adequate

handholding and continuous guidance is paramount to graduating from a SHG to a successful enterprise.

The data in previous chapters also delineates regional imbalances in the growth of microfinance sectors. Thus, lending special focus to nurturing SBLP in these areas also emerges as one of the strategic action points for the near future. Also, the pandemic has not only underlined the need for assessing the level of resilience in SBLP and preparedness to adapt in the wake of black swan events, but also highlighted the importance of adopting technology based solutions for furthering the agenda of microfinance. These aspects will have to be pursued further. Besides, with multiple institutional players such as SFBs, NRLM, SIDBI, MUDRA and others operating in the microfinance field, the programme architecture must be revisited for better alignment of objectives and forging strategic partnerships.

In view of all this the initiatives that are proposed to be taken up for taking the programme forward are as under:

1. Though the SHG-BLP initiative has come a long way from a mere ₹ 25,000 per group to around ₹ 2 lakh per group, the average loan per member even today stands at around ₹ 20,000 only. Such a small amount only allows them take up activities which will help them survive. Typically, these activities are characterized by low barriers to entry, undifferentiated products, saturated markets and inefficiencies which limit their competitiveness. The operations may also not be continuous but seasonal. The SHGs need to graduate to micro entrepreneurs deploying higher capital, employing more number of labourers, using better technologies and operating continuously, without seasonal fluctuations. It is therefore proposed to initiate a pilot during the year to identify members of SHGs and build their capacities to become entrepreneurs, enable credit linkage and facilitate market linkage. This pilot would be an end to end activity, from identification of the SHG member to forward linkage with the market.
2. Keeping in view the hardship caused due to COVID-19 pandemic, NABARD's allocations under MEDPs, LEDPs and capacity building have already been enhanced. In addition to the new programmes covering first generation entrepreneurs, upscaling the businesses of the existing entrepreneurs of the SHGs may be taken up in those districts where already MEDP/LEDPs have been done. The activities identified for skill building will also be expanded.
3. A directory of SHG products which would also include a documentation on existing level of skill sets available with the groups producing these products would facilitate marketability of the SHG products. This would be attempted in few selected districts of one State as a pilot.
4. NABARD would arrange for conduct of Trainers Training programme for NGOs for facilitating/upscaling start-ups among the members of SHGs/JLGs.
5. Despite good performance of the sector during 2020-21, certain States and regions are still lagging behind. The focus, therefore, may be on giving special emphasis to the under-served States in Central, Eastern India and North-Eastern regions. The priority sector guidelines issued by RBI in September 2020 also focuses on the issue of regional imbalance by assigning a higher weight to incremental priority sector in districts with lower flow of credit. Capacity building of the SHPIs will be one of the essential intervention to hasten the promotion and nurturing of SHGs in these areas.
6. SHGs and JLGs are critical tools in the hands of Banks and Financial Institutions towards achieving cent percent financial inclusion through financial literacy. Financial literacy through the use of technology can be accelerated via use of computer, mobile and internet. SHG leaders may be the forerunners in dissemination of financial literacy among the vast segments of rural population. Banks, by partnering with Fintech Companies can ensure financial inclusion through the JAM trinity (Jan Dhan, Aadhaar, Mobile). Here also, the SHGs could be involved in delivery of financial services through the BC model.
7. EShakti project of NABARD digitises social and financial profile of SHGs and facilitates bank linkage through an AI based digital portal. If the banks adopt the EShakti software by linking the same with their CBS, and partner with Fintech and other AI based agencies for maintaining regular update of financial and non-financial data on the portal, credit outreach will increase manifold and SHGs will enjoy the facilities of digital banking as their urban counterparts do.
8. In-depth and extensive research is important for critical review and to

propound new policy and programme framework and generate systematic beneficiary feedback. In the context of Covid-19 pandemic and its impact on the economy, national and regional Impact Assessment Studies and Action Research have become more relevant to identify new challenges and additional measures required to overcome and boost the SHG-BLP.

9. The establishment of Small Finance Banks (SFBs) also opened up another window of opportunity for reinvigorating the SHG-Bank Linkage Programme. SFBs have operated on the JLG methodology and some of them worked on the SHG model also. Strategic partnerships with them for SHG-Bank Linkage Programme have the potential to take SHG-BLP to greater heights in the next couple of years.
10. NABARD had suggested grading norms in 2013 and reiterated the same in 2018. The master circular issued by RBI on DAY-NRLM dated 01 April 2021 states that for availing bank loan, the SHGs shall qualify the grading norms fixed by NABARD. In view of the increased SHG- Bank linkage across regions and States, improved quantum of loan disbursement, there is a need to take a relook at the grading norms.
11. NABARD, SIDBI, MUDRA work closely and align initiatives to the NRLM. This could be enhanced by more Financial Institutions proactively and effectively using the large SHG customer base to reach out to the poor and vulnerable sections. Only with collaborative efforts by all the microfinance sector players, the un-served and underserved in rural and remote regions can be efficiently and effectively served.

Dr. C. Rangarajan

*Former Chairman, Economic Advisory Council to the Prime Minister
Former Governor, Reserve Bank of India
Chairman, Madras School of Economics*

One of the missions of NABARD has been financial inclusion and an integral part of this exercise is the promotion of micro finance institutions. This year marks the completion of thirty years since

NABARD took the initiative to develop the microfinance sector. The number and type of microfinance institutions have increased enormously. NBFCs dealing in microfinance have played a key role even though the progress had not been smooth. Several committees including the one on Financial Inclusion chaired by me have come up with suitable regulatory measures. There is no doubt that microfinance institutions including the recently introduced Small Finance Banks which are a modification of Local Area Banks introduced by me in early 1990s have an important role to play in widening the scope of formal credit institutions in providing financial services to vulnerable groups. Providing access to finance is a form of empowerment of the vulnerable groups. Financial inclusion as I have mentioned elsewhere is no longer an option but a compulsion.

Duvvuri Subbarao

Governor (2008-13), Reserve Bank of India

Development history from around the world can boast of many revolutions – green, white, blue, yellow – but the rainbow revolution unleashed by microfinance has arguably been more transformative than all the others, not just because of the numbers of households it has lifted out of poverty but also because of the way it has empowered women cutting across cultures. NABARD can justifiably be proud of the leadership role it played in shepherding the microfinance movement across the vast hinterland of our country. The astounding

success of the Bank-SHG model piloted by NABARD thirty years ago showed that there is a nascent capitalist entrepreneur in every woman and that microfinance can be a powerful instrumentality for unleashing billions of entrepreneurs by giving them just a little bit of capital.

Admittedly, it has not been a smooth journey. There was backlash against what were considered usurious rates of interest charged by microfinance institutions, their coercive recovery practices and their tendency to push vulnerable households into a debt trap. It speaks to the resilience of our system that we have been able to address these concerns and put microfinance back on an even keel.

Promoting microfinance requires knowledge, competence and empathy; it also requires a deep understanding of the culture of poverty. The poor don't have regular incomes like the rest of us but they too have dreams for their future and the future of their children. The task for NABARD and all others involved in promoting microfinance is to help the poor pursue their dreams.

There is indeed fortune at the bottom of the pyramid if only we care to look.

Dr. Pamidi Kotaiah

Former Chairman - NABARD

India has done commendable work in micro-finance systems development to provide access to the poor & marginalized sections of the society towards financial and economic inclusion. In spite of various measures taken by GoI and RBI the outreach significantly fell short of requirements, leading to churning in the minds of policy makers by 1980s. NABARD silently worked on options to develop a satisfactory Micro-Finance Model.

With the leadership of NABARD, and keen interest of governmental authorities, financial institutions and private NGO sector, this micro-finance model has become one of the largest micro-financial systems in the world. Rightly, policy makers did not insist it as a rigid model. On the other hand, policy supported growth of diversified systems

and institutional frameworks, around group-based lending while "SHG" was the flagship model.

Notwithstanding this massive development, anecdotal evidence suggests significant gaps in outreach and delivery to the marginal economic players. We have not reached the last mile yet. The goal is distant. There are many challenges, I would like to underline one such issue. Appropriate Regulatory oversight of Micro-Finance Institutions has remained elusive. Appropriate regulation is important for orderly growth and stability. NABARD is best suited for this initiative.

Shri U C Sarangi

Former Chairman - NABARD

The early stage work in SHGs was done exclusively by NGOs and civil society organisations. From a very tiny beginning in early 1990s, SHG-BLP has become a mega-movement. I was fortunate to have associated with the movement from the Government, from NABARD and as independent practitioner, post-retirement. By end March 2008 (when I entered NABARD) we had 39.9 million members of SHGs linked to the banking system through their groups. As of last year the number of members of linked SHGs

had crossed 100 million. The SHG programme which had matured in the eyes of bankers, became a strong base for NRLM to build on. The NRLM fully adopted the SHG methodology and built higher order institutions of SHGs in the form of federations at different levels. Today bulk of the SHGs are under the NRLM umbrella. The growth in number of members and significant increase in loans (outstanding of ₹ 1080 billion - March 2020) shows that the programme has achieved scale in terms of financial inclusion.

A large community based programme should do and deliver more. It should focus on livelihoods and enterprises of women. For that it is necessary to free the SHG movement of subsidy dependence and perennial state support. The Government and NABARD are working on these aspects. Their support will

be critical in making the SHG federations truly democratic, member focused entities. NABARD should set a mission for itself – *that of empowerment of SHGs and federations and their autonomy of action in the interest of members*. The women of the country have proved their worth; they showed the others that the poor are bankable; that financial inclusion does not need glitzy offices and advanced concepts. It is now time for other stakeholders to shine a light on the simplicity and make it self-sustaining.

The Inimitable Indian Microfinance

P. Satish

Executive Director, Sa-Dhan

The story of Indian Microfinance is the story of Indian ingenuity in adopting and then adapting ideas, concepts and processes to suit the conditions of India's socio-economic landscape and the framework of political and financial sectors. The first experiments linking informal Self-Help Groups with banks for credit started in the Philippines and Indonesia under the aegis of GTZ, and then travelled through APRACA to India. Then the first experiments in form of CAGs at MYRADA and the NABARD Pilot Project are part of history. While the initial projects in South East Asia withered away,

in India because of strong support it received from the apex institution-NABARD and the enabling policy tweaking done by the central bank-RBI, the concept progressed fast. Over the last three decades Self-Help Group concept has emerged as an enabler for women's empowerment and as a vehicle for various development programmes of union and state governments. These initiatives have now converged in the National Rural Livelihoods Mission of Government of India.

At the time when SHG-Bank linkage programme was taking its initial steps, replications based on Grameen model of Bangladesh were also emerging in India. These included institutions which later emerged as large Microfinance Institutions, with some progressing to become banks. These institutions too received initial support from NABARD, which enabled them to stabilise and grow. With an enabling policy from RBI and funding support from banks and other financial institutions this variant of microfinance also prospered, with its own intrinsically evolved systems and processes which suited the Indian social and financial environment.

The fact that both these variants of microfinance are widespread in India with a host of institutions providing credit to the tune of ₹ 3.75 lakh crores touching 200 million households is a real tribute to the innovations and initiatives of NABARD in its four-decade long journey, as also to the ability of Indian people to learn from ideas across the world and modify and tailor them to their own needs and aspirations.

Three decades of microfinance in India

N.Srinivasan

Former CGM, NABARD

Globally microfinance has taken giant strides. By early 2019, 140 million customers are estimated to have been utilising microfinance products and services. In 2009 about 98 million were customers of microfinance. In India over the last 30 years the growth has been vigorous, though with some hiccups in between. In the case of Self Help Groups, the growth from 225 groups to more than 10 million groups over almost three decades seems astonishing. From negligible loans in the early nineties to the vulnerable customers, Banks and MFIs had loans of more than ₹ 3400 billion, forming about 3.5% of non-food credit by end March 2020. From select

districts in select states, almost all districts in the country are covered. Currently the number of borrowers (microfinance and SBLP) is estimated to be about 115 million.

Two development banks NABARD and SIDBI spearheaded the microfinance movement in the country with financial and promotional support. MUDRA also has had a part in the recent years. NRLM provided the financial and programmatic muscle to the SHG programme and it is poised to make a difference to livelihoods of the poor.

As we look to the future, the priorities that emerge are – meeting aspirations of microfinance customers to be entrepreneurs, enhancing customer protection levels, improving access in remote and difficult to reach areas, strengthening of institutions – whether small and medium sized MFIs or federations of SHGs. With a proactive regulator and a positive government policy from the centre, it is possible to use the power of microfinance to bring the remaining poor out of poverty. What needs greater thrust is the livelihood ideas and linkage of microfinance customers with markets. The almost exclusive women customers that are the backbone of microfinance sector deserve a standing ovation. The success of microfinance is a direct outcome of their tenacity and ability.
