

संभाव्यतायुक्त ऋण योजना Potential Linked Credit Plan 2025-26

उत्तर प्रदेश क्षेत्रीय कार्यालय, लखनऊ UP Regional Office Lucknow, Uttar Pradesh

दृष्टि

ग्रामीण समृद्धि के लिए राष्ट्रीय विकास बैंक

ध्येय

सहभागिता, संधारणीयता और समानता पर आधारित वित्तीय और गैर-वित्तीय सहयोगों, नवोन्मेषों, प्रौद्योगिकी और संस्थागत विकास के माध्यम से समृद्धि लाने के लिए कृषि और ग्रामीण विकास का संवर्धन

Vision

Development Bank of the Nation for fostering rural prosperity

Mission

Promote sustainable and equitable agriculture and rural development through participative financial and non-financial interventions, innovations, technology and institutional development for securing prosperity

Potential Linked Credit Plan

Year: 2025-26

District: Etah

State: Uttar Pradesh

National Bank for Agriculture and Rural
Development
Uttar Pradesh Regional Office, Lucknow

Foreward

Uttar Pradesh is steadily advancing towards its goal of achieving a trillion-dollar economy by 2027-28. Credit is an important catalyst for this growth and acts as a supplement to other economic activities. The credit to GSDP ratio at current prices of Uttar Pradesh has increased from 35% in 2022-23 to 41% in 2023-24, which is lower than all India average and way behind global peers. The PLP provides a detailed scientific assessment of credit potential for various sectors in the district. It highlights the sector specific infrastructure gaps and critical interventions to be made by State Governments and FIs for harnessing potential available under priority sector. It is prepared after wide consultations with various stakeholders of the rural economy, including Govt. departments, banks, and NGOs. For the economic and all-round development of district, it is imperative to fully exploit the available potential, especially the activities of the primary sector and for this, credit investment from the banks is important.

Agriculture is the backbone of state's economy but in the context of increasing number of small and marginal farmers, new challenges like investment in agriculture sector, use of modern technology, strengthening of supply chain and creation of market for agricultural produce have emerged. The state is upgrading existing agricultural clusters along with creating new ones for a range of crops, fruits and vegetables, to take advantage of transformative potential of cluster farming. Additionally, One District One Product (ODOP) farming is being promoted with thrust on grading, packing, branding, and marketing through Common Facility Centers (CFCs), so as to reduce wastage of agri- produce and increase farmer's income. NABARD, has empowered FPOs, supporting collectivization of farmers. This has enhanced their income, market access, and bargaining power while also reduced their post-harvest losses. Further, Agri Stack, designed as an agriculture-centric Digital Public Infrastructure (DPI) has seen its initial pilot in Uttar Pradesh and is expected to drive the digitalization of agriculture sector.

Climate change has emerged as another factor affecting agriculture of Uttar Pradesh, which has 9 agro-climatic zones. NABARDs climate change initiatives have focused on enhancing climate resilience, sustainable agriculture, and rural livelihoods. These initiatives along with State's initiative are crucial for mitigating climate impacts and ensuring food security in vulnerable regions, considering that 30 districts of the state are highly vulnerable to climate change (ICAR-CRIDA). There is also a need to bolster Agri startups and introduce artificial intelligence (AI) in farming to boost smart farming practices.

Due to changing climate and increasing pressure on agriculture, it is necessary to shift the focus of development to MSME sector also. With over 9 million MSME units, UP has made substantial progress in registering the units on Udyam portal, facilitating adequate finance and promote branding, marketing, and promotion including export. MSMEs are major employment generators in Uttar Pradesh, providing jobs to millions of people, especially in rural and semi-urban areas.

As per national database, over 29 crore people in India are directly connected with the cooperative sector out of which about 1.85 crore are from Uttar Pradesh. Co-operative institutions
are the backbone of the rural economy. NABARD has strived to provide all types of assistance to
cooperative structure in the state (including >7000 PACS), which has promoted timely and
concessional credit, capacity building of the staff, promoting use of technology and innovation
to foster frictionless credit & also through computerization of PACS. NABARD is also
handholding the three RRBs in the state and strengthening them, through thrust on technology
upgrades, customer centric digital services (like internet and mobile banking) as well as bank
centric digital upgrades (like CBS, HRMS management module, etc.) to enhance the efficiency
of banks.

In view of all these developments, Potential Linked Credit Plan (PLP) document for the year 2025-26, provides a detailed scientific assessment of credit potential for various sectors in the district taking into account the long-term potential, availability of infrastructure, marketing support, credit absorption capacity and strength of the credit delivery system. It highlights the sector specific infrastructure gaps and critical interventions to be made by State Governments and FIs for harnessing potential available under priority sector. I hope that this document will prove useful to the banks in preparing their roadmap for increasing credit flow in the district, and to the State Government in identifying the scope and magnitude of investment required in different sectors.

This year, NABARD has leveraged technology for preparing a digital PLP for efficient credit projections. This new generation document has standardised structure, coverage and data indices. It has almost done away with manual interventions, which is the founding block of a data driven environment. We believe that this Digital PLP will be a catalyst for empowering Rural India and serve the needs of all stakeholders in the rural eco-system.

I express my gratitude to the honorable public representatives, District Magistrate, concerned departments of the district, RBI, SLBC, Lead District Managers, banks and other stakeholders for their cooperation in facilitating completion of this document in a timely and smooth manner. I also thank and congratulate my District Development Managers and the officials of NABARD Regional Office for their active role in preparing this document.

I hope that this document will faithfully carry forward its set objectives and the assessed potential for development of the district will be fully exploited through coordinated efforts of all.

Pankaj Kumar

Chief General Manager

PLP Document Prepared by:

Pawan Kumar
District Development Manager
NABARD
Etah
PLP Document finalized by:
Uttar Pradesh Regional Office

'The document has been prepared on the basis of information collected from publicly available sources and discussions with various stakeholders. While preparing the projections, every effort has been taken to estimate credit potential realistically. NABARD shall not be responsible for any material or other losses occurring to any individual/ organization owing to use of data or contents of this document.'

Executive Summary

1. Introduction

The Potential Linked Credit Plan (PLP) is prepared by NABARD each year keeping in view the national priorities, policies of the Government of India and State Government, infrastructure and linkage support and physical potential available in various primary, secondary and tertiary sectors.

2. District characteristics

| 1 | Location | Etah district is located in western Uttar Pradesh. The total geographical area of the district is 2452 sq km. Etah falls under Aligarh division. The district is bounded by districts Kasganj and Farrukhabad (on Eastern side) Hathras (western side) Firozabad and Mainpuri (southern side). |
|---|------------------------|--|
| 2 | Type of soil | Red Sandy Alluvium Laterite |
| 3 | Primary occupation | About 78 percent of the working people in the district are engaged in agriculture as farmers or agricultural laborers. Thus agricultural activity is the main means of livelihood in the district. |
| 4 | Land holding structure | The total number of holdings in the district is 260960 out of which 77 percent are holdings less than 1 hectare. |

3. Sectoral trends in credit flow

| 1 | Achievement of ACP in the previous year | The total ground level credit flow under priority sector was Rs. 2467.90 crores during 2021-22 Rs. 2575.53 crores during 2022-23 and Rs. 2531.96 crores during 2023-24. |
|---|---|---|
| 2 | CD Ratio | As on 31st March 2024 the Credit Deposit Ratio of the district was 73.3 percent. |
| 3 | Investment credit in agriculture | Investment credit in agriculture during the last three years was Rs. 434.25 crores Rs. 343.60 crores and Rs. 293.42 crores respectively. |

| 4 | Credit flow to MSMEs | During the above period the credit disbursement under MSME was Rs. 334.71 crores Rs. 516.31 crores and Rs. 670.36 crores respectively. |
|---|---------------------------------------|--|
| 5 | Other significant credit flow, if any | In other priority sectors it was Rs. 18.18 crores Rs. 111.03 crores and Rs. 24.92 crores respectively. |

4. Sector/Sub-sector wise PLP projections

| 1 | Projection for the year | The potential for each sector/sub- sector under priority sector for the financial year 2024-25 has been assessed and presented in Annexure-1. The Potential Linked Credit Plan has been estimated at Rs. 5166.70 crores with a growth of 10.35 percent. |
|---|---|---|
| 2 | Projection for agriculture and its components | The potential for agriculture sector is estimated at Rs. 3591.51 crore. |
| 3 | Projection for MSMEs | The potential for MSME sector is estimated at Rs. 1450.00 crore. |
| 4 | Projection for other purposes | The potential for Other Priority Sector is estimated at Rs. 125.18 crore. |
| | | |

Developmental Initiatives

- NABARD has worked on its developmental programs such as SHG linkage with banks livelihood and entrepreneurship development programs for womens groups formation of Farmer Producer Organizations (FPOs) increasing farmers income and self-employment generation.
- In the district NABARD has worked on the development of roads bridges irrigation health infrastructure education etc. through RIDF.
- 3. Additionally efforts initiated in the past years such as the KCC saturation campaign for PM-Kisan beneficiaries KCC facility for livestock and fish farmers and a continuous strategy for the development of the MSME sector are also being implemented in the district.
- Besides NABARD organizes digital financial literacy camps through various banks.

6. Thrust Areas

- For 2025-26 NABARD has identified some areas to focus on including high-tech agriculture application of IoT in agriculture SHG/JLG financing expansion of irrigation facilities improvement in dairy development Farmer Producer Organizations (FPOs) etc.
- Additionally promoting producer organizations for product clusters and emphasizing infrastructure particularly storage and logistics services for agricultural produce is also necessary.

7. Major Constraints and Suggested Action Points

- The major obstacles in the development of the district include the unavailability of necessary inputs such as quality seeds fertilizers nurseries veterinary services poultry hatchery units cattle feed units electricity supply and lack of milk routes.
- Degradation of soil quality sodic soil depletion of groundwater levels inadequate forest cover weak marketing arrangements for non-agricultural produce and underdeveloped rural markets.
- 3. Suggestions for improvement in various areas include availability of seeds fertilizers veterinary services restarting old milk routes establishing bulk milk chilling units on milk routes paravet training and supply of frozen semen for animal for breed improvement.
- 4. Along with this efforts are being made to enhance the credit capacity of the district through new dimensions of employment generation such as the AIF scheme solar systems commercial horticulture. Construction and development of village- level infrastructure under RIDF providing loans to farmers through KCC employment opportunities through MUDRA Stand Up India etc.

8. Way Forward

- The focus has been on the use of natural resources in agriculture balanced fertilizer and micronutrient application based on soil health testing establishment of agri-based small industries agriculture and food processing etc.
- Along with this the goal is to increase farmers income by forming SHGs JLGs and Farmer Producer Organizations for market linkage post-harvest technology and the use of small agricultural implements for farm mechanization thereby reducing costs and increasing productivity.
- Better monitoring and review of progress in ground-level credit flow by bankers in BLBC/DCC meetings effective implementation of the financial inclusion plan involving oral lessees tenants through joint liability groups etc.

Methodology of Preparation of Potential Linked Credit Plans

1. Introduction

Potential Linked Credit Plan is a comprehensive documentation of potentials in the district for rural economic activities, both in physical and financial terms. It is also an assessment of the gaps in infrastructure support which need to be filled in to fully exploit the realizable potentials.

Objectives

The objectives of PLP are:

- to enable various organizations involved in the process of rural development in directing their efforts in a planned manner, in accordance with the potentials available for exploitation,
- to enable optimum utilization of scarce financial resources(specifically bank credit) by channeling the same into sectors with growth potential, and
 to assess the gaps in infrastructure support which need to be taken care of for exploiting the potentials and prioritise resource requirement for the purpose.

Methodology

NABARD took the initiative, in 1988-89, of preparing PLPs for agriculture and rural development. The broad strategy followed by NABARD for the formulation of PLPs envisages estimation of long-term potential (in terms of physical units) in each sector of agriculture and rural development with reference to natural and human resource endowments and a phased annual programme for development, keeping in view the relative national and state priorities. NABARD has been endeavoring to introduce refinements in the methodology of preparing PLPs and improving its contents so that the PLPs could be used as a reference document for Annual Credit Plans of banks. NABARD has been reviewing the methodology in estimation of potential through consultative process ove the years. It adopts a detailed methodology for assessing the physical potential in major sectors of investment conducive to development of agriculture and rural areas.

The methodology consists of assessment of sector-wise/subsector-wise estimation of potential in consultation with technical officers of the Line Departments concerned at the district level, identification of infrastructure facilities required to support the exploitation of the potential, identification of infrastructure facilities available at present as well as planned and working out the gap in infrastructure, examination of the trends in sector-wise credit flow, various schemes of State/Central Govt., and estimation of block-wise physical and financial credit potential.

The indicative unit costs suggested by the State Level Unit Cost Committee are made use of while arriving at the financial outlays.

The broad methodology of arriving at the potential for major sectors is given below.

4. Methodology of estimation of credit potential

| Sr. No. | Sector | Methodology |
|------------|---------------------------|---|
| 1 | Crop loans | - Collection of data on Gross Cropped Area for a period of 10 years and data on land holdings; - Distribution of Gross Cropped Area between Small Farmers/ Marginal Farmers and Other farmers based on the total land occupied by small and marginal farmers on one hand and other farmers on the other; - Assumption to cover 100% of Small/ Marginal Farmers and 20-50% of Other Farmers; - Study the cropping pattern; - Estimation of credit potential taking into account Scale of Finance and also the KCC guidelines in vogue; |
| | | and Block-wise allocation of potential taking into account credit absorption capacity in each block, cropping pattern, etc. |
| 2 | Water Resources | MI potential is the area that can be brought under irrigation by ground and surface water; Collection of data on irrigation potential, area alread brought under irrigation and balance potential available under groundwater and surface water for the district; While fairly clear estimates are available for groundwater. |
| | | water and its present and future utilization, surface wate estimates for individual districts are difficult to get; - Estimation of potential attempted block-wise based of categorization of blocks, type of rock formation suitability of MI structures, projects planned by Stat Govt. etc.; |
| | | Preference of farmers for different MI structures like dug wells, bore wells, DCBW, etc. is taken into account and The potential for MI sector is defined in terms of numbers for DW, BW and TW, and in terms of area for life |
| 3 | Farm Mechanisa tion | irrigation, sprinkler and drip systems. - The potential estimate for farm mechanization take into account irrigated and unirrigated cropped area if the district, economic life of tractors, optimum use of tractors, per acre use of tractors, replacement of tractors per year, assessment of availability of drough animal power/power tiller by using conversion factors; |
| | | Calculation of requirement of number of tractor assuming one tractor per 30 acres and 45 acres of irrigate and unirrigated cropped area respectively; Adjustment of tractor potential with land holdings; and assed on the cropping pattern, topography etc. similar |

| | | assessment is made for power tillers, combine Harvesters etc. |
|---|--------------------------------|---|
| 4 | n and | Estimation of additional area that could be brought under plantation crops based on trend analysis of land utilization pattern and cropping pattern of the district, area of cultivable waste land likely to be treated and brought under plantation crops; |
| | | Feasibility and possibility of shifting from food crops to plantation crops; |
| | | Estimation of replanting by taking into account approximate economic life of a few plantation crops; and |
| | | - Estimation of potential for rejuvenation of existing plantations. |
| 5 | Animal Husbandry - Dairy | - Collection of data on number of milch animals as per the latest census; |
| | | - Estimation of milch animals for the reference year by assuming 30% calving, 50:50 sex ratio, 40% calf mortality and 50% culling for buffaloes; 40% calving, 50:50 sex ratio, 20% calf mortality and 50% culling for CBCs; and 30% calving, 50:50 sex ratio, 20% calf mortality and 50% culling for Indigenous cows; and |
| | | - 1/6th of the animals are assumed to be good quality animals and 60% of the good quality animals in milk and 60% of animals in milk are on 2nd and 3rd lactation. 50% of the number of animals so arrived are assumed to be animals available for bank finance. |

5. Agency wise

Use Utility

Continuous efforts are made to make PLPs user-friendly keeping in view the stakeholders' focus. The document is useful to various stakeholders in a variety of ways, as illustrated below:

| 1 | Bankers | Provides inputs/ information on Exploitable potential vis-a-vis credit possible; |
|---|--|--|
| | | Potential High Value Projects/ Area Based schemes; and |
| | | Infrastructure support available which can form basis for business/ development plans. |
| 2 | Government Agencies/ Departments | Infrastructure required to support credit flow for tapping the exploitable potential; |
| | | Other support required to increase credit flow; and |
| | | Identification of sectors for Government sponsored programmes. |

| 3 | Individual/ Business entities | Private investment opportunities available in each sector; |
|---|-------------------------------------|--|
| | | - Availability of commercial infrastructure; and |
| | | - Information on various schemes of Govt. & Banks. |

6. Limitations and constraints

Though concerted efforts are made to estimate the potentials realistically, non-availability of accurate granular data on credit flow - Sector and sub-sector-wise are noticed in the exercise of PLP preparation.

Part B

Chapter 1

Important Policies and Developments

Policy Initiatives - GoI (including Cooperatives)

Cooperative Development

The Ministry of Cooperation GoI has taken 54 initiatives to strengthen and deepen the cooperative movement at the grassroots level. The ministry in coordination with state governments NABARD national level federations and other stakeholders is working on the following initiatives:

 World's Largest Grain Storage Plan in Cooperative Sector (WLGSP)

Ministry of Cooperation (MoC) GoI is implementing Pilot Project for World's Largest Grain Storage Plan in Cooperative Sector. The Pilot Project entails setting up of grain storage infrastructure including warehouse and silos along with other agri-infrastructure including Procurement Centre Custom Hiring Center Primary Processing Center Grameen Haats etc.

ii. Centrally Sponsored Scheme for Computerization of Primary Agricultural Credit Societies (PACS)

Government has approved a scheme for Computerization of Primary Agricultural Credit Societies (PACS) with the objective of increasing efficiency of PACS bringing transparency and accountability in their operations; facilitating PACS to diversify their business and undertake multiple activities/services. A total of 63000 PACS have been taken for computerization under the project.

- iii. Establishing Multi-purpose PACS/ Dairy/ Fisheries cooperatives in every panchayat with support of NABARD NDDB NFDB NCDC and other National level Federations
- iv. PACS as Common Service Centers (CSCs) for better access
 to e-services

Ministry of Cooperation has announced supporting more than 300 e-services through PACS in association with MeitY NABARD and CSC e-Governance Services India Limited.

- v. Micro-ATMs to Bank Mitra Cooperative Societies for providing doorstep financial services
- vi. Computerization of Agriculture and Rural Development Banks (ARDBs)

To strengthen the long-term cooperative credit structure the project of computerization of 1851 units of Agriculture and Rural Development Banks (ARDBs) spread across 13 States/ Union Territories has been approved by the Government. NABARD is the implementing agency for the project and will develop a national level software for ARDBs.

vii. Co-operative Education - Setting up of World's Largest Cooperative University

This aims at introduction of cooperative education in independent degree / diploma courses in Schools and Universities.

viii. World's Largest Cooperative Training Scheme

This aims at revamping existing cooperative training structure in the country.

- ix. New Cooperative Policy with a view to strengthen the cooperatives and make them vibrant with increased contribution to the economy
- x. Amendment to Multi State Cooperative Act 2002 and setting up of 3 new Multi State Cooperative Society (MSCS) in the areas of seed production and marketing; organic products and export from cooperative sector.
- xi. To provide facilities at par with FPOs for existing PACS
- xii. Establishment of National Cooperative

Database Digital Agriculture Mission:

The Digital Agriculture Mission (DAM) aims to revolutionize Indias agriculture sector by leveraging digital technology inspired by the success of Indias digital revolution in other sectors. With a substantial financial outlay of 2817 crore it focuses on creating a Digital Public Infrastructure (DPI) for agriculture.

i. Agri Stack:

Key components of the mission include the Agri Stack—a farmer-centric DPI to streamline services with the creation of a unique digital Farmer ID linked to important farmer data such as land records and crop details.

ii. Vistaar (Virtually Integrated System to Access Agricultural Resources):

Vistaar initiative of MoA&FW is an open interoperable and federated network dedicated to agricultural information and advisory services with a mission to empower farmers and enhance their farming practices for better sustainable livelihood.

iii. JanSamarth Portal:

JanSamarth Portal a GoI initiative is a unique digital portal linking credit linked schemes for ease of access to the all the beneficiaries and related stakeholders. Schemes such as e-Kisan Upaj Nidhi KCC AIF etc. are accessible through the portal.

Agriculture Infrastructure Fund (AIF) Scheme
The Agricultural Infrastructure Fund (AIF) has played a pivotal role in transforming Indias agricultural landscape. In addition to existing activities the purview of AIF scheme has now been extended to the following:

- Viable Farming Assets: The scheme now includes the creation of infrastructure for viable projects for building community farming assets.
- ii. Integrated Processing Projects: The list of eligible activities under AIF now includes integrated primary and secondary processing projects.
- iii. PM KUSUM Component: The aim is to promote sustainable clean energy solutions alongside agricultural infrastructure development.
- iv. Enhanced Credit Guarantee Coverage: The government proposes to extend AIF credit guarantee coverage for FPOs through the NABSanrakshan Trustee Company Pvt. Ltd.

Dairy Processing & Infrastructure Development Fund (DIDF)/ Animal Husbandry Infrastructure Development Fund (AHIDF): Government has approved merger of DIDF with AHIDF and extension of AHIDF for another three years till 31 March 2026. Further NABARD is included as loaning entity under the revamped AHIDF scheme.

Fisheries & Aquaculture Infrastructure Development Fund (FIDF): GoI has extended the scheme for a period of another 3 years from 01.04.2023 to 31.03.2026.

Framework for Voluntary Carbon Market (VCM) in Agriculture Sector:

The Ministry of Agriculture and Farmers Welfare GoI has launched a Framework for Voluntary Carbon Market in Agriculture Sector. Under the Framework the Ministry envisages creating long-term carbon credit benefits primarily for small and marginal farmers by developing a VCM Framework and setting guidelines. NABARD is the nodal agency to coordinate and implement the various pilot projects under the VCM.

PM JANMAN (Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan): PM JANMAN is a recently launched initiative by the

Government of Indiaspecifically designed to address the socio-economic challenges faced by the Particularly Vulnerable Tribal Groups (PVTGs) across the country. The program aims for the comprehensive development of 75 PVTGs in 18 states and 1 Union Territory with an allocation of 24104 crore.

2. Union Budget

2.1. Important Announcements

- i. Digital Public Infrastructure for Agriculture: Issuance of Jan Samarth based Kisan Credit Cards.
- ii. Release of new varieties: 109 varieties of 32 high-yielding and climate -friendly crops will be released for cultivation by farmers.
- iii. Natural Farming: To increase productivity as well as reduce input costs one crore farmers will be linked to natural farming in the next two years. Further 10000 need-based bio-input resource centres will be established.
- iv. Vegetable production & supply chain: To bolster vegetable supply chains the budget proposes the creation of large-scale production clusters near major consumption centres by promoting Farmer-Producer Organizations (FPOs) cooperatives and start-ups for vegetable supply chains including for collection storage and marketing.
- v. Budget focusses on development of Digital Public Infrastructure (DPI) a digital crop survey for Kharif crops will be conducted in 400 districts
- vi. A network of nucleus breeding centres for shrimp broodstocks will be established with funding for shrimp farming and exports facilitated through NABARD.
- vii. Pradhan Mantri Janjati Unnat Gram Abhiyan will be launched to improve the socio-economic condition of tribal communities.
- viii. Mudra Loans: The limit enhanced to 20 lakh from the current 10 lakh under the Tarun category.
- ix. Credit Guarantee Scheme for MSMEs in the Manufacturing Sector will be introduced for facilitating term loans for purchase of machinery and equipment without collateral or third-party guarantee.
- x. Development of Twelve industrial parks under the National

Industrial Corridor Development Programme.

- xi. Phase IV of PMGSY will be launched to provide all weather connectivity to 25000 rural habitations.
- xii. Assistance for flood management and related projects in Assam Bihar Sikkim & Uttarakhand. Assistance for reconstruction and rehabilitation in Himachal Pradesh.
- xiii. Taxonomy for Climate Finance: Government will develop a taxonomy for climate finance for enhancing the availability of capital for climate adaptation and mitigation related investments.
- xiv. Skilling the workforce to create employment opportunities: For raising participation of women in the workforce the budget aims to organize women-specific skilling programmes and promotion of market access for women SHG enterprises. 1000 Industrial Training Institutes are likely to be upgraded for this purpose.
- xv. MSME Units for Food Irradiation Quality & Safety Testing: Financial support for setting up of 50 multi-product food irradiation units in the MSME sector will be provided. Setting up of 100 food quality and safety testing labs with NABL accreditation will be facilitated.
- xvi. Water Supply and Sanitation: In partnership with the State Governments and Multilateral Development Banks Government will promote water supply sewage treatment and solid waste management projects and services for 100 large cities through bankable projects. These projects will also envisage use of treated water for irrigation and filling up of tanks in nearby areas.

2.2. Highlights related Agriculture & Farm Sector

Priorities identified for Agricultural Sector

- Transforming Agricultural Research
- ii. Release of New Varieties
- iii. Natural Farming
- iv. Mission for Pulses and Oilseeds
- v. Vegetable Production and Supply Chains
- vi. Digital Public Infrastructure (DPI) for Agriculture
- vii. Shrimp Production and Export.

Focus Areas

- i. Productivity and resilience in Agriculture
- ii. Employment & Skilling
- iii. Inclusive Human Resource Development and Social Justice
- iv. Manufacturing & Services
- v. Urban Development

vi. Energy Security vii. Infrastructure viii. Innovation Research & Development and ix. Next Generation Reforms

2.3. Highlights related to Rural Development & Non-Farm Sector

2.4. Highlights related to NABARD

2.5. Agri Credit Targets

3. Policy Initiatives - RBI

- i. Master Circular on Lead Bank Scheme SHG- Bank Linkage Programme and Deendayal Antyodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM) SHG - Bank Linkage consolidating the relevant guidelines/ instructions issued by Reserve Bank of India.
- ii. RBIs Green Deposit Framework The Green Deposit Framework by RBI is designed to encourage regulated entities (REs) in India such as scheduled commercial banks and deposit-taking non-banking financial companies to offer green deposits. These deposits are earmarked for financing projects that contribute to environmental sustainability such as renewable energy energy efficiency and pollution control. REs must develop and publicly disclose a comprehensive policy and financing framework detailing how funds will be allocated and managed.
- iii. Unified Lending Interface (ULI): The Reserve Bank of India (RBI) as part of its strategy to create digital public infrastructure in the country has announced re-engineering of setting up of a new technology platform called the Unified Lending Interface (ULI) which will enable friction-less credit to farmers and MSME borrowers to begin with. The eKCC Portal developed by NABARD has already been integrated with the ULI for fetching and validation of land records to facilitate dispensation of crop loans to farmer members of cooperatives.

4. Policy Initiatives - NABARD

 Refinance support:
 NABARD provides Short Term refinance to Cooperatives RRBs and SFBs for their crop loan lending. To ensure increased and

uninterrupted credit flow to farmers as also to give a boost to capital formation in agriculture sector NABARD provides refinance to the Commercial banks cooperative banks and RRBs.

- Schematic Refinance for Water Sanitation and Hygiene (WASH): To provide clean water sanitation and hygienic conditions to rural and semi urban areas and thereby to protect human health during outbreak of infectious disease NABARD introduced a special refinance scheme on Water Sanitation and Hygiene (WASH).
- 3. Special Refinance Scheme (SRS) on PACS as MSCs: NABARD introduced Special Refinance Scheme to saturate all the potential PACS for conversion as Multi Service Centres over a period of three years commencing from the year 2020-21.
- 4. Credit-linked subsidy schemes of GoI
- 4.i. New Agriculture Marketing Infrastructure sub scheme of Integrated Scheme for Agricultural Marketing (ISAM): GoI had approved the continuation of the scheme till 31 March 2026. The scheme lays special focus on developing and upgrading of Gramin Haats as GrAMs through strengthening of infrastructure.
- 4.ii. Agri Clinics and Agri Business Centres (ACABC): The Central Sector Scheme of Agri-Clinics and Agri-Business Centres was launched in April 2002 by Ministry of Agriculture GoI. Composite subsidy of 44% of the project cost for women SC/ST & all categories of candidates from Northeast and Hill states and 36% of project cost for all other beneficiaries is provided under the scheme.
- 5. Interest Subvention Schemes of GoI
- 5.i. NABARD implements crop loan interest subvention scheme of GoI for Cooperative Banks and RRBs under which interest subvention of 1.5% is provided to banks for extending crop loans up to 3 lakh at a concessional interest rate of 7% per annum. The scheme also provides an incentive of 3% subvention to the farmers making prompt repayment of loans thereby making credit available at an effective interest of 4% per annum.
- 5.ii. NRLM Interest Subvention: NABARD also implements interest subvention scheme under DAY-NRLM for Cooperative Banks and RRBs. NABARD has developed a web portal for NRLM Interest Subvention claims by RRBs and Cooperative Banks in respect of WSHGs financed by them under DAY-NRLM.
- 5.iii. GoI introduced Sugar Ethanol Interest Subvention scheme in 2018-19 with a view to increase the production of ethanol and its supply under the Ethanol Blended Petrol (EBP). NABARD is

the nodal agency responsible for managing the Sugar Ethanol Interest Subvention Scheme of the Department of Food and Public Distribution (DFPD) Government of India. NABARD has launched a sugar ethanol portal to speed up the claims settlement process.

- 6. Rural Infrastructure Development Fund (RIDF):
 6.i. RIDF instituted in NABARD during 1995-96 with the main objective of providing loans to State Governments for completing ongoing rural infrastructure projects at present covers as many as 39 activities classified under three broad sectors viz. (i) Agriculture and Related sector (ii) Social Sector and (iii) Rural Connectivity.
- 7. Micro Credit Intervention:
 NABARD has been extending grant support to partner agencies for promotion and nurturing of SHGs training and capacity building of SHG members and other stake holders besides initiating special programmes for backward regions. A few recent initiatives taken under micro credit are as under:
- 7.a. Scheme for grant support to SHGs/ JLGs/ POs/ Microentrepreneurs for training on onboarding onto E-Commerce platforms/ ONDC/ social media platform
- 7.b. Scheme for Grant Support to SHGs/ JLGs/ POs for Physical Marketing of Products.
- 7.c. NABARD in 2023-24 announced guidelines for a pilot project to be taken up by Regional Offices titled m-Suwidha (Microenterprises through Skill Upgradation for Women) to support need based and location specific developmental projects by strategizing end-to-end interventions.
- 7.d. Pilot Project: Real-time banking solution for SHGs (Money Purse Application)
- 7.e. Pilot Project Graduated Rural Income generation Project (GRIP): A pilot project to build capacities and enable asset generation by ultra-poor rural women and graduating them to access formal financial services through the innovative concept of returnable grant was sanctioned during 2023-24.
- 7.f. MoU with NRLM MoRD: Marking a strategic alliance to benefit rural women SHGs NABARD and the National Rural Livelihood Mission (DAY-NRLM) under the Ministry of Rural Development GoI inked a landmark MoU on 27 February 2024.
- 8. Financial Inclusion Major Policy interventions and launching of new Schemes under the fund during 2023-24 includes:

- 8.a. Support for the Deployment of micro-ATMs to two District Central Co-Operative Banks in Gujarat with a grant support of
- 3.67 crore for deploying 1631 microATM devices at PACS (440) and cooperative milk societies (1191).
- 8.b. Financial Inclusion under Special Campaign 3.0: RRBs under guidance of NABARD conducted Special Financial Literacy Camps during October 2023.
- 8.c. Support under Financial Inclusion Fund (FIF) for Rural Connectivity-HTS-VSAT Dual LTE and SD WAN technologies:
- 8.d. Incentive Scheme for BCs operating in NE States and hilly states:
- 9. Farm Sector Development
- 9.a. Participatory Sustainable Groundwater Management in Overexploited Blocks/Watersheds:

A pilot project titled "Participatory Sustainable Groundwater Management in Overexploited Blocks/Watersheds" has been launched in five states: Punjab Haryana Rajasthan Uttar Pradesh and Tamil Nadu. This innovative pilot initiative by NABARD is the first of its kind aimed at demand side management of water at the micro-watershed/village level.

9.b. Expansion of JIVA:

Based on the success of the pilot phase JIVA is being expanded to 25 new projects in central eastern and north-eastern states to further widen and deepen the programme focusing on completed or near-completion watershed/spring shed and tribal development projects with thrust on districts identified under aspirational / low priority sector lending districts.

- 9.c. Accelerator approach for growth of FPOs: NABARD has come up with FPO accelerator programme which is a structured framework to empower FPOs by providing access to specialized training mentorship and resources envisaging the enhancement in FPO's operational efficiency adopt modern agricultural techniques and navigate market complexities
- 9.d. Saturation Drive campaign:
 Government has launched the saturation drive to provide FPOs benefits of schemes of Agriculture department in the form of licenses of inputs seeds fertilizer etc. FPOs will also be linked to mandis facilitated with registrations under GST FSSAI and onboarding on platforms like ONDC and other E-retailing platforms for sale of their produce.
- 9.e. National FPO Policy:

MoA&FW GoI is working on finalization of a National Policy on FPOs to create a supportive environment for the FPOs after ongoing deliberations and consultative meetings on the draft policy.

- 10. Climate Action and Sustainability:
 NABARD is a Direct Access Entity (DAE) to the Green Climate Fund
 (GCF) and the National Implementing Entity (NIE) to Adaptation
 Fund (AF) and National Adaptation Fund for Climate Change
 (NAFCC).
- 11. Off Farm Sector Development
- 11.i. Capacity Building Fund Social Stock Exchange (CBF-SSE): The Capacity Building Fund of Social Stock Exchange (CBF-SSE) was set up in NABARD with funding to be contributed by NABARD SIDBI BSE NSE and Other CBF is being used to improve the ability of all stakeholders to navigate through the operational dynamics of SSE understand the nuances processes instruments etc.
- 11.ii. Gram Vihar New Scheme for promotion of Rural Tourism: A new scheme in the name of "Gram Vihar" has been introduced to give a fillip to the rural tourism sector in the country by promoting "homestay" wherein tourists stay with the local families and experience rural lifestyle as well as "away-day"
- i.e. one day trip without night stay.
- 12. Agriculture Credit during 2023-24:
 Disbursement of agriculture credit during 2023-24 was 25.10 lakh crore as against target of 20.00 lakh crore indicating achievement of 125%. Commercial Banks RRBs and Co-operatives accounted for 75% 13% and 12% of the total disbursement respectively.
- 13. Technology Facilitation Fund (TFF):
 NABARD has set up a Technology Facilitation Fund (TFF) with a corpus of 50 crore. The fund is focused on providing support to tech start-ups working in agriculture and rural development sector. The fund provides a range of flexible support mechanisms including grants loans equity and convertible grants designed around the needs of each start-up
- 5. Govt Sponsored Programmes linked with Bank Credit
- Policy Initiatives State Govt. (including Cooperatives)

Uttar Pradesh Agriculture Growth and Rural Enterprise Ecosystem Strengthening Project (UP-AGREES): UP-AGREES

supported by the World Bank aims to enhance agricultural productivity and rural enterprise development. The project focuses on modernizing farm practices improving market access and boosting agro-based enterprises. It also strengthens rural infrastructure including irrigation and storage. By promoting innovation and investment in agriculture the project seeks to improve livelihoods create jobs and drive sustainable economic growth in rural areas of Uttar Pradesh. The project having a total project cost of \$500 million is being implemented by Uttar Pradesh Diversified Agriculture Support Project (UPDASP). With a commitment amount of \$338.19 million the project is scheduled to close by October 31 2030. https://projects.worldbank.org/en/projects-operations/project- detail/P178253)

Uttar Pradesh One District One Product Marketing Promotion Scheme: It aims to preserve local crafts boost incomes and employment enhance product quality promote artistic branding and elevate the concept nationally and internationally. The scheme provides financial assistance to micro and small entrepreneurs to participate in national fairs and exhibitions with the Directorate of Industry and Enterprise Promotion as the nodal department. Entrepreneurs aged 18 years and above can avail of this facility once a year. (Link: https://diupmsme.upsdc.gov.in/)

Uttar Pradesh Horticulture and Food Processing Industry Policy - 2022: The policy offers extensive incentives to boost the states food processing sector. Key subsidies include 35 percent of costs for plant machinery and technical civil work capped at Rs. 5 crore and 25 percent for expansion or modernization up to Rs. 1 crore. The policy also provides 100 percent stamp duty exemption on land purchases and 75 percent rebates on external development charges. Special incentives include a 50 percent subsidy on solar power projects for rural processing units with 90percent for women entrepreneurs. Cold chain infrastructure and value addition receive a 35percent subsidy with up to Rs. 10 crore for specific projects. The policy encourages decentralized processing and storage offering grants of up to 50percent or Rs. 50 lakh. Additionally a 25 percent freight subsidy on exports (excluding Nepal Bangladesh and Bhutan) and interest subsidies for Reefer Vehicles are provided. The entire state is treated as a unified market allowing license holders to operate across mandis. (Link- https://invest.up.gov.in/uttarpradesh-food-processing-industry- policy-2023/)

Uttar Pradesh Agricultural Export Policy 2019: The policy provides incentives to promote agricultural exports through farmer clusters and ecosystem support. Clusters ranging from 50 to 350 hectares receive financial support between Rs. 10 lakh to Rs. 40 lakh with additional Rs. 6 lakh for larger areas. Payments are made in installments: 40 percent in the

first year and 15 percent annually for the next four years. The policy also offers subsidies for new processing units near clusters transport subsidies and exemptions from mandi fees and development cess on specific produce. Other initiatives include promoting courses in agriculture exports supporting packaging design establishing traceability systems and setting up Export Facilitation Centers. The policy aims to boost market intelligence innovation and the adoption

of Good Agricultural Practices with a focus on organizing international buyer-seller meets and encouraging business start-ups and

investments.(Link- https://invest.up.gov.in/uttarpradesh-food-processing-industry- policy-2023/).

Uttar Pradesh Dairy Development and Milk Product Promotion Policy 2022: The policy aims to boost the dairy industry by encouraging the establishment of milk-based industries and attracting Rs.5000 crore in capital investment over the next five years (2022-27). The policy seeks to raise milk processing levels from 10 percent to 25 percent (as on 2022) and expand processing capacity from 44 percent to 65 percent (as on 2022). It ensures fair pricing for milk producers promotes high-quality processed milk products and enhances market development and exports. The policy also focuses on creating employment upgrading skills adopting new technologies reforming dairy cooperatives and simplifying procedures for investors.

Mukhyamantri Laghu Sinchai Yojana: Aims to enhance agricultural irrigation by providing private irrigation facilities. It emphasizes solar energy and micro irrigation. The scheme will construct shallow medium deep and deep tube wells to help farmers become self-reliant and support economic development. (Link: https://govtschemes.in/)

Uttar Pradesh Mukhyamantri Khet Suraksha Yojana: To protect the crops of farmers in the border areas that are damaged by wild animals among which Nilgai monkeys and wild boars. The beneficiary will be given a grant of Rs 1.43 lakh for solar fencing for 12 volts current for farm security or a total of 60percent of the cost per hectare.

Uttar Pradesh Mukhyamantri Swadeshi Gau-Sanvardhan Yojana: It aims to promote indigenous cow breeds and boost milk production in the state and targets self-reliance among animal herders and farmers encouraging rural youth and women to engage in animal husbandry. The scheme offers subsidies for purchasing improved breeds like Sahiwal Tharparkar and other cross-breeds with 50percent priority given to women farmers. Beneficiaries receive up to Rs 80000 for setting up units with two cows and subsidies for fodder cutting machines animal insurance and shed construction.

(Lin

https://updairydevelopment.gov.in/NBDMSchemes.aspx)

Uttar Pradesh Mukhyamantri Pragatisheel Pashupalak Protsahan Yojana: Launched in 2023 the Uttar Pradesh Chief Minister Progressive Livestock Farmer Incentive Scheme encourages farmers to rear high-quality indigenous cows by providing financial assistance. The Dairy Development Department oversees the scheme which aims to boost employment improve living standards and increase milk productivity and farmers' income. The scheme is implemented across all districts offering financial aid of Rs. 10000 to Rs. 15000 per cow with benefits provided once per cow and up to two cows per farmer.

Nand Baba Dugdh Mission: The Nand Baba Dugdh Mission in Uttar Pradesh aims to transform the dairy sector by boosting milk production and enhancing dairy farming practices. The mission focuses on increasing milk yield and quality by providing financial assistance for dairy farm infrastructure offering training and support to dairy farmers for improving milk quality and establishing milk processing units to enhance value addition. (Link: https://updairydevelopment.gov.in/NBDMSchemes-hi.aspx)

Uttar Pradesh deep tube well free boring scheme: Under the Uttar Pradesh Deep Tubewell Free Boring Scheme the following financial grants will be given to the farmers of the state:- a. 50 percent of the cost or maximum Rs. 100000/- for construction of tube well.

- b. 50 percent of the cost or maximum Rs.10000/- for pipe system.
- c. Maximum Rs. 68000/- for electrification of tube well. (Link: https://govtschemes.in/hi/taxonomies/term/59

Uttar Pradesh Medium Depth Tube Well Free Boring Scheme: Under Uttar Pradesh Medium Depth Tubewell Free Boring Scheme the following benefits will be given to the farmers: -

- a. 50 percent of the cost for construction of tube well or maximum Rs. 75000/- (whichever is less)
- b. Rs 10000/- for water distribution system.
- c. Rs 68000/- per tube well for electrification of tube
- wells. (Link: https://govtschemes.in/hi/taxonomies/term/59

Uttar Pradesh Shallow Tubewell Free Boring Scheme: Under the scheme small farmers receive Rs. 5000 for boring and Rs. 4500 for a pumpset whereas the Marginal farmers are granted Rs. 7000 for boring and Rs. 6000 for a pumpset. Scheduled Caste and Scheduled Tribe farmers receive Rs. 10000 for boring and Rs. 9000 for a pumpset. (Link: https://govtschemes.in/hi/taxonomies/term/59)

Uttar Pradesh Khet Talab Yojana: Under the Uttar Pradesh Khet Talab Yojana the government is helping in the construction of two types of ponds small and big ponds and provides 50 percent

subsidy paid in three installments.

Uttar Pradesh Mukhyamantri Kisan evam Sarvahit Bima Yojana: This initiative aims to offer comprehensive insurance coverage to support the health and well-being of farmers and other beneficiaries. The scheme provides treatment facilities in hospitals up to a certain amount with coverage up to Rs. 2.50 lakh available in all government medical institutions and medical universities. Additionally prosthetic limbs worth up to Rs 1 lakh will be provided. In the event of accidental death or disability a maximum amount of Rs. 5 lakh will be given. (Link: https://govtschemes.in/hi/utatara-paradaesa-maukhayamantarai-kaisaana-evan-saravahaita-baimaa-yaojanaa)

Uttar Pradesh Startup Policy 2020: The policy envisions establishment of one in every district of the state and a total of 100 incubators and 10000 startups in five years employment generation for about 1 lakh youth establishment of Center of Excellence etc. (Link - https://nri.up.gov.in)

Vishwakarma Shram Samman Yojana: The Uttar Pradesh government has decided to provide financial assistance to traditional artists and craftsmen such as carpenters tailors barbers goldsmiths blacksmiths potters confectioners cobblers and basket weavers. Through the Vishwakarma Shram Samman Yojana the government will offer financial aid ranging from Rs.10000 to Rs.10 lakh. The scheme aims to cover migrant workers and traditional artisans by providing free training related to their profession. Every year the government aims to provide jobs to over 15000 people through this scheme with funds directly bank transferred to their accounts. (Linkhttps://diupmsme.upsdc.gov.in/)

Uttar Pradesh Solar Energy Policy 2022:- The Uttar Pradesh Solar Energy Policy -2022 policy mainly focuses to provide low cost and reliable power to the people of UP and to reduce the dependence on fossil fuels and achieve renewable power. The Policy aims to achieve a target of 22000MW Solar Power Projects up to 2026-27. Solar Rooftop installations in residential sector will be encouraged.

2. State Budget

2.1. Important Announcements

The Gross State Domestic Product (GSDP) of Uttar Pradesh for 2024-25 (at current prices) is projected to be Rs 2499076 crore amounting to growth of 5.8percent over 2023-24.

Expenditure (excluding debt repayment) in 2024-25 is estimated to be Rs 696632 crore an increase of 14percent over the revised estimates of 2023-24. In addition debt of Rs 39806 crore will be repaid by the state.

Receipts (excluding borrowings) for 2024-25 are estimated to be Rs 610101 crore an increase of 15percent as compared to the revised estimate of 2023-24.

Revenue surplus in 2024-25 is estimated to be 3percent of GSDP (Rs 74147 crore). This is roughly the same as the revised estimates for 2023-24. Uttar Pradesh had a revenue surplus of

1.7 percent in 2022-23.

Fiscal deficit for 2024-25 is targeted at 3.46percent of GSDP (Rs 86531 crore). In 2023-24 as per the revised estimates fiscal deficit is expected to be 3.49percent of GSDP roughly the same as the budget estimate for 2023-24.

Uttar Pradesh has allocated 3.1percent of its total expenditure towards agriculture significantly lower than the average expenditure on agriculture by states (5.9 percent).

2.2. Highlights related Agriculture & Farm Sector

Three new schemes will be launched to promote agriculture in gram panchayats. These are: State Agriculture Development Scheme World Bank Assisted UP Agri Scheme and Automatic Weather Station-Automatic Rain Gauge Scheme. The total allocation under the three schemes is Rs 460 crore.

The restrictions on providing private Tubewell connections in Dark Zones have been removed as result of which approx. 1 lakh farmers have been benefitted.

In the Bundelkhand region the benefit of seasonal tariff and the facility of temporary power connection have been extended for irrigation of single Rabi crop.

Around 46 lakh Sugarcane farmers were facilitated with a record payment of Rs. 233793 crore.

For the Crushing Session 2023-24 the price of Early cultivars has been raised to Rs. 370 from Rs. 350 for general cultivars it has been raised to Rs. 360 from Rs. 340 and for unsuitable cultivars the price has been raised to Rs. 355 from Rs. 335.

For the implementation of PM-KUSUM scheme an amount of Rs. 449.45

crore have been proposed. This is double that of the previous financial year.

Mukhyamantri Khet Suraksha Scheme is being started with financial outlay of Rs. 50 crore.

Under the Uttar Pradesh Food Processing Industry Policy-2022 Rs. 300 crore have been proposed to provide financial incentives to eligible units. This is double the amount drawn for previous year.

Under the Uttar Pradesh Food Processing Industry Policy-2017 an amount of Rs. 50 crore have been proposed which double of the previous FY.

The average productivity of Sugarcane in the state has increased to 84 MT per hectare from 72 MT per hectare. Increase in the intercropping has resulted in 25percent increased income to the sugarcane farmers.

The expected area under cultivation for Sugarcane for crushing season 2023-24 is expected to be 29.66 lakh ha. and sugar production is estimated to be over 110 lakh tonne.

In the newly formed Sugar mills of 500 TCD capacity in Pipraich and Munderwa 27 MW electricity production unit and Sulphur less sugar production units have been installed.

Rs. 106.95 lakh crore have been proposed for revival and strengthening of Milk unions.

Under the Nand Baba Dugdh Mission Rs. 74.21 crore have been proposed which is 21percent higher than the previous year.

Under the Uttar Pradesh milk Production Promotion Scheme-2022 for incentivizing the Milk industry units Rs. 25 crore have been proposed.

For construction of a new Dairy Unit at Mathura with a capacity of 30000 litres per day (expansion of 01 lakh litres per day)

23 crore have been proposed.

For the protection of cows and to solve the problem of destitute cows 303 large cow conservation centers are operated in all the districts of the state.

About 7239 cow shelters are operated in the state. A total of 14.38 lakh bovine animals have been protected in these shelters in urban and rural areas.

A provision of Rs. 195.94 crore is proposed for the Animal Disease Control Scheme which is 68percent more than the current year.

A provision of Rs. 100 crore is proposed for the establishment of veterinary colleges in Gorakhpur and Bhadohi districts.

Rs. 78.55 crore is proposed for risk management and livestock insurance scheme which is almost three times compared to the current year.

With a view to increasing fish production and productivity in the state Pradhan Mantri Matsya Sampada Yojana is being operated from the year 2020 to the year 2025.

A provision of Rs. 190 crore is proposed for the new scheme of construction of Aqua Park under the Prime Minister Matsya Sampradaya Yojana.

Under the Pradhan Mantri Matsya Sampradaya Yojana a total provision of Rs. 310 crore is proposed to cover male and female beneficiaries.

The minimum support price of wheat was fixed at Rs. 2125 per quintal by the Government of India for the Rabi marketing year 2023-24.

Under the Minimum Support Price Scheme in the Kharif marketing year 2023-24 the minimum support price of paddy was fixed at Rs. 2183 per quintal for common category and Rs. 2203 per quintal for grade A category.

2.3. Highlights related to Rural Development & Non-Farm Sector

Chief Minister Youth Entrepreneur Development Campaign is being started with the aim of providing financial resources for setting up new micro industries by linking the educated and trained youth of the state with self-employment. For this a provision of Rs 1000 crore is proposed.

Under the Chief Minister Micro Entrepreneur Accident Insurance Scheme which is operational from 2023 there is a provision to provide financial assistance up to a maximum of Rs 5 lakh to micro entrepreneur.

To encourage industrial institutions in the private sector 10 Pledge parks are being established in the state.

There is a budget proposal of Rs. 400 crore by the state government for the Atal Bihari Vajpayee Powerloom Electricity Flat Rate Scheme for the upliftment of handloom weavers as well as power looms.

Under the PM Mega Integrated Textiles and April Scheme Mega Textiles Park has been approved in Lucknow-Hardoi in an area of about 1000 acres. This park will attract investment of Rs. 10000 to 15000 crore in the textile and apparel sector which will create about 1 lakh direct and 2 lakh indirect employment opportunities. A provision of Rs 200 crore is proposed for the establishment of the park.

A budget of Rs 150 crore is proposed for purchasing land for the establishment of National Institute of Fashion Technology (NIFT) in Varanasi district.

Under Pandit Deendayal Gramodyog Rozgar Yojana there is a provision to provide interest subvention facility to the beneficiaries for 3 years. A provision of Rs. 14 crore is proposed for the scheme.

A provision of Rs. 15.75 crore is proposed under the Khadi and Village Industries Development and Sustainable Employment Promotion Policy.

A provision of Rs. 11.25 crore is proposed for the Clay Art Integrated Development Programme to provide employment to the traditional clay art artisans in the state.

The state government is continuously making efforts to increase greenery in the state. At present the forest cover and tree cover in Uttar Pradesh is 9.23percent of the geographical area of the state. The target is to increase forest cover and tree cover to 15percent by the year 2030.

In the current year 2023-24 for the expansion of greenery in Uttar Pradesh 36.6 crore tree plantation work was done on a large scale in the state against the target of 35 crore. A target of planting 35 crore trees is proposed in the year 2024. A provision of Rs. 600 crore is proposed for social afforestation. A provision of Rs. 175 crore is proposed for the management of Buddhist school.

A provision of Rs. 110 crore is proposed for the programmes run under the Green India Mission. A provision of Rs. 48.94 crore is proposed for Project Tiger and Project Elephant scheme.

A provision of Rs. 50 crore is proposed for the establishment of Kukrel Night Safari Park in Kukrel forest area located in Lucknow district.

Various types of skill development programmes for the economic development of Scheduled Tribes are being run in the Lakhimpur Kheri Balrampur Bijnor and Bahraich Shravasti and Maharajganj districts.

Under the Minimum Support Price Scheme for Minor Forest Produce the government is promoting the strengthening of marketing markets and markets for minor forest produce and construction of warehouses for purchasing non-timber minor forest produce at the fixed minimum support price.

3. Govt Sponsored Programmes linked with Bank Credit

Uttar Pradesh Aatmanirbharta Krishak Samanvit Vikas Yojana: Farmer entrepreneurs farmer producer groups cooperatives and market committees will be provided unsecured loan up to Rs 2 crore at 6 percent interest and Committees and institutions associated with the welfare of farmers will be able to get loan at 3percent annual interest concession i.e. 6percent for 7 years.

Uttar Pradesh Nandini Krishak Samriddhi Yojana: This scheme aims to promote high-yield dairy cows and other cattle. Beneficiaries will receive assistance to establish units with high-breed dairy cattle. In the first phase 35 units of 25 cows each will be set up with a maximum unit cost of Rs.62 lakh. The government will provide a 50percent subsidy with the rest covered by loans and personal investment.

Mukhyamantri Yuva Swarojgar Yojana-2016: The scheme is designed to promote self-employment among the youth in the state. It provides financial assistance and support offering loans up to Rs.25 lakh for the industrial sector and Rs.10 lakh for the service sector. The scheme requires a margin money contribution of 25percent of the loan amount and provides a subsidy of up to 25percent with a maximum subsidy of Rs.2.5 lakh per sector. (Source- https://diupmsme.upsdc.gov.in/)

Uttar Pradesh Mukhyamantri Yuva Udyami Vikas Abhiyan: Aims to all educated and trained youth in the state who are eligible for several benefits. These include access to a loan facility for establishing a new enterprise with no interest payable on the loan. The scheme offers an interest-free loan of up to Rs 5 lakh for setting up an enterprise and this limit can be increased to Rs 5 lakh if the loan is repaid on time. (Link: https://govtschemes.in/hi/taxonomies/term/59

Chief Minister Village Industries Employment Scheme 2023: The scheme aims to curb rural-to-urban migration and address unemployment by offering financial assistance to rural entrepreneurs. The scheme provides loans of up to Rs.10 lakh through banks with a 4percent interest subsidy for general candidates and full interest exemption for reserved categories.

Eligible entrepreneurs include those trained by ITIs unemployed youth traditional artisans women and others registered with Employment Exchanges. Beneficiaries are identified by district-level committees ensuring they are trained and residents of the village. (Link- http://www.upkvib.gov.in/cm yojana.aspx)

Credit Potential for Agriculture

2.1 Farm Credit

2.1.1 Crop Production, Maintenance & Marketing

2.1.1.1 Status of the Sector in the District

Agriculture is the main economic activity of the district where the number of farmers (including agricultural laborers) constitutes 34 of the total population of the district and 54 of the total workers (Census 2011).

The total geographic area of the district is 2452 sq. km and the gross cropped area is 330916 hectares with a net sown area of 203005 hectares. In the district 94 of irrigation is done through tube wells and 3 of the area is irrigated by canals and other sources. The main crop seasons are Kharif Rabi and Zaid. The main crops are wheat barley peas mustard potato paddy chicory mentha maize and other vegetables. Paddy chicory mentha maize are sown in Kharif and wheat barley peas potato and mustard in Rabi and bottle gourd pumpkin watermelon melon etc. are sown under Zaid.

Chicory is cultivated throughout the district as contract farming which is used with coffee powder after processing.

2.1.1.2 Infrastructure and linkage support available, planned and gaps

The districts agricultural infrastructure includes 5 seed farms 710 fertilizer centers 360 pesticide centers 13 agricultural service centers 1 KVK and 3 markets. Currently there are 3 soil testing laboratories but only one is operational. Given the districts size and the large number of landholdings these facilities are insufficient. Moreover the existing laboratories are equipped to test only major nutrients highlighting an urgent need to establish new laboratories and modernize the existing one. This will help farmers apply fertilizers more efficiently reducing cultivation costs.

Cooperative societies play a key role in distributing agricultural inputs. However concerns persist about the quality of seeds germplasm and the low seed replacement rate (SRR). While the Agriculture Department distributes certified seeds to some extent a significant portion is sourced through mutual exchanges between private traders and farmers.

Through the Interest Subvention Scheme farmers receive a 3 interest incentive for timely loan repayments. Additionally government initiatives promoting drone technology natural farming and millet revival have the potential to significantly boost agricultural productivity in the district.

2.1.2 Water Resources

2.1.2.1 Status of the Sector in the District

According to the 2023 report on groundwater survey Nidholi Kalan Aliganj Shitalpur and Jaithra blocks of the district are classified as semi-critical and Jalesar is critical category. Awagarh Marehara and Sakit as safe category.

The details of water resources in the district are as follows. Out of the net groundwater recharge of 82351.87 ha.m. in the district 55085.61 ha.m. is extractable. Thus stage of groundwater extraction is 72.94. The net sown area in the district is 203005 hectares out of which 198286 hectares (97.7 percent) is irrigated and the rest is rainfed.

2.1.2.2 Infrastructure and linkage support available, planned and gaps

The availability of irrigation resources in the district is as follows:

Source of Irrigation Number/Length

- 1. Length of Canals 666 km
- 2. Government Wells 385
- 3. Sahllow Tube wells 84006
- 4. Medium Tube Wells 628
- 5. Deep Tube Wells 33

2.1.3 Farm Mechanization

2.1.3.1 Status of the Sector in the District

The Government of India has set an ambitious target of increasing agricultural power from 2.76 kilowatts per hectare to 4 kilowatts per hectare by 2030. With this level of agricultural power availability agricultural productivity can go up to 4.2 tons per hectare. Agricultural mechanization through the use of machines such as tractors power tillers combine harvesters and other equipment in agricultural operations saves on hard labor time and wages and increases production and productivity. Additionally Agricultural Mechanisation provides several financial and social benefits to farmers apart from increasing agricultural productivity. It results in 15 to 20 percent savings in the use of fertilizers and seeds and 20 to 30 percent savings in labor and operational time. Additionally there is an increase of 5 to 20 percent in cropping intensity and an enhancement of 10 to 15 percent in agricultural productivity.

The districts status (in terms of farm power availability) is better. The states average FPA is around 2.50 kW/ha while the districts FPA is 4.253 kW/ha.

2.1.3.2 Infrastructure and linkage support available, planned and gaps

There are 9010 tractors 13188 electric motors 416 power tillers 9877

Drought animals in the district and multiple agencies are available for sale service of farm machinary.

Primary Agricultural Credit Societies should be converted into multi-service centers and hubs for large agricultural machinery should be established through them in the area. State govt is providing lucrative subsidy upto 80 for Custom hiring centres to FPOs.

2.1.4 Plantation & Horticulture, including Sericulture

2.1.4.1 Status of the Sector in the District

Etah district lies in the semi-arid agro-climatic zone and the upper Ganga agro-climatic region. The districts climate is well-suited for the cultivation of various fruits including mango guava papaya lemon and amla. It is also favorable for growing vegetables tropical and sub-tropical flowers such as roses tuberose marigold and tuber crops like potato and sweet potato. Additionally the district supports the commercial production of spices like garlic green chili and turmeric along with dry climate crops such as plum amla and lemon.

Etah's climate is also ideal for mushroom farming and beekeeping. The primary crop grown in the district is potato while other important vegetables include cauliflower cabbage capsicum and parwal. Notably the Marehra block is known for its mango cultivation though state support for this sector is currently lacking.

2.1.4.2 Infrastructure and linkage support available, planned and gaps

There are 23 nurseries of the Forest Department 2 nurseries of the Horticulture Department and 3 private nurseries operating in the district. Various types of horticulture and fruit crops are cultivated in the land.

There is no proper arrangement for supplying the desired plants for horticulture in the district. Under the Industrial Production Intensification Scheme plants like lemon mango guava and various other types are made available.

2.1.5 Forestry & Waste Land Development

2.1.5.1 Status of the Sector in the District

The total geographical area of the district of Etah is 245200 hectares of which the forest area is 1034 hectares. Since our National Forest Policy requires the forest area to be 33.33 the process of afforestation needs to be accelerated in the district. The district has 4958 (2462 & 2496) hectares of uncultivated land and culturable wasteland which is 2.05 of the total area and this land can be utilized for intensive afforestation.

2.1.5.2 Infrastructure and linkage support available, planned and

gaps

In the district saplings are available from the Forest Department Horticulture Department and individual nurseries. Technical information regarding tree plantation is also available from the Forest Department.

There is no arrangement for regular training of farmers. Hence the Forest Department and the Soil Conservation Department can take the initiative to provide technical raining for conducting this activity. Entrepreneurs need to be provided with good quality planting material. Currently material is being sourced from private nurseries for certification.

2.1.6 Animal Husbandry - Dairy

2.1.6.1 Status of the Sector in the District

Dairy farming is emerging as a key income-generating and employment opportunity in the districts rural areas. The districts agro-climatic conditions are well-suited for rearing both crossbred and indigenous milk-producing animal breeds. A significant portion of the rural population consists of small and marginal farmers as well as landless laborers who can actively engage in animal husbandry to improve their livelihoods.

According to the 2019 Livestock Census the district has approximately 112030 cows and 593550 buffaloes. Milk production in the district is primarily for domestic consumption and local markets. However the rural milk trade is mostly managed by local milkmen and the district lacks a well-developed milk marketing network.

The district has 67 milk committees 18 milk collection centers 42 veterinary hospitals 4 veterinary dispensaries 68 artificial insemination centers 1 animal breeding farm and 3 animal markets. However to fully harness the districts dairy potential there is a need for high-quality milch animals year-round green fodder cultivation nutritious animal feed regular artificial insemination services and a well-developed milk marketing system.

Currently the availability of high-quality milch animals in local markets is almost negligible with most animals being imported from Haryana and Punjab. Additionally the practice of growing green fodder throughout the year is uncommon. Addressing these gaps is essential to realize the districts full potential in dairy production.

2.1.7 Animal Husbandry - Poultry

2.1.7.1 Status of the Sector in the District

According to the 20th Livestock Census the total poultry population in Uttar Pradesh is 12.525 million. During 2021-22 the total egg production was 4.04 billion which was 3.12 of the all-India production. During 2021-22 the state registered an annual growth of

11.36 in egg production compared to the financial year 2020-21. In 2021-22 the availability of eggs in the state was only 15 eggs/person/year while at the national level the availability was 95 eggs/person/year.

Poultry rearing in the district is done by a very limited number of people belonging to economically weaker sections. This activity has still not become popular from a commercial point of view. According to the animal census of 2019 the number of poultry in the district is 23280. In the district the annual production of eggs during 2021-22 is 169.17 lakh and the annual production of meat is 7566 tonnes.

Under the Zero Hunger category the state's Sustainable Development Goal for 2030 aims to increase per capita egg availability from 15 eggs in 2020 to 29 eggs in 2030 and per capita meat availability from 1527 grams in 2020 to 3053 grams in 2030. Currently per capita egg availability stands at 9 eggs per day and per capita availbility stands at 11 gms per day in the district.

Vaccines and medicines for livestock are easily accessible from nearby veterinary hospitals but considering the large livestock population there is scope for expanding these services.

Due to the absence of hatcheries within the district chicks must be sourced from other areas causing delays in their timely supply. Poultry feed is primarily supplied by traders from neighboring larger districts such as Aligarh.

Furthermore there is limited extension support from the relevant departments for poultry farming and a lack of awareness discourages people from investing in this sector at a commercial level. There is a pressing need for proper training and encouragement to promote these activities within the district.

2.1.8 Animal Husbandry - Sheep, Goat, Piggery

2.1.8.1 Status of the Sector in the District

According to the 2019 livestock census the total population of sheep goats and pigs in the country is 74.26 148.8 and 9.06 million respectively. The population of sheep and goats has registered an increase of 14.13 and 10.14 respectively compared to the previous livestock census. However the pig population has declined by 12.03 compared to the previous livestock census.

The number of sheep goats and pigs in the district was as follows: sheep 3746 goats 98510 and pigs 3319. Goat rearing has been traditionally practiced in the district. (Source: Livestock Census 2019)

2.1.8.2 Infrastructure and linkage support available, planned and gaps

In the district there are 42 veterinary hospitals 22 veterinary

service centers 04 D category hospitals 68 artificial insemination and 08 Pig Development Center is functioning. 01 animal breeding farm in the district but no sheep development

center and piggery unit. The number is zero.

In the district improved breeds of goats such as Jamnapari Barbari etc. should be promoted and units engaged in breeding rearing and selling of improved livestock should be operated. The government department should make arrangements to provide good quality male breeds of foreign breeds in each block for breeding purposes.

2.1.9 Fisheries

2.1.9.1 Status of the Sector in the District

Uttar Pradesh ranks third nationally in both inland fish and fish seed production. Ponds for fish farming in the district are available in Jalesar Aliganj Sakit and Shitalpur blocks. There are a total of

497 ponds of Gram Panchayat in Etah district which is 434.40 available in land.

2.1.9.2 Infrastructure and linkage support available, planned and gaps

In the district varieties of fish like Rohu Katla and Pangasius are reared. However in the past years the flow of credit in this sector has not been satisfactory mainly due to the rules of leasing ponds and the indifference of banks.

The district lacks adequate facilities for fish marketing and transportation. There is a need to enhance these facilities. Due to the lack of public demonstrations of advanced fish farming techniques such as integrated fish farming genetically improved tilapia fish fish-cum-shrimp

farmingpangasius fish farming ornamental fish farming biofloc recirculating aquaculture systems etc. farmers interest in fish farming has not been kindled.

2.1.10 Farm Credit - Others

2.1.10.1 Status of the Sector in the District

The farmer needs transportation facilities to take the agricultural produce to the cold storage/rural warehouse or mandi. In addition animal farms provide manure which is essential for maintaining soil fertility. Along with better income levels and rural infrastructure there is a significant demand for two-wheelers among farmers for better mobility.

Small and marginal farmers as well as other cultivators also prefer to use their own motorcycles for daily business activities. Due to this the sale of motorcycles is happening in large quantities in the district and banks also prefer to finance motorcycles as the vehicle is hypothecated and registered with the Regional Transport Office making the loan amount secured.

2.1.11 Sustainable Agricultural Practices

2.1.11.1 Status of the Sector in the District

Integrated Farming System (IFS) has been defined as "a combination of two or more components which utilizes the principles of complementarity and progressive management tools to derive maximum complementarity and minimum competition among the enterprises to achieve higher income family nutrition and environmental benefits on a sustained basis." The assessment of farm income indicates that diversified farms with two or more enterprises generate almost double the income compared to those with two or fewer enterprises. In the integrated farming can be promoted through various district integrated farming system mod- els like - Crop + Dairy Integrated Farming System Model for Income Enhancement and Employment Generation (1 ha) Crop + Livestock Integrated Farming System Model for Sustainable Livelihood (1 ha) Horticulture + Dairy Integrated Farming System Model for Marginal Farmers of Western Plains (0.70 ha) Dairy-based Integrated Farming System Model for Income Enhancement and Employment Generation (1 ha) Crop + Orchard based Integrated Farming System Model for Western Plains (1.5 ha) Vegetable based Integrated Farming System Model for Marginal Farmers (0.4 ha) etc.

2.1.11.2 Infrastructure and linkage support available, planned and gaps

National Mission for Sustainable Agriculture (NMSA) - The NMSA formulated under the National Action Plan on Climate Change (NAPCC) is one of the eight missions. The NMSA aims to promote sustainable agriculture through climate change adaptation measures. The Rainfed Area Development (RAD) programme implemented by the RFS Division is a component of this mission. Rainfed Area Development (RAD) Programme - This programme focuses on integrated farming systems to enhance productivity and mitigate risks associated with climate variability.

2.2 Agriculture Infrastructure

2.2.1 Construction of Storage and Marketing Infrastructure

2.2.1.1 Status of the Sector in the District

The Agricultural Value Chain (Agri Value Chain) depicts an agricultural process that goes through several related stages from cultivation to production processing and ultimately delivering the products to consumers. This value chain involves farmers buyers manufacturers distributors retailers processing-related industries and other related stakeholders. This process studies cash transfers quality control packaging transportation insurance financial institutions and other related divisions during the process from cultivation to marketing of products. In the district there is no such agricultural value chain working where all the factors of the chain are working together to provide backward and forward linkages.

2.2.1.2 Infrastructure and linkage support available, planned and gaps

About 907154 metric tons of grains and pulses are produced in the district while the available storage capacity is 118295 metric tons which is less as compared to the production. Being a big consumption center there is a need for additional capacity. At present there are a total of 148 warehouses in the district. Mostly manure or chicory is stored in the warehouses of private firms. Cold Storage: There are a total of 18 cold storages in the district whose total storage capacity is 161188 m. Tons. About 228095 metric tons of potatoes are produced in the district. Apart from this fruits and vegetables are also produced for which cold storage is required.

2.2.2 Land Development, Soil Conservation and Watershed Development

2.2.2.1 Status of the Sector in the District

Activities related to land conservation and watershed development directly or indirectly increase agricultural productivity. The land development and conservation activities undertaken to enhance land productivity are land levelling and agricultural land development improving soil quality through specialized reclamation systems water management wasteland development watershed development etc.

The district has a forest area of 1034 ha fallow land (other than current fallow) of 6259 ha current fallow of 6391 ha uncultivable land of 2462 ha and culturable wasteland of 2496 ha. (Source: Statistical Booklet 2023).

The Uttar Pradesh Land Development Corporation ran the Usar Land Reclamation Scheme until 2019. In the Shitalpur Jaithara and Aliganj blocks of the district NABARD implemented land improvement programs on 268.99 hectares under RIDF-18 and 277.75 hectares under the RIDF-

19 scheme.

In the district 11437 hectares of land are affected by saline and alkaline soil problems which can be remediated and brought under cultivation.

2.2.3 Agri. Infrastructure - Others

2.2.3.1 Status of the Sector in the District

The district has the potential for agro processing unit in Cereal crop Pulses Oilseed Wheats etc. Most of the Agro processing unit sanction under PMFME comes under the above mentioned categories. This will lead to reduction in post harvest losses and increase in value addition (improvement in shelf life ready to eat and consume etc.) of farm produce.

2.2.3.2 Infrastructure and linkage support available, planned and gaps

In the district there are possibilities of bank loans in this sector but the demand is not high. One major reason for the lack of demand is the lack of awareness. However in recent years there has been an increasing trend among farmers towards the use of vermicompost.

2.3 Agriculture - Ancillary Activities

2.3.1 Food & Agro Processing

2.3.1.1 Status of the Sector in the District

In India only 10 percent of agricultural produce is processed resulting in a lot of wastage. Studies es- timate that at the national level the post-harvest loss (calculated based on 2012-13 production data at 2014 wholesale prices) of major agricultural produce is annually valued at Rs. 92651 crore. According to the study the percentage of post-harvest losses is as follows: Cereals - 4.65

-5.99 Pulses - 6.36 -8.41 Oilseeds - 3.08 -9.96 Fruits and Vegetables - 4.58 -15.88 Milk 0.92 Inland Fisher- ies - 5.23 Marine Fisheries - 10.52 Meat - 2.71 Poultry 6.74. In such a scenario value addition through food and agriculture processing is the best solution to achieve better returns from agricultural products.

2.3.1.2 Infrastructure and linkage support available, planned and gaps

There are units like flour mills and pulse mills operating for processing wheat and pulses produced in the district. About 50 of agricultural production is used for domestic consumption and the rest is available for marketing. There are small-scale oil mills for processing oilseed production. The district has abundant production of millets like jowar and bajra of which 10-20 is consumed and the rest is available for marketing in raw form. However due to marketing difficulties and lack of processing units for jowar and bajra farmers

do not get proper value for their produce. There is no effective arrangement for processing fruits and vegetables. Small-scale experiments are being done privately but due to the absence of any organized industry for processing fruit and vegetable production proper value is not obtained.

In the 8 development blocks of the district there are some private units like flour mills rice mills pulse mills and grinding/packaging of spices for processing agricultural produce. Some units have also been approved under the Mukhyamantri Gramaudyog Yojana.

2.3.2 Agri Ancillary Activities - Others

2.3.2.1 Status of the Sector in the District

Agri-clinics/Agri-business centers have been identified emerging activity in the district and in-cluded for the first time in this sector which is the most important activity for financing. With the diversification and innovation of agricultural activities the need for support and extension services is also increasing year by year.

2.3.2.2 Infrastructure and linkage support available, planned and gaps

The need for diversification of agricultural activities as well as support and extension services is increasing year by year in the district. In this direction it is important that agricultural graduates or graduates of allied subjects (like horticulture animal husbandry veterinary forestry dairy poultry fisheries etc.) set up agricultural clinics and agri-business centers. Under the scheme all banks will provide loan facilities up to ?20.00 lakhs to individual entrepreneurs or up to ?1 crore to groups of 5 entrepreneurs (of which one should be a graduate in Business Development and Management) on attractive terms. Refinance facilities are also available from NABARD for banks. Under this scheme the Government of India provides subsidy of 36 to general category beneficiaries and 44 to SC/ST category beneficiaries through NABARD.

Credit potential for MSMEs

3. Credit potential for MSMEs

3.1 Status of the Sector in the District

The district is industrially backward. A large unit named Hindustan Unilever Limited is established in the Shitalpur block of the district. Apart from this a large number of small and micro industries are operating in the district. Currently their is a need for the development of micro small and medium enterprises (MSMEs) in the district.

3.2 Infrastructure and linkage support available, planned and gaps

The number of small and rural enterprises are 7200 in district. Under the One District One Product (ODOP) scheme Ghungroo & Ghanti from the Jalesra block have been chosen for promotion and efforts are being made by the district administration through concerned departments.

Canara Bank has been operating a Rural Self Employment Training Institute (RSETI) in the district. Educated unemployed rural youth as well as members of self-help groups especially women members are provided free training in various employment-oriented activities and assisted in obtaining bank loans. NABARD also sponsors training programs. Schemes like Stand up India PMMudra yojna Start up India Pradhan Mantri Employment Generation Programme One District One Product (ODOP) and Vishwakarma Shram Samman Yojana are helping entrepreneurs to set up their units in district.

Credit Potential for Export Credit, Education & Housing

4.1 Credit Potential for Export Credit

4.1.1 Status of the Sector in the District

In terms of export value in the year 2021-22 Uttar Pradesh ranks fifth among all states in exports. Uttar Pradesh recorded a 30 growth in exports during 2021-22. To facilitate exports and add new areas the Uttar Pradesh Export Promotion Policy 2020-25 has been formulated focusing on handicrafts agriculture and processed food products engineering goods and textiles leather products carpets and durries glass and ceramic products wood products sports goods defense products service sector education tourism IT and ITES medical value travels and logistics.

Under ODOP Ghunghroo & Ghanti has been selected on tradition and availability. Also Chicory as crop has been identified as ODOP which is exported outside India. Banks should focus on financing these areas considering the export potential.

4.1.2 Infrastructure and linkage support available, planned and gaps

This sector requires a lot of encouragement.

The availability of electricity supply and roads for transportation is a problem that needs to be addressed.

The lack of foreign exchange branches in the district and the operation outside the district make it difficult for exporters to obtain loans.

Micro-exporters should be provided appropriate training by MSMEs/banks to understand this sector properly.

4.2 Credit Potential for Education

4.2.1 Status of the Sector in the District

The objective of the Education Loan Scheme is to provide financial assistance from banks to meritorious/deserving students for pursuing higher education in India and abroad. The main emphasis is on providing financial assistance at affordable rates to meritorious students to enable them to pursue higher studies. Banks provide financial assistance for various courses in India/abroad. As per 2022-23 data the district has 118 degree colleges 554 Higher Secondary schools 951 Upper Primary schools 1723 Primary schools.

4.2.2 Infrastructure and linkage support available, planned and gaps

According to the available data of educational institutions in the district there is no university no engineering college 1

medical college. Due to this students have to go to nearby cities like Aligarh Agra Kanpur Delhi and Lucknow for professional education. Under Priority Sector Lending loans and advances granted to individuals for educational purposes include loans up to Rs. 10 lakh for study in India and Rs. 20 lakh for pursuing professional courses abroad.

4.3 Credit Potential for Housing

4.3.1 Status of the Sector in the District

Housing is one of the necessities for human security and advancement. At the same time as a driver of demand in various sectors of the economy the housing sector has played a significant role. This sector can be considered an engine of economic growth as it has strong backward and forward linkages in the industry. The Working Group on Rural Housing constituted by the Planning Commission estimated that the housing shortage in rural India at the end of the 12th Five Year Plan was 4 crore. Additionally according to the KPMG report 'Decoding Housing for All by 2022' the total shortage of rural housing is estimated to be 3.24 crore by 2022.

4.3.2 Infrastructure and linkage support available, planned and gaps

Individual loans up to Rs. 35 lakhs in metropolitan centers (population of ten lakhs and above) and Rs. 20 lakhs in other centers for purchase/construction of housing unit per family under the priority sector provided the total cost of the housing unit does not exceed Rs. 45 lakhs in metropolitan centers and Rs. 30 lakhs in other centers. Housing loans for banks' own employees will be excluded. Loans up to Rs. 5 lakh per unit in metropolitan centers and up to Rs. 2 lakh in other centers for repair of damaged housing units.

Credit Potential for Infrastructure

5.1 Infrastructure - Public investments

5.1.1 Status of the Infrastructure in the District

District is agrarian and Kali river is also bordering the district. Available infrastructre is in the nature of flood protection measures lift irrigation canal irrigation pump canals rural roads bridges schools and veterinary hospitals.

5.1.2 Infrastructure and linkage support available, planned and gaps

There is a pressing need for expanded infrastructure development, including irrigation systems, roads, bridges, culverts, and agricultural facilities, with a particular focus on supporting allied activities.

5.1.3 Benefits of RIDF Projects (except irrigation, rural roads and bridges)

The development of connectivity routes in rural areas has enabled agricultural diversification through the introduction of new economic activities and technologies in villages. As a result, a growing number of agro-based units are being established in remote parts of the district. Improved transportation has made it easier for rural communities to move their produce to markets and mandis, reducing transport costs and linking villages more directly to cities and development centers. Additionally, the modernization of small tube wells has expanded the area under irrigation in rural regions.

5.2 Social Infrastructure involving Bank Credit

5.2.1 Status of the Sector in the District

Almost all the villages in the district have been provided drinking water facilities under the Jal Jeevan Mission. The district has a total of 61 hospitals healthcare facilities with total 688 hospital beds which is very low; considering the population. Banks need to provide adequate credit in this sector. This indicates that there is a good potential for public investment along with private participation through bank credit for establishing schools colleges and hospitals and modernizing/upgrading existing infrastructure.

5.2.2 Infrastructure and linkage support available, planned and gaps

Adequate means of transportation are not available in rural areas causing difficulties for rural residents. This is an area where government efforts alone will not suffice and development through the PPP model is necessary. The government should arrange for public awareness on crucial issues such as health and education. Efforts

should be made to increase womens participation. Full advantage should be taken of various government schemes like Pradhan Mantri Awas Yojana Swachh Bharat Abhiyan and Sarva Shiksha Abhiyan. Efforts should be made to fully implement the Prime Ministers Swachh Bharat Mission.

5.3 Renewable Energy

5.3.1 Status of the Sector in the District

All of the villages in the district are electrified although the power supply situation is extremely poor. Solar lights have been identified as an emerging activity in the district. Banks are also emphasizing lending for this activity as an alternative to electricity. The PM Surya Ghar Bijali Yojana will boost efforts to harness the districts renewable energy potential.

5.3.2 Infrastructure and linkage support available, planned and gaps

PM Surya Ghar Bijali Yojana PM KUSUM scheme Bio energy enterprise promotion programme solar pump scheme solar light scheme etc are available.

RIDF

 Details of RIDF projects sanctioned in the district are given below:

(₹ crore)

| Sr. No. | Tranche | No. of projects | Fin. Outlay | RIDF Loan |
|---------|------------------|-----------------|-------------|-----------|
| Α | Closed Tranches | 429 | 179.730200 | 156.202 |
| В | Ongoing tranches | 20 | 24.169200 | 19.8121 |
| | Total (A + B) | 449 | 203.899400 | 176.0141 |

 The sector-wise details of RIDF projects sanctioned in the district various categories are as given below:

(₹ crore)

| Sr. No. | Sector | Projects sanctioned (No.) | Fin. Outlay | RIDF loan |
|------------|-------------------------|---------------------------------|-------------|-----------|
| Α | Irrigation/ Agriculture | 84 | 94.160600 | 88.8901 |
| В | Rural roads & bridges | 365 | 109.738800 | 87.124 |
| С | Social Sector | 0 | 0.000000 | 6 |
| | Total (A + B + C) | 449 | 203.899400 | 176.0141 |

3. Some of the benefits accrued from the projects sanctioned under RIDF in the district are as under:

| Sr. No. | Sector | Projects sanctioned (No.) | Likely benefit | Unit | Value |
|------------|-------------|---------------------------------|----------------------|------|-------|
| Α | Irrigation | 84 | Irrigation potential | ha | 0 |
| В | Rural roads | 363 | Road length | km | 0 |
| С | Bridges | 2 | Bridge Length | m | 0 |

Informal Credit Delivery System

6.1 Status of the Sector in the District

During FY 2023-24 1134 SHGs were given credit of 2489.73 lakh by Banks. Some of the banks are also extending credit through JLG mode. During FY 2023-24 an amount of Rs. 2979.05 lakh was disbursed to 1051 JLGs by Banks.

6.2 Infrastructure and linkage support available, planned and gaps

In the district the formation of self-help groups in rural areas is mainly being done by the National Rural Livelihoods Mission (NRLM). This is a major program of the Government of India. In the state this project is being implemented by the Uttar Pradesh State Rural Livelihoods Mission (UP- SRLM). Under the NRLM scheme NABARDs concessional refinance scheme is available to banks to pro- mote lending to self-help groups under which Regional Rural Banks and District Cooperative Banks are provided refinance at concessional rates of 4 percent (for loans up to Rs. 3 lakhs) and 3 percent (for loans from Rs. 3 lakhs to Rs. 5 lakhs). Under the National Rural Livelihoods Mission the department provides skill training to the promoted groups and engages them in various income-generating activities. NABARD is running livelihood-based programs to enable women to establish and manage successful enterprises and increase their income. In the last 03 years 02 MEDPs and 03 LEDPs have been conducted and keeping in view their

utility and success the said training programs are also proposed during the year 2024-25.

Critical Interventions Required for Creating a Definitive Impact

1. Farm Credit

- 1 Setting up soil testing lab in each Block
- Increase use of fertilizers and farm Mechanisation and enroll more farmers in DBT schemes.
- 3 Distribution of certified seeds
- 4 More centres for input distribution under cooperative fold
- 5 Natural Farming in vegetable belt (Shitalpur block)
- 6 Banks should provide credit to landless cultivators sharecroppers tenants and small/marginal farmers through Joint Liability Groups.

2. Water Resources

- 1 Use of water conserving technology like sprinklers and drips
- 2 Renovation of canals and desilting of canal beds
- 3 Water recharge technologies

3. Farm Mechanization

- 1 Popularising use of small implements like power tillers etc among small and marginal farmers
- 2 Setting up of Custom Hiring Centres
- 3 Maintenance and upkeep of machinery and skill training for same

4. Plantation and Horticulture

- 1 Preparation of bankable models and training of bankers
- 2 Setting up of processing units under PMFME
- 3 Creation of Farm Gate Infrastructure under AIF
- 4 Setting up export related infrastructure in vegetable growing belt

5 Encouraging marginal and small farmers to move towards cash crops

5. Forestry/ Waste Land Development

- 1 Popularisation of hi-tech plantation on commercial scale and bankable models
- 2 Subabul plantation

6. Animal Husbandry - Dairy

- 1 Easy credit facility to farmers
- 2 Insurance of cattles/buffaloes
- 3 Developing milk route in the block for better milk collection and value addition
- 4 Promotion of Selective breeding through Artificial Insemination (AI)

7. Animal Husbandry - Poultry

- 1 Easy credit facility to farmers
- 2 Insurance
- 3 Setting up poultry feed units on commercial scale

8. Animal Husbandry - Sheep, Goat, Piggery

- 1 Easy credit facility to farmers
- 2 Insurance
- 3 Capacity building by KVK
- 4 Market Linkage

9. Fisheries

- 1 Easy credit facility to farmers
- 2 Insurance
- 3 Building public demonstrations of advanced fish

culture techniques such as integrated fish farming biofloc etc.

10. Construction of Storage and Marketing Infrastructure

- 1 Accreditation of warehouses and godowns through WDRA
- 2 Popularising NWR

11. Land Development, Soil Conservation and Watershed Development

- 1 Setting up of soil testing lab and treating soil accordingly
- 2 Bank finance for land treatment/ development activities

12. Agriculture Infrastructure: Others

1 Awareness creation among bankers and farmers for adoption of NADEP and Vermicompost

13. Food and Agro. Processing

- 1 Increased financing under PMFME
- 2 Setting up infrastructure for export promotion and linking ancillary units with it

14. Agri. Ancillary Activities: Others

- 1 Providing ACABC training to Agriculture Graduates
- 2 Setting up ACABC/Agri junctions
- 3 Capacity building of FPOs for availing credit from financial institutions

15. Micro, Small and Medium Enterprises (MSME)

- 1 Awareness among entrepreneurs about CGTMSE and schemes of Government
- 2 Finance to entrepreneurs by Banks with facility of CGTMSE
- 3 The District Industries Center should arrange for effective entrepreneurship training programs and establish product-cumtraining centers.
- 4 Currently the MSME sector is perceived to be associated with

low quality standards in public perception. Efforts should be made to upgrade the MSME sector through modern and new techniques to achieve global quality standards.

16. Export Credit

- Setting up of export infrastructure in vegetable and plantation growing areas
- 2 Promoting ancillary units for agro processing
- 3 Easy availability of export credit
- 4 Training by APEDA for legal formalities

17. Education

Banks to extend credit as per Priority sector norms

18. Housing

1 Growing urbanisation in all the blocks requires bank credit for housing.

19. Social Infrastructure

1 Creation of Sanitary infrastructure in all markets on use and pay basis

20. Renewable Energy

- 1 Solarisation of Government tubewells
- 2 Creation of infrastructure for Net Metering/energy evacuation to increase financing under PM Surya Ghar Bijali Yojana for solar roof top plants

21. Informal Credit Delivery System

- 1 Skill training to SHG members for setting up Enterprise
- 2 Linking SHGs/enterprises with market through ONDC etc
- 3 Easy credit facility from banks

Status and prospects of Cooperatives

1. Background

a. A cooperative is defined as 'an autonomous association of persons united voluntarily to meet their common social, economic and cultural needs as well as their aspirations through a jointly owned and democratically controlled enterprise'.

b. A cooperative is governed by seven major principles, i.e. voluntary and open membership; principle of democratic member control; principle of member economic participation; principle of autonomy and independence; principle of education, training and information; principle of cooperation and, principle of concern for community. Cooperative enterprises help their members to collectively solve shared socio-economic problems. Cooperatives strengthen bargaining powers of their members, help them get access to competitive markets and to capitalize on new market opportunities. As such, they improve income opportunities, reduce costs and manage risks of the members.

2. Formation of Ministry of Cooperation by GoI

The GoI has set up a separate Ministry for Cooperation on 06 July 2021 which will provide a separate administrative legal and policy framework for strengthening the cooperative movement in the country, to help deepen the presence of cooperatives, to streamline processes for 'Ease of doing business' for co-operatives and enable development of Multi-State Co-operatives (MSCS). In the words of the Hon'ble Prime Minister, "The Cooperative movement is such a model which can provide a successful alternative to socialism and capitalism".

3. Latest initiatives by Ministry of Cooperation (MoC), GoI

- The MoC has, in consultation, coordination and partnership with state governments, NABARD, national level federations, training establishments at state and national level and other stakeholders is working on the following initiatives.
- Computerization of Primary Agriculture Cooperative Societies: This scheme aims at computerization of 63000 functional PACS leading to increase in efficiency, profitability, transparency and accountability in the working of PACS.
- Co-operative Education Setting up of World's largest Cooperative University: This aims at introduction of cooperative education as a course curriculum and also as independent degree/diploma courses in Schools and Universities. This will also take care of research in the field of cooperation.
- World's largest Cooperative Training Scheme: This aims at revamping strengthening existing cooperative training structure in the country and modernize the training methods through a revamped scheme.
- · To provide facilities at par with FPOs to existing PACS.
- Establishing Multipurpose PACS/Dairy/Fisheries cooperatives in every panchayat.
- · World's largest food grain storage scheme for cooperatives.

- · Revival and computerization of PCARDBs/SCARDBs.
- Establishment of National Cooperative Database.
- Amendment to Multi State Coop. Act 2002 and setting up of 3 new MSCS.
- New Cooperative Policy Drafting of new Cooperative policy with a view to strengthen the cooperatives and make them vibrant with increased contribution to the economy.
- All these initiatives will create immense business potential from grassroots upward in times to come.

4. Recent developments/ latest initiatives by State Government in strengthening the outreach and activities of cooperatives

- 1. There are a total of 7577 PACs in Uttar Pradesh out of which 6974 are active. For interest subvention the State Government has sanctioned a total of ?300.00 crore in the budget. 70 PACs operating in the district will benefit from this. Under the AIF scheme 688 PACs have been sanctioned godowns out of which construction of 100 godowns has been completed. Under the UP RSBY scheme 7479 micro ATMs have been provided to PACs. Internet facility has been made available at the apex bank UPCB at the State level.
- The Government of Uttar Pradesh has contributed ?100.00 lakh towards share capital increase in District Cooperative Banks during the financial year 2022-23.
- 3. To increase the mem- bership of PACs and activate inactive members the Government of Uttar Pradesh has prepared villagewise data of members associated with PACs and launched a membership drive to increase active members. For the year 2022-23 a target of enrolling 10 lakh new members and activating 6 lakh inac- tive members was set against which 196388 new members were enrolled and 68304 inactive members were activated as on 31st March 2023.
- 4. 16 newly licensed banks (Weak Banks) were unable to honor the withdrawal demand from their depositors. To address the grievances of affect- ed depositors and build the image of cooperative banks the Government of Uttar Pradesh NABARD and Reserve Bank of India took an initiative and convened a special High Level Meeting on 20th June 2022 under the chairmanship of Principal Secretary (Cooperation)-cum-RCS Government of Uttar Pradesh and a roadmap was prepared with consensus to address the liquidity issues of these banks and a committee was constituted to monitor the progress of these banks.
- The total imbalances at DCCB level have increased rapidly in the past few years and stood at ?1378.08 crore as on 31st March 2022. In this direction the Government of Uttar Pradesh and NABARD took

an initiative and convened a High Level Meeting on 22nd November 2022 with the Principal Secretary-cum-RCS Government of Uttar Pradesh and the Regional Director Re- serve Bank of India and a detailed action plan was prepared to address the issue of imbalances. As a re- sult the total imbalances have come down to

?922.87 crore as on 31st March 2023 The total imbalances at DCCB level have increased rapidly in the past few years and stood at ? 1378.08 crore as on 31st March 2022. In this direction the Government of Uttar Pradesh and NABARD took an initiative and convened a High Level Meeting on 22nd November 2022 with the Principal Secretary-cum-RCS Government of Uttar Pradesh and the Regional Director Reserve Bank of India and a detailed action plan was prepared to address the issue of imbalances. As a result the total imbalances have come down to ?922.87 crore as on 31st March 2023 from ?430.04 crore.

5. Status of Cooperatives in the District

- The state of Uttar Pradesh has a three-tier structure of cooperative institutions. At the top level is the Uttar Pradesh Cooperative Bank which has a total of 28 branches. At the middle level there are 50 District Central Cooperative Banks with 1283 branches. At the primary level there are a total of 7577 PACS. In addition there are also committees for weavers industries dairy marketing agro-processing and sugar among others.
- 2. "New steps/initiatives taken by the state government to strengthen the outreach and activities of cooperative societies - There are a total of 7577 PACs in Uttar Pradesh out of which 6974 are active. The Uttar Pradesh government has contributed Rs 100.00 lakh towards increasing the share capital in District Cooperative Banks during the financial year 2022-23. For interest
 - Cooperative Banks during the financial year 2022-23. For interest subvention the state government has approved a total of Rs 300.00 crore in the budget. The state government has an active role in the centrally sponsored scheme released by the central government and the PACs computerization scheme such as the formation of SLAMIC and DLIMC. In addition under the AIF scheme 688 PACs were sanctioned godowns out of which construction of 100 godowns has been completed. Under the RKBY scheme 7479 micro ATMs have been provided to PACs. Internet facility has been made available at the state-level apex bank UPCB."
- The district Etah has a good network profile of cooperative societies covering all 8 blocks of the district. In the district there are 14 branches of Etah District Cooperative Bank Ltd. and
 - 5 branches of Land Development Bank. Apart from these there are also 68 Primary Agricultural Societies functioning in the district.

6. Potential for formation of cooperatives

There is a good potential for cooperative activities in Etah district as the distribution of the operational area of cooperative societies in the district is not uniform and some villages are not covered under the operational area of any cooperative society. Therefore, there is a possibility of forming credit cooperative societies in all development blocks which can promote economic activities. There is potential for formation of Dairy Cooperative societies and Fisheries Cooperative societies. The distribution may be made more uniform across the district.

Climate Action & Sustainability

Climate Action - Scenario at Global & National Level

1.1 Climate Change and its Impact

Climate change is affecting every region on the Earth, in multiple ways. The IPCC AR6[] highlights that human-induced climate change is intensifying weather and climate extremes, resulting in unprecedented heatwaves, heavy rainfall, and severe droughts. The frequency and intensity of these events are likely to increase, posing significant risks to ecosystems, biodiversity, and human societies.

India is exposed to a whole range of climate and weatherrelated hazards. India with diverse geographical regions, long coastline, biodiversity, and high dependence on natural resources is one of the most vulnerable countries to climate change risks worldwide. Further, more than half of India's population lives in rural areas and depends on agriculture & allied activities, which are highly sensitive to climate change, threatening the livelihoods of people dependent on them.

There is emerging evidence that the productivity of crops, livestock and fish is likely to be affected with implications to food security, livelihoods, and sustainability in agriculture. In India, several studies have projected declining crop yields, in the absence of adaptation to climate change. As per the district level risk and vulnerability assessment of Indian agriculture to climate change undertaken by ICAR-CRIDA[], 109 districts out of 573 rural districts (19% of total districts) are 'very high-risk' districts, while 201 districts are high-risk districts.

Sixth Assessment Report (AR6) of the Intergovernmental Panel on Climate Change (IPCC), 2022

2 ICAR-CRIDA (2019): Risk and Vulnerability Assessment of Indian Agriculture to Climate Change.

1.2 Climate Finance and Challenges

Climate finance requirement of India is enormous. While the preliminary financial estimates for meeting India's climate change actions as per NDC was USD 2.5 trillion between 2015 and 2030, estimated financial requirement of India to become netzero by 2070 as per IFC is US\$10.1 trillion. There are various estimates of financial requirements that vary greatly due to varying levels of detail, but it is important to note that they all point to a need for tens of trillions of US dollars. India's updated NDCs also indicates the need to better adapt to

climate change by enhancing investments in development programmes in sectors vulnerable to climate change, however financial requirements for adaptation are very large and will increase in the future. To fully meet our NDCs in a timely manner, India requires enhanced new and additional financial, technological and capacity building support. However, financial, and technological commitments by developed countries under the Paris Agreement are yet to be fully transpired.

1.3 Initiatives of Govt. of India

India initiated the National Action Plan on Climate Change (NAPCC) in 2008, which introduced eight National Missions encompassing various efforts. In August 2022, the Government of India displayed greater determination in its efforts to address climate change by submitting its revised Nationally Determined Contribution (NDC) to the UNFCCC. Through Mission LiFE (Lifestyle for the Environment), India advocated for a global shift in mindset and behaviour, moving away from thoughtless and harmful consumption towards purposeful and conscious utilisation.

1.4 Initiatives of RBI

Climate change is a rapidly emerging area of policy interest in the RBI. Back in 2007, the RBI advised banks to put in place Board-approved plans of action towards helping the cause of sustainable development. In 2015, the RBI included loans for generation of renewable energy and public utilities run on non-conventional energy as part of its priority sector lending (PSL) policy to incentivise the development of green energy sources.

RBI has also laid out guidance for voluntary initiatives by regulated entities (REs) on green finance, setting up of green branches and green data centres, encouraging greater use of electronic means of communication instead of paper, and renewable energy sources. In early 2023, the RBI issued sovereign green bonds to mobilise resources for the Government for green infrastructural investments. RBI has also released the framework for mobilising green deposits by REs.

In February 2024, the RBI has issued draft guidelines on 'Disclosure framework on climate-related financial risks, 2024'. The framework mandates disclosure by REs on four key areas of governance, strategy, risk management and metric and targets, which is a step towards bringing the climate risk assessment, measurement and reporting requirements under mainstream compliance framework for financial sector entities in India.

1.5 Initiatives of NABARD

The whole spectrum of NABARD's functions and initiatives focus

on the attainment of sustainable development. NABARD's initiatives in the Agriculture, Natural Resources, and Rural Development (ANR) sector have integral components of climate action – both mitigation and adaptation, for vulnerable sectors and communities. NABARD has been playing a key role in channelising climate finance to the nation as the Direct Access Entity (DAE) and the National Implementing Entity (NIE) for major climate funds such as the Green Climate Fund (GCF), Adaptation Fund (AF), and National Adaptation Fund for Climate Change (NAFCC). This role enables NABARD to access and deploy climate finance effectively, driving impactful initiatives that address the pressing challenges of climate change in the agricultural sector.

In a significant stride towards sustainable development, NABARD recently unveiled its Climate Strategy 2030. The strategy is structured around four key pillars: (i) Accelerating Green Lending across sectors, (ii) Playing a broader Market Making Role, (iii) Internal Green Transformation of NABARD, and (iv) Strategic Resource Mobilization. This strategic initiative not only reinforces NABARD's commitment to environmental stewardship but also positions it as a pivotal player in India's transition towards a resilient and sustainable economy.

1.6 Way Forward

India has significantly high climate finance needs. NABARD is dedicated to playing its part to expand climate financing in India through a range of financial and non-financial initiatives. Our goal is to promote adoption of innovative and new techniques, and paradigm shifts to build climate resilient agro-ecological livelihoods and sustainable agricultural systems, that are resilient to climate change. The fight against climate change necessitates cooperation, innovation, and a collective commitment to effect change. Currently, it is a crucial time for communities worldwide to expedite climate action before it becomes too late.

Α

Appendix 1b

Climate Action & Sustainability

1 Climate Change Scenario - At the State Level

1.1 State Action Plan for Climate Change

aUttar Pradesh, India's most populous states and fourth largest by area (243,286 km²), is a landlocked state, sharing borders with nine states and Nepal to the north. Geographically, the state is divided into three regions: the Sub-mountainous region, the Ganga Plain, and the Trans-Yamuna region. The state has a sub-tropical climate with winters and hot summers, marked by significant seasonal temperature variations and concentrated monsoon rainfall between June and September. This leads to frequent flooding, especially in Eastern UP, and increasing droughts due to rainfall variability, severely impacting agriculture and triggering rural-to-urban migration. UP is highly vulnerable to climate-induced disasters like floods, droughts, cloudbursts, flash floods, heat and cold waves, and hailstorms, leading to significant loss of life and damage to property and the environment. Over 50 years, UP has experienced 2,539 floods, 17,144 cold wave days, and 6,726 heat wave days. According to the CEEW 2021 report, it ranks 17th in climate vulnerability and has 30 districts highly vulnerable as per ICAR-CRIDA. From 1969 to 2019, the state experienced 2,539 flood events, 17,144 disastrous cold wave days, 6,726 disastrous heat wave days, and 720 lightning days. These challenges demand urgent action for climate resilience, adaptation, and sustainable development, especially as UP continues to progress in the SDG India Index from an Aspirant to a Frontrunner state between 2018 and 2023-24.

bThe Uttar Pradesh State Action Plan on Climate Change (UP SAPCC 2.0) is aligned with India's National Action Plan on Climate Change (NAPCC) and sets out strategies for combating climate change from 2021 to 2030. It proposes 41 strategies and 187 actions across research, policy, and capacity building, with 30% focusing on emission 58% reduction (mitigation), on enhancing climate resilience (adaptation), and 12% combining both. The plan revolves around eight key missions, including the Sustainable Agriculture Mission, aimed at climate-resilient farming; the Jal Mission, focused on water conservation; the Sustainable Habitat Mission for urban development; the Green UP Mission to boost green cover and infrastructure; the Energy Efficiency and Renewable Energy Mission; and the Human Health Mission; the Disaster Management Mission for climate-induced risk preparedness; and the Strategic Knowledge Mission to advance research. UP SAPCC 2.0 requires ?1,12,204.79 crores, with 72% funded, leaving a 28% budget deficit. This highlights the need for additional resources to ensure comprehensive climate resilience and sustainable development in Uttar Pradesh.

1.2 Any specific Climate Change initiative in the District by

a Govt. of India: Uttar Pradesh has implemented several central government schemes to combat climate change, including Project Tiger, Integrated Development of Wildlife Habitats, and Project Elephant for wildlife conservation. The National Plan Conservation of Aquatic Ecosystems, National Afforestation Programme. and National Bamboo Mission focus on ecosystem restoration. Forest management is enhanced through of Intensification Forest Management and Sub-mission Agroforestry. Energy and resource efficiency are promoted via Ujjwal DISCOM Assurance Yojana (UDAY), Pradhan Mantri Ujjwala Yojna (PMUY), and Kusum Yojana. Water conservation and cleanliness are addressed by the National Mission for Clean Ganga and Jal Jeevan Mission. Air quality improvement is targeted by the National Clean Air Program (NCAP) and Swachh Bharat Mission. Urban development sustainability are driven by Mission LiFE, Atal Mission for Rejuvenation and Urban Transformation (AMRUT), and the Smart Cities Mission.

a ICAR Institutions: ICAR is working on climate resilience in Uttar Pradesh through the National Initiative on Climate Resilient Agriculture (NICRA), focusing on strategic research, technology demonstrations, capacity building, and competitive grants. The key assessments, include vulnerability initiatives climate-smart agriculture practices, and developing climate-resilient varieties. NICRA emphasizes natural resource management, improved crop production techniques, and adaptation strategies for livestock and fisheries. In UP, NICRA has identified climate risks, implemented practices like SRI and SWI, introduced resilient crop varieties, and focused on soil and water conservation. Extensive training programs for farmers and stakeholders and successful field interventions have significantly contributed to building climate resilience in the state's agricultural sector.

a State Government: Uttar Pradesh has implemented several central government schemes to combat climate change, including Project Tiger, Integrated Development of Wildlife Habitats, and Project conservation. for wildlife The National Plan Elephant Conservation of Aquatic Ecosystems, National Afforestation Programme, and National Bamboo Mission focus on ecosystem Forest enhanced restoration. management is through Intensification of and Sub-mission Forest Management Agroforestry. Energy and resource efficiency are promoted via Ujjwal DISCOM Assurance Yojana (UDAY), Pradhan Mantri Ujjwala Yojna (PMUY), and Kusum Yojana. Water conservation and cleanliness are addressed by the National Mission for Clean Ganga and Jal Jeevan Mission. Air quality improvement is targeted by the National Clean Air Program and Swachh Bharat Mission. Urban development sustainability are driven by Mission LiFE, Atal Mission for Rejuvenation and Urban Transformation (AMRUT), and the Smart Cities Mission.

a NABARD: NABARD's initiatives in Uttar Pradesh focus on sustainable natural resource management, innovative financial models, and climate change projects. Key efforts include watershed and tribal development projects, climate-smart agriculture, and the JIVA-Agroecology Programme. Financial models like UPNRM and NIDA support renewable energy and efficient irrigation. The Centre for Climate Change at BIRD, Lucknow, enhances stakeholder capacity. Projects under NAFCC and the Tribal Development Fund improve forest ecosystems and sequester CO2. The Watershed Development Fund conserves soil and water, with climate-proofing interventions enhancing agricultural productivity.

a Other Agencies: Uttar Pradesh has implemented several central government schemes to combat climate change, including Project Tiger, Integrated Development of Wildlife Habitats, and Project for wildlife conservation. The National Elephant Plan Conservation of Aquatic Ecosystems, National Afforestation National Programme, and Mission focus Bamboo on ecosystem restoration. Forest management enhanced is through Intensification of Forest Management and Sub-mission Agroforestry. Energy and resource efficiency are promoted via Ujjwal DISCOM Assurance Yojana (UDAY), Pradhan Mantri Ujjwala Yojna (PMUY), and Kusum Yojana. Water conservation and cleanliness are addressed by the National Mission for Clean Ganga and Jal Jeevan Mission. Air quality improvement is targeted by the National Clean Air Program Swachh Bharat Mission. Urban and development sustainability are driven by Mission Life, Atal Mission for Rejuvenation and Urban Transformation (AMRUT), and the Smart Cities Mission.

Appendix 1c

Climate Action & Sustainability

- 2 Climate Change Scenario At the District Level
- 2.1 Prospects of Climate Action in the District
- a Most of the farmers are marginal and small farmers who are engaged in subsistence agriculture. Increase in temperature and decrease in precipitation has led to reduction in production of foodgrains making farmers vulnerable to changes observed in patterns of temperature and precipitation. To increase adaptive capacity of farmers resource conservation technologies water use efficiency climate resilient varieties of seeds and agricultural practices are needed. The income of farmers need to be augmented through climate resilient dairy practices fisheries and horticulture & plantation crops. Climate action projects may be conceived in following areas: 1. Ecosystem services-based adaptation to climate change
 - 2. To improve forest ecosystem through community-based restoration agroforestry arrest run-off rain water
 - 3. Climate Resilient Agricultre
 - 4. Integrated Farming
 - Introduction of new variety of pulse crops (pigean pea) in the district
 - Department of Agriculture KVK and NGOs may be roped in it.
- b Proposed interventions under point (a) are also mentioned in SAPCC of UP. Budget requirement may be quite huge depending upon number of participating farmers.
- 2.2 Any specific Climate Change initiative in the District by
- a Government has come up with National Programme on Climate Resilient Agriculture stress tolerant vatrieties of seeds and climate adaptive varieties of crops. NABARD can take up such projects in convergence with schemes of Government.
- a In district there is one KVK which can play a very active role.
- a Agriculture department has been distributing seeds for various crops. Seeds so distributed may be climate resilient and approach
 can be modify to implement it in a project mode. Farmers field
 - can be modify to implement it in a project mode. Farmers field schools may be upgraded into Climate Field schools.
- a NABARD can use its district presence to identify location target and interventions of projects and design projects based

on its experience as NIE for NAFCC GCF and Adaptation Fund. Efforts may be made through such projects to reduce the adverse impact of climate change on agriculture.

a Other agencies can also use its district presence to identify location target and interventions of projects and design project based on its experience in climate related project.

Appendix 2

Potential for Geographical Indication (GI) in the district

- Geographical Indication (GI) is an Intellectual Property Right (IPR) that identifies goods originating from a specific geographical location and having distinct nature quality and characteristics linked to that location. GIs can play an important role in rural development empowering communities acting as product differentiators support brand building create local employment reduce rural migration creating a regional brand generating spin-off effects in tourism and gastronomy preserving traditional knowledge and traditional cultural expressions and conserving biodiversity.
- NABARD's intervention in Geographical Indications envisages end-to-end support in facilitating pre-registration as well as post-registration activities for Geographical Indications in order to appreciate quality improve market access create awareness strengthen producer's capacity to enforce their rights subsidize cost of registration enforcement and marketing.
- Basmati Rice has the potential to be recognised as a GI Product in some of the blocks of the district. Brass bells and Ankle bells (Ghunghroo & Ghanti) has been identified as ODOP product in the district and has got GI tag

NABFOUNDATION

Leveraging the power of convergence

NABFOUNDATION is a wholly owned, not for profit, subsidiary of NABARD, established under Sec 8 of Companies Act, 2013. The organization draws its strength and experience from the thousands of development projects grounded by its parent body, NABARD, in multiple domains over nearly last four decades.

WHAT DOES NABFOUNDATION WANT FROM YOU? IF YOU ARE AN INDIVIDUAL

Reach out to us with your ideas about development projects which you believe need to be implemented. We really look forward to your fresh ideas.

IF YOU ARE A CSR UNIT

Of a corporate and believe that there is a scope for collaborating with us to have access to the vast network of resources of NABARD in a structured manner, just give us a call.

IF YOU ARE A CIVIL SOCIETY ORGANIZATION/NGO

With an idea whose time you think has come and have not been able to find willing partners, reach out to us.

IF YOU ARE WITH THE GOVERNMENT

And believe that there is a need for reimagining implementation of your Central or State government projects, allow us to be a part of your vision.
