Status of microfinance in India

FOREWORD

Progress of a country is measured not only in terms of GDP growth but also in terms of equity among its people. It is very important in the Indian context as on the one hand there are revolutionary developments in science and technology leading to greater and faster economic development and on the other it is weighed down by high population growth and millions striving hard for basic amenities in life. Fruits of development, therefore, should be shared equitably among all. A mechanism which ensures mobilisation of poor, empowering them to look into their rights and entitlements and equipping them to take up skilled job or micro enterprises thereby leading to increase in productivity and earnings would be the most appropriate tool to ensure welfare and equity in the country.

Self Help endeavours pioneered by NABARD have made a positive impact in this context and has led to formation and credit linkage of large number of Self Help Groups under the SHG-Bank Linkage Model which has enabled the banks to reach the unreached, sustainably, in group mode. The model has also led to building of huge social capital in rural areas.

The above phenomena has also triggered evolution of a plethora of Micro Finance Institutions (MFIs) in the country which are trying to achieve the same objective through diverse mechanisms. Some of the early innovators in this space have, of late, also been accorded Small Finance Bank licences to address the banking needs of these masses.

Tracking the growth and chronicling the developments and putting the data in a booklet therefore, assumes importance and NABARD has taken up this task. The publication 'Status of Microfinance in India' being brought out by NABARD every year has attained the status of 'Reference Document' for researches, policy makers, bankers and development practitioners.

I take pride in bringing out the Status of Microfinance in India 2014-15 which besides capturing the regular developments has also captured this year the data pertaining to NULM which may be of great interest due to rapid urbanisation happening in the country. The findings of studies on 'SHGs as Agents of Social Change' got conducted by NABARD this year would also be of great interest to development practitioners.

The Micro Credit Innovations Department of NABARD deserves kudos for taking pain staking efforts in collecting, collating and compiling the data into a readable document and it gives me immense pleasure in placing this publication before you.

Dr Harsh Kumar Bhanwala
Chairman NABARD

Highlights of the SHG-Bank Linkage Programme 2014-15

Sr. No.	Particulars	Achievements	
		Physical (No. in lakh)	Financial (₹ crore)
1	**Total number of SHGs saving linked with banks**	76.97	11059.86
(i)	Out of total SHGs - exclusive Women SHGs	66.52	9264.33
(ii)	Out of total SHGs- under NRLM/SGSY	30.52	4424.03
(iii)	Out of total SHGs -under NULM/SJSRY	4.33	1071.81
2	**Total number of SHGs credit linked during 2014-15**	16.26	27582.31
(i)	Out of total SHGs - exclusive Women SHGs	14.48	24419.75
(ii)	Out of total SHGs – under NRLM/SGSY	6.43	9487.69
(iii)	Out of total SHGs – under NULM/SJSRY	1.05	1871.55
3	**Total number of SHGs having loans outstanding as on 31 March 2015**	44.68	51545.46
(i)	Out of total SHGs - exclusive Women SHGs	38.58	45901.95
(ii)	Out of total SHGs - under NRLM/SGSY	18.46	19752.74
(iii)	Out of total SHGs - under NULM/SJSRY	3.18	3462.62
4	**Average loan amount outstanding/SHG as on March 2015 (in ₹.)***		115365.85
5	**Average loan amount disbursed/SHG during 2014-15 (in ₹.) ***		169608.08
6	**Estimated number of families covered up to 31 March 2015**	1000	
7	**No of Banks and Financial Institutions submitted MIS (in number)**	322	
8	**Data on Joint Liability Groups**		
(i)	Joint Liability Group promoted during the year 2014-15	4.56	
(ii)	Loan disbursed to Joint Liability Groups (JLGs) during the year 2014-15		4414.44
(iii)	Cumulative Joint Liability Groups promoted as on 31 March 2015	11.29	
(iv)	Cumulative loan disbursed to JLGs as on 31 March 2015		11190.16
9	**Support from NABARD**		
(i)	**Capacity building for partner institutions**		
	Under SHG-BLP and JLGs		
	Number of Programmes conducted during 2014-15 (in no.only)	4413	

	Number of participants covered during 2014-15	1.32	
	Cumulative number of participants trained upto March 2015	32.81	
	Under WSHG Scheme (in LWE affected and backward districts)		
	Number of Programmes conducted during 2014-15 (in no. only)	1142	
	Number of participants covered during 2014-15	0.33	
(ii)	**Refinance Support**		
	Refinance to banks during 2014-15		4493.67
	Cumulative refinance released upto 31 March 2015		30635.67
(iii)	**Revolving Fund Assistance (RFA) and Capital Support to MFIs**		
	RFA outstanding as on 31 March 2015		13.57
	Capital support outstanding as on 31 March 2015		6.30
	Refinance disbursed to NBFC-MFIs during 2014-15		330.00
(iv)	**Grant assistance to SHPIs for promotion of SHGs under SHG-BLP**		
	Grant assistance sanctioned during 2014-15		26.80
	Cumulative sanctioned upto 31 March 2015		301.29
(v)	Cumulative grant assistance sanctioned to anchor NGOs for promotion of SHGs under WSHG Development Scheme upto 31 March 2015		201.45
(vi)	Cumulative grant assistance sanctioned to JLPIs for promotion of JLGs upto 31 March 2015		114.30

Note : * Average loan amount disbursed/SHG worked out to ₹.1.51 lakh if the disbursements of Andhra Pradesh and Telangana are excluded.

STATUS OF MICROFINANCE IN INDIA – 2014-15

1. Introduction

1.1 The Self Help Group Bank Linkage model is a shining star in the galaxy of microfinance. The SHG programme in India is the world's largest microfinance programme by an enormous margin. It is potentially the best microfinance programme in the world for a variety of reasons and the key reasons for its success are its link with the poor people, its innovative practices, trust building at different levels between stakeholders and its capacity to enable people's participation in development. The SHG-BLP is also the largest coordinated financial inclusion programme and NABARD has always strived to broad base the ownership of the programme amongst different stakeholders like banks, NGOs, Govt. etc. It is not simply a loan interface with the poor but a holistic social contact programme with mutual benefit for the banks as well as the SHGs. This saving led model of microfinance is a successful empowerment tool which has covered almost 10 crore households in the country. It is also important to note that 86% of the groups are exclusively women groups which is a big push to the women empowerment programme. The SHG members have learnt how to become a good customer of banks. The important USPs of this programme are that NABARD has championed the programme taking other stake holders as partners, developing savings habits, smoothening the systems for financial inclusion and meeting the financial deficits of the poor household and recognizing that though not all the members of the group will be entrepreneurs but most do need credit to meet their emergent requirements.

1.2 NABARD has been a key architect of the Self Help Group Bank Linkage Programme and the most important player in the development of the microfinance sector. It is playing pivotal role in enrolling civil society organizations, NGOs and state governments for social mobilization and encouraging the bankers to appreciate the business opportunities that exist. In this endeavour NABARD and SIDBI have extended support to the Micro Finance Institutions who are also playing a significant role in this sector. The key object of NABARD has been to facilitate sustained access to financial services for the unreached segments of the population viz., the poor in rural hinterland through various products and delivery channels in a cost effective and sustainable manner.

1.3 Retrospectively, in the context of exclusion of about 30% of the population from the outreach of banking sector, NABARD initiated a series of action research projects. Studies brought out the mismatches between the needs of the poor clients and the products in offer with the banking system. It also came up that what the poor really needed was a better access to the financial services and products rather than cheap subsidized credit. In this backdrop the SHG Bank Linkage Programme started from a pilot of linking

500 SHGs of rural poor more than two decades ago and has crossed 8 million groups. It has reached a number of milestones. A total number of 8 million SHGs have been formed and the programme boasts of group savings of ₹37,000[1] crores (group savings at group and bank level) and credit outstanding of ₹51,545 crores. The SHG BLP model has thus emerged as the most successful model of reaching the unreached for financial services.

1.4 The basic strategy is simple one viz., forming small cohesive and participative groups of the poor, encouraging them to pool their thrift regularly and using the pooled thrift to make interest bearing loans to member. Bank credit is also made available subsequently. It makes a greater sense to the banker with reduced transaction cost and the social collateral or the collective guarantee of the group to fall back upon. Thus a delivery channel was developed for effectively reaching the poor.

1.5 Some of the initiatives of NABARD in this journey of two decades were

EXTRACTS - REPORT OF THE EXPERT GROUP ON SETTING UP OF DFI FOR WOMEN SHGS

Despite the high gross domestic product (GDP) growth rate over the past decade, over 350 million rural people (70 million households) remain locked in poverty. For poverty alleviation credit plays an important role and accordingly there was focus on flow of credit. In this background the National Rural Livelihood Mission (NRLM) has launched a comprehensive package for intensive block. It has projected estimated credit flow at ₹30,000 to 40,000 crore per year over the next 5 years and from 6-10th year it is expected to increase to ₹1 lakh crore per year. Ideally, the current model of investments towards social mobilization, skill training and capacity building and startup capital from Ajeevika should leverage this volume of credit. There are challenges in the eco system and there are issues in demand and supply side. Some of the issues are flagged as under:

i) The SHGs and others are not having physical access to banking outlet which results in increase in transaction cost and pushes the individual customers to choose a proximate informal source. Moreover, sometimes the relationship between the banking outlet and the person is not deep enough to be meaningful.

ii) The bankers find the SHG Bank Linkage or financial inclusion of individual customer unattractive due to high transaction cost. The ubiquitous availability of biometric identity verification through the Aadhar platform is yet to be adopted by all the bank branches. The option may be appropriate technology in the form of mobile phones for increasing the banking penetration.

iii) In the supply side also there are issues like high transaction cost, lack of adequate infrastructure, small ticket transactions and SHG portfolio, attitudinal problem with rural branch managers, etc.

iv) The ecosystem is also beset with information asymmetry, absence of risk mitigation system, trust deficit due to certain government policies (subsidy linked scheme and debt waiver in a few states), absence of credit rating of the SHGs loan portfolios, absence of last mile connectivity restricting the use of technology i.e. mobile phones, etc.

How to bridge the gaps in the demand side, supply side and in the entire ecosystem is the challenge.

[1] *Extrapolated: assuming 70% for internal loaning and rest as bank deposit (1 crore = 10 million)*

creation of funds like Micro Credit Development & Equity Fund, Women SHG Fund, Refinance to banks, support for training and capacity building, support to partner agencies for promotion / nurturing SHGs. The other initiatives taken by NABARD are financing of Joint Liability Groups, skill development for Micro Enterprise Development, supporting SHPIs for maintenance of SHG books, mobile based e book keeping, implementing special programmes like Priydarshini, setting up of Centre for Microfinance Research, conducting studies, action research, etc.

1.6 The challenges and issues of concern faced are skewed growth of the programme in different regions, lack of proactive approach of the banks, lure of subsidies of government, political patronage and the resultant pitfalls, lack of handholding support for livelihood activities, rising Non-Performing Assets (NPAs), sustainability issues and the need for seamless Management Information System. There have also been issues of poor quality of SHGs, multiple membership, over financing and lack of oversight on the part of banks.

2. The way forward

2.1. It is envisioned that the entire eligible poor households in the rural hinterland will be covered under SHG Bank Linkage Programme. This mammoth task calls for a comprehensive Action Plan, a robust technological intervention to address the issues of large numbers and MIS. Innovations to develop range of savings & credit products and livelihood models tailor made for the SHG members has to form a major part of the future plan. Mature SHGs already participating in livelihood activities may become more sustainable as part of producer groups.

2.2. The programme urgently calls for identification of appropriate livelihood opportunities, improvement of skills, mentoring, market development and many such development initiatives. The Kudumabshree programme in Kerala, mission Shakti in Odisha are fine examples of livelihood opportunities. The National Rural Livelihood Mission has been designed with the objective of providing livelihood opportunities to all eligible rural households in due course. There is also need for covering other need based financial products like insurance, remittance, opening of individual accounts, etc.

3. Potential for SHG Bank Linkage Programme

3.1 A sizable number of poor families in the country continue to be out of coverage of the programme. The committee on financial inclusion (2008) had attempted an analysis of the district-wise gaps in financial inclusion and has suggested that critical exclusion in terms of credit is manifested in 256 districts in the country spread across 17 states where the credit gap is to the extent of 95% and above. The report of the Expert group on setting up of a DFI for women SHGs of 2014 observed that in spite of high GDP growth rate over the past decade, over 350 million rural people (70 million households) remain logged in poverty. As per the socio-economic caste census, out of total rural households of 17.94 crore some 13.37 crore households are considered deprived. The potential worked out for 2015-16 indicates that there is still huge scope for bringing in the rural households into domain of SHG BLP for inclusion of about 43.33 lakh rural households, particularly in the priority states (Table 3.1).

3.2 Further, as per the Socio Economic and Caste Census [SECC] 2011 out of more than 1794 rural lakh households about 1337 lakh [75%] households are having a monthly income of the highest earning member of the households below ₹5,000. All these households seem to be in the economically backward and deprived category and living in a state of poverty or near poor status. These households constitute the potential segment to be a part of SHG Bank Linkage Programme. According to one estimation about 1000 lakh households have joined SHG movement and there is a gap of about 563 lakh households who can form nearly 43 lakh additional SHGs. A state wise and zone wise estimated number of such households is given in the Table 3.1. As can be seen from that such potential has already been exhausted in Southern Region as adequate number of SHGs are already existing. This scenario may be attributed to multiple membership or more than one members of a household might have joined different SHGs. On the other hand, a potential to the extent of nearly 18 lakh exists in Central Region including about 11 lakh in Uttar Pradesh alone. Similarly, the Eastern Region also has potential for formation of about 14.5 lakh new SHGs. Among the states like Bihar, Jharkhand, Odisha, North Eastern states, Uttar Pradesh, Rajasthan, Chhattisgarh, Madhya Pradesh, etc. this potential exists to a significant extent and needs to be tapped on priority.

3.3 Presently, out of 76.97 Lakh SHGs only about 58% SHGs are having credit outstanding. As the SHG members generally belong to economically backward households and need supplementary income support, credit linkage of SHGs are imperative. Therefore, appropriate strategies and necessary steps need to be initiated to enhance the credit widening and credit deepening process so that maximum number of households get benefit from easy and adequate access to institutional credit and can venture in economic activities.

Table 3.1 : Potential for SHG Bank Linkage Programme

(figures in No.)

Note: Zero potential signifies that number of households covered under SHG programme exceeds the number of target households

Technology adoption by SHGs – EShakti: a NABARD initiated pilot project

Inaugurationof EShakti by Hon'ble MoS for Finance, Sh Jayant Sinha at Ramgarh, Jharkhand on 15 Mar 2015

The 'EShakti' initiative was kicked off by an announcement made by NABARD in the presence of Dr. Raghuram Rajan, Governor of RBI during National Microfinance Conclave held on 13 November 2014. EShakti is a specially designed project for e-bookkeeping of SHG records and related Management Information System (MIS) on a real time basis. Keeping in view the need for digitization of SHG accounts & activities and to make it an easy searchable database, NABARD has launched a project for digitization of Self Help Groups (SHG). This is in tune with the GOI's mission for creating a Digital India. To begin with, two districts viz. Ramgarh (Jharkhand) and Dhule (Maharashtra) are being covered in pilot mode.

Transparent and proper maintenance of records of SHGs will facilitate proper nurturing and strengthening of SHGs, remove irregularities and delays in maintenance of books of accounts and make book keeping easy for SHG members who are not fully literate. As informal bodies SHGs are linked to banks for getting non-collateralized loans whose volume varies from ₹30,000 to ₹3 lakh depending on their savings corpus and maturity. Presently very few groups get credit linkages beyond second time mainly due to lack of proper data pertaining to group loans and also maintenance of records of meetings, etc.

Digitization of SHGs seeks to address this problem which comes in the way of upgrading the loan status of SHGs and giving them higher quantum of credit as their needs grow. Digitization would also help in concurrent grading of groups which would enable banks to take appropriate credit decision. Further, transactions of individual members of groups are also tracked since Aadhaar number is being incorporated into digitization which in turn creates credit history of the SHG members.

Hon'ble FM Shri Arun Jaitley visiting EShakti website at NABARD HO.

This will pave the way for credibility of SHG data which can later be used by banks to promote and deepen credit linkage. The data may also be shared with Credit Bureaus to reduce the issues related to multiple financing by banks. While SHGs and its members are the direct beneficiaries of the project, other stakeholders like Self Help Promoting Institutions (SHPI), Non-Government Organizations (NGOs), Banks, NABARD, Government Development Departments and agencies like National Rural Livelihood Mission (NLRM) may derive immense benefit out of this exercise.

The EShakti project envisages mapping of the existing SHGs in the district (bank wise, branch wise) for capturing the detailed financial and non-financial information about the SHG and its members and uploading them through customized software. The digital data is being hosted on a dedicated website viz. www.eshakti.nabard.org and generates a host of MIS. SHG members themselves can upload the latest data directly by using a simple Android based App loaded on a hand held device (Tablet/ Mobile) with GPRS support.

Status and Challenges in the EShakti project

So far, NABARD has captured information of over 9,000 SHGs with 1,00,000 members in the EShakti database from Ramgarh (Jharkhand) and Dhule (Maharashtra) the first two districts where piloting is being done. Learnings of this pilot would help to fine tune the approach as well as software before rolling out in the next 8 districts as committed to GoI.

Sourcing of detailed information from a poor database of SHGs is posing a challenge before the EShakti project. Moreover, large numbers, distributed far and wide and some SHGs located in remote and inaccessible areas create hurdles in hastening the process.

Once the pilot is successful, it is anticipated that development of a customized software for data base, MIS and interface platform on Mobile/ Tablet App and its periodic updates/ continued service by vendors/ training of the SHG members on technology platform, etc., would be owned by the SHGs /or Banks on a "pay and use" basis so that it will be a sustainable model. Initially, NABARD is meeting the cost for one year under the project while the SHGs are required to pay ₹5/- per month per SHG.

4. SHG-Bank Linkage Programme

4.1 During 2014-15 about 2.68 lakh new SHGs were added in the domain of SHG to take the number of SHGs savings linked with formal financial institutions to 76.97 lakh as on 31.3.2015. After a dip in the number of SHGs in 2012-13, the SHG BLP has taken strength not only with net additions to the number of SHGs but also with enhanced savings and credit linkage of SHGs in the subsequent years. There was an increase of 3.59% in the number of savings linked SHGs over the previous year. What is significant that the number of SHGs savings linked has gone up substantially in some of the resource poor and strategic states like J & K and in North Eastern States. States like Chhattisgarh, Madhya Pradesh, Uttar Pradesh, Uttarakhand, Maharashtra and West Bengal which are resource poor states registered rise in number of groups which is encouraging feature. However, in Bihar, Gujarat, Jharkhand, Odisha and Rajasthan there was decline in number of saving linked group which may be attributed to the dormancy and the data cleansing efforts made by the banks. As many as 16.26 lakh SHGs were disbursed with fresh loans during the year - a 19% increase over 13.66 lakh SHGs getting fresh loans during 2013-14. The quantum of fresh loans issued by banks also rose by nearly 16% during the year. Number of SHGs with credit outstanding with banks have shown a rise of 6%, from 41.97 lakh in 2013-14 to 44.68 lakh, against a 6% decline, the previous year. The amount of loan outstanding on the other hand has gone up by 20%. The total loan outstanding to SHGs stood at ₹51,545 crore as on 31.03.2015 against ₹42,928 crore a year back. A faster rise in loan outstanding over that of the number of SHGs credit linked implies a credit deepening during the year. The average institutional loan outstanding of SHGs as on end of March 2015 was ₹1,15,361, which was 12.8% more than the average loan outstanding of ₹1,02,273 at the end of 2013-14. The share of exclusive women SHGs in the total number of SHGs linked to banks now stands at 86% (up from 84 % last year).

There has been a sizeable rise over the previous year in the number and savings of SHGs under NRLM/SGSY which constituted 39.65% (30.52 lakh) out of total saving linked SHGs and accounted for ₹4,424.03 crore (40%) of savings with banks. The number of SHGs under NRLM/SGSY increased by 7.9 lakh though there was a net addition of only 2.68 lakh groups to total number of SHGs during the year, which implies more and more coverage of existing SHGs under NRLM / SGSY and NULM / SJSRY during the year. Table-4.1 gives the growth of SHGs – saving as well as credit linked – for the last 3 years, separately for all Groups, Groups under NRLM/SGSY/NULM/ SJSRY and exclusive Women Groups.

Table 4.1: Overall Progress under SHG-Bank Linkage Programme during last Three years

(Numbers in lakh/ Amount ₹ crore)

Particulars		2012-13		2013-14		2014-15	
		No. of SHGs	Amount	No. of SHGs	Amount	No. of SHGs	Amount

(Figures in parentheses indicate increase / decrease over the previous year)

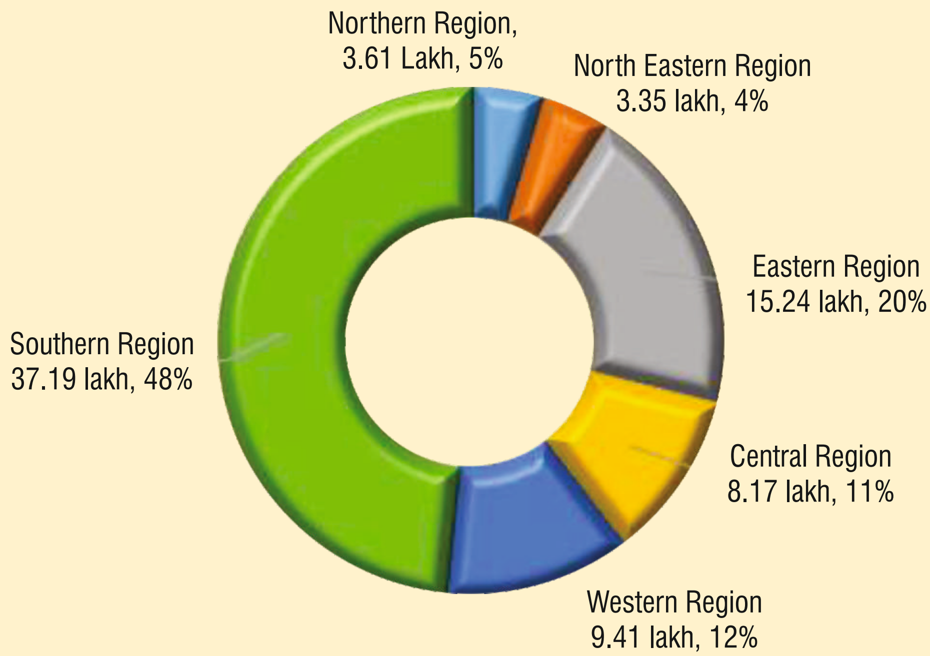
4.2 Saving linked SHGs

The number of SHGs has shown a steady progress since the launch of the SHG programme barring a decline recorded in 2012-13 due to "data cleansing" by banks. Notwithstanding the dip in 2012-13, the CAGR of number of SHGs during last five years remained at 2%. There has been an obvious sluggishness in formation of new SHGs mainly because majority of the potential rural households in South India have already joined SHGs and the proliferation of the programme in other resource poor states is still quite slow. However, potential for new SHGs exist in all region other than Southern Region. The potential available in various states has been discussed earlier (in para 3).

4.2.1 Spatial Distribution

Distribution of SHGs in the country has always remained skewed towards Southern Zone which accounts for almost half (48%) of the SHGs in the country followed by Eastern Zone with 20% in 2014-15 (Figure 4.1). Among the states Tamil Nadu has the maximum number (12.8%) of SHGs after split of Andhra Pradesh. As compared to previous year, there has been a marginal fall in the share of saving linked SHGs in the Southern Region from 49.75% to 48.32% and in Northern Region from 4.92% to 4.69% while the other regions have recorded slight upward swing. In North Eastern Region, apart from Tripura all other states and all four states in Central Region have recorded a rise in number of saving linked SHGs during the year as compared to previous year. Eastern Region has also registered a rise in number of saving linked SHGs despite a fall reported in Bihar, Jharkhand and Odisha. State-wise distribution of number of saving linked SHGs is given in **Statement IIA.**

Figure 4.1 : Distribution of SHGs Across Regions of India 2014-15



There has been a steady progress in the savings balance, loans disbursed and loans outstanding against SHGs during past three years (Figure 4.2). The savings balance of the SHGs with banks went up by nearly 12% during 2014-15 to ₹11,060 crore as on 31.03.2015 against ₹9,897 crore a year back. All regions except Northern Region and North Eastern Region recorded increased savings balance during the year. All states in NE Region except Assam, Eastern Region except Jharkhand and Western Region except Goa have reported improved savings balance during the year. On the other hand, major states like Tamil Nadu, Uttar Pradesh, Rajasthan and Haryana among others have recorded a declined savings balance during the year as compared to previous year. **Statements II A** and **Statement III** indicate the Bankwise and Statewise position of saving linked SHGs.

Figure 4.2 : SHG Bank Linkage Highlights (₹ Crore)

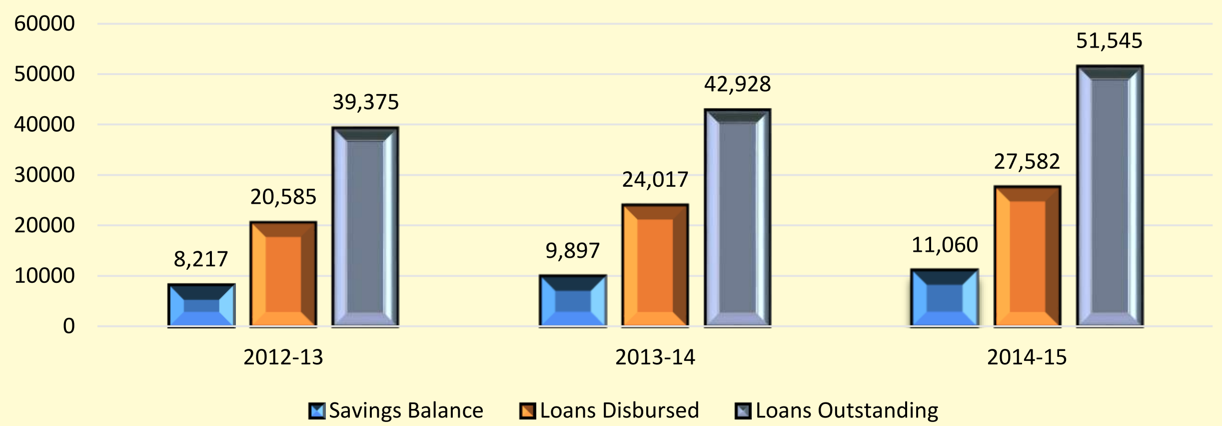


Figure 4.3 : Average Savings per SHG during 2014-15 (₹)

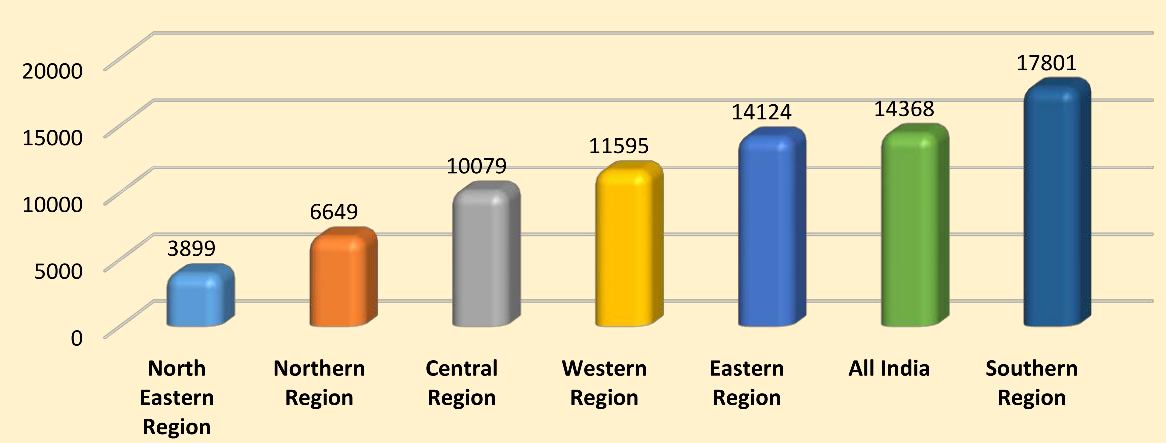

The average savings balance of SHGs with banks as on 31.3.2015 was ₹14,368, increased by about 8% from ₹13,322 in previous year. Only Southern Region with ₹17,801 had a better average savings bank balance than the national level and North Eastern Region on the other hand was having the lowest average saving of only ₹3,899 per group (Figure 4.3).

Commercial Banks with their large branch network have accounted for a major share of saving linked SHGs, Women SHGs and SHGs under NRLM/SGSY during 2014-15 (Figure 4.4). Commercial Banks had more than half of the total SHGs and also SHGs under NRLM/SGSY followed by RRBs. Cooperatives though have about 18% of saving linked SHGs with them and their share of SHGs under NRLM/SGSY was about 7% only (Table 4.2).

Figure 4.4 : Agencywise Distribution of SHG BLP
(no. in Lakh)

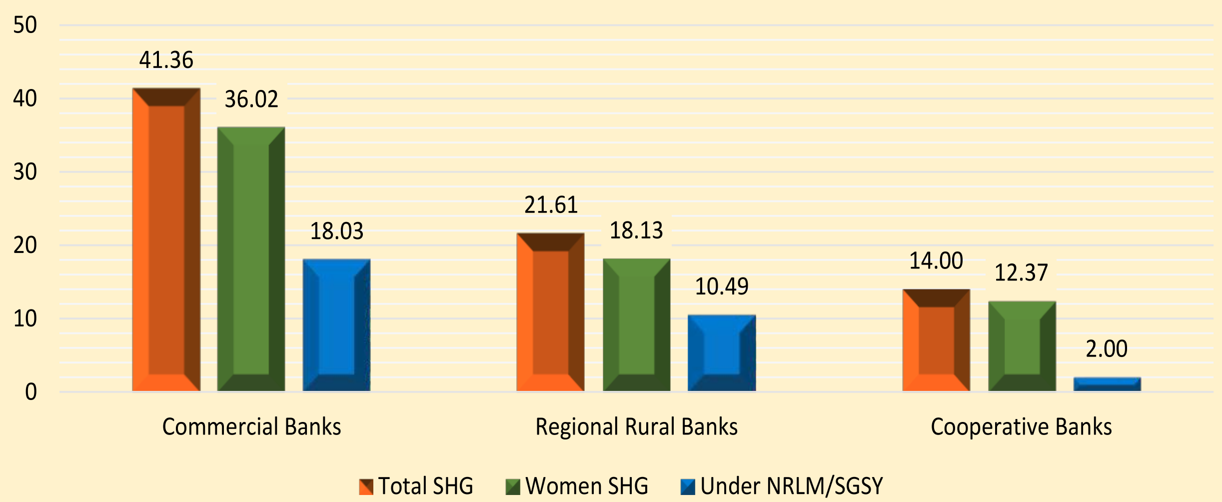

Table 4.2: Agency-wise Distribution of savings in 2014-15

(No. in lakh)

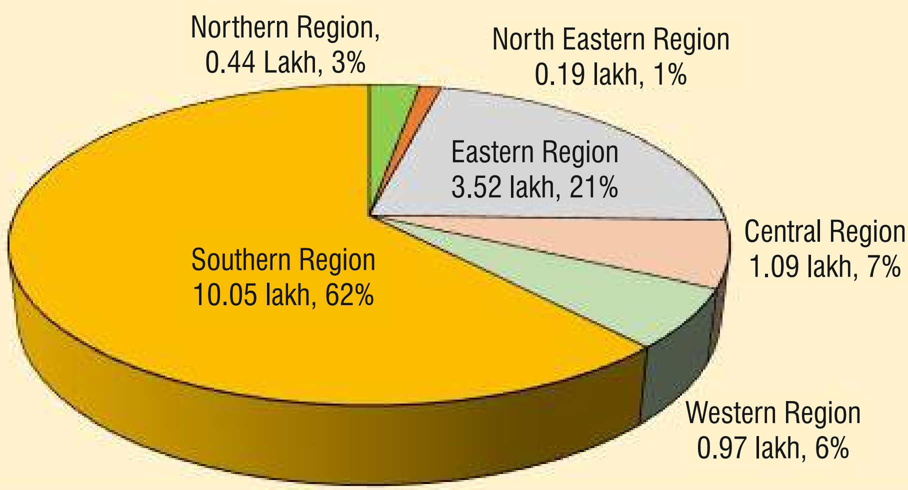
Particulars	Commercial Banks	Regional Rural Banks	Cooperative Banks	Total
Total SHG	41.36 (54%)	21.61 (28%)	14.00 (18%)	76.97 (100%)
Women SHG	36.02 (54%)	18.03 (27%)	12.37 (19%)	66.52 (100%)
Under NRLM/SGSY	18.03 (59%)	10.49 (34%)	2.00 (7%)	30.52 (100%)
Under NULM / SJSRY	3.34 (77%)	0.54 (13%)	0.45 (10%	4.33 (100%)

4.3 Fresh Loans to SHGs by Banks

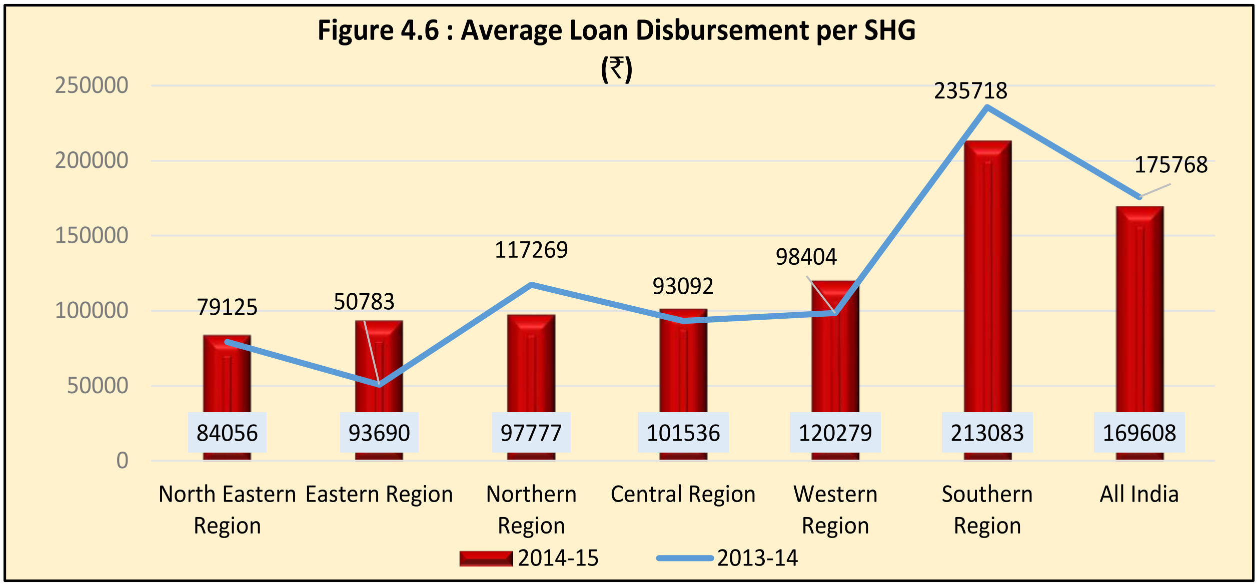
Fresh credit linkage of SHGs through institutional sources has been steadily increasing over the years. There was an increase of 19% in the number of SHGs being extended fresh loans during 2014-15 as compared to the previous year while the quantum of fresh loans went up by nearly 15% (16.26 lakh and ₹27,582 crore respectively during 2014-15 compared to 13.66 lakh SHGs and ₹24,017 crore during 2013-14). During the year 2014-15, Southern Region accounted for more than 62% of the SHGs credit linked followed by Eastern Region which accounted for more than 21% of the credit linked SHGs. There was a rise in credit linkage in all major states except West Bengal over the previous year.

An analysis of regionwise distribution of SHGs with loan disbursement during the year shows that Southern Region has the maximum share with 62% followed by Eastern Region with 21% (Figure 4.5). Out of total 16.26 lakh SHGs which availed loans during 2014-15 one third (5.38 lakh) belonged to Andhra Pradesh and Telengana put together. States like Bihar, Odisha, Uttar Pradesh and Rajasthan have reported substantial increase in the number of SHGs credit linked and quantum of fresh loans extended while Jharkhand has shown a decline in the number and quantum of fresh loans issued.

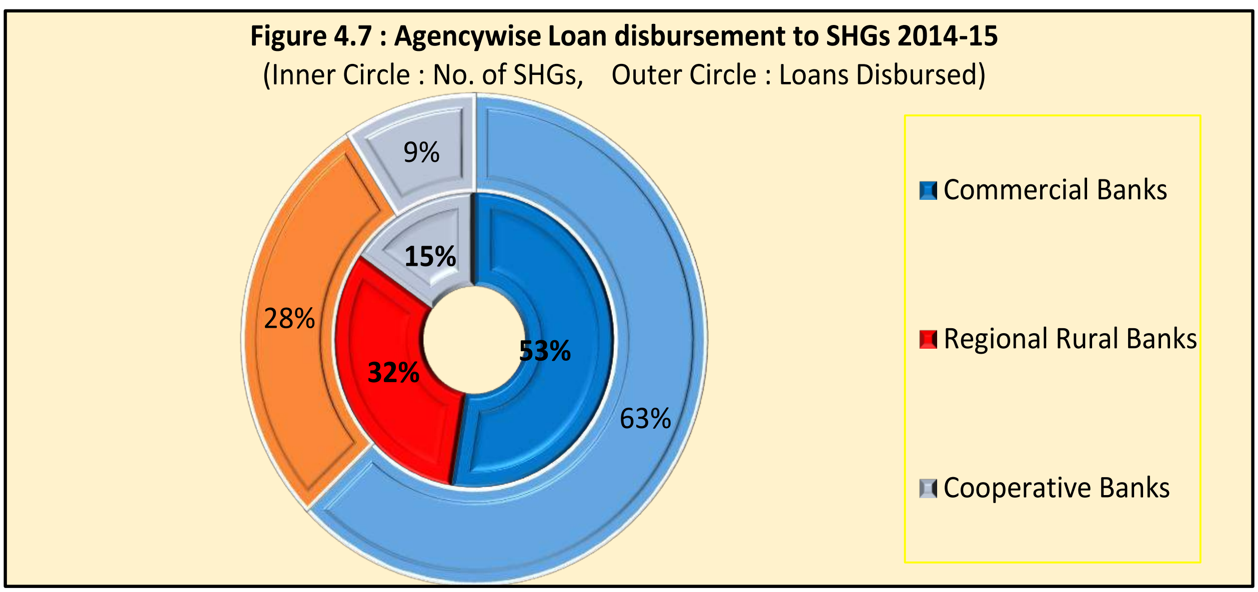
Figure 4.5 : Regionwise Disbursement of Loans to SHGs 2014-15



The average quantum of loans disbursed to SHGs during the year was ₹1.70 lakh, a little less than ₹1.76 lakh during the previous year and this ranged from ₹84,056 in North Eastern Region to ₹2,13,083 in Southern Region. As compared to 2013-14, the average loan disbursed per SHG declined in Northern and Southern Regions. Since these two regions accounted for almost two third of SHGs provided with loans during the year, a fall in the average loan per SHG in these regions lead to a decline in the national average. Among the states the average loan issued per SHG during the year ranged from a low of ₹39,455 in Manipur to ₹2,46,021 in Tamil Nadu.



Commercial Banks disbursed about 63% of the total loans issued to more than half of the SHGs provided credit during 2014-15. On the other hand, the RRBs disbursed 28% of loan amount to 32% of SHGs and the Cooperatives disbursed 9% of the loan amount to 15% of SHGs during the year (Figure 4.7). The average loan disbursed per SHG by Commercial Banks was ₹2,02,567 while it was ₹1,47,953 and ₹1,01,579 for RRBs and Cooperative Banks, respectively, against the overall average of ₹1,69,608.



Statements II B and Statement IV indicate the Bankwise and Statewise position of fresh lending to SHGs by banks during 2014-15.

4.4 Loans Outstanding against SHGs

The number of SHGs having bank loan outstanding increased by 6.45% during 2014-15, reversing the decline during the previous year. There has been a decline in the absolute number of outstanding SHG loan accounts in Northern and North Eastern Region over the previous year. With fresh loan support to 16.26 lakh SHGs during the year the outstanding loan accounts had gone up from 41.97 lakh as on 31.3.2014 to 44.68 lakh (58%) as on 31.03.2015 (by 2.71 lakh). The amount of loans outstanding rose by 20% to ₹51,545 crore as on 31.03.2015 from ₹ 42,927 crore as on 31.3.2014. Southern Region had the lion's share of 23.90 lakh (53.5%) accounts with loan outstanding of ₹38,640 crore (75%) followed by Eastern Region with 10.69 lakh (24%) with loan outstanding of ₹6,170 crore (12%) (Figure 4.8 & 4.9).

Figure 4.8 : No. of loans outstanding accounts [lakh]

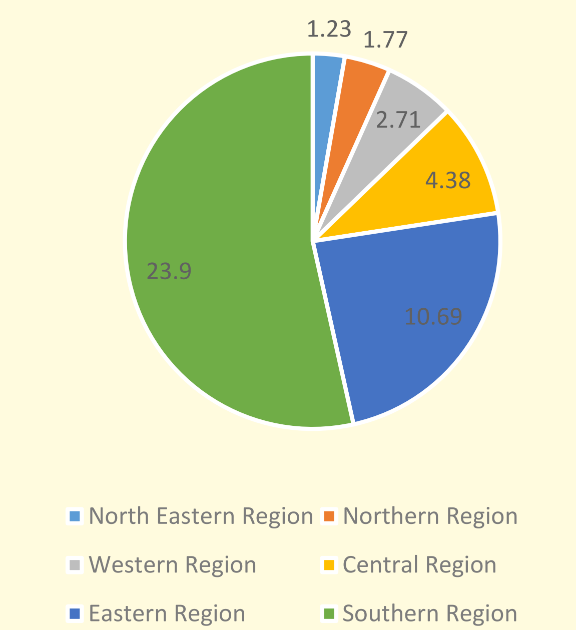


Figure 4.9 :Loans outstanding (₹ crore)

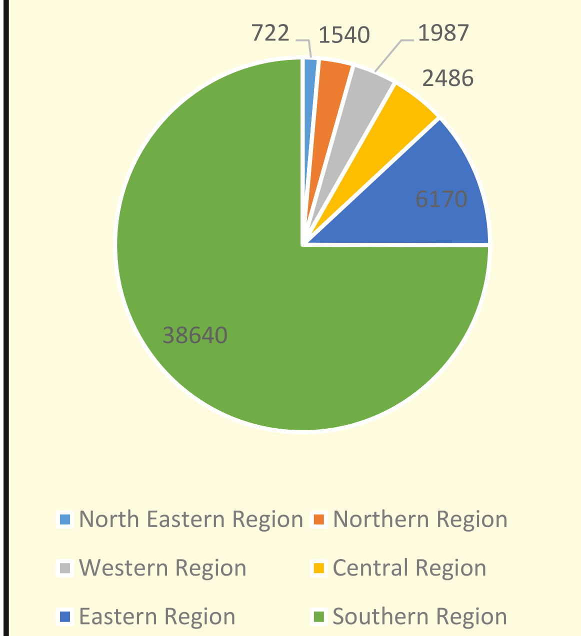

The average loan outstanding per SHG was ₹1.15 lakh that has increased from ₹1.02 lakh, and ranged between a low of ₹56,733 in Central Region to a maximum of ₹ 1,61,674 in Southern Region followed by Northern Region with ₹ 87,036 (Figure 4.10). Among the States Chhattisgarh recorded the lowest average of ₹ 26,388 while Andhra Pradesh reported the highest per SHG loan outstanding of ₹1,96,093.

Among agencies, the Commercial Banks had outstanding loans of ₹34,407 crore (67%) with respect to 26 lakh (58%) SHGs as on 31.03.2015. RRBs and Cooperatives had amount of loan outstanding and number of SHGs at ₹13,825 crore in respect of 12.7 lakh SHGs and ₹3,314 crore in respect of 5.9 lakh SHGs, respectively. The average loan outstanding per SHG in case of Commercial Banks, RRBs and Cooperative was ₹1.32 lakh, ₹1.09 lakh and ₹0.56 lakh respectively.

Figure 4.10 : Region-wise Average Loan Outstanding of SHG 2014-15 (₹)

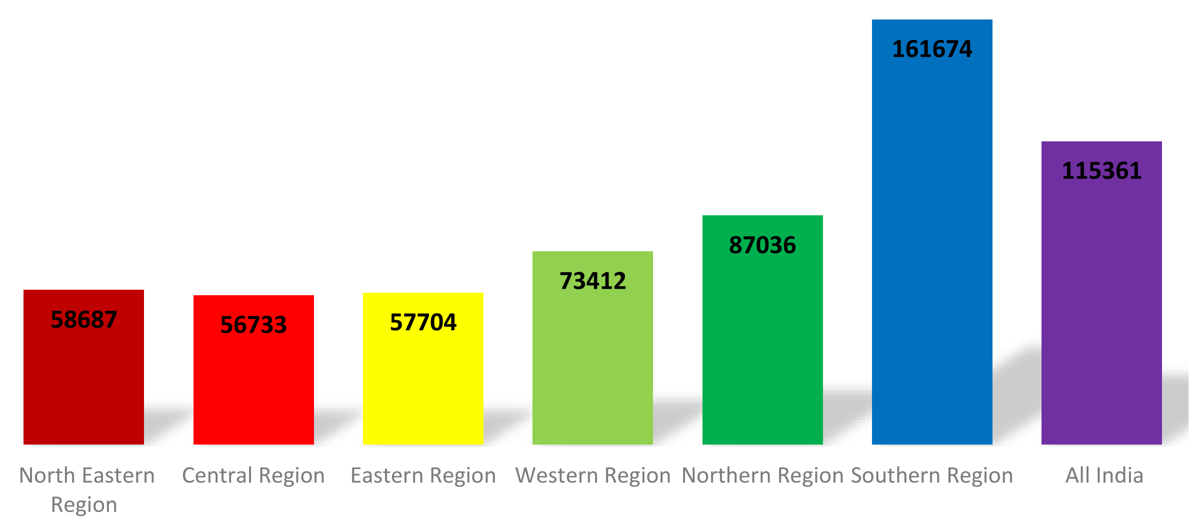

Figure 4.11 : Agencywise Loan Outstanding of SHGs 2014-15 (No. in hundreds, Outstanding ₹ Crore)

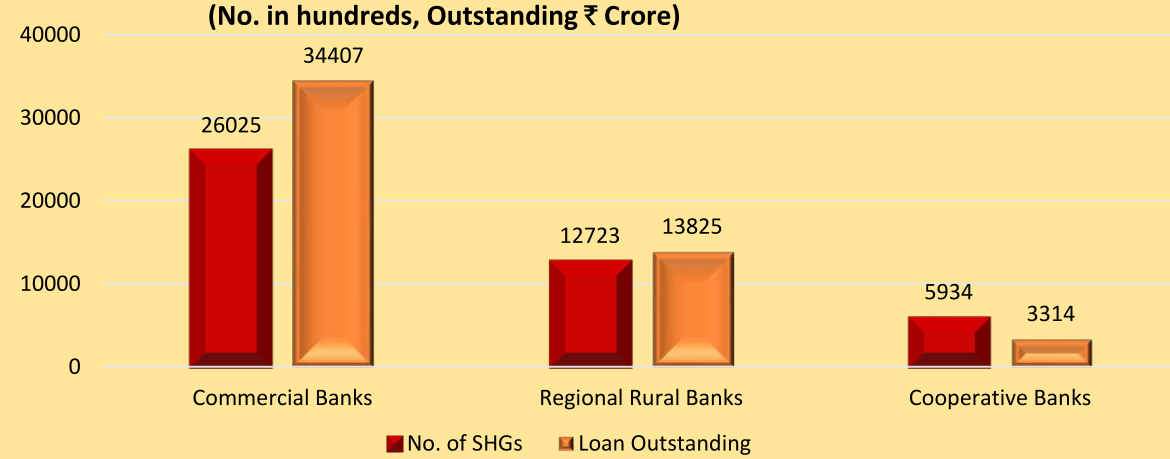


Statement II C and Statement V indicate the Bankwise and Statewise position of the loans outstanding against the SHGs as on 31 March 2015. (In case of abridged version, refer to enclosed CD for Statements).

4.5 Non Performing Assets

Rising NPAs in SHG accounts is a major concern in the SHG Bank Linkage Programme in recent years. Overall NPAs to loan outstanding of banks against SHGs in India has gone up further to 7.4% as on 31.3.2015 from 6.8% as on 31 March 2014 (Table 4.3). The amount of gross NPA of bank loan had gone up from ₹2,933 crore in 31 March 2014 to ₹3,815 crore as on 31 March 2015 recording a rise of ₹882 crore (30%). As can be seen from Table 4.3, the extent of NPA of bank loans to SHGs has been rising in absolute terms.

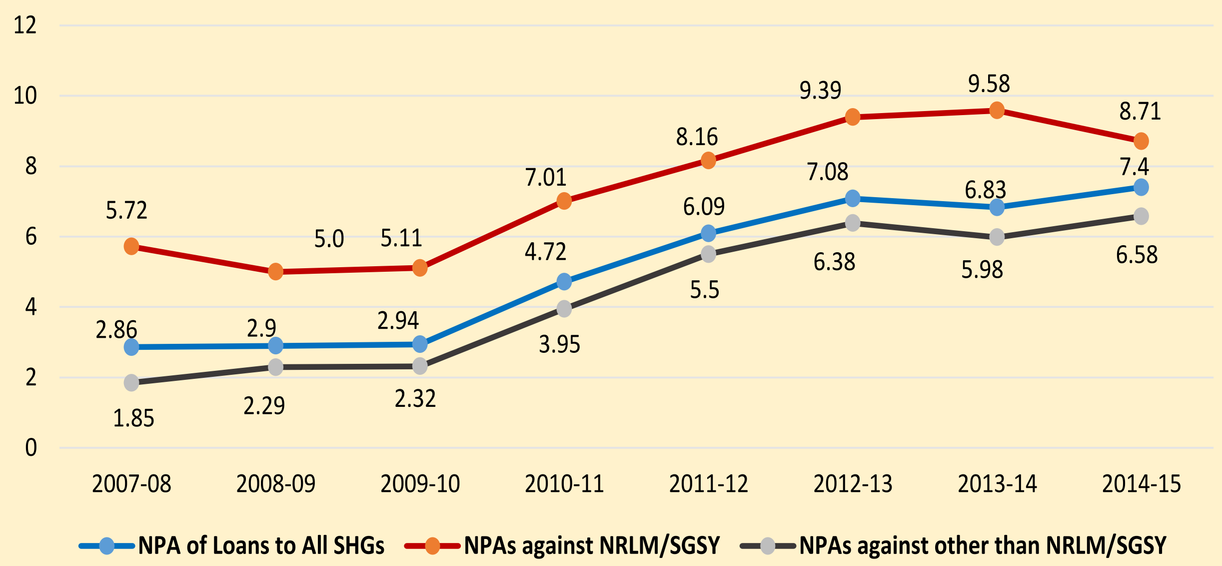
Table 4.3: Non-Performing Assets of SHG loans

(Amount ₹ crore)

Year	NPA of Loans to All SHGs		NPAs against NRLM/SGSY		NPAs against other than NRLM / SGSY	
	Amount of Gross NPAs	NPA %	Amount of Gross NPAs	NPA %	Amount of Gross NPAs	NPA %
2012-13	2786.90	7.08	859.70	9.39	1927.20	6.38
2013-14	2932.70	6.83	975.20	9.58	1957.50	5.98
2014-15	3814.70	7.40	1720.92	8.71	2093.70	6.58

The rate of NPAs in the loans to SHGs under NRLM/SGSY was notably higher than that of others. Such NPAs accounted for about 45 % of the total NPAs against SHGs. Loans under SGSY, NRLM and other govt. sponsored programmes are generally for income generating activities and involve capital / interest subsidies and revolving fund assistance. In spite of this the default and NPA rate remained higher in such loans as compared to normal SHGs. As can be seen from Table 4.3, there was a big (more than 76%) jump in the gross NPAs of SHGs under NRLM/SGSY from ₹975.2 crore as on 31.03.2014 to ₹1,720.9 crore as on 31.03.2015, whereas there was only a marginal (7%) increase in case of other SHGs, from ₹1,957.5 crore to ₹2,093.7 crore during the corresponding period.

Figure 4.12 : NPA of Loans to SHGs - NRLM/SGSY & Others (%)



4.5.1 Spatial Distribution of NPAs

The level of NPAs in respect of loans advanced to SHGs varied widely from 5.9% in Southern Region to 16.9% in Central Region during 2014-15 (Table 4.4). As can be seen from Figure 4.13, the NPA percentage level had remained low in southern Region and it was highest in Central Region during the past three years. However, the overall increase in NPAs over the previous year was contributed most by the Southern Region (92%), while the Western Region and Central Region had shown some improvement by reducing the NPA amount as compared to the previous year. Among the states NPAs ranged between 2.32% on the lower side in Goa to 49.19% in Manipur as the highest. Among major states Uttar Pradesh, Punjab, Haryana, Himachal, Orissa, Jharkhand had NPA rate exceeding 15%. The major states contributing to the incremental NPAs during 2014-15 were Andhra, Telengana, Karnataka and West Bengal. The State-wise, agency-wise NPA level of loans to SHGs is given in **Statement II D.**

Figure 4.13 : Regionwise Trend of NPA in SHG Loans 2014-15

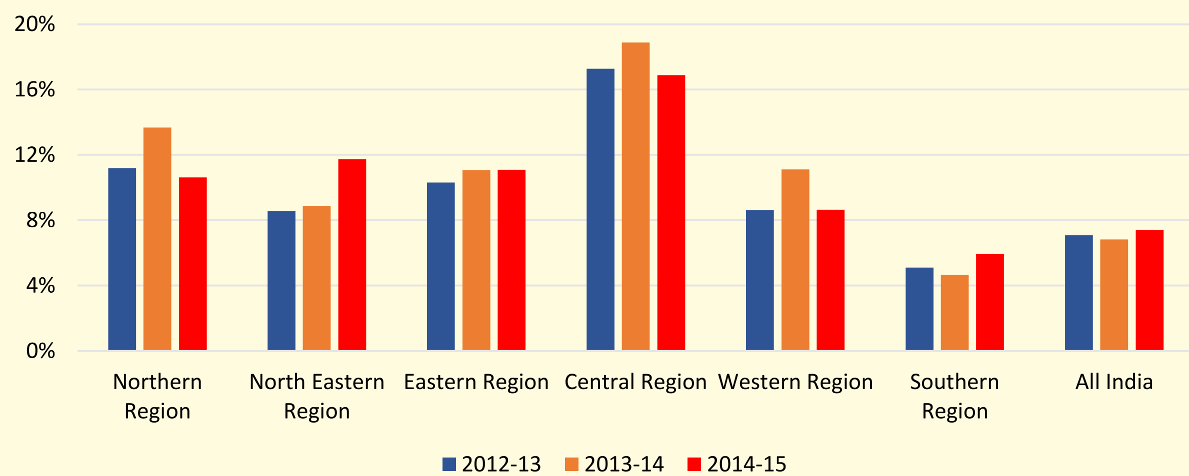


Table 4.4: NPA percentage in SHG loans – Region-wise

(Figure in %)

Region	2012-13	2013-14	2014-15
Northern Region	11.19	13.67	10.62
North Eastern Region	8.56	8.88	11.74
Eastern Region	10.30	11.07	11.10
Central Region	17.28	18.87	16.87
Western Region	8.63	11.11	8.64
Southern Region	5.11	4.64	5.93
All India	**7.08**	**6.83**	**7.40**

4.5.2 Agency wise distribution of NPAs

Among the various agencies the rate of NPAs in loans to SHGs was highest at 8.52% in Cooperative Banks whereas the Private Sector Commercial Banks managed to keep it at the lowest at 1.05% (Table 4.5). This is in line with the historical evidence and once again vindicates the hypothesis that with proper attention to quality of SHGs, handholding, monitoring and focused attention, the recovery levels in SHGs are high. Amongst the public sector commercial Banks with high to moderate exposure to SHG lending the State Bank of India, UCO Bank and Indian Overseas Bank reported NPAs in excess of 15%

The NPA percentage of loans to SHGs under NRLM/SGSY was the lowest in case of RRBs with 7.25% while it was 9.43% and 11.74% for Commercial Banks and Cooperative Banks, respectively. The NPAs were higher in the SHGs formed under Govt. sponsored programmes in respect of all agencies, except the RRBs.

Table 4.5: NPA of Bank loans to SHGs: Agency-wise position as on 31 March 2015

(Amt. ₹ crore)

Name of the Agency	NPA of Bank loans against Total Loans Outstanding to SHG		NPAs against NRLM/SGSY		NPAs against other than NRLM/SGSY	
	Amount of NPAs	% of NPAs to Total loans Outstanding	Amount of NPAs	% of NPAs to Total loans Outstanding	Amount of NPAs	% of NPAs to Total loans Outstanding
Public Sector Commercial Banks	2423.17	8.02	1134.43	9.43	1288.74	7.08
Private Sector Commercial Banks	43.69	1.05	2.37	21.74	41.32	0.99
Regional Rural Banks	1065.54	7.71	519.61	7.25	545.93	8.20
Cooperative Banks	282.25	8.52	64.51	11.74	217.74	7.88
Total	**3814.65**	**7.40**	**1720.92**	**8.71**	**2093.74**	**6.59**

The incidence of rising NPAs in SHG advances is a concern of all stakeholders as it impedes further expansion of the programme. As discernible from Table 4.6, compared to overall gross NPA level of Banks, the NPA in loans to SHGs has remained higher in case of public sector Commercial Banks and the Cooperatives. In case of public sector commercial banks, while the overall gross NPA was 4.6% in 2014-15, it was 7.2% for SHG advances in 2013-14 and has further increased to 8.2% in 2014-15. The contributory factors need to be adequately addressed.

Table 4.6: Gross NPA vis a vis NPA in SHG in various Agencies

Year	Gross NPA as Percentage of Gross Advances by Agencies		Gross NPA of loans to SHGs as Percentage of Gross Advances			
	Public Sector Commercial Banks	StCB	Public Sector Comm. Banks	StCB	RRBs	All Agencies
2012-13	3.6	6.2	8.39	8.13	4.10	7.08
2013-14	4.4	5.5	7.02	8.67	6.26	6.83
2014-15	4.6	NA	8.02	8.52	7.71	7.40

Statement II-D and Statement VI indicate the NPA position bank wise and state wise as on 31.3.2015. (In case of abridged version, refer to enclosed CD for Statements).

4.5.3 Reasons for NPAs in SHGs

There are a variety of reasons contributing to the NPAs in SHGs as has been discovered during the internal studies conducted by NABARD. Some reasons may be attributed to the general trend of rising NPA in the sector. The SHGs are generally dependent on support from external agencies viz. SHPIs, Govt. departments, banks and other stakeholders for their orderly activities i.e. savings, credit linkage, book keeping, income generating ventures, and repayment of loans. In absence of such support the quality of SHGs may have suffered. Further, the SHGs formed earlier under Govt. sponsored programmes did not follow the processes and credit was extended under target approach. This coupled with promises of loan waivers and politicization of the SHG movement in some states is another major reason for the declining repayment ethics amongst the groups. Banks on the other hand do not ensure regular contact and frequent interaction with SHGs leading to week banker client relationship.

5. MFI-Banks Linkage Programme

5.1 Micro Finance Institutions (MFIs) act as an important conduit for extending financial services to the microfinance sector in the country by raising resources from Banks and other institutions and extending loans to individuals or members of JLGs. MFIs could be (1) NGO-MFIs – registered under the Societies Registration Act, 1860 or the Indian Trust Act, 1880; (2) Cooperative MFIs – registered under the State Cooperative Societies Act or Mutually Aided Cooperative Societies Act or Multi State Cooperative Societies Act; (3) MFIs incorporated under Section 25 of Company Act 1956 / Section 8 of Companies Act, 2013; (4) NBFC-MFIs incorporated under the Companies Act, 1956 / 2013 and registered with RBI. In addition to their internal resources, these MFIs have been allowed to seek and obtain bulk loans from Banks/ other Financial Institutions for providing microcredit to individuals or members of JLGs. Though most of these MFIs entered the microfinance sector only after the SHG-Bank linkage programme was well entrenched, the turnover of these institutions grew at a much larger scale than the former. They were more aggressive and innovative in reaching out to the rural poor than the formal banking system. Of late, however, the functioning of these institutions (mostly "for profit" NBFCs) were being subjected to closer public scrutiny on account of alleged unethical business practices and questionable recovery practices. These developments resulted in Andhra Pradesh Government promulgating an ordinance severely restricting their lending operations and recovery mechanism. As a result, the lending operations of these institutions virtually came to a halt not only in Andhra Pradesh where most of their lending operations were concentrated but in other areas as well while the recovery of loans nosedived.

The Reserve Bank of India has since notified guidelines for the lending operations of MFIs based on the Malegam Committee recommendations. A new class of financial organisations named as NBFC – MFIs has been created and subject to certain conditions regarding the capital to be employed, lending to SHG members, cap on interest to be charged and margin to be retained, etc. The loans extended to these NBFC-MFIs by banks now qualifies for priority loan category. RBI's upgraded regulations and guidelines on NBFC MFIs and inclusion of loans to MFIs by banks under priority sector subject to qualifying asset criteria have resulted in phenomenal growth of MFIs during 2013-14 and 2014-15. The creation of MUDRA bank as regulator of all MFI is slated to provide further impetus to MFIs.

5.2 Progress under MFI-Bank Linkage Programme

The Progress under MFI-Bank linkage programme during the last 4 years is shown in Table-5.1.

The MFIs have now left behind the impact of Andhra Pradesh crisis and were able to garner higher confidence of banks and financial institutions. The total loans to MFIs by banks and financial institutions increased by over 32.3% during the current year as against 31.2% during the previous year while the loan outstanding against MFIs also increased by 26.6% as against 14.5% last year. Gross NPA level of bank loan to MFIs has also improved during the year. As on 31 March 2015, the percentage of gross NPA to outstanding was 3.04% as against 4.58% as on 31 March 2014. While the ratio improved sharply in respect of banks from 3.57% a year ago to 2.17%, it remained unchanged in respect of SIDBI at 11.98%. The agency wise details of loans extended to MFIs are shown in Table 5.2.

Table-5.1: Progress under MFI-Bank Linkage Programme

(Amount ₹ crore)

Particulars	2011-12		2012-13		2013-14		2014-15	
	No. of accounts	Amount	No. of accounts	Amount	No. of accounts	Amount	No. of accounts	Amount
Loans disbursed by banks to MFIs	465	5205.29	426	7839.51 (50.6%)	545	10282.49 (31.16%)	589	15190.13 [32.30%]
Loans outstanding against MFIs as on 31 March	1960	11450.35	2042	14425.84 (26%)	2422	16517.43 (14.5%)	4662	22500.46 [26.59%]
Loan Outstanding as % of fresh loans		219.98		184.01		160.64		148.13

(Figures in the parentheses indicates increase / decrease over the previous year)
Note: Actual number of MFIs availing loans from Banks would be less than the figures shown, as most of MFIs avail loans from more than one Bank.

Table-5.2: Loans to MFIs by Banks/Financial Institutions

Financing Agency	Period	Loans disbursed to MFIs during the year		Loan outstanding against MFIs as on 31 March 2015	
		No. of loan accounts	Amount (₹ crore)	No. of loan accounts	Amount (₹ crore)
All Commercial Banks	2010-11	460	7601.02	2153	10646.84
	2011-12	336	4950.98	1684	9810.98

Bank wise details of MFIs financed are given in **Statement VII**. (In case of abridged version, refer to enclosed CD for Statements).

5.3 Revolving Fund Assistance / Capital Support to MFIs by NABARD

NABARD had been providing financial assistance to MFIs by way of capital/equity support to help them to extend their outreach to the poor households and to enable them to leverage commercial borrowings from banks. Similarly, Revolving Fund Assistance (RFA) was provided to MFIs by NABARD, for on-lending to poor. The schemes were in operation since 2007-08. After the announcement of creation of "India Microfinance Equity Fund" with SIDBI for the same purpose by Government of India in its 2011-12 Budget in place of MFDEF maintained by NABARD, these supports were discontinued with effect from 1st April, 2011. The outstanding against capital support provided stood at ₹6.30 crore to 37 entities and the RFA outstanding was ₹13.57 crore against 36 entities. Agency details are given in **Statements XI-A** and **XI-B**. (In case of abridged version, refer to enclosed CD for Statements).

5.4 Refinance Support to NBFC-MFI:

NABARD has started support to NBFC-MFI during the year through provision of refinance against their eligible loan. NBFC-MFIs having credit ratings up to mfR2 by CRISIL or equivalent are eligible for our support subject to fulfilling other conditions. NBFC-MFIs in North Eastern and hilly regions are provided refinance at a relaxed norms and NBFC-MFIs having credit ratings up to mfR3 by CRISIL or equivalent are eligible in these regions. During 2014-15 NABARD has disbursed ₹330 crore of refinance support to NBFC MFIs.

6. NABARD as microfinance facilitator

6.1 NABARD continued with its role as the main facilitator and mentor of microfinance initiatives in the country, particularly the SHG Bank Linkage initiative. It continued to provide support in the form of grant assistance for formation, nurturing and credit linking of SHGs with the banks, capacity building of various stakeholders through training, exposure visits, seminars, workshops, etc. With the SHG programme now more than two decades old, NABARD intensified its efforts to promote sustainable livelihoods among SHG members by commissioning mapping of livelihoods in 5 districts in the country, providing skill development training, facilitating creation of federation of SHGs to provide livelihood services. Emphasis was laid on positioning SHG-BLP as an effective financial inclusion tool by earmarking a portion of the grant assistance provided to SHPIs for facilitating opening of individual bank accounts of the members, pilots on appointing SHG members as BC/BFs, financial literacy training to SHG members, etc. A glimpse of the facilitator role played by NABARD during 2014-15 is given in following paragraphs.

NATIONAL MICROFINANCE CONCLAVE 2014 - TAKE AWAYS

NABARD in collaboration with SIDBI organized National Microfinance Conclave 2014 on 13 November 2014. The conclave which was inaugurated by Governor RBI, Dr. Raghuram Rajan was attended by practitioners, policy makers and academicians in microfinance who shared diverse approaches, perspectives and emerging issues. The conclave covered

(I) Issues and innovations in SHG-BLP and Joint Liability Groups scheme of financing status issues innovations and road map for the future

(ii) Role of microfinance institutions in serving poor, access to funding sources, fair lending practices and need for self-regulation

(iii) Enabling environment, governance, regulation and technology.

Chairman, NABARD in his inaugural address highlighted the existence of vibrant microfinance sector complimented by efforts of both the banks and the MFIs. While the programme had played an important role in social emancipation of poor rural women, financial empowerment and democratic participation of SHG members, he drew the attention towards the creeping imperfections and the need to address them.

Governor, RBI in his keynote address had observed that India was at the cusp of a financial revolution in terms of products, markets and institutions. While emphasizing universal financial access he highlighted the 4As of financial inclusion Account, Aadhar, Access and Activity.

Action Points

The action points that emerged out of the deliberations are as under:

A. SHG Bank Linkage Programme

I) Issues related to multiple lending

To address issues related to multiple lending a reasonably optimum saving-to-debt ratio for microfinance borrowers is desired.

ii) Issues related to Financial Inclusion

Graduation of SHG/JLG to individual bank account holders needs to be facilitated.

iii) Issues related to NABARD

a. NABARD may spearhead next-generation initiatives through a variety of large technological interventions.

b. The five core principles of SHGs (the Pancha Sutras) need to be reaffirmed and reinvigorated as newer branch staff are not familiar with these core principles.

iv) Success stories to be studied and adopted

HDFC Bank's Sustainable Livelihood Initiative (SLI) may be studied for replication / adoption by other banks.

v) Issues related to State Governments/SLBCs/NABARD

Uniformity of stamp duty may be facilitated across states for loan documents executed by SHGs.

vi) Issues related to sustainability of SHGs

Community-based institutions like SHG Federations need to be promoted and strengthened to provide sustainable services to the community.

B. Issues related to MFIs

1. Financial viability of MFIs - success stories to be studied

I. The NABFINS model, which treats Banking Correspondents as business and development correspondents and lends directly to SHGs at affordable cost with fair lending practices, may be attempted for replication by other MFIs.

ii. The SKDRDP experience in Karnataka has revealed that a 5% margin is sufficient for sustainability of MFIs. The experiment can be further studied.

2. Issues related to financial Institutions

Banks lend mostly to larger MFIs. They may also consider lending to smaller MFIs.

3. Issues related to SROs

'Trust deficit' issues in 'SRO's need to be addressed.

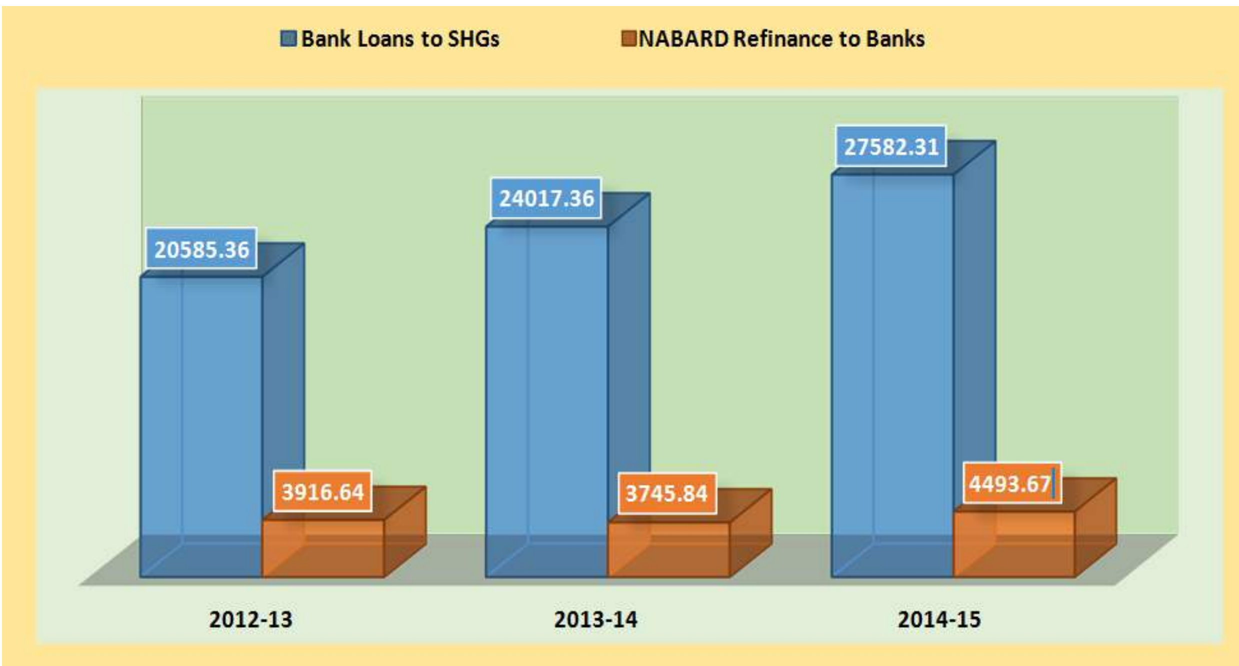
C. Issues related to governance and regulatory framework

1. Institutions having multi-state presence may be covered by one regulation.
2. Single regulator for entire microfinance sector is desirable.
3. Clients may be allowed to choose their preferred model and be reached quickly for removing 'financial untouchability'.
4. MFI sector should move from physical cash to the electronic transfer system for bringing credibility to the system.

6.2 Refinance to Banks

NABARD has been extending 100% refinance to banks towards their lending to SHGs to supplement their resources. Total loans issued by banks to SHGs and the refinance extended by NABARD for such loans is shown in the graph below. During 2014-15, NABARD extended refinance to the extent of ₹4,493.67 crore forming 16.29% of the total refinance provided under investment credit during the year by NABARD as against ₹3,745.93 crore disbursed during the previous year. Cumulative disbursement of refinance by NABARD for SHG lending now stands at ₹30,636 crore.

Figure 6: Refinance to Banks **(Amount ₹ crore)**



6.3 Expenditure on SHGs/JLGs - Funds utilised

'Financial Inclusion Fund' and 'Women Self Help Group Development Fund' were utilised during the year 2014-15 for various microfinance related activities such as formation and linkage of SHGs/JLGs through SHPIs/JLGPIs, training and capacity building of stakeholders, livelihood promotion, documentation, awareness and innovations, etc. NABARD expended a sum of ₹49.41 crore during 2014-15 from these funds.

6.3.2 Support for training and capacity building of microfinance clients

NABARD gave due recognition to training and capacity building of various stakeholders such as bankers, NGOs, Government officials, SHG members and trainers. During 2014-15, 5555 training programmes were conducted and about 1.95 lakh (1.32 lakh under SHG-BLP + 0.30 lakh under JLG + 0.33 lakh under WSHG scheme) participants were trained. Cumulatively, 34.13 lakh (32.81 lakh under SHG-BLP + 0.55

lakh under JLG + 0.77 lakh under WSHG Development Fund) participants have been imparted training as on 31 March 2015 leading to a strong back up team for implementation of the programme. The region-wise number of stakeholders trained by NABARD is given in **Statement – VIII (A)** to **VIII (C)**. (In case of abridged version refer to enclosed CD for Statements).

6.3.3 Grant Support to Partner Agencies for Promotion and Nurturing of SHGs

NABARD extended grant support to NGOs, Federations of SHGs, RRBs, CCBs, PACS, Farmers' Clubs and Individual Rural Volunteers (IRVs) for promotion, nurturing and credit linkage of SHGs with the banks, since the beginning of the movement. Untiring efforts of all these agencies has led to spectacular growth of the movement and concept is known to vast majority throughout the country. The financial support extended by NABARD to various SHPIs till 31st March, 2015 is indicated in the Table 6.

Table-6: Grant Support to Partner Agencies

(Amount ₹ Lakh)

Agency	Cumulative Sanction up to 31.3.2015		Cumulative Achievement (31.3.2015)	
	Amount	SHG Nos.	Amount	SHG Nos.
NGOs	26583.53	598387	9362.86	434884
RRBs	1341.44	56148	261.00	43849

Total	**30128.99**	**769965**	**10219.03**	**551684**
Women SHG Scheme (in LWE affected & backward districts)				
Anchor NGOs	20144.70	201447	4225.82	168707

Agency wise, State wise details of grant assistance extended to partner agencies have been given in **Statements – IX-A (i) - IX-H**. (In case of abridged version, refer to enclosed CD for Statements.)

7. On-going Initiatives

7.1.1 Financing of Joint Liability Groups

Joint Liability Groups are informal groups of 4-10 members who are engaged in similar economic activities like crop production and who are willing to jointly undertake to repay the loans taken by the Groups from the Banks. Unlike in the case of SHGs, JLGs are intended basically as credit groups for tenant farmers and small farmers who do not have proper title of their farm land. Regular savings by the Group is purely voluntary and their credit needs are to be met through loans from financial institutions and such loans could be individual loans or group loans. Financing of JLGs was introduced as a pilot project in 2004-05 by NABARD in 8 States with the support of 13 RRBs. Apart from extending 100% refinance support to Banks, NABARD also extends financial support for awareness creation and capacity building of all stakeholders of this Programme. Besides, NABARD extends grant support to banks and other JLG promoting agencies for formation and nurturing of JLGs. As against 20,7871 JLGs promoted during 2013-14, JLGs promoted during 2014-15 were 4,56,636 making the cumulative number of JLGs promoted by NABARD and financed by banks to 11,28,860 as at the end of March 2015. The growth of JLGs in the country is less skewed than the SHGs. Although the Southern States top the list with over 3.75 lakh JLGs organized so far, Eastern Region closely follows with 3.02 lakh JLGs. In terms of actual loans disbursed, however, Southern States account for nearly 46% of the total loans disbursed.

With a view to sensitize the stakeholders of the JLG programme, NABARD had been arranging training programmes and exposure visits to successful JLGs, to the functionaries of these institutions including financing banks. Nearly 30000 personnel have already been benefitted from these trainings and exposure visits.

Figure 7:
No. of JLG organised

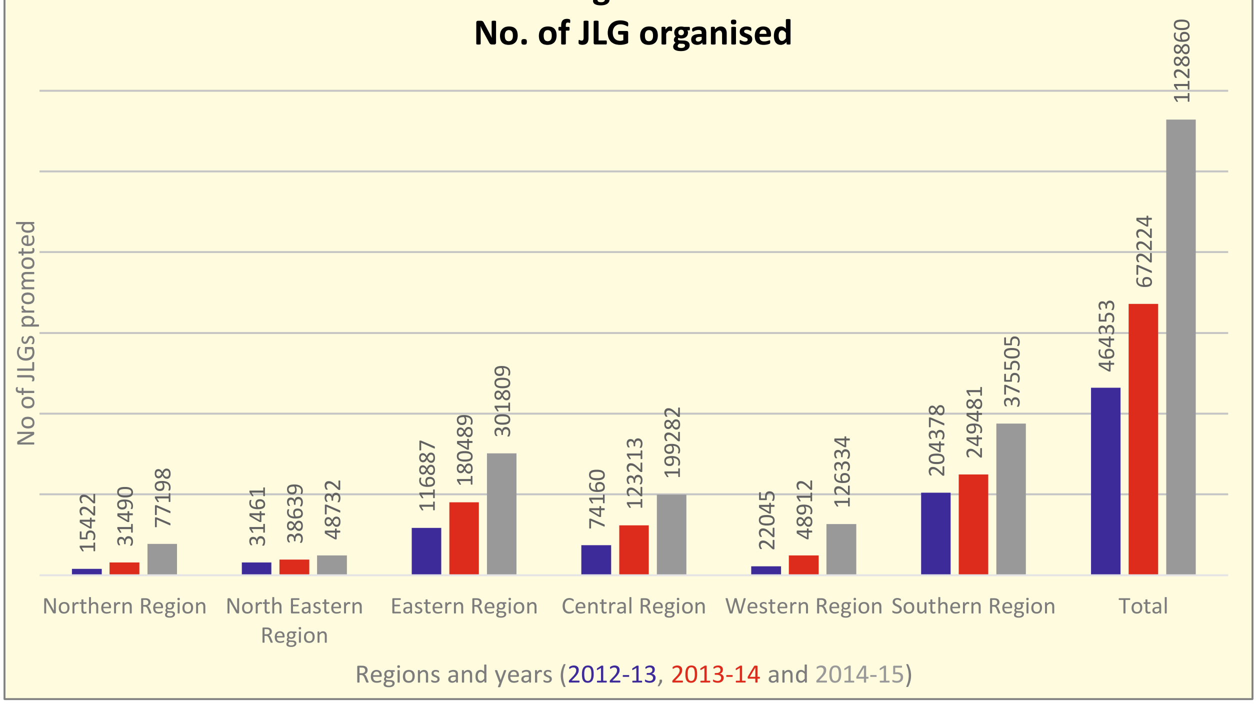

Figure 8: JLG-loan disbursed

	Northern Region	North Eastern Region	Eastern Region	Central Region	Western Region	Southern Region	Total
loan disbursed during 2012-13	186.56	201.05	694.72	394.04	241.65	2837.54	4555.56
loan disbursed during 2013-14	353.62	291.45	1277.93	709.17	426.41	3717.15	6775.73
loan disbursed during 2014-15	436.09	126.03	1104.11	650.12	663.37	1434.69	4414.41

7.1.2 Micro Enterprise Development Programme

Skill development is an important tool for improving the employability and enhancing productivity of the working poor and thereby reducing poverty and exclusion. Rural poor women typically face difficulties or discrimination in accessing good quality training. Keeping the above in view, NABARD continued with Micro Enterprise Development Programme to nurture the entrepreneurial talents of members of mature SHGs to set up and run micro enterprises as a livelihood option in farm or non-farm sector. NABARD has been supporting need based skill development programmes for matured SHGs which have access to finance from banks. To facilitate poor women to undergo said training programme even while attending to their day-to-day chores/family responsibilities, the training is organized locally near to the place of dwelling of the participants. The programme attempts to bridge skill deficits and facilitates optimization of production activities already pursued by the SHG members. Eligible training institutions and SHPIs identify potential economic opportunities, design and deliver the training. Brief inputs on enterprise related soft and hard skills are provided during the training. Grant is provided to eligible training institutions/SHPIs to provide skill development training. About 12,530 skill upgradation training programmes have been conducted under this initiative covering about 3.47 lakh members of matured SHGs up to 31st March, 2015.

7.1.3 NABARD support for SHGs under NULM

The incorporation of data on NULM/ SJSRY is a new feature of this booklet. At the instance of GoI and RBI, the data in respect of SHGs in urban area was compiled separately. Out of 76.97 lakh savings linked SHGs as on 31 March 2015, 4.33 lakh SHGs have been promoted and saving linked with banks under NULM/SJSRY forming 5.62%. During the year 2014-15, 1.05 lakh SHGs were credit linked with ₹1,871.55 crore. The number of SHGs credit linked under NULM constituted 6.45% of the total number of SHGs which received bank loan during 2014-15. The loan outstanding against NULM SHGs as 31 March 2015 was to tune of ₹3,462.62 crore against 3.18 lakh SHGs. NABARD has advised its ROs/DDMs to invite the NULM staff / the Branch Managers working in Urban areas to attend the training programmes, sensitization workshops, etc. on SHG-BLP as and when such programmes are organised / conducted by them so that their capacities are built to take up SHG formation/ linkage. BIRD has been advised to conduct in-campus/on-location training programmes on SHG-BLP, on payment basis, exclusively for the staff of NULM / the Branch Managers working in urban areas or for the participants being sponsored by MoHUPA.

7.1.4 Religare: Microinsurance project for SHGs

Microinsurance is one of the components of Financial Inclusion but also one of the least successful of financial intervention for the poor. One of the reasons for its limited success is not the absence of appropriate and affordable product but adequate mechanism to propagate them.

One of the reasons which prevents the rural poor to come out of poverty is frequency & amount of money spent on health related issues. The major portion of income is spent when there is any medical emergency. Especially the rural poor are hard hit in such a situation. This problem may be addressed by making available health insurance to rural people which is affordable to them and will help in tying up the financial difficulties in the time of hospitalization. With this in view, NABARD has supported a health insurance scheme for SHG members in partnership with Religare Health Insurance Ltd. NABARD is contributing towards part premium payable by SHG member for two years. The pilot is being carried out at Alwar in Rajasthan covering 1000 SHG members. The scheme is customized for SHG members as under:

- The policy is issued in the name of the SHPI. The SHG member and 5 family members will be covered. Entry age is 15-70 years.
- The scheme covers hospitalization treatment to family members on cashless mode. Sum insured is ₹50,000/- for a premium of ₹895/- including taxes. Treatment to be taken in networked hospital. It will also cover pre-existing diseases, in-patient services, accident and emergency services, cost of medicine and day care. It also include treatment arising out of maternity. Further, it will also include one day each of pre and post hospitalization expenses related to the hospitalization.
- Coverage in case of death and permanent disability resulting out of an accident or injury on the family members as defined under family for this policy.
- A premium recharge provision has been introduced. In case a family exhausts its limit of ₹50,000/- during the year there is a provision for premium recharge of the same value as the basic sum insured or on pro-rata basis for the rest of the policy tenure.

- All claims in cashless basis based on IT platform. If the claim is approved, payments will be made directly to the Hospitals.

Under the scheme 1000 SHG members have been enrolled. So far 8 claims have been received and settled by the insurance company.

7.2 Special Initiatives in backward region

7.2.1 Scheme for Promotion of Women SHGs in backward districts of India, NABARD in association with the Department of Financial Services, Ministry of Finance, Govt. of India continued to implement a scheme for promotion and financing of Women Self Help Groups in 150 identified backward districts of the country. The USP of this scheme is that it provides for selection of an anchor NGO in each of the district not only for promoting and enabling credit linkage of these groups with banks (like any other SHPIs under SHG-BLP of NABARD) but also serving as a business facilitator for extending outreach of the banks, regular monitoring of the SHGs promoted and also being responsible for repayment of loans by SHGs to banks. For these services the Anchor NGO is entitled for service charges @5% of the outstanding loan amount. This approach is expected to facilitate sustained financial inclusion by extending banking services to women members of SHGs, promote sustainable livelihood opportunities to the members and facilitate effective implementation of other social development programmes for

women through SHGs. **Statement IX-A(ii)** indicate the progress under the scheme as on 31 March, 2015. (In case of abridged version, refer to enclosed CD for Statements).

Ministry of Rural Development, Government of India have since agreed to bear additional 5% interest on loans extended by banks to SHGs under this programme towards the service charges payable to the anchor NGOs thereby reducing the interest burden of SHGs on their loans. The expenditure involved in this connection would be met by State Rural Livelihood Missions (SRLMs) out of their National Rural Livelihood Mission (NRLM) grants.

7.2.2 Rajiv Gandhi Mahila Vikas Pariyojana

NABARD continued to support Rajiv Gandhi Mahila Vikas Pariyojana (RGMVP), a special initiative of the Rajiv Gandhi Charitable Trust (RGCT) for promotion and credit linkage of SHGs and formation of SHG Federations in select districts of Uttar Pradesh in association with participating banks. There were 79,675 women SHGs promoted under this programme till 31.3.2015, of which, 29,525 were credit linked. Further, 3,263 cluster level organizations and 100 block level organizations were also set up under the programme.

7.2.3 Implementation of National Rural Livelihood Mission (NRLM) and Scheme for Interest Subvention to Women SHGs.

The Ministry of Rural Development (MoRD), Government of India has launched the National Rural Livelihood Mission (NRLM) by restructuring Swarnajayati Gram Swarojgar Yojana (SGSY) with effect from 1 April 2013 (RBI circular no. RBI/2012-13/559 dated June 27, 2013). NABARD forwarded the detailed guidelines on NRLM issued by RBI to RRBs and Cooperative Banks for effective implementation of the programme. NABARD is also implementing the Interest Subvention Scheme for Women SHGs under the National Rural Livelihood Mission (NRLM) for Regional Rural Banks (RRBs) and Cooperative Banks in category I districts.

7.3 Rural Financial Institutions Programme (RFIP)

7.3.1 To facilitate effective financial inclusion of low-income households, a bi-lateral cooperation programme viz. 'Rural Financial Institutions Programme' (RFIP) is under implementation since 2008-09 between NABARD (representing GoI) and GIZ (representing Government of Federal Republic of Germany). Under the collaboration, a pilot project on "SHG members as BC/BF" was launched with the twin objectives of (i) improving the BC model and (ii) bringing about convergence between SHGs and financial inclusion. Nowadays, the Business Correspondent (BC) model forms the corner stone of India's financial inclusion strategy. Although, a remarkable progress is made by Banks in engaging a large number of BCs, significant challenges like attrition, dormancy of BC (especially in the rural areas) due to non-viability are high. The pilot is successfully addressing the above-indicated issues.

Taking the advantage of good SHG network developed by 'Rajiv Gandhi Mahila Vikas Pariyojana' (RGMVP) and 'Gramin Bank of Aryavart', the pilot was started in Unnao district of Uttar Pradesh (UP) in May 2013. To further replicate the success, the pilot was extended in collaboration with 'Narmada Jhabua Gramin Bank' to Indore and Dewas districts of Madhya Pradesh during 2014. The Women SHG Members of two SHG Federations viz. Priyasakhi Mahila Sangh (Indore) and Aparajitha Mahila Sangh (Dewas) were trained and capacitated to act as Bank agents (Bank Sakhis). The Technology Service Provider (TSP) works as Corporate BC of the Bank and imparts necessary technical training to work as Customer Service Providers (CSPs) to the identified SHG members. These CSPs being SHG members have the support of entire community leading to building of trust and high reliability essential for sustainability of the model. Local women feel confident to approach their own community / village member for doing various banking transactions. Already more than 33,600 clients spread over 344 villages have been enrolled by around 79 Bank Sakhis.

7.3.2 Financial Awareness and Educational Toolkit for SHGs

Under the RFIP programme a Toolkit for Financial Awareness and Education of members of Self Help Groups was prepared and launched during the year. The kit includes games, posters, charts and brochures containing Financial Literacy topics and also topics like domestic violence and importance of girl child education. It is intended to assist community resource persons in forming and nurturing SHGs with financial literacy, in making the members understand concepts, processes and procedures of Self Help Groups. The kit could be used by all stakeholders of SHG-Bank Linkage programme according to their needs.

SHGs as Agents of Social Change

NABARD conducted a pragmatic study through the Institute for Financial Management & Research (IFMR) to examine the question whether SHGs have acted as agents of change. Specifically, the study investigated whether the SHG movement has created social capital and networks; increased the awareness of SHG members on rights related to issues like inheritance and education; increased the bargaining power of SHG members; helped changing outlook towards social evils; encouraged members to participate and lead social programs; increased political awareness and participation in the political process. The study is based on primary data collected from 600 SHG members from Kanchipuram, Tiruvallur, Krishnagiri and Dharmapuri districts of Tamil Nadu. The study observed that SHG movement in Tamil Nadu has resulted in enhancement of social capital. More than 96% of SHG members indicated that the joint savings and on-lending mechanism not only increased trust but also occasioned a sense of strong ownership of group activities. However, in a majority case this social capital could not be translated into economic activity because of inadequate knowledge on markets, distribution channels, price factors, and other forward and backward linkages. Awareness of rights related to inheritance and property has gone up. In general SHG members also showed high awareness about key government schemes insurance & pension schemes, skill for interaction with Government officials and other stakeholders, etc. The women members of SHGs got an enriched bargaining power and better regarded at household as well as community fronts. All decisions related to households were taken in joint consultation with women members in family. Most SHG members understood the negative side, social evils and voiced their opinion against it. More than 80% of women enunciated their views against alcoholism, domestic violence and child marriage within their households as well as in the vicinity in spite of it was perceived inappropriateness of interfering in personal lives of others. Most (more than 94%) SHG members exercised their democratic rights though very few SHG members showed an inclination or have contested in elections held for electing people's representatives at various levels. The study recommended for special loan products for venture in joint or group enterprises, organize training programmes related to social empowerment and awareness building on backward forward linkages for economic ventures. To mitigate risks, SHGs could be encouraged to adopt a cluster-based approach. Collaborative procurement of raw materials and collective marketing efforts could also mitigate risks. Discussions and meetings today are restricted to individual groups and as a result ideas related to businesses or resolving social issues get locked up within groups. Frequent and structured multi -group meetings around select themes (for example, alcoholism or female infanticide or successful group businesses) could facilitate transfer of ideas and also strengthened the bargaining strength of SHG members on collective and community affairs.

Role of Voluntary Savings in SHG/ SHG members

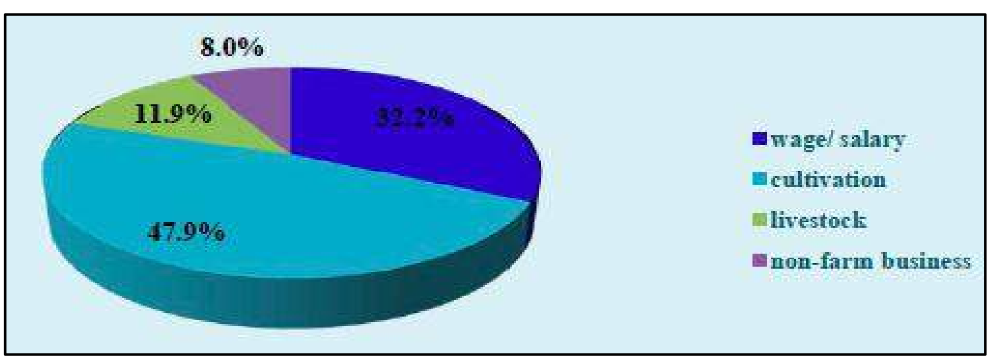
NABARD assigned a study to IFMR with the broad objective to understand the driving force for SHG members for voluntary savings and its impact on the socio-economic life of SHG members. The study conducted in six districts of Tamil Nadu and Karnataka. A total of 900 SHG members were surveyed to address aspects like whether voluntary savings strengthened the sustainability of groups and helped in building scale of operation in their business. The study observed that the average monthly household income of SHG members was almost same in both states at around ₹18,000. However there was a significant difference in expenditure among SHG households; in Tamil Nadu spending was more than their counterparts in Karnataka. More than 70% SHG members opined that pooled savings in SHGs increased the trust among members. The savings were primarily utilized for internal lending or group ventures. In both the states, SHG members utilized the borrowings from groups for children's education, marriage and household expenditure. In Tamil Nadu, voluntary savings in SHGs is purpose driven which led the average monthly savings increased from ₹125 to ₹293. In contrast, Karnataka has not shown any significant increase in the mandated savings amount. Beyond SHGs, insurance policies and bank fixed deposits appear to be the most popular vehicles for savings. More than 50% of the SHG members had life insurance policies and more than 30% had individual bank accounts. Constraints that acted as barriers for saving in other products are distance to bank, paucity of time, inflexible products and lack of awareness about savings products. Low frequency of savings in the form of voluntary savings, LIC policies and bank savings account were more predominant as compared to high frequency of savings. The study recommended that the financial product with limited risk might be introduced so that the SHG members would initiate joint business ventures. Economic hubs might be created by bringing together SHG members with similar activities to leverage the core competencies of the community. SHG members need to be encouraged to save with a specific task or dream goal in mind. To facilitate this orientation financial institutions, like banks, need to create flexible and liquid savings instruments (e.g. flexible recurring deposit). Given the propensity of the participants to buy insurance products more variety (for example, health insurance) can also be launched. There is a need for customized financial products by understanding lifestyle of the members. Products need to be flexible as most of these members have no idea when a crisis would befall and the basis of microfinance is trust not collateral.

8. Livelihood development[1]

The concept of livelihood development as it prevails today is typically a supply oriented, fragmented view of what people need to do in order to improve their means of existence and wellbeing. Depending on who wants to take up livelihood development, the design asks questions such as 'With the resources we bring in, what is the best we can do that will make the vulnerable livelihoods better'. Such questions result in a narrow view of livelihoods at the ground level. The questions are limited to what the supply-side can bring in to local area and what the local populace requires to do to improve its livelihood matching the inputs. The interventions remain limited in scope – such as introducing a new crop, new activity, a new process or a new institution. A dairy project for example will bring interventions that improve animal breeds, milk production, animal health care, marketing arrangement and a cooperative society for milk producers. But this solution will engage with those in dairying and leave out others. A dairy based livelihood might interfere with wage labour opportunities available to the household. Dairy, when considered in the light of other demand-based requirements in the area may not necessarily offer the best results. The issue is whether an integrated view of livelihoods is possible when we take up livelihood development.

In a general sense, except for those in full-time wage employment, there is no livelihood solution that comprises a single economic activity. Each person, and certainly household have multiple activities, either being carried out at the same time or seasonally at different periods of time (Figure 8.1) which integrate as the livelihood at the household level. Usually projects and programmes deal with one or two of the activities of the household, without considering the effect of these on other activities being carried out by the household. At times the project beneficiaries are required to stop doing other activities and focus exclusively on what the project has prioritised. This distorts the focus of beneficiaries, reduces their risk management capabilities and might lead to loss of sustainability as projects come to an end at some point of time.

Figure 8.1 Distribution of average monthly income per farm household by sources



1 Contributed by Shri N Srinivasan, Microfinance Consultant

The traditional classification of livelihoods is in to farm and non-farm livelihoods. Rural India had depended on farm sector for livelihoods for a long time. The last ten-year trends, however, show a rapid shift both in terms of sector and contribution of sector to GDP. The shift away from agriculture to other sectors is clearly visible. The contribution of agriculture to GDP has been declining continuously. Hence it becomes difficult if not impossible for a large number of people to live off agriculture or allied activities. The other sectors have been growing, with services showing rapid growth and having the highest share of GDP. This reduced share of contribution of farm sector to GDP was despite improving terms of trade in agriculture (the ratio of prices farmers receive for their produce to what they pay for goods and services purchased) during the period 2004 to 2010. The term of trade has started turning unfavourable for farmers in the last three years, which imply that farmers pay more and more for what they buy and receive less and less for what they sell. In such a scenario it is natural to search for other livelihoods where the incomes are much better and stay ahead of costs. This explains the shift to non-farm sector from the farm sector.

However, a key factor to note is that the rate of change in employment across sectors is not as pronounced as the rate of change in GDP contributions from the different sectors. The trends in employment and contribution to GDP of the three major economic sectors shows that the shift from agriculture to other sectors is not in keeping with the economic performance of the sectors. Services despite contributing 67% share of GDP in 2014 provides 30.9 % of livelihoods. Agriculture despite a share of only 13.9 % of GDP in 2014 has 46.9% of labour force dependent on it. A smaller share of income at the country level is shared by a large number of people engaged in it for livelihoods. What this means is that the primary sector is likely to remain vulnerable with lower per capita incomes compared to other sectors.

8.1 Agricultural livelihoods

Farm related livelihoods remain vulnerable on account of low productivity, difficulties in market access for outputs, inadequate funding and unpredictable monsoon and markets. In unirrigated agriculture the prime need of farmers is that of risk management. The Commission on Agricultural Costs and Prices in its Kharif policy indicates that in four crops (jowar, bajra, ragi and nigerseed) the net returns are negative. In Paddy, Moong and Sunflower the net returns are 10% or less. Only Soya and Sesamum gave returns of more than 20%.

While a number of crops show positive returns, these are at normal yields. In case of crops where the returns are low, the potential for losses are high in case of seasonal factors such as rain deficit, plant diseases, etc. reducing the productivity. If the returns are tested for a fall in yield by 20% the returns turn negative for all crops except Soya. Another risk factor is the market price, which varies sharply due to local and global factors.

Even if the production were to be normal, the annual income of the farmer will not be very high, given that 67% of farm holdings are less than 1 ha. Marginal farmers even if they grow two crops in a year, will still make an income that will be below the poverty line.

How are the problems of agricultural livelihoods tackled? It is clear that farm profitability should be increased. A number of productivity improvement programmes at centre and state levels are under implementation which put thrust on input supply. However the crop advisory and extension services are not efficiently delivered. Only 40% farmers reported being able to access technical advice from different sources; of this 6% directly from government service agents!

Access to markets and securing remunerative prices are the key aspects in realizing reasonable farm incomes. Despite the agricultural produce market regulation, farmers do not have easy access to markets.

The lack of liquidity erodes their holding power at harvest time. The minimum Support Prices for long have been held out as a solution to improve market access for farmers and also remunerative prices. However, according to the NSSO survey, The MSP based solutions are useful to only 8.4% of farmers. Others are unable to benefit because of lack of awareness, lack of procurement center in vicinity or because of bureaucratic hassles.

With small volumes of produce in hands of individual farmers they do not also have negotiating power. Aggregation was thought of a means of securing better terms for produce. While the cooperative marketing institutions set in 70s and 80s failed to make a significant mark, the new generation Farmer Producer Companies (FPC) have been designed to address the issue. With about 600 FPCs registered, farmers are hoping that their problems in access to markets will be solved soon. The recent thinking on creating a national agricultural market as a potential solution is a step in the right direction and can tilt the balance in favour of farmers. The other initiatives on providing access to markets such as commodity exchanges have not been able to reach a large number of small farmers despite attempts. The volumes and expertise required to access commodity exchanges are difficult to come by among small farmers. Produce aggregation points such as FPCs will be able to trade in the exchanges, for which their capacities – financial and professional- should be built up.

Access to finance has been continuing a problem. One of the assumptions made at policy level is that if access to finance for inputs is ensured all problems of farmers will stand solved. Cost and quantum of credit are thought of as critical issues and over the last several years, governments have subsidized crop loans and pushed for higher farm credit disbursements. Banks have been meeting higher targets for farm credit each year, but still many farm households report they do not access bank credit.

The destination of low-cost credit is not fully known. The low rate of interest provides a window of opportunity to those with access to banks. The crop loans are in demand, and the loans are used for a variety of purposes other than farming. Instead of subsidizing the interest on loans and waiving loans once in a few years, can the resources be applied to build a sound safety net, by restructuring the crop insurance scheme?

Budget allocation by the government for agriculture and allied activities has stagnated or declined during the years. After higher share of taxes being passed to States as per the finance commission award, the revenue expenditure on the National Agricultural Development Project (RKVY) has now to be funded by states. Accordingly, budgeted Expenditure on Agriculture in the Union Budget has seen a decline in the current year. The Budget spend on agriculture and Rural Development by the Centre and States put together – bulk of which supports rural livelihoods – have been a small proportion of the GDP from agriculture. The proportion of budgeted expenditure had been declining from 2008-09 to 2011-12. Over the last two years there has been a marginal increase in the budget as proportion of agriculture GDP but it is still lower than the levels reached in 1990-91.

8.2 Non-farm livelihoods

Non-farm livelihoods fall into two broad categories of wage employment and enterprises. In enterprises the range is from Medium sized enterprise to own account self-employment activities. In rural areas mostly self-employment is in handloom, handicrafts, tiny units in village industries sector and service activity by tradesmen and others. Wage employment is in a range of service sector activities with construction offering the largest employment. The support in the non-farm sector is required in enterprise creation and nurturance and skill building for employment. Enterprise promotion schemes have been ongoing for several years with mixed results. Enterprise skills, technology, market for the products and finance are all in short supply. The assumption that anyone can be an entrepreneur is also an impediment in appropriate use of resources. In finance risk capital is hard to get. Banks are traditionally wary of financing small units on account of a legacy of bad debts.

The Government has finalized a policy on skill development and entrepreneurship, in a welcome initiative. An ambitious skill building campaign has been designed. Skill India seeks to train 500 million youth over the next seven years in several trades, crafts and employment skills that will provide the trainees with viable livelihoods. The skills identified are a mix of traditional skills, old economy job skills and new economy job skills. Arts, crafts, electricity, plumbing, masonry, carpentry, black smithy, mobile repairing, computer skills, infrastructure for ICT, retailing, e-commerce logistics, etc. are all part of proposed skill training packages. Private and voluntary sector is involved to a significant extent in putting up infrastructure, design modules, trainer training, actual conduct of training and

placement. There is emphasis on placement of trainees post-training and the remuneration for the training institutions is designed to reward placements and is back-ended.

There are two significant challenges. Institutional capacity for a massive rollout seems limited. In 2014-15 all the ministries and agencies could train less than 8 million trainees. It is difficult to envisage that capacity can be ramped up 10 times, which is necessary to train the projected 500 million youth. The second challenge is the resources required.

GOI runs two major livelihoods programmes in the rural areas. The MGNREGS is the largest wage employment programme that guarantees 100 day of employment for each rural household that demands jobs. The programme has proved to be a popular one in rural areas, especially in the northeast. The Centre took up a review of the programme and has now prioritized creation of long-term assets that will improve productivity. It also plans to make the Gram Panchayats take more responsibility for executing works with technical support that has been provided for in the budget. The overall budget itself has been stagnant though more districts have been added over the years. The promised 100 days of work per household every year has not been possible, and in fact the workdays have been declining over the years. The proportion of rural households demanding work, but not getting employment under NREGS was about 19% as estimated in the NSS 68th round by NSSO. NRLM, the other major programme that has livelihoods as a clear mandate, is yet to make large scale impact. In actual implementation 21.7 lakh SHGs and 1.3 lakh village organizations have been formed covering about 250 lakh households. Revolving fund and Community investment fund amounting to ₹643 crore have been disbursed. There is not much information about the number, nature and significance of livelihoods that have been facilitated. NRLM seems to have concentrated on making the administrative arrangement and mobilization of people's organizations for channelling financial resources and not so much on its original mandate of livelihoods. One out of every three loans outstanding under NRLM is overdue. Of the loan amounts outstanding about 14% is in default. Basic issues of utilization of loans for viable livelihood activities and inculcation of credit discipline are to be dealt with as part of the group handholding. Capacity building of women farmers is one of the livelihood initiatives of NRLM. Of the 3.2 million women trained, more than 2.6 million were from erstwhile Andhra Pradesh. With the responsibility being thrust on States, it is hoped that NRLM will be fully leveraged for expanding livelihood coverage.

8.3 Financing Livelihoods

Sheer numbers show that more than 135 million livelihood loans have been extended of varying sizes. A large proportion of these loans (89 million) are very small given by SHGs to their members and MFIs to their customers. These loans at best support individual livelihood activities and at worst supplementary livelihood activities of the household. The loans given by banks, cooperative societies for agriculture and MSMEs are more likely to be for full-fledged livelihoods. The criticism against the microfinance by SHGs and MFIs is that they give very small loans for short duration that might not help livelihoods in any significant manner. Where the loans are available over a long time, the borrowers are able to utilize the same effectively in accordance with their priorities. Continuity of the credit access with normal growth year after year for a number of years is what builds livelihoods rather than one large loan. Data gathered on SHG members that were part of their groups for a long time clearly shows that a) members are responsible and do not borrow excessive amounts, b) they have clear priorities on why and how much they want to borrow and c) they do not need large loans every year and they have the patience to grow their livelihoods over time.

Table 8.1 : Loans for livelihood from formal institutions

Type of institution/purpose	No of accounts Million	Amount of loans O/s ₹ billion
Commercial Banks (including RRBs)		
Agriculture (March 2014)	32.4	4700.74
Small Enterprises (March 2015)	13.8	9664.80
Coop and Societies March 2013) - mostly agriculture	49.5	1393.98
SHGs (Mar 2015) - different activities	Groups 4.5 members 58.5	515.45
MFIs (March 2015) – different activities	30.5	401.38

An analysis of loans availed by SHG members showed that though the loans started small, they could access very large loans. Some members could avail loans that were 200 times of the first loan. The purposes were varied – agriculture, dairy, goatery, Poultry, small business, petty shops, house construction, health and education. The sizeable loans taken in the last four years of the membership is a telling comment on building credit capacity first and providing credit according to absorption capacity. The loan size grows along with their expanding livelihood and there is increasing confidence from both the lender and borrower side as to appropriate use of credit.

Financing livelihoods is beset with many problems from demand and supply sides. Formal financial institutions have preset schemes full of what banks feel their customer should do. Where customer has new ideas for a livelihood, banks may not fund the same for want of a matching scheme in their hands. The multiple activities in different seasons of the year pursued by households do not fit in to schemes for financing by banks. Banks may consider financing the households, providing them autonomy of action for utilizing the loan for a package of activities. This will result in household using the money wisely in accordance with the income potential at any point of time in the year. A further problem is that banks are not very keen on small uncollateralized loans. The added factor of guarantee facility for these loans is expected to improve availability of loans from banks.

RBI has on its part issued letters of intent to 10 small finance banks. These banks are expected to focus on small loans, especially in the so-called 'missing middle' space in small micro enterprises. The progress of these banks will certainly be watched with great interest, especially because of the fact 8 of these licensees are MFIs.

In conclusion, rural livelihoods based on agriculture seem to have several issues. It has become necessary to shift to other sectors. While skill development can prepare the youth to become employable in other sectors, the availability of a large number of jobs to absorb those released from agriculture and those who are new additions to the labour force is a challenge. The jobless growth where the employment elasticity of growth is low is a development that needs attention in this context.

Farm based livelihoods will have three major challenges to deal with in future. The first is the water security. GoI has announced the crop per drop as its motto. The solutions are not just in creating more irrigation projects, but investing in sensible water management at farm and community levels. The second challenge is that of climate change. There is initial evidence in the hilly states that there are changes in productivity and quality of produce. With water being scarce and temperatures rising in the unirrigated areas, agriculture can become even more of a gamble than in the past. Adaptation measures are already being examined and one hopes that suitable solutions for different agro-climatic zones will emerge soon. The third challenge is a continuing one- that of risk management. Monsoon and markets impact agriculture in productivity and price fronts. The existing arrangements for mitigating these risks are unsatisfactory. The need is to introduce social safety nets that safeguard farmer households when crops or markets fail. Schemes such as food security Act and NREGS should be beefed up and used to support farmers facing risks from monsoon and markets. Institutional options such as producer companies should be continued, with farm more long-term focus. For those moving away from agriculture, skills and enterprises are the best means. A comprehensive enterprise incubation and nurturance programme is required.

"Plethora of banks and multitude of schemes does not offer deliverance, unless the poor and underprivileged have unhindered access to credit @ affordable rates. Ensuring cent per cent credit linkage to extend need based credit quantum is the only solution for mainstreaming the Bottom of the pyramid. Let's collectively work towards that goal."

G R CHINTALA, CGM
